Fitch: AA+

(See "RATINGS" herein)

In the separate opinions of Kutak Rock LLP and Curls Bartling P.C., Co-Bond Counsel, under existing laws, regulations, rulings and judicial decisions and assuming the accuracy of certain representations and continuing compliance with certain covenants, interest on the Tax-Exempt Bonds (including any original issue discount properly allocable to the owner of a Tax-Exempt Bond) is excludable from gross income for federal income tax purposes and is not a specific preference item for purposes of the federal alternative minimum tax. Interest on the Taxable Bonds is included in gross income for federal income tax purposes. Co-Bond Counsel are also of the opinion that interest on the Bonds is exempt from State of California personal income taxes. For a more complete description of such opinions of Co-Bond Counsel, see "TAX MATTERS" herein.

\$189,735,000 CITY AND COUNTY OF SAN FRANCISCO TAX-EXEMPT GENERAL OBLIGATION BONDS (EARTHQUAKE SAFETY AND **EMERGENCY RESPONSE BONDS, 2014), SERIES 2018C**

\$142,145,000 CITY AND COUNTY OF SAN FRANCISCO TAXABLE **GENERAL OBLIGATION BONDS** (AFFORDABLE HOUSING, 2015), **SERIES 2018D**

\$49,955,000 CITY AND COUNTY OF SAN FRANCISCO TAX-EXEMPT GENERAL OBLIGATION BONDS (PUBLIC HEALTH AND SAFETY, 2016), **SERIES 2018E**

Dated: Date of Delivery Due: June 15, as shown in the inside cover

The City and County of San Francisco Tax-Exempt General Obligation Bonds (Earthquake Safety and Emergency Response Bonds, 2014), Series 2018C (the "2018C Bonds"), the City and County of San Francisco Taxable General Obligation Bonds (Affordable Housing, 2015), Series 2018D (the "2018D Bonds" or the "Taxable Bonds"), and the City and County of San Francisco Tax-Exempt General Obligation Bonds (Public Health and Safety, 2016), Series 2018E (the "2018E Bonds," and together with the 2018C Bonds and the 2018D Bonds, the "Bonds") are being issued under the Government Code of the State of California and the Charter of the City and County of San Francisco (the "City"). The 2018C Bonds and the 2018E Bonds are collectively referred to herein as the "Tax-Exempt Bonds." The issuance of the Bonds has been authorized by certain resolutions adopted by the Board of Supervisors of the City and duly approved by the Mayor of the City, as described under "THE BONDS - Authority for Issuance; Purposes." The proceeds of the Bonds will be used to finance certain public improvements as described herein, and to pay certain costs related to the issuance of the Bonds. See "PLAN OF FINANCE" and "SOURCES AND USES OF FUNDS."

The Bonds will be dated and bear interest from their date of delivery until paid in full at the rates shown in the maturity schedule on the inside cover hereof. Interest on the Bonds will be payable on June 15 and December 15 of each year, commencing December 15, 2018. Principal will be paid at maturity as shown on the inside cover. See "THE BONDS - Payment of Interest and Principal." The Bonds will be issued only in fully registered form without coupons, and when issued will be registered in the name of Cede & Co., as nominee of The Depository Trust Company ("DTC"). Individual purchases of the Bonds will be made in book-entry form only, in denominations of \$5,000 or any integral multiple thereof. Payments of principal of and interest on the Bonds will be made by the City Treasurer, as paying agent, to DTC, which in turn is required to remit such principal and interest to the DTC Participants for subsequent disbursement to the beneficial owners of the Bonds. See "THE BONDS - Form and Registration."

The Bonds will be subject to redemption prior to maturity, as described herein. See "THE BONDS - Redemption."

The Board of Supervisors has the power and is obligated to levy ad valorem taxes without limitation as to rate or amount upon all property subject to taxation by the City (except certain property which is taxable at limited rates) for the payment of the Bonds and the interest thereon when due. See "SECURITY FOR THE BONDS."

This cover page contains certain information for general reference only. It is not intended to be a summary of the security for or the terms of the Bonds. Investors are advised to read the entire Official Statement to obtain information essential to the making of an informed investment decision.

MATURITY SCHEDULE

(See Inside Cover)

The Bonds were sold by competitive sale on May 8, 2018, pursuant to the terms of an Official Notice of Sale, dated April 30, 2018. See "SALE OF THE BONDS" herein.

The Bonds are offered when, as and if issued by the City and accepted by the initial purchaser, subject to the approval of legality by Kutak Rock LLP and Curls Bartling P.C., Co-Bond Counsel, and certain other conditions. Certain legal matters will be passed upon for the City by its City Attorney and by Hawkins Delafield & Wood LLP, Disclosure Counsel. It is expected that the Bonds in book-entry form will be available for delivery through the facilities of DTC on or about May 23, 2018.

Dated: May 8, 2018.

INTRODUCTION

This Official Statement, including the cover page and the appendices hereto, is provided to furnish information in connection with the public offering by the City and County of San Francisco Tax-Exempt General Obligation Bonds (Earthquake Safety and Emergency Response Bonds, 2014), Series 2018C (the "2018C Bonds"), the City and County of San Francisco Taxable General Obligation Bonds (Affordable Housing, 2015), Series 2018D (the "2018D Bonds" or the "Taxable Bonds"), and the City and County of San Francisco Tax-Exempt General Obligation Bonds (Public Health and Safety, 2016), Series 2018E (the "2018E Bonds," and together with the 2018C Bonds and the 2018D Bonds, the "Bonds"). The 2018C Bonds and the 2018E Bonds are collectively referred to herein as the "Tax-Exempt Bonds." The Board of Supervisors of the City has the power and is obligated to levy ad valorem taxes without limitation as to rate or amount upon all property subject to taxation by the City (except certain property which is taxable at limited rates) for the payment of the principal of and interest on the Bonds when due. See "SECURITY FOR THE BONDS" herein.

This Official Statement speaks only as of its date, and the information contained herein is subject to change. Except as required by the Continuing Disclosure Certificate to be executed by the City with respect to the Bonds, the City has no obligation to update the information in this Official Statement. See "CONTINUING DISCLOSURE" and APPENDIX D – "FORM OF CONTINUING DISCLOSURE CERTIFICATE" herein.

Quotations from and summaries and explanations of the Bonds, the resolutions providing for the issuance and payment of the Bonds, and provisions of the constitution and statutes of the State of California (the "State"), the charter of the City (the "Charter") and City ordinances, and other documents described herein, do not purport to be complete, and reference is made to said laws and documents for the complete provisions thereof. Copies of those documents and information concerning the Bonds are available from the City through the Office of Public Finance, 1 Dr. Carlton B. Goodlett Place, Room 336, San Francisco, California 94102-4682. Reference is made herein to various other documents, reports, websites, etc., which were either prepared by parties other than the City, or were not prepared, reviewed and approved by the City with a view towards making an offering of public securities, and such materials are therefore not incorporated herein by such references nor deemed a part of this Official Statement.

THE CITY AND COUNTY OF SAN FRANCISCO

The City is the economic and cultural center of the San Francisco Bay Area and northern California. The limits of the City encompass over 93 square miles, of which 49 square miles are land, with the balance consisting of tidelands and a portion of the San Francisco Bay (the "Bay"). The City is located at the northern tip of the San Francisco Peninsula, bounded by the Pacific Ocean to the west, the Bay and the San Francisco-Oakland Bay Bridge to the east, the entrance to the Bay and the Golden Gate Bridge to the north, and San Mateo County to the south. Silicon Valley is about a 40-minute drive to the south, and the wine country is about an hour's drive to the north. The City's population in 2017 was approximately 884,000.

The San Francisco Bay Area consists of the nine counties contiguous to the Bay: Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano and Sonoma Counties (collectively, the "Bay Area"). The economy of the Bay Area includes a wide range of industries, supplying local needs as well as the needs of national and international markets. Major business sectors in the Bay Area include retail, entertainment and the arts, conventions and tourism, service businesses, banking, professional and financial services, corporate headquarters, international and wholesale trade, multimedia and advertising, biotechnology and higher education. The California State Supreme Court is also based in San Francisco.

The City is a major convention and tourist destination. According to the San Francisco Travel Association, a nonprofit membership organization, during the calendar year 2016, approximately 25.2 million people visited the City and spent an estimated \$9.0 billion during their visit, generating approximately \$750 million in direct spending to the City from convention visitors.

The City benefits from a highly skilled, educated and professional labor force. The per-capita personal income of the City for fiscal year 2016-17 was \$109,048, and the average unemployment rate was 3.1%. The San Francisco Unified School District operates 16 transitional kindergarten schools, 64 elementary schools serving grades K-5, 8 schools serving grades K-8, 13 middle schools serving grades 6-8, 19 high schools serving grades 9-12, 5 continuation/alternative schools, and 9 County and Court schools. Higher education institutions located in the City include the University of San Francisco, California State University – San Francisco, University of California – San Francisco (a medical school and health science campus), the University of California Hastings College of the Law, the University of the Pacific's School of Dentistry, Golden Gate University, City College of San Francisco (a public community college), the Art Institute of California – San Francisco, the San Francisco Conservatory of Music, the California Culinary Academy, and the Academy of Art University.

San Francisco International Airport ("SFO"), located 14 miles south of downtown San Francisco in an unincorporated area of San Mateo County and owned and operated by the City, is the principal commercial service airport for the Bay Area and one of the nation's principal gateways for Pacific traffic. In fiscal year 2016-17, SFO serviced approximately 54 million passengers and handled 535,581 metric tons of cargo. The City is also served by the Bay Area Rapid Transit District (electric rail commuter service linking the City with the East Bay and the San Francisco Peninsula, including SFO), Caltrain (a conventional commuter rail line linking the City with the San Francisco Peninsula), and bus and ferry services between the City and residential areas to the north, east and south of the City. San Francisco Municipal Railway, operated by the City, provides bus and streetcar service within the City. The Port of San Francisco (the "Port"), which administers 7.5 miles of Bay waterfront held in "public trust" by the Port on behalf of the people of the State, promotes a balance of maritime-related commerce, fishing, recreational, industrial and commercial activities, and natural resource protection.

The City is governed by a Board of Supervisors elected from 11 districts to serve 4-year terms, and a Mayor who serves as chief executive officer, elected citywide to a 4-year term. The City's original budget for fiscal years 2017-18 and 2018-19 totals \$10.12 billion and \$10.00 billion, respectively. The General Fund portion of each year's original budget is \$5.15 billion in fiscal year 2017-18 and \$5.31 billion in fiscal year 2018-19, with the balance being allocated to all other funds, including enterprise fund departments, such as

SFO, the San Francisco Municipal Transportation Agency, the Port Commission and the San Francisco Public Utilities Commission. The City employed 32,749 full-time-equivalent employees at the end of fiscal year 2016-17, of which 2,124 positions were funded from sources other than the City's General Fund. According to the Controller of the City (the "Controller"), the fiscal year 2017-18 total net assessed valuation of taxable property in the City is approximately \$234.1 billion.

More detailed information about the City's governance, organization and finances may be found in APPENDIX A: "CITY AND COUNTY OF SAN FRANCISCO ORGANIZATION AND FINANCES" and in APPENDIX B: "COMPREHENSIVE ANNUAL FINANCIAL REPORT OF THE CITY AND COUNTY OF SAN FRANCISCO FOR THE FISCAL YEAR ENDED JUNE 30, 2017."

THE BONDS

Authority for Issuance; Purposes

The Bonds will be issued under the Government Code of the State and the Charter. The City authorized the issuance of the 2018C Bonds by Resolution No. 313-14 and Resolution No. 111-18, adopted by the Board of Supervisors of the City on July 29, 2014 and April 24, 2018, respectively, and duly approved by the Mayor of the City August 7, 2014 and April 27, 2018, respectively (together, the "2018C Resolution"). The City authorized the issuance of the 2018D Bonds by Resolution No. 407-16 and Resolution No. 112-18, adopted by the Board of Supervisors of the City on September 20, 2016 and April 24, 2018, respectively, and duly approved by the Mayor of the City on September 29, 2016 and April 27, 2018, respectively (together, the "2018D Resolution"). The City authorized the issuance of the 2018E Bonds by Resolution No. 514-16 and Resolution No. 113-18, adopted by the Board of Supervisors of the City on December 6, 2016 and April 24, 2018, respectively, and duly approved by the Mayor of the City on December 16, 2016 and April 27, 2018, respectively (together, the "2018E Resolution," and with the 2018C Resolution and the 2018D Resolution, the "Resolutions").

The 2018C Bonds will constitute the third and final series of bonds to be issued from an aggregate authorized amount of \$400,000,000 of City and County of San Francisco General Obligation Bonds (Earthquake Safety and Emergency Response Bonds, 2014), duly approved by more than two-thirds of the voters voting on Proposition A at an election held on June 3, 2014 ("Proposition A (2014)"), to provide funds for the purposes authorized in Proposition A (2014), which are summarized as follows: to improve fire, earthquake and emergency response by: improving and/or replacing deteriorating cisterns, pipes, and tunnels, and related facilities to ensure firefighters a reliable water supply for fires and disasters; improving and/or replacing neighborhood fire and police stations; replacing certain seismically-unsafe police and medical examiner facilities with earthquake-safe buildings and to pay related costs. The City previously issued \$100,670,000 of the bonds authorized by Proposition A (2014) on October 2, 2014 and \$109,595,000 of the bonds authorized by Proposition A (2014) on April 20, 2016. After the issuance of the 2018C Bonds, no authorization of unissued bonds will remain under Proposition A (2014).

The 2018D Bonds will constitute the second series of bonds to be issued from an aggregate authorized amount of \$310,000,000 of City and County of San Francisco Taxable and Tax-Exempt General Obligation Bonds (Affordable Housing, 2015), duly approved by more than two-thirds of the voters voting on Proposition A at an election held on November 3, 2015 ("Proposition A (2015)"), to provide funds for the purposes authorized in Proposition A (2015), which are summarized as follows: to finance the construction, development, acquisition, and preservation of housing affordable to low- and middle-income households through programs that will prioritize vulnerable populations such as San Francisco's working families, veterans, seniors, disabled persons; to assist in the acquisition, rehabilitation, and preservation of affordable rental apartment buildings to prevent the eviction of long-term residents; to repair and reconstruct dilapidated public housing; to fund a middle-income rental program; and to provide for homeownership down payment assistance opportunities for educators and middle-income households. The City previously issued \$75,130,000

of the bonds authorized by Proposition A (2015) on November 1, 2016. After the issuance of the 2018D Bonds, approximately \$92,725,000 of unissued bonds will remain under Proposition A (2015).

The 2018E Bonds will constitute the second series of bonds to be issued from an aggregate authorized amount of \$350,000,000 of City and County of San Francisco Taxable and Tax-Exempt General Obligation Bonds (Public Health and Safety, 2016), duly approved by more than two-thirds of the voters voting on Proposition A at an election held on June 7, 2016 ("Proposition A (2016)"), to provide funds for the purposes authorized in Proposition A (2016), which are summarized as follows: to protect public health and safety, improve community medical and mental health care services, earthquake safety, and emergency medical response; to seismically improve, and modernize neighborhood fire stations and vital public health and homeless service sites; to construct a seismically safe and improved San Francisco Fire Department ambulance deployment facility; and to pay related costs. The City previously issued \$173,120,000 of the bonds authorized by Proposition A (2016) on February 1, 2017. After the issuance of the 2018E Bonds, approximately \$126,925,000 of unissued bonds will remain under Proposition A (2016).

The Administrative Code of the City (the "Administrative Code"), Proposition A (2014), Proposition A (2015) and Proposition A (2016) provide that, to the extent permitted by law, 0.1% of the gross proceeds of all proposed bonds, including the Bonds, be deposited by the Controller and used to fund the costs of the City's independent citizens' general obligation bond oversight committee. The committee was created by the Administrative Code and is appointed by the Board of Supervisors of the City to inform the public concerning the expenditure of general obligation bond proceeds in accordance with the voter authorization.

Form and Registration

The Bonds will be issued in the principal amounts set forth on the inside cover hereof, in the denomination of \$5,000 each or any integral multiple thereof, and will be dated their date of delivery. The Bonds will be issued in fully registered form, without coupons. The Bonds will be initially registered in the name of Cede & Co. as registered owner and nominee for The Depository Trust Company ("DTC"), which is required to remit payments of principal and interest to the DTC Participants for subsequent disbursement to the beneficial owners of the Bonds. See APPENDIX E – "DTC AND THE BOOK-ENTRY ONLY SYSTEM."

Payment of Interest and Principal

Interest on the Bonds will be payable on each June 15 and December 15 to maturity or prior redemption, commencing December 15, 2018, at the interest rates shown on the inside cover hereof. Interest will be calculated on the basis of a 360-day year comprised of twelve 30-day months. The City Treasurer will act as paying agent and registrar with respect to the Bonds. The interest on the Bonds will be payable in lawful money of the United States to the Registered Owner whose name appears on the Bond registration books of the City Treasurer as the owner thereof as of the close of business on the last day of the month immediately preceding an interest payment date (the "Record Date"), whether or not such day is a business day. Each Bond authenticated on or before November 30, 2018 will bear interest from the date of delivery. Every other Bond will bear interest from the interest payment date next preceding its date of authentication unless it is authenticated as of a day during the period from the Record Date next preceding any interest payment date to the interest payment date, inclusive, in which event it will bear interest from such interest payment date; provided, that if, at the time of authentication of any Bond, interest is then in default on the Bonds, such Bond will bear interest from the interest payment date to which interest has previously been paid or made available for payment on the Bonds or from the date of delivery of the Bonds if the first interest payment is not made.

The Bonds will mature on the dates shown on the inside cover page hereof. The Bonds will be subject to redemption prior to maturity, as described below. See "- Redemption" below. The principal of the Bonds will be payable in lawful money of the United States to the owner thereof upon the surrender thereof at maturity or earlier redemption at the office of the City Treasurer.

Redemption

Optional Redemption of the Bonds

The 2018C Bonds and the 2018E Bonds maturing on or before June 15, 2024 will not be subject to redemption prior to their respective stated maturity dates. The 2018D Bonds maturing on or before June 15, 2028 will not be subject to redemption prior to their respective stated maturity dates.

The 2018C Bonds and the 2018E maturing on or after June 15, 2025 will be subject to optional redemption prior to their respective stated maturity dates, at the option of the City, from any source of available funds, as a whole or in part on any date (with the maturities to be redeemed to be determined by the City and by lot within a maturity), on or after June 15, 2024, at the redemption price equal to the principal amount of the Bonds redeemed, together with accrued interest to the date fixed for redemption (the "Redemption Date"), without premium.

The 2018D Bonds maturing on or after June 15, 2029 will be subject to optional redemption prior to their respective stated maturity dates, at the option of the City, from any source of available funds, as a whole or in part on any date (with the maturities to be redeemed to be determined by the City and pro rata within a maturity), on or after June 15, 2028, at the redemption price equal to the principal amount of the Bonds redeemed, together with accrued interest to the Redemption Date, without premium.

Mandatory Redemption

The 2018C Bonds maturing on June 15, 2038 will be subject to redemption prior to their stated maturity date, in part, by lot, from mandatory sinking fund payments, on each June 15, as shown in the table below, at a redemption price equal to the principal amount thereof plus accrued interest thereon to the Redemption Date, without premium.

Mandatory Sinking Fund Redemption Date	Sinking Fund Payment
(June 15)	Principal Amount
2037	\$9,475,000
2038^{\dagger}	9,805,000

The 2018D Bonds maturing on June 15, 2038 will be subject to redemption prior to their stated maturity date, in part, pro rata, from mandatory sinking fund payments, on each June 15, as shown in the table below, at a redemption price equal to the principal amount thereof plus accrued interest thereon to the Redemption Date, without premium.

Redemption Date (June 15)	Sinking Fund Payment Principal Amount
2034	\$6,300,000
2035	6,545,000
2036	6,805,000
2037	7,075,000
2038 [†]	7,355,000

[†] Maturity

Selection of Bonds for Redemption

Whenever less than all of the outstanding Bonds are called for redemption on any one date, the Director of Public Finance will select the maturities of Bonds to be redeemed in his or her sole discretion.

Whenever less than all the outstanding 2018C Bonds or 2018E Bonds maturing on any one date are called for redemption on any date, the particular 2018C Bonds or 2018E Bonds or portions thereof to be redeemed will be selected by lot, in any manner which the Director of Public Finance deems fair. Whenever less than all the outstanding 2018D Bonds maturing on any one date are called for redemption on any date, the particular 2018D Bonds or portions thereof to be redeemed will be selected on a pro rata basis. If the Director of Public Finance does not provide DTC with the necessary information and identify the redemption as on a pro rata basis, the 2018D Bonds will be selected for redemption by lot in accordance with DTC procedures. The Bonds may be redeemed in denominations of \$5,000 or any integral multiple thereof.

If the Bonds to be optionally redeemed are also subject to mandatory redemption, the Director of Public Finance will designate the mandatory sinking fund payment or payments (or portions thereof) against which the principal amount of the Bonds optionally redeemed will be credited.

Notice of Redemption

The City Treasurer will mail, or cause to be mailed, notice of any redemption of the Bonds, postage prepaid, to the respective registered owners thereof at the addresses appearing on the Bond registration books not less than 20 days and not more than 60 days prior to the Redemption Date.

Notice of redemption also will be given, or caused to be given, by the City Treasurer, by (i) registered or certified mail, postage prepaid, (ii) confirmed facsimile transmission, (iii) overnight delivery service, or (iv) to the extent applicable to the intended recipient, email or similar electronic means, to (a) all organizations registered with the Securities and Exchange Commission as securities depositories and (b) such other services or organizations as may be required in accordance with the Continuing Disclosure Certificate. See "CONTINUING DISCLOSURE" and APPENDIX D – "FORM OF CONTINUING DISCLOSURE CERTIFICATE" herein.

Each notice of redemption will (a) state the Redemption Date; (b) state the redemption price; (c) state the maturity dates of the Bonds called for redemption, and, if less than all of any such maturity is called for redemption, the distinctive numbers of the Bonds of such maturity to be redeemed, and in the case of a Bond redeemed in part only, the respective portions of the principal amount thereof to be redeemed; (d) state the CUSIP number, if any, of each Bond to be redeemed; (e) require that such Bonds be surrendered by the owners at the office of the City Treasurer or his or her agent; and (f) give notice that interest on such Bonds or portions of such Bonds to be redeemed will cease to accrue after the designated Redemption Date. Any notice of optional redemption may be conditioned on the receipt of funds or any other event specified in the notice. See "— Conditional Notice; Right to Rescind Notice of Optional Redemption" below.

The actual receipt by the owner of any Bond of such notice of redemption will not be a condition precedent to redemption of such Bond, and failure to receive such notice, or any defect in such notice, will not affect the validity of the proceedings for the redemption of such Bond or the cessation of the accrual of interest on such Bond on the Redemption Date.

Effect of Notice of Redemption

When notice of optional redemption has been given as described above, and when the amount necessary for the redemption of the Bonds called for redemption (principal, premium, if any and accrued interest to the Redemption Date) is set aside for that purpose in the respective redemption account for the Bonds (the "Redemption Account") established under the respective Resolution, the Bonds designated for

redemption will become due and payable on the Redemption Date, and upon presentation and surrender of said Bonds at the place specified in the notice of redemption, those Bonds will be redeemed and paid at said redemption price out of the respective Redemption Account. No interest will accrue on such Bonds called for redemption after the Redemption Date and the registered owners of such Bonds will look for payment of such Bonds only to the respective Redemption Account. Moneys held in each respective Redemption Account will be invested by the City Treasurer pursuant to the City's policies and guidelines for investment of moneys in the General Fund of the City. See APPENDIX C – "CITY AND COUNTY OF SAN FRANCISCO, OFFICE OF THE TREASURER – INVESTMENT POLICY."

Conditional Notice; Right to Rescind Notice of Optional Redemption

Any notice of optional redemption may provide that such redemption is conditioned upon: (i) deposit of sufficient moneys in the respective Redemption Account to redeem the applicable Bonds called for redemption on the anticipated Redemption Date, or (ii) the occurrence of any other event specified in the notice of redemption. In the event that such conditional notice of optional redemption has been given and on the scheduled Redemption Date (i) sufficient moneys to redeem the Bonds have not been deposited or (ii) any other event specified in the notice of redemption did not occur, such Bonds for which notice of conditional optional redemption was given will not be redeemed on the anticipated Redemption Date and will remain Outstanding for all purposes of the respective Resolution and the redemption not occurring will not constitute a default under the respective Resolution.

In addition, the City may rescind any optional redemption and notice thereof for any reason on any date prior to any Redemption Date by causing written notice of the rescission to be given to the Registered Owner of all Bonds so called for redemption. Notice of such rescission of redemption will be given in the same manner notice of redemption was originally given. The actual receipt by the Registered Owner of any Bond of notice of such rescission will not be a condition precedent to rescission, and failure to receive such notice or any defect in such notice so mailed will not affect the validity of the rescission.

Defeasance

Payment of all or any portion of the Bonds may be provided for prior to such Bonds' respective stated maturities by irrevocably depositing with the City Treasurer (or any commercial bank or trust company designated by the City Treasurer to act as escrow agent with respect thereto): (a) an amount of cash equal to the principal amount of all of such Bonds or a portion thereof, and all unpaid interest thereon to maturity, except that in the case of Bonds which are to be redeemed prior to such Bonds' respective stated maturities and in respect of which notice of such redemption will have been given as described above or an irrevocable election to give such notice will have been made by the City, the amount to be deposited will be the principal amount thereof, all unpaid interest thereon to the Redemption Date, and premium, if any, due on such Redemption Date; or (b) Defeasance Securities (as defined below) not subject to call, except as described in the definition below, maturing and paying interest at such times and in such amounts, together with interest earnings and cash, if required, as will, without reinvestment, as certified by an independent certified public accountant, be fully sufficient to pay the principal and all unpaid interest to maturity, or to the Redemption Date, as the case may be, and any premium due on the Bonds to be paid or redeemed, as such principal and interest come due; provided, that, in the case of the Bonds which are to be redeemed prior to maturity, notice of such redemption will be given as described above or an irrevocable election to give such notice will have been made by the City; then, all obligations of the City with respect to said outstanding Bonds will cease and terminate, except only the obligation of the City to pay or cause to be paid from the funds deposited as described in this paragraph, to the owners of said Bonds all sums due with respect thereto, and the tax covenant obligations of the City with respect to the Tax-Exempt Bonds; provided, that the City will have received an opinion of nationally recognized bond counsel that provision for the payment of said Bonds has been made as required by the respective Resolution.

As used in this section, the following terms have the meanings given below:

"Defeasance Securities" means any of the following which at the time are legal investments under the laws of the State of California for the moneys proposed to be invested therein: (1) United States Obligations (as defined below); and (2) Pre-refunded fixed interest rate municipal obligations meeting the following conditions: (a) the municipal obligations are not subject to redemption prior to maturity, or the trustee or paying agent has been given irrevocable instructions concerning their calling and redemption and the issuer has covenanted not to redeem such obligations other than as set forth in such instructions; (b) the municipal obligations are secured by cash or United States Obligations; (c) the principal of and interest on the United States Obligations (plus any cash in the escrow fund or the applicable Redemption Account) are sufficient to meet the liabilities of the municipal obligations; (d) the United States Obligations serving as security for the municipal obligations are held by an escrow agent or trustee; (e) the United States Obligations are not available to satisfy any other claims, including those against the trustee or escrow agent; and (f) the municipal obligations are rated (without regard to any numerical modifier, plus or minus sign or other modifier), at the time of original deposit to the escrow fund, by any two Rating Agencies (as defined below) not lower than the rating then maintained by the respective Rating Agency on such United States Obligations.

"United States Obligations" means (i) direct and general obligations of the United States of America, or obligations that are unconditionally guaranteed as to principal and interest by the United States of America, including without limitation, the interest component of Resolution Funding Corporation (REFCORP) bonds that have been stripped by request to the Federal Reserve Bank of New York in book-entry form, or (ii) any security issued by an agency or instrumentality of the United States of America that is selected by the Director of Public Finance that results in the escrow fund being rated by any two Rating Agencies at the time of the initial deposit to the escrow fund and upon any substitution or subsequent deposit to the escrow fund, no lower than the rating then maintained by the respective Rating Agency on United States Obligations described in (i) herein.

"Rating Agencies" means Moody's Investors Service, Fitch Ratings, and S&P Global Ratings, or any other nationally-recognized bond rating agency that is the successor to any of the foregoing rating agencies or that is otherwise recognized as a national rating agency after the date of adoption of the related Resolution.

	\$198,753,044	\$143,130,799	\$51,781,379	\$393,665,222

Includes fees for services of rating agencies, Co-Municipal Advisors, Co-Bond Counsel, Disclosure Counsel, costs to the City, printing costs, other miscellaneous costs associated with the issuance of the Bonds, and rounding amounts.

Deposit and Investment of Bond Proceeds

2018C Bond Proceeds. Any bid premium received upon the delivery of the 2018C Bonds, and all taxes collected for payment of the 2018C Bonds, will be deposited into a special subaccount established for the payment of the 2018C Bonds. The subaccount was created by the 2018C Resolution specifically for payment of principal of and interest on the 2018C Bonds (the "2018C Bond Subaccount").

All remaining proceeds of the sale of the 2018C Bonds are required to be deposited by the City Treasurer into a special subaccount within the project account created by the City to hold proceeds of the sale of all of the Proposition A (2014) bonds, which proceeds are required to be applied exclusively to the purposes approved by the voters in Proposition A (2014), and to pay costs of issuance of such bonds. See "THE BONDS – Authority for Issuance; Purposes." The subaccount was created by the 2018C Resolution specifically to hold the proceeds of the 2018C Bonds (the "2018C Project Subaccount").

2018D Bond Proceeds. Any bid premium received upon the delivery of the 2018D Bonds, and all taxes collected for payment of the 2018D Bonds, will be deposited into a special subaccount established for the payment of the 2018D Bonds. The subaccount was created by the 2018D Resolution specifically for payment of principal of and interest on the 2018D Bonds (the "2018D Bond Subaccount").

All remaining proceeds of the sale of the 2018D Bonds are required to be deposited by the City Treasurer into a special subaccount within the project account created by the City to hold proceeds of the sale of all of the Proposition A (2015) bonds, which proceeds are required to be applied exclusively to the purposes approved by the voters in Proposition A (2015), and to pay costs of issuance of such bonds. See "THE BONDS – Authority for Issuance; Purposes." The subaccount was created by the 2018D Resolution specifically to hold the proceeds of the 2018D Bonds (the "2018D Project Subaccount").

2018E Bond Proceeds. Any bid premium received upon the delivery of the 2018E Bonds, and all taxes collected for payment of the 2018E Bonds, will be deposited into a special subaccount established for the payment of the 2018E Bonds. The subaccount was created by the 2018E Resolution specifically for payment of principal of and interest on the 2018E Bonds (the "2018E Bond Subaccount").

All remaining proceeds of the sale of the 2018E Bonds are required to be deposited by the City Treasurer into a special subaccount within the project account created by the City to hold proceeds of the sale of all of the Proposition A (2016) bonds, which proceeds are required to be applied exclusively to the purposes approved by the voters in Proposition A (2016), and to pay costs of issuance of such bonds. See "THE BONDS – Authority for Issuance; Purposes." The subaccount was created by the 2018E Resolution specifically to hold the proceeds of the 2018E Bonds (the "2018E Project Subaccount").

Under the Resolutions, the 2018C Bond Subaccount, the 2018C Project Subaccount, the 2018D Bond Subaccount, the 2018D Project Subaccount, the 2018E Bond Subaccount and the 2018E Project Subaccount may each be invested in any investment of the City in which moneys in the General Fund of the City are invested. The City Treasurer may commingle any of the moneys held in any such account with other City moneys, or deposit amounts credited to such accounts into a separate fund or funds for investment purposes only. All interest earned on any such account will be retained in that account. See APPENDIX C – "CITY AND COUNTY OF SAN FRANCISCO, OFFICE OF THE TREASURER – INVESTMENT POLICY."

A portion of the proceeds of the Bonds will be used to pay certain costs related to the issuance of the Bonds. Up to 0.1% of the proceeds of each series of the Bonds are required to be appropriated to fund the Citizens' General Obligation Bond Oversight Committee, created to oversee various general obligation bond programs of the City. See "THE BONDS – Authority for Issuance; Purposes" herein.

SECURITY FOR THE BONDS

General

The Board of Supervisors of the City has the power and is obligated, and under the Resolutions has covenanted, to levy *ad valorem* taxes without limitation as to rate or amount upon all property subject to taxation by the City (except certain property which is taxable at limited rates) for the payment of the principal of and interest on the Bonds when due.

Factors Affecting Property Tax Security for the Bonds

The annual property tax rate for repayment of the Bonds will be based on the total assessed value of taxable property in the City and the scheduled debt service on the Bonds in each year, less any other lawfully available funds applied by the City for repayment of the Bonds. Fluctuations in the annual debt service on the Bonds, the assessed value of taxable property in the City, and the availability of such other funds in any year, may cause the annual property tax rate applicable to the Bonds to fluctuate. Issuance by the City of additional authorized bonds payable from *ad valorem* property taxes may cause the overall property tax rate to increase.

Discussed below are certain factors that may affect the City's ability to levy and collect sufficient taxes to pay scheduled debt service on the Bonds each year. See APPENDIX A – "CITY AND COUNTY OF SAN FRANCISCO ORGANIZATION AND FINANCES" for additional information on these factors.

Total Assessed Value of Taxable Property in the City. The greater the assessed value of taxable property in the City, the lower the tax rate necessary to generate taxes sufficient to pay scheduled debt service on bonds. The total net assessed valuation of taxable property in the City in fiscal year 2017-18 is approximately \$234.1 billion. During economic downturns, declining market values of real estate, increased foreclosures, and increases in requests submitted to the Assessor and the Assessment Appeals Board for reductions in assessed value have generally caused a reduction in the assessed value of some properties in the City. See APPENDIX A – "CITY AND COUNTY OF SAN FRANCISCO ORGANIZATION AND FINANCES – PROPERTY TAXATION – Assessed Valuations, Tax Rates and Tax Delinquencies."

Natural and economic forces can affect the assessed value of taxable property in the City. The City is located in a seismically active region, and damage from an earthquake in or near the City could cause moderate to extensive or total damage to taxable property. See "Seismic Risks" below. Other natural or man-made disasters, such as flood, fire, toxic dumping or acts of terrorism, could also cause a reduction in the assessed value of taxable property within the City. Economic and market forces, such as a downturn in the Bay Area's economy generally, can also affect assessed values, particularly as these forces might reverberate in the residential housing and commercial property markets. In addition, the total assessed value can be reduced through the reclassification of taxable property to a class exempt from taxation, whether by ownership or use (such as exemptions for property owned by State and local agencies and property used for qualified educational, hospital, charitable or religious purposes).

Concentration of Taxable Property Ownership. The more property (by assessed value) owned by any single assessee, the more exposure of tax collections to weakness in that taxpayer's financial situation and ability or willingness to pay property taxes. As of July 1, 2017, no single assessee owned more than 0.43% of the total taxable assessed value in the City. See APPENDIX A – "CITY AND COUNTY OF SAN FRANCISCO ORGANIZATION AND FINANCES – PROPERTY TAXATION – Tax Levy and Collection."

Property Tax Rates. One factor in the ability of taxpayers to pay additional taxes for general obligation bonds is the cumulative rate of tax. The total tax rate per \$100 of assessed value (including the basic countywide 1% rate required by statute) is discussed further in APPENDIX A – "CITY AND COUNTY OF SAN FRANCISCO ORGANIZATION AND FINANCES – PROPERTY TAXATION – Assessed Valuations, Tax Rates and Tax Delinquencies."

Debt Burden on Owners of Taxable Property in the City. Another measure of the debt burden on local taxpayers is total debt as a percentage of taxable property value. Issuance of general obligation bonds by the City is limited under Section 9.106 of the Charter to 3.00% of the assessed value of all taxable real and personal property located within the City's boundaries. For purposes of this provision of the Charter, the City calculates its debt limit on the basis of total assessed valuation net of non-reimbursable and homeowner exemptions. On this basis, the City's gross general obligation debt limit for fiscal year 2017-18 is approximately \$7.02 billion, based on a net assessed valuation of approximately \$234.1 billion. As of April 15, 2018, the City had outstanding approximately \$2.32 billion in aggregate principal amount of general obligation bonds, which equals approximately 0.99% of the net assessed valuation for fiscal year 2017-18. See APPENDIX A – "CITY AND COUNTY OF SAN FRANCISCO ORGANIZATION AND FINANCES – CAPITAL FINANCING AND BONDS."

Additional Debt; Authorized but Unissued Bonds. Issuance of additional authorized bonds can cause the overall property tax rate to increase. As of April 15, 2018, the City had voter approval to issue up to \$1.12 billion in additional aggregate principal amount of new bonds payable from ad valorem property taxes. See APPENDIX A – "CITY AND COUNTY OF SAN FRANCISCO ORGANIZATION AND FINANCES – CAPITAL FINANCING AND BONDS – General Obligation Bonds." In addition, the City expects that it will propose further bond measures to the voters from time to time to help meet its capital needs. The City's most recent adopted 10-year capital plan sets forth \$35.2 billion of capital needs for all City departments. See APPENDIX A – "CITY AND COUNTY OF SAN FRANCISCO ORGANIZATION AND FINANCES – CAPITAL FINANCING AND BONDS – Capital Plan."

City Long-Term Financial Challenges

The following discussion highlights certain long-term challenges facing the City and is not meant to be an exhaustive discussion of challenges facing the City. Notwithstanding the City's strong economic and financial performance during the recent recovery and despite significant City initiatives to improve public transportation systems, expand access to healthcare and modernize parks and libraries, the City faces several long-term financial challenges and risks described below.

Significant capital investments are proposed in the City's adopted 10-year capital plan. However identified funding resources are below those necessary to maintain and enhance the City's physical infrastructure. As a result, over \$11 billion in capital needs are deferred from the capital plan's 10-year horizon. Over two-thirds of these unfunded needs relate to the City's transportation and waterfront infrastructure, where state of good repair investment has lagged for decades.

In addition, the City faces long term challenges with respect to the management of pension and post-employment retirement obligations. The City has taken significant steps to address long-term unfunded liabilities for employee pension and other post-employment benefits, including retiree health obligations, yet significant liabilities remain. In recent years, the City and voters have adopted significant changes that should mitigate these unfunded liabilities over time, including adoption of lower-cost benefit tiers, increases to employee and employer contribution requirements, and establishment of a trust fund to set-aside funding for future retiree health costs. The financial benefit from these changes will phase in over time, however, leaving ongoing financial challenges for the City in the shorter term. Further, the size of these liabilities is based on a number of assumptions, including but not limited to assumed investment returns and actuarial assumptions. It is possible that actual results will differ materially from current assumptions, and such changes in investment returns or other actuarial assumptions could increase budgetary pressures on the City.

Lastly, while the City has adopted a number of measures to better position its operating budget for future economic downturns, these measures may not be sufficient. Economic stabilization reserves have grown significantly during the last four fiscal years and now exceed pre-recession peaks, but remain below adopted target levels of 10% of discretionary General Fund revenues.

There is no assurance that other challenges not discussed in this Official Statement may become material to investors in the future. For more information, see APPENDIX A – "CITY AND COUNTY OF SAN FRANCISCO ORGANIZATION AND FINANCES" and in APPENDIX B – "COMPREHENSIVE ANNUAL FINANCIAL REPORT OF THE CITY AND COUNTY OF SAN FRANCISCO FOR THE FISCAL YEAR ENDED JUNE 30, 2017."

Seismic Risks

The City is located in a seismically active region. Active earthquake faults underlie both the City and the surrounding Bay Area, including the San Andreas Fault, which passes within about three miles of the City's border, and the Hayward Fault, which runs under Oakland, Berkeley and other cities on the east side of San Francisco Bay, about 10 miles away. Significant seismic events include the 1989 Loma Prieta earthquake, centered about 60 miles south of the City, which registered 6.9 on the Richter scale of earthquake intensity. That earthquake caused fires, building collapses, and structural damage to buildings and highways in the City and surrounding areas. The San Francisco-Oakland Bay Bridge, the only east-west vehicle access into the City, was closed for a month for repairs, and several highways in the City were permanently closed and eventually removed. On August 24, 2014, the San Francisco Bay Area experienced a 6.0 earthquake centered near Napa along the West Napa Fault. The City did not suffer any material damage as a result of this earthquake.

In March 2015, the Working Group on California Earthquake Probabilities (a collaborative effort of the U.S. Geological Survey (U.S.G.S.), the California Geological Survey, and the Southern California Earthquake Center) reported that there is a 72% chance that one or more quakes of about magnitude 6.7 or larger will occur in the San Francisco Bay Area before the year 2045. Such earthquakes may be very destructive. In addition to the potential damage to City-owned buildings and facilities (on which the City does not generally carry earthquake insurance), due to the importance of San Francisco as a tourist destination and regional hub of commercial, retail and entertainment activity, a major earthquake anywhere in the Bay Area may cause significant temporary and possibly long-term harm to the City's economy, tax receipts, and residential and business real property values.

In early 2016, the Port Commission of the City and County of San Francisco commissioned an earthquake vulnerability study of the Northern Waterfront Seawall. The Seawall was constructed over 100 years ago and sits on reclaimed land, rendering it vulnerable to seismic risk. The Seawall provides flood and wave protection to downtown San Francisco, and stabilizes hundreds of acres of filled land. Preliminary findings of the study indicate that a strong earthquake may cause most of the Seawall to settle and move outward toward the Bay, which would significantly increase earthquake damage and disruption along the waterfront. The Port Commission estimates that seismic retrofitting of the Seawall could cost as much as \$3 billion, with another \$2 billion or more needed to prepare the Seawall for rising sea levels. The study estimates that approximately \$1.6 billion in Port assets and \$2.1 billion of rents, business income, and wages are at risk from major damage to the Seawall.

Climate Change, Risk of Sea Level Rise and Flooding Damage

Numerous scientific studies on global climate change show that sea levels will rise given the increasing temperature of the oceans and growing ocean volume, as land ice melts and runs off into the ocean. Over the past century, the sea level has risen about eight inches around the San Francisco Bay and along the Pacific coast. Such scientific studies also project accelerating sea level rise due to climate change over the coming century. As a result, coastal areas like San Francisco are at risk of substantial flood damage over time

and this will affect private development as well as public infrastructure, including roads, utilities, emergency services, schools and parks. The City could lose considerable tax revenues and many residents, businesses and governmental operations along the waterfront could be displaced.

The City, including its Port, Department of the Environment and various other departments and agencies, have been preparing for these impacts for many years and have issued a number of public reports. For example, in March 2016, the City released a report entitled "Sea Level Rise Action Plan," identifying geographic zones at risk of sea level rise and providing a framework for adaption strategies to confront these risks. That study shows an upper range of end-of-century projections for permanent sea level rise plus temporary flooding due to 100-year storm of up to 108 inches above 2015 average high tide. The City is working on a citywide adaption plan that will likely be finalized and released in the summer 2018. The goal of the adaption plan is to establish a long-term comprehensive planning framework, identify funding sources and prioritize investments.

In April 2017, the Working Group of the California Ocean Protection Council Science Advisory Team (in collaboration with several state agencies, including the California Natural Resource Agency, the Governor's Office of Planning and Research, and the California Energy Commission) published a report entitled "Rising Seas in California: An Update on Sea Level Rise Science" (the "Sea Level Rise Report") to provide a new synthesis of the state of science regarding sea level rise. The Sea Level Rise Report will provide the basis for State guidance to state and local agencies for incorporating sea-level rise into design, planning, permitting, construction, investment and other decisions. Among many findings, the Sea Level Rise Report indicates that the effects of sea level rise are already being felt in coastal California with more extensive coastal flooding during storms, period tidal flooding, and increased coastal erosion. In addition, the report notes that the rate of ice sheet loss from Greenland and Antarctic ice sheets pose a particular risk of sea level rise for the California coastline.

The City has already incorporated site specific adaption plans in the conditions of approval for certain large waterfront development projects, such as the Candlestick/Hunters Point Shipyard, Treasure Island, Pier 70 and Mission Rock projects. Also, the City has started the process of planning to fortify the Port's seawall from sea level rise, including an initial investment of about \$8 million during 2017-2018 and consideration of financing options. The City expects short term upgrades to cost over \$500 million and long term upgrades to cost more than \$5 billion.

A scientific report issued in March 2018 by professors at UC Berkeley and the University of Arizona suggests that flooding risk from climate change could be exacerbated in the San Francisco Bay Area due to the sinking of soil, known as subsidence. The risk of subsidence affects certain parts of San Francisco built on landfill as well as the San Francisco International Airport. Under the new projections in this report, damage due to flooding could be worse than estimated under earlier climate change studies.

Projections of the impacts of global climate change on San Francisco are complex and depend on many factors that are outside the City's control. The various scientific studies that forecast the amount and timing of sea level rise and its adverse impacts, including flooding risk, are based on assumptions contained in such studies, but actual events may vary materially. Also, the scientific understanding of climate change and its effects continues to evolve. Accordingly, the City is unable to forecast when sea level rise or other adverse impacts of climate change (e.g., the occurrence and frequency of 100 year storm events and king tides) will occur. In particular the City cannot predict the timing or precise magnitude of adverse economic effects, including, without limitation, material adverse impacts on the business operations or financial condition of the City and the local economy during the term of the Bonds. While the impacts of climate change may be mitigated by the City's past and future investment in adaptation strategies, the City can give no assurance about the net effects of those strategies and whether the City will be required to take additional adaptive mitigation measures.

The City has filed a lawsuit against the five largest investor-owned oil companies that is pending in the United States District Court, Northern District of California, Case No. 3:17-cv-06012-WHA, entitled The People of the State of California, acting by and through the San Francisco City Attorney, Dennis J. Herrera, v. BP P.L.C, et al. In that lawsuit, the City Attorney is seeking to have the companies pay into an equitable abatement fund to help fund investment in sea level rise adaptation infrastructure. While the City believes that its claims are meritorious, the City can give no assurance regarding whether it will be successful and obtain the requested relief from the courts or contributions to the abatement fund from the defendant oil companies.

Cybersecurity

The City, like many other large public and private entities, relies on a large and complex technology environment to conduct its operations, and faces multiple cybersecurity threats including, but not limited to, hacking, viruses, malware and other attacks on its computing and other digital networks and systems (collectively, "Systems Technology"). As a recipient and provider of personal, private, or sensitive information, the City has been the subject of cybersecurity incidents that have resulted in or could have resulted in adverse consequences to the City's Systems Technology and that required a response action to mitigate the consequences. For example, in November 2016, the San Francisco Metropolitan Transportation Agency (the "SFMTA") was subject to a ransomware attack which disrupted some of the SFMTA's internal computer systems. Therefore, the attack did not interrupt Muni train services nor did it compromise customer privacy or transaction information. The SFMTA, however, took the precaution of turning off the ticket machines and fare gates in the Muni Metro subway stations from Friday, November 25 until the morning of Sunday, November 27.

Cybersecurity incidents could result from unintentional events, or from deliberate attacks by unauthorized entities or individuals attempting to gain access to the City's Systems Technology for the purposes of misappropriating assets or information or causing operational disruption and damage. To mitigate the risk of business operations impact and/or damage from cybersecurity incidents or cyber-attacks, the City invests in multiple forms of cybersecurity and operational safeguards. In November 2016, the City adopted a City-wide Cyber Security Policy ("Cyber Policy") to support, maintain, and secure critical infrastructure and data systems. The objectives of the Cyber Policy include the protection of critical infrastructure and information, manage risk, improve cyber security event detection and remediation, and facilitate cyber awareness across all City departments. The City's Department of Technology has established a cybersecurity team to work across all City departments to implement the Cyber Policy. The City's Cyber Policy is reviewed periodically.

The City has also appointed a City Chief Information Security Officer ("CCISO"), who is directly responsible for understanding the business and related cybersecurity needs of the City's 54 departments. The CCISO is responsible for identifying, evaluating, responding, and reporting on information security risks in a manner that meets compliance and regulatory requirements, and aligns with and supports the risk posture of the City.

While City cybersecurity and operational safeguards are periodically tested, no assurances can be given by the City that such measures will ensure against other cybersecurity threats and attacks. Cybersecurity breaches could damage the City's Systems Technology and cause material disruption to the City's operations and the provision of City services. The costs of remedying any such damage or protecting against future attacks could be substantial. Further, cybersecurity breaches could expose the City to material litigation and other legal risks, which could cause the City to incur material costs related to such legal claims or proceedings.

Other Events

Seismic events, wildfires, tsunamis, and other natural or man-made events may damage City infrastructure and adversely impact the City's ability to provide municipal services. For example, in August

2013, a massive wildfire in Tuolumne County and the Stanislaus National Forest burned over 257,135 acres (the "Rim Fire"), which area included portions of the City's Hetch Hetchy Project. The Hetch Hetchy Project is comprised of dams (including O'Shaughnessy Dam), reservoirs (including Hetch Hetchy Reservoir which supplies 85% of San Francisco's drinking water), hydroelectric generator and transmission facilities and water transmission facilities. Hetch Hetchy facilities affected by the Rim Fire included two power generating stations and the southern edge of the Hetch Hetchy Reservoir. There was no impact to drinking water quality. The City's hydroelectric power generation system was interrupted by the fire, forcing the San Francisco Public Utilities Commission to spend approximately \$1.6 million buying power on the open market and using existing banked energy with PG&E. The Rim Fire inflicted approximately \$40 million in damage to parts of the City's water and power infrastructure located in the region. In September 2010, a Pacific Gas and Electric Company ("PG&E") high pressure natural gas transmission pipeline exploded in San Bruno, California, with catastrophic results. There are numerous gas transmission and distribution pipelines owned, operated and maintained by PG&E throughout the City.

TAX MATTERS

The Tax-Exempt Bonds

General Matters. In the separate opinions of Kutak Rock LLP and Curls Bartling P.C., Co-Bond Counsel, under existing laws, regulations, rulings and judicial decisions, interest on the Tax-Exempt Bonds (including any original issue discount properly allocable to the owner of a Tax-Exempt Bond) is excludable from gross income for federal income tax purposes and is not a specific preference item for purposes of the federal alternative minimum tax. The opinion described above assumes the accuracy of certain representations and compliance by the City with covenants designed to satisfy the requirements of the Code that must be met subsequent to the issuance of the Tax-Exempt Bonds. Failure to comply with such requirements could cause interest on the Tax-Exempt Bonds to be included in gross income for federal income tax purposes retroactive to the date of issuance of the Tax-Exempt Bonds. The City has covenanted to comply with such requirements. Co-Bond Counsel have expressed no opinion regarding other federal tax consequences arising with respect to the Tax-Exempt Bonds.

Notwithstanding Co-Bond Counsel's opinion that interest on the Tax-Exempt Bonds is not a specific preference item for purposes of the federal alternative minimum tax, for taxable years beginning before January 1, 2018, such interest will be included in adjusted current earnings of certain corporations, and such corporations are required to include in the calculation of alternative minimum taxable income 75 percent of the excess of such corporations' adjusted current earnings over their alternative minimum taxable income (determined without regard to such adjustment and prior to reduction for certain net operating losses). No federal alternative minimum tax applies to corporations for taxable years beginning after December 31, 2017.

The accrual or receipt of interest on the Tax-Exempt Bonds may otherwise affect the federal income tax liability of the owners of the Tax-Exempt Bonds. The extent of these other tax consequences will depend on such owners' particular tax status and other items of income or deduction. Co-Bond Counsel have expressed no opinion regarding any such consequences. Purchasers of the Tax-Exempt Bonds, particularly purchasers that are corporations (including S corporations and foreign corporations operating branches in the United States of America), property or casualty insurance companies, banks, thrifts or other financial institutions, certain recipients of social security or railroad retirement benefits, taxpayers entitled to claim the earned income credit, taxpayers entitled to claim the refundable credit in Section 36B of the Code for coverage under a qualified health plan or taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations, should consult their tax advisors as to the tax consequences of purchasing or owning the Tax-Exempt Bonds.

Bond Counsel is also of the opinion that interest on the Tax-Exempt Bonds is exempt from State of California personal income taxes. Co-Bond Counsel have expressed no opinion regarding other tax

consequences arising with respect to the Tax-Exempt Bonds under the laws of the State of California or any other state or jurisdiction.

A copy of the form of each opinion of Co-Bond Counsel is attached hereto as Appendix F.

Original Issue Discount. The maturities, if any, of Tax-Exempt Bonds that have an original yield above their respective interest rates, as shown on the inside cover page of this Official Statement (collectively, the "Discount Bonds"), are being sold at an original issue discount. The difference between the initial public offering prices of such Discount Bonds and their stated amounts to be paid at maturity constitutes original issue discount treated in the same manner for federal income tax purposes as interest, as described above.

The amount of original issue discount that is treated as having accrued with respect to a Discount Bond or is otherwise required to be recognized in gross income is added to the cost basis of the owner of the bond in determining, for federal income tax purposes, gain or loss upon disposition of such Discount Bond (including its sale, redemption or payment at maturity). Amounts received on disposition of such Discount Bond that are attributable to accrued or otherwise recognized original issue discount will be treated as tax-exempt interest, rather than as taxable gain, for federal income tax purposes.

Original issue discount is treated as compounding semiannually, at a rate determined by reference to the yield to maturity of each individual Discount Bond, on days that are determined by reference to the maturity date of such Discount Bond. The amount treated as original issue discount on such Discount Bond for a particular semiannual accrual period is equal to (a) the product of (i) the yield to maturity for such Discount Bond (determined by compounding at the close of each accrual period) and (ii) the amount that would have been the tax basis of such Discount Bond at the beginning of the particular accrual period if held by the original purchaser, (b) less the amount of any interest payable for such Discount Bond during the accrual period. The tax basis for purposes of the preceding sentence is determined by adding to the initial public offering price on such Discount Bond the sum of the amounts that have been treated as original issue discount for such purposes during all prior periods. If such Discount Bond is sold between semiannual compounding dates, original issue discount that would have been accrued for that semiannual compounding period for federal income tax purposes is to be apportioned in equal amounts among the days in such compounding period.

Owners of Discount Bonds should consult their tax advisors with respect to the determination and treatment of original issue discount accrued as of any date, with respect to when such original issue discount must be recognized as an item of gross income and with respect to the state and local tax consequences of owning a Discount Bond. Subsequent purchasers of Discount Bonds that purchase such bonds for a price that is higher or lower than the "adjusted issue price" of the bonds at the time of purchase should consult their tax advisors as to the effect on the accrual of original issue discount.

Recognition of Income Generally. Section 451 of the Code was amended by Pub. L. No. 115-97, enacted December 22, 2017 (sometimes referred to as the Tax Cuts and Jobs Act), to provide that taxpayers using an accrual method of accounting for federal income tax purposes generally will be required to include certain amounts in income, including original issue discount and market discount, no later than the time such amounts are reflected on certain financial statements of such taxpayer. The application of this rule may require the accrual of income earlier than would have been the case prior to the amendment of Section 451 of the Code. The rule generally applies to taxable years after 2017, except that in the case of income from a debt instrument having original issue discount, the rule does not apply until taxable years after 2018. Investors should consult their own tax advisors regarding the application of this rule and its impact on the timing of the recognition of income related to the Tax-Exempt Discount Bonds under the Code.

Original Issue Premium. The maturities of the Tax-Exempt Bonds that have an original yield below their respective interest rates, as shown on the inside cover page of this Official Statement (collectively, the "Premium Bonds"), are being sold at a premium. An amount equal to the excess of the issue price of a

Premium Bond over its stated redemption price at maturity constitutes premium on such Premium Bond. A purchaser of a Premium Bond must amortize any premium over such Premium Bond's term using constant yield principles, based on the purchaser's yield to maturity (or, in the case of Premium Bonds callable prior to their maturity, generally by amortizing the premium to the call date, based on the purchaser's yield to the call date and giving effect to any call premium). As premium is amortized, the amount of the amortization offsets a corresponding amount of interest for the period, and the purchaser's basis in such Premium Bond is reduced by a corresponding amount resulting in an increase in the gain (or decrease in the loss) to be recognized for federal income tax purposes upon a sale or disposition of such Premium Bond prior to its maturity. Even though the purchaser's basis may be reduced, no federal income tax deduction is allowed. Purchasers of the Premium Bonds should consult their tax advisors with respect to the determination and treatment of premium for federal income tax purposes and with respect to the state and local tax consequences of owning a Premium Bond.

Backup Withholding. As a result of the enactment of the Tax Increase Prevention and Reconciliation Act of 2005, interest on tax-exempt obligations such as the Tax-Exempt Bonds is subject to information reporting in a manner similar to interest paid on taxable obligations. Backup withholding may be imposed on payments to any owner of the Tax-Exempt Bonds that fails to provide certain required information including an accurate taxpayer identification number to any person required to collect such information pursuant to Section 6049 of the Code. The reporting requirement does not in and of itself affect or alter the excludability of interest on the Tax-Exempt Bonds from gross income for federal income tax purposes or any other federal tax consequence of purchasing, holding or selling tax-exempt obligations.

The Taxable Bonds

General Matters. Co-Bond Counsel are of the opinion that interest on the Taxable Bonds is included in gross income for federal income tax purposes. Co-Bond Counsel are also of the opinion that interest on the Taxable Bonds is exempt from State of California personal income taxes. Co-Bond Counsel have expressed no opinion regarding other tax consequences arising with respect to the Taxable Bonds under the laws of the State of California or any other state or jurisdiction.

A copy of the form of each opinion of Co-Bond Counsel is attached hereto as Appendix F.

The following is a summary of certain anticipated federal income tax consequences of the purchase, ownership and disposition of the Taxable Bonds under the Code and the Regulations, and the judicial and administrative rulings and court decisions now in effect, all of which are subject to change or possible differing interpretations. The summary does not purport to address all aspects of federal income taxation that may affect particular investors in light of their individual circumstances, nor certain types of investors subject to special treatment under the federal income tax laws. Potential purchasers of the Taxable Bonds should consult their own tax advisors in determining the federal, state or local tax consequences to them of the purchase, holding and disposition of the Taxable Bonds.

In general, interest paid on the Taxable Bonds, original issue discount, if any, and market discount, if any, will be treated as ordinary income to the owners of the Taxable Bonds, and principal payments (excluding the portion of such payments, if any, characterized as original issue discount or accrued market discount) will be treated as a return of capital.

Bond Premium. An investor that acquires a Taxable Bond for a cost greater than its remaining stated redemption price at maturity and holds such bond as a capital asset will be considered to have purchased such bond at a premium and, subject to prior election permitted by Section 171(c) of the Code, may generally amortize such premium under the constant yield method. Except as may be provided by regulation, amortized premium will be allocated among, and treated as an offset to, interest payments. The basis reduction requirements of Section 1016(a)(5) of the Code apply to amortizable bond premium that reduces interest payments under Section 171 of the Code. Bond premium is generally amortized over the bond's term using

constant yield principles, based on the purchaser's yield to maturity. Investors of any Taxable Bond purchased with a bond premium should consult their own tax advisors as to the effect of such bond premium with respect to their own tax situation and as to the treatment of bond premium for state tax purposes.

Original Issue Discount. If the Taxable Bonds are issued with original issue discount, Section 1272 of the Code requires the current ratable inclusion in income of original issue discount greater than a specified de minimis amount using a constant yield method of accounting. In general, original issue discount is calculated, with regard to any accrual period, by applying the instrument's yield to its adjusted issue price at the beginning of the accrual period, reduced by any qualified stated interest allocable to the period. The aggregate original issue discount allocable to an accrual period is allocated to each day included in such period. As a general rule, the owner of a debt instrument must include in income the sum of the daily portions of original issue discount attributable to the number of days the owner owned the instrument. The legislative history of the original issue discount provisions indicates that the calculation and accrual of original issue discount should be based on the prepayment assumptions used by the parties in pricing the transaction. Owners of Taxable Bonds purchased at a discount should consult their tax advisors with respect to the determination and treatment of original issue discount accrued as of any date, with respect to when such original issue discount must be recognized as an item of gross income (notwithstanding the general rule described above in this paragraph) and with respect to the state and local tax consequences of owning such Taxable Bonds.

Recognition of Income Generally. Section 451 of the Code was amended by Pub. L. No. 115-97, enacted December 22, 2017 (sometimes referred to as the Tax Cuts and Jobs Act), to provide that taxpayers using an accrual method of accounting for federal income tax purposes generally will be required to include certain amounts in income, including original issue discount and market discount, no later than the time such amounts are reflected on certain financial statements of such taxpayer. The application of this rule may require the accrual of income earlier than would have been the case prior to the amendment of Section 451 of the Code. The rule generally applies to taxable years after 2017, except that in the case of income from a debt instrument having original issue discount, the rule does not apply until taxable years after 2018. Investors should consult their own tax advisors regarding the application of this rule and its impact on the timing of the recognition of income related to the Taxable Bonds under the Code.

Market Discount. An investor that acquires a Taxable Bond for a price less than the adjusted issue price of such bond may be subject to the market discount rules of Sections 1276 through 1278 of the Code. Under these sections and the principles applied by the Regulations, "market discount" means (a) in the case of a Taxable Bond originally issued at a discount, the amount by which the issue price of such bond, increased by all accrued original issue discount (as if held since the issue date), exceeds the initial tax basis of the owner therein, less any prior payments that did not constitute payments of qualified stated interest, and (b) in the case of a Taxable Bond not originally issued at a discount, the amount by which the stated redemption price of such bond at maturity exceeds the initial tax basis of the owner therein. Under Section 1276 of the Code, the owner of such a Taxable Bond will generally be required (i) to allocate each principal payment to accrued market discount not previously included in income and, upon sale or other disposition of the bond, to recognize the gain on such sale or disposition as ordinary income to the extent of such cumulative amount of accrued market discount as of the date of sale or other disposition of such a bond or (ii) to elect to include such market discount in income currently as it accrues on all market discount instruments acquired by such owner on or after the first day of the taxable year to which such election applies.

The Code authorizes the Treasury Department to issue regulations providing for the method for accruing market discount on debt instruments the principal of which is payable in more than one installment. Until such time as regulations are issued by the Treasury Department, certain rules described in the legislative history will apply. Under those rules, market discount will be included in income either (a) on a constant interest basis or (b) in proportion to the accrual of stated interest or, in the case of a Taxable Bond with original issue discount, in proportion to the accrual of original issue discount.

An owner of a Taxable Bond that acquired such bond at a market discount also may be required to defer, until the maturity date of such bond or its earlier disposition in a taxable transaction, the deduction of a portion of the amount of interest that the owner paid or accrued during the taxable year on indebtedness incurred or maintained to purchase or carry such bond in excess of the aggregate amount of interest (including original issue discount) includable in such owner's gross income for the taxable year with respect to such bond. The amount of such net interest expense deferred in a taxable year may not exceed the amount of market discount accrued on the Taxable Bond for the days during the taxable year on which the owner held such bond and, in general, would be deductible when such market discount is includable in income. The amount of any remaining deferred deduction is to be taken into account in the taxable year in which the Taxable Bond matures or is disposed of in a taxable transaction. In the case of a disposition in which gain or loss is not recognized in whole or in part, any remaining deferred deduction will be allowed to the extent gain is recognized on the disposition. This deferral rule does not apply if the owner elects to include such market discount in income currently as it accrues on all market discount obligations acquired by such owner in that taxable year or thereafter.

Attention is called to the fact that Regulations implementing the market discount rules have not yet been issued. Therefore, investors should consult their own tax advisors regarding the application of these rules as well as the advisability of making any of the elections with respect thereto.

Unearned Income Medicare Contribution Tax. Pursuant to Section 1411 of the Code, as enacted by the Health Care and Education Reconciliation Act of 2010, an additional tax is imposed on individuals earning certain investment income. Holders of the Taxable Bonds should consult their own tax advisors regarding the application of this tax to interest earned on the Taxable Bonds and to gain on the sale of a Taxable Bond.

Sales or Other Dispositions. If an owner of a Taxable Bond sells the bond, such person will recognize gain or loss equal to the difference between the amount realized on such sale and such owner's basis in such bond. Ordinarily, such gain or loss will be treated as a capital gain or loss.

If the terms of a Taxable Bond were materially modified, in certain circumstances, a new debt obligation would be deemed created and exchanged for the prior obligation in a taxable transaction. Among the modifications that may be treated as material are those that relate to redemption provisions and, in the case of a nonrecourse obligation, those which involve the substitution of collateral. Each potential owner of a Taxable Bond should consult its own tax advisor concerning the circumstances in which such bond would be deemed reissued and the likely effects, if any, of such reissuance.

Defeasance. The legal defeasance of the Taxable Bonds may result in a deemed sale or exchange of such bonds under certain circumstances. Owners of such Taxable Bonds should consult their tax advisors as to the federal income tax consequences of such a defeasance.

Backup Withholding. An owner of a Taxable Bond may be subject to backup withholding at the applicable rate determined by statute with respect to interest paid with respect to the Taxable Bonds, if such owner, upon issuance of the Taxable Bonds, fails to provide to any person required to collect such information pursuant to Section 6049 of the Code with such owner's taxpayer identification number, furnishes an incorrect taxpayer identification number, fails to report interest, dividends or other "reportable payments" (as defined in the Code) properly, or, under certain circumstances, fails to provide such persons with a certified statement, under penalty of perjury, that such owner is not subject to backup withholding.

Foreign Investors. An owner of a Taxable Bond that is not a "United States person" (as defined below) and is not subject to federal income tax as a result of any direct or indirect connection to the United States of America in addition to its ownership of a Taxable Bond will generally not be subject to United States income or withholding tax in respect of a payment on a Taxable Bond, provided that the owner complies to the extent necessary with certain identification requirements (including delivery of a statement, signed by the owner under penalties of perjury, certifying that such owner is not a United States person and providing the

name and address of such owner). For this purpose the term "United States person" means a citizen or resident of the United States of America, a corporation, partnership or other entity created or organized in or under the laws of the United States of America or any political subdivision thereof, or an estate or trust whose income from sources within the United States of America is includable in gross income for United States of America income tax purposes regardless of its connection with the conduct of a trade or business within the United States of America.

Except as explained in the preceding paragraph and subject to the provisions of any applicable tax treaty, a 30 percent United States withholding tax will apply to interest paid and original issue discount accruing on Taxable Bonds owned by foreign investors. In those instances in which payments of interest on the Taxable Bonds continue to be subject to withholding, special rules apply with respect to the withholding of tax on payments of interest on, or the sale or exchange of Taxable Bonds having original issue discount and held by foreign investors. Potential investors that are foreign persons should consult their own tax advisors regarding the specific tax consequences to them of owning a Taxable Bond.

Tax-Exempt Investors. In general, an entity that is exempt from federal income tax under the provisions of Section 501 of the Code is subject to tax on its unrelated business taxable income. An unrelated trade or business is any trade or business that is not substantially related to the purpose that forms the basis for such entity's exemption. However, under the provisions of Section 512 of the Code, interest may be excluded from the calculation of unrelated business taxable income unless the obligation that gave rise to such interest is subject to acquisition indebtedness. Therefore, except to the extent any owner of a Taxable Bond incurs acquisition indebtedness with respect to such bond, interest paid or accrued with respect to such owner may be excluded by such tax-exempt owner from the calculation of unrelated business taxable income. Each potential tax-exempt holder of a Taxable Bond is urged to consult its own tax advisor regarding the application of these provisions.

ERISA Considerations. The Employee Retirement Income Security Act of 1974, as amended ("ERISA"), imposes certain requirements on "employee benefit plans" (as defined in Section 3(3) of ERISA) subject to ERISA, including entities such as collective investment funds and separate accounts whose underlying assets include the assets of such plans (collectively, "ERISA Plans") and on those persons who are fiduciaries with respect to ERISA Plans. Investments by ERISA Plans are subject to ERISA's general fiduciary requirements, including the requirement of investment prudence and diversification and the requirement that an ERISA Plan's investments be made in accordance with the documents governing the ERISA Plan. The prudence of any investment by an ERISA Plan in the Taxable Bonds must be determined by the responsible fiduciary of the ERISA Plan by taking into account the ERISA Plan's particular circumstances and all of the facts and circumstances of the investment. Government and non-electing church plans are generally not subject to ERISA. However, such plans may be subject to similar or other restrictions under state or local law.

In addition, ERISA and the Code generally prohibit certain transactions between an ERISA Plan or a qualified employee benefit plan under the Code and persons who, with respect to that plan, are fiduciaries or other "parties in interest" within the meaning of ERISA or "disqualified persons" within the meaning of the Code. In the absence of an applicable statutory, class or administrative exemption, transactions between an ERISA Plan and a party in interest with respect to an ERISA Plan, including the acquisition by one from the other of the Taxable Bonds could be viewed as violating those prohibitions. In addition, Section 4975 of the Code prohibits transactions between certain tax-favored vehicles such as Individual Retirement Accounts and disqualified persons. Section 503 of the Code includes similar restrictions with respect to governmental and church plans. In this regard, the City or any dealer of the Taxable Bonds might be considered or might become a "party in interest" within the meaning of ERISA or a "disqualified person" within the meaning of the Code, with respect to an ERISA Plan or a plan or arrangement subject to Sections 4975 or 503 of the Code. Prohibited transactions within the meaning of ERISA and the Code may arise if the Taxable Bonds are acquired by such plans or arrangements with respect to which the City or any dealer is a party in interest or disqualified person.

In all events, fiduciaries of ERISA Plans and plans or arrangements subject to the above sections of the Code, in consultation with their advisors, should carefully consider the impact of ERISA and the Code on an investment in the Taxable Bonds. The sale of the Taxable Bonds to a plan is in no respect a representation by the City or the Underwriter that such an investment meets the relevant legal requirements with respect to benefit plans generally or any particular plan. Any plan proposing to invest in the Taxable Bonds should consult with its counsel to confirm that such investment is permitted under the plan documents and will not result in a non-exempt prohibited transaction and will satisfy the other requirements of ERISA, the Code and other applicable law.

Changes in Federal and State Tax Law

From time to time, there are legislative proposals in the Congress and in the states that, if enacted, could alter or amend the federal and state tax matters referred to under this heading "TAX MATTERS" or adversely affect the market value of the Bonds. It cannot be predicted whether or in what form any such proposal might be enacted or whether if enacted it would apply to bonds issued prior to enactment. In addition, regulatory actions are from time to time announced or proposed and litigation is threatened or commenced which, if implemented or concluded in a particular manner, could adversely affect the market value of the Bonds. It cannot be predicted whether any such regulatory action will be implemented, how any particular litigation or judicial action will be resolved, or whether the Bonds or the market value thereof would be impacted thereby. Purchasers of the Bonds should consult their tax advisors regarding any pending or proposed legislation, regulatory initiatives or litigation. The opinions expressed by Co-Bond Counsel are based on existing legislation and regulations as interpreted by relevant judicial and regulatory authorities as of the date of issuance and delivery of the Bonds, and Co-Bond Counsel have expressed no opinion as of any date subsequent thereto or with respect to any pending legislation, regulatory initiatives or litigation.

PROSPECTIVE PURCHASERS OF THE BONDS ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS PRIOR TO ANY PURCHASE OF THE BONDS AS TO THE IMPACT OF THE CODE UPON THEIR ACQUISITION, HOLDING OR DISPOSITION OF THE BONDS.

OTHER LEGAL MATTERS

Certain legal matters incident to the authorization, issuance and sale of the Bonds and with regard to the tax status of the interest on the Bonds (see "TAX MATTERS" herein) are subject to the separate legal opinions of Kutak Rock LLP and Curls Bartling P.C., Co-Bond Counsel to the City. The signed legal opinions of Co-Bond Counsel, dated and premised on facts existing and law in effect as of the date of original delivery of the Bonds, will be delivered to the initial purchaser of the Bonds at the time of original delivery of the Bonds.

The proposed forms of the legal opinions of Co-Bond Counsel is set forth in APPENDIX F hereto. The text of the legal opinions to be delivered may vary if necessary to reflect facts and law on the date of delivery. The opinions will speak only as of their date, and subsequent distributions of the opinions by recirculation of this Official Statement or otherwise will create no implication that Co-Bond Counsel have reviewed or expresses any opinion concerning any of the matters referred to in the opinions subsequent to their date. In rendering their separate opinions, Co-Bond Counsel will rely upon certificates and representations of facts to be contained in the transcript of proceedings for the Bonds, which Co-Bond Counsel will not have independently verified.

Co-Bond Counsel undertakes no responsibility for the accuracy, completeness or fairness of this Official Statement.

Certain legal matters will be passed upon for the City by the City Attorney and by Hawkins Delafield & Wood LLP, San Francisco, California, Disclosure Counsel.

Hawkins Delafield & Wood LLP has served as disclosure counsel to the City and in such capacity has advised the City with respect to applicable securities laws and participated with responsible City officials and staff in conferences and meetings where information contained in this Official Statement was reviewed for accuracy and completeness. Disclosure Counsel is not responsible for the accuracy or completeness of the statements or information presented in this Official Statement and has not undertaken to independently verify any of such statements or information. Rather, the City is solely responsible for the accuracy and completeness of the statements and information contained in this Official Statement. Upon the delivery of the Bonds, Disclosure Counsel will deliver a letter to the City which advises the City, subject to the assumptions, exclusions, qualifications and limitations set forth therein, that no facts came to attention of such firm which caused them to believe that this Official Statement as of its date and as of the date of delivery of the Bonds contained or contains any untrue statement of a material fact or omitted or omits to state any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading. No purchaser or holder of the Bonds, or other person or party other than the City, will be entitled to or may rely on such letter or Hawkins Delafield & Wood LLP's having acted in the role of disclosure counsel to the City.

PROFESSIONALS INVOLVED IN THE OFFERING

Hilltop Securities Inc., San Francisco, California and Ross Financial, San Francisco, California have served as Co-Municipal Advisors to the City with respect to the sale of the Bonds. The Co-Municipal Advisors have assisted the City in the City's review and preparation of this Official Statement and in other matters relating to the planning, structuring, and sale of the Bonds. The Co-Municipal Advisors have not independently verified any of the data contained herein nor conducted a detailed investigation of the affairs of the City to determine the accuracy or completeness of this Official Statement and assume no responsibility for the accuracy or completeness of any of the information contained herein. The Co-Municipal Advisors, Co-Bond Counsel and Disclosure Counsel will all receive compensation from the City for services rendered in connection with the Bonds contingent upon the sale and delivery of the Bonds. The City Treasurer is acting as paying agent and registrar with respect to the Bonds.

ABSENCE OF LITIGATION

No litigation is pending or threatened concerning the validity of the Bonds, the ability of the City to levy the ad valorem tax required to pay debt service on the Bonds, the corporate existence of the City, or the entitlement to their respective offices of the officers of the City who will execute and deliver the Bonds and other documents and certificates in connection therewith. The City will furnish to the initial purchaser of the Bonds a certificate of the City as to the foregoing as of the time of the original delivery of the Bonds.

CONTINUING DISCLOSURE

The City has covenanted for the benefit of the holders and beneficial owners of the Bonds to provide certain financial information and operating data relating to the City (the "Annual Report") not later than 270 days after the end of the City's fiscal year (which currently ends on June 30), commencing with the report for fiscal year 2017-18, which is due not later than March 27, 2019, and to provide notices of the occurrence of certain enumerated events. The Annual Report will be filed by the City with the Municipal Securities Rulemaking Board ("MSRB"). The notices of enumerated events will be filed by the City with the MSRB. The specific nature of the information to be contained in the Annual Report or the notices of enumerated events is summarized in APPENDIX D – "FORM OF CONTINUING DISCLOSURE CERTIFICATE." These covenants have been made in order to assist the purchaser of the Bonds in complying with Securities and Exchange Commission Rule 15c2-12(b)(5). The ratings on certain obligations of the City were upgraded by Fitch Ratings on March 28, 2013. Under certain continuing disclosure undertakings of the City, the City was required to file a notice of such upgrade with the Electronic Municipal Market Access system of the MSRB by April 11, 2013. The City filed such notice on May 20, 2013.

The City may, from time to time, but is not obligated to, post its Comprehensive Annual Financial Report and other financial information on the City Controller's web site at www.sfgov.org/controller.

RATINGS

Moody's Investors Service, Inc. ("Moody's"), S&P Global Ratings ("S&P"), and Fitch Ratings ("Fitch"), have assigned municipal bond ratings of "Aaa," "AA+," and "AA+," respectively, to the Bonds. Certain information not included in this Official Statement was supplied by the City to the rating agencies to be considered in evaluating the Bonds. The ratings reflect only the views of each rating agency, and any explanation of the significance of any rating may be obtained only from the respective credit rating agencies: Moody's, at www.moodys.com; S&P, at www.spratings.com; and Fitch, at www.fitchratings.com. The information presented on the website of each rating agency is not incorporated by reference as part of this Official Statement. Investors are advised to read the entire Official Statement to obtain information essential to the making of an informed investment decision. No assurance can be given that any rating issued by a rating agency will be retained for any given period of time or that the same will not be revised or withdrawn entirely by such rating agency, if in its judgment circumstances so warrant. Any such revision or withdrawal of the ratings obtained may have an adverse effect on the market price or marketability of the Bonds. The City undertakes no responsibility to oppose any such downward revision, suspension or withdrawal.

SALE OF THE BONDS

The Bonds were sold at competitive bid on May 8, 2018. The 2018C Bonds were awarded to Morgan Stanley & Co. LLC (the "2018C Purchaser"), which submitted the lowest true interest cost bid, at a purchase price of \$197,743,748.92 (representing the principal amount of the 2018C Bonds, plus net original issue premium of \$9,018,044.25, less an underwriting discount of \$1,009,295.33). The 2018D Bonds were awarded to Wells Fargo Bank, National Association (the "2018D Purchaser"), which submitted the lowest true interest cost bid, at a purchase price of \$142,145,506.37 (representing the principal amount of the 2018D Bonds, plus original issue premium of \$985,798.65, less an underwriting discount of \$985,292.28). The 2018E Bonds were awarded to Citigroup Global Markets Inc. (the "2018E Purchaser," and together with the 2018C Purchaser and the 2018D Purchaser, the "Purchasers"), which submitted the lowest true interest cost bid, at a purchase price of \$51,523,611.50 (representing the principal amount of the 2018E Bonds, plus net original issue premium of \$1,826,379.30, less an underwriting discount of \$257,767.80).

Under the terms of its bid, each Purchaser will be obligated to purchase all of a Series of the Bonds if any are purchased, the obligation to make such purchase being subject to the approval of certain legal matters by Co-Bond Counsel, and certain other conditions to be satisfied by the City.

The Purchasers provided the reoffering prices or yields set forth on the inside cover of this Official Statement and the City takes no responsibility for the accuracy of those reoffering prices or yields. The Purchasers may offer and sell Bonds to certain dealers and others at prices or yields that differ from those stated on the inside cover. The offering prices or yields may be changed from time to time by the Purchasers.

Morgan Stanley & Co. LLC., the 2018C Purchaser, has entered into a distribution agreement with its affiliate, Morgan Stanley Smith Barney LLC. As part of the distribution arrangement, Morgan Stanley & Co. LLC may distribute municipal securities to retail investors through the financial advisor network of Morgan Stanley Smith Barney LLC. As part of this arrangement, Morgan Stanley & Co. LLC may compensate Morgan Stanley Smith Barney LLC for its selling efforts with respect to the 2018C Bonds.

MISCELLANEOUS

Any statements in this Official Statement involves stated, are intended as such and not as representations of f	ing matters of opinion, whether or not expressly so act. This Official Statement is not to be construed as
a contract or agreement between the City and the initial I the Bonds.	burchaser or owners and beneficial owners of any of
the Bolius.	
The preparation and distribution of this Official Supervisors of the City.	Statement have been duly authorized by the Board of
Supervisors of the City.

APPENDIX A

CITY AND COUNTY OF SAN FRANCISCO ORGANIZATION AND FINANCES

This Appendix contains information that is current as of April 15, 2018.

This Appendix A to the Official Statement of the City and County of San Francisco (the "City" or "San Francisco") provides general information about the City's governance structure, budget processes, property taxation system and other tax and revenue sources, City expenditures, labor relations, employment benefits and retirement costs, investments, bonds and other long-term obligations.

The various reports, documents, websites and other information referred to herein are not incorporated herein by such references. The City has referred to certain specified documents in this Appendix A which are hosted on the City's website. A wide variety of other information, including financial information, concerning the City is available from the City's publications, websites and its departments. Any such information that is inconsistent with the information set forth in this Official Statement should be disregarded and is not a part of or incorporated into this Appendix A. The information contained in this Official Statement, including this Appendix A, speaks only as of its date, and the information herein is subject to change. Prospective investors are advised to read the entire Official Statement to obtain information essential to make an informed investment decision.

CITY GOVERNMENT

City Charter

San Francisco is constituted as a city and county chartered pursuant to Article XI, Sections 3, 4, 5 and 6 of the Constitution of the State of California (the "State"), and is the only consolidated city and county in the State. In addition to its powers under its charter in respect of municipal affairs granted under the State Constitution, San Francisco generally can exercise the powers of both a city and a county under State law. On April 15, 1850, several months before California became a state, the original charter was granted by territorial government to the City. New City charters were adopted by the voters on May 26, 1898, effective January 8, 1900, and on March 26, 1931, effective January 8, 1932. In November 1995, the voters of the City approved the current charter, which went into effect in most respects on July 1, 1996 (the "Charter").

The City is governed by a Board of Supervisors consisting of eleven members elected from supervisorial districts (the "Board of Supervisors"), and a Mayor elected at large who serves as chief executive officer (the "Mayor"). Members of the Board of Supervisors and the Mayor each serve a four-year term. The Mayor and members of the Board of Supervisors are subject to term limits as established by the Charter. Members of the Board of Supervisors may serve no more than two successive four-year terms and may not serve another term until four years have elapsed since the end of the second successive term in office. The Mayor may serve no more than two successive four-year terms, with no limit on the number of non-successive terms of office. The City Attorney, Assessor-Recorder, District Attorney, Treasurer and Tax Collector, Sheriff and Public Defender are also elected directly by the citizens and may serve unlimited four-year terms. The Charter provides a civil service system for most City employees. School functions are carried out by the San Francisco Unified School District (grades K-12) ("SFUSD") and the San Francisco Community College District (post-secondary) ("SFCCD"). Each is a separate legal entity with a separately elected governing board.

Under its original charter, the City committed to a policy of municipal ownership of utilities. The Municipal Railway, when acquired from a private operator in 1912, was the first such city-owned public transit system in the nation. In 1914, the City obtained its municipal water system, including the Hetch Hetchy watershed near Yosemite. In 1927, the City dedicated Mill's Field Municipal Airport at a site in what is now San Mateo County 14 miles south of downtown San Francisco, which would grow to become today's San Francisco International Airport (the "Airport"). In 1969, the City acquired the Port of San Francisco (the "Port") in trust from the State. Substantial expansions and improvements have been made to these enterprises since their original acquisition. The Airport, the Port, the Public Utilities Commission ("Public Utilities Commission") (which now includes the Water Enterprise, the Wastewater Enterprise and the Hetch Hetchy Water and Power Project), the Municipal Transportation Agency ("MTA") (which operates the San Francisco Municipal Railway or "Muni" and the Department of Parking and Traffic ("DPT"), including the Parking Authority and its five public parking garages), and the Cityowned hospitals (San Francisco General and Laguna Honda), are collectively referred to herein as the "enterprise fund departments," as they are not integrated into the City's General Fund operating budget. However, certain of the enterprise fund departments, including San Francisco General Hospital, Laguna Honda Hospital and the MTA receive annually significant General Fund transfers.

The Charter distributes governing authority among the Mayor, the Board of Supervisors, the various other elected officers, the City Controller and other appointed officers, and the boards and commissions that oversee the various City departments. Compared to the governance of the City prior to 1995, the

Charter concentrates relatively more power in the Mayor and Board of Supervisors. The Mayor appoints most commissioners subject to a two-thirds vote of the Board of Supervisors, unless otherwise provided in the Charter. The Mayor appoints each department head from among persons nominated to the position by the appropriate commission, and may remove department heads.

Mayor

Mayor Mark E. Farrell is the 44th Mayor of San Francisco. The Mayor has responsibility for general administration and oversight of all departments in the executive branch of the City. On January 23, then-Supervisor Farrell was voted in as Mayor by his colleagues on the Board of Supervisors, filling the seat of the late Mayor Edwin M. Lee. Mayor Farrell spent seven years on the Board of Supervisors, serving as the Chair of both the Land Use and Transportation Committee, and the Budget and Finance Committee, where he was the City's longest-serving Chair. Prior to joining the Board of Supervisors, Mayor Farrell was a small business owner in the finance sector. Mayor Farrell was born and raised in San Francisco.

2018 Mayoral Election

On June 5, 2018, there will be a special election to elect a new mayor to fulfill the remaining term of the late Mayor Lee who was succeeded by the appointment by the Board of Mayor Mark E. Farrell. After the election results are determined, the Board of Supervisors will convene and act to declare the election results prior to the inauguration of the new mayor. The newly elected Mayor will serve until January 2020.

Board of Supervisors

Table A-1 lists the current members of the Board of Supervisors. The Supervisors are elected for staggered four-year terms and are elected by district. Vacancies are filled by appointment by the Mayor.

TABLE A-1

CITY AND COUNTY OF SAN FRANCISCO Board of Supervisors

	First Elected or	Current
Name	Appointed	Term Expires
Sandra Lee Fewer, District 1	2017	2021

Malia Cohen, District 10	2010	2019
Ahsha Safai, District 11	2017	2021

Other Elected and Appointed City Officers

Dennis J. Herrera was re-elected to a four-year term as City Attorney in November 2015. The City Attorney represents the City in all legal proceedings in which the City has an interest. Mr. Herrera was first elected City Attorney in December 2001. Before becoming City Attorney, Mr. Herrera had been a partner in a private law firm and had served in the Clinton Administration as Chief of Staff of the U.S. Maritime Administration. He also served as president of the San Francisco Police Commission and was a member of the San Francisco Public Transportation Commission.

Carmen Chu was elected Assessor-Recorder of the City in November 2014. The Assessor-Recorder administers the property tax assessment system of the City. Before becoming Assessor-Recorder, Ms. Chu was elected in November 2008 and November 2010 to the Board of Supervisors, representing the Sunset/Parkside District 4 after being appointed by then-Mayor Newsom in September 2007.

José Cisneros was re-elected to a four-year term as Treasurer of the City in November 2015. The Treasurer is responsible for the deposit and investment of all City moneys, and also acts as Tax Collector for the City. Mr. Cisneros has served as Treasurer since September 2004, following his appointment by then-Mayor Newsom. Prior to being appointed Treasurer, Mr. Cisneros served as Deputy General Manager, Capital Planning and External Affairs for the MTA.

Benjamin Rosenfield was appointed to a ten-year term as Controller of the City by then-Mayor Newsom in March 2008, and was confirmed by the Board of Supervisors in accordance with the Charter. Mr. Rosenfield was recently reappointed by Mayor Mark Farrell to a new 10-year term as Controller, and his nomination will be considered for confirmation by the Board of Supervisors on May 1, 2018.

he City Controller is responsible for timely accounting, disbursement, and other disposition of City moneys, certifies the accuracy of budgets, estimates the cost of ballot measures, provides payroll services for the City's employees, and, as the Auditor for the City, directs performance and financial audits of City activities. Before becoming Controller, Mr. Rosenfield served as the Deputy City Administrator under former City Administrator Edwin Lee from 2005 to 2008. He was responsible for the preparation and monitoring of the City's ten-year capital plan, oversight of a number of internal service offices under the City Administrator, and implementing the City's 311 non-emergency customer service center. From 2001 to 2005, Mr. Rosenfield worked as the Budget Director for then-Mayor Willie L. Brown, Jr. and then-Mayor Newsom. As Budget Director, Mr. Rosenfield prepared the City's proposed budget for each fiscal year and worked on behalf of the Mayor to manage City spending during the course of each year. From 1997 to 2001, Mr. Rosenfield worked as an analyst in the Mayor's Budget Office and a project manager in the Controller's Office.

Naomi M. Kelly was appointed to a five-year term as City Administrator by the late Mayor Lee on February 7, 2012 and re-appointed for a second five-year term on February 8, 2017. The City Administrator has overall responsibility for the management and implementation of policies, rules and regulations promulgated by the Mayor, the Board of Supervisors and the voters. In January 2012, Mrs. Kelly became Acting City Administrator. From January 2011, she served as Deputy City Administrator where she was responsible for the Office of Contract Administration, Purchasing, Fleet Management and Central Shops. Mrs. Kelly led the effort to successfully roll out the City's new Local Hire program last year by streamlining rules and regulations, eliminating duplication and creating administrative efficiencies. In 2004, Mrs. Kelly served as the City Purchaser and Director of the Office of Contract Administration. Mrs. Kelly has also served as Special Assistant in the Mayor's Office of Neighborhood

Services, in the Mayor's Office of Policy and Legislative Affairs and served as the City's Executive Director of the Taxicab Commission.

CITY BUDGET

Overview

This section discusses the City's budget procedures, while following sections of this Appendix A describe the City's various sources of revenues and expenditures.

The City manages the operations of its nearly 60 departments, commissions and authorities, including the enterprise fund departments, through its annual budget. In July 2017, the City adopted a full two-year budget. The City's fiscal year 2017-18 adopted budget appropriates annual revenues, fund balance, transfers and reserves of approximately \$10.12 billion, of which the City's General Fund accounts for approximately \$5.15 billion. In fiscal year 2018-19 appropriated revenues, fund balance, transfers and reserves total approximately \$10.00 billion, of which \$5.31 billion represents General Fund budget. For a further discussion of the fiscal years 2017-18 and 2018-19 adopted budgets, see "City Budget Adopted for Fiscal Years 2017-18 and 2018-19" herein.

Each year the Mayor prepares budget legislation for the City departments, which must be approved by the Board of Supervisors. Revenues consist largely of local property taxes, business taxes, sales taxes, other local taxes and charges for services. A significant portion of the City's revenues comes in the form of intergovernmental transfers from the State and federal governments. Thus, the City's fiscal situation is affected by the health of the local real estate market, the local business and tourist economy, and by budgetary decisions made by the State and federal governments which depend, in turn, on the health of the larger State and national economies. All of these factors are almost wholly outside the control of the Mayor, the Board of Supervisors and other City officials. In addition, the State Constitution strictly limits the City's ability to raise taxes and property-based fees without a two-thirds popular vote. See "CONSTITUTIONAL AND STATUTORY LIMITATIONS ON TAXES AND EXPENDITURES" herein. Also, the fact that the City's annual budget must be adopted before the State and federal budgets adds uncertainty to the budget process and necessitates flexibility so that spending decisions can be adjusted during the course of the fiscal year. See "CITY GENERAL FUND PROGRAMS AND EXPENDITURES" herein.

Budget Process

The City's fiscal year commences on July 1. The City's budget process for each fiscal year begins in the middle of the preceding fiscal year as departments prepare their budgets and seek any required approvals from the applicable City board or commission. Departmental budgets are consolidated by the City Controller, and then transmitted to the Mayor no later than the first working day of March. By the first working day of May, the Mayor is required to submit a proposed budget to the Board of Supervisors for certain specified departments, based on criteria set forth in the Administrative Code. On or before the first working day of June, the Mayor is required to submit the complete budget, including all departments, to the Board of Supervisors.

Under the Charter, following the submission of the Mayor's proposed budget, the City Controller must provide an opinion to the Board of Supervisors regarding the accuracy of economic assumptions underlying the revenue estimates and the reasonableness of such estimates and revisions in the proposed budget (the City Controller's "Revenue Letter"). The City Controller may also recommend reserves that are considered prudent given the proposed resources and expenditures contained in the

Mayor's proposed budget. The City Controller's current Revenue Letter can be viewed online at www.sfcontroller.org. The Revenue Letter and other information from said website are not incorporated herein by reference. The City's Capital Planning Committee also reviews the proposed budget and provides recommendations based on the budget's conformance with the City's adopted ten-year capital plan. For a further discussion of the Capital Planning Committee and the City's ten-year capital plan, see "CAPITAL FINANCING AND BONDS — Capital Plan" herein.

The City is required by the Charter to adopt a budget which is balanced in each fund. During its budget approval process, the Board of Supervisors has the power to reduce or augment any appropriation in the proposed budget, provided the total budgeted appropriation amount in each fund is not greater than the total budgeted appropriation amount for such fund submitted by the Mayor. The Board of Supervisors must approve the budget by adoption of the Annual Appropriation Ordinance (also referred to herein as the "Original Budget") by no later than August 1 of each fiscal year.

The Annual Appropriation Ordinance becomes effective with or without the Mayor's signature after 10 days; however, the Mayor has line-item veto authority over specific items in the budget. Additionally, in the event the Mayor were to disapprove the entire ordinance, the Charter directs the Mayor to promptly return the ordinance to the Board of Supervisors, accompanied by a statement indicating the reasons for disapproval and any recommendations which the Mayor may have. Any Annual Appropriation Ordinance so disapproved by the Mayor shall become effective only if, subsequent to its return, it is passed by a two-thirds vote of the Board of Supervisors.

Following the adoption and approval of the Annual Appropriation Ordinance, the City makes various revisions throughout the fiscal year (the Original Budget plus any changes made to date are collectively referred to herein as the "Revised Budget"). A "Final Revised Budget" is prepared at the end of the fiscal year reflecting the year-end revenue and expenditure appropriations for that fiscal year.

November 2009 Charter Amendment Instituting Two-Year Budgetary Cycle

On November 3, 2009, voters approved Proposition A amending the Charter to make significant changes to the City's budget and financial processes which are intended to stabilize spending by requiring multi-year budgeting and financial planning.

Proposition A made four significant changes:

- 1. Specifies a two-year (biennial) budget, replacing the annual budget. Fixed two-year budgets are currently approved by the Board of Supervisors for five departments: the Airport, Child Support Services, the Port, the Public Utilities Commission and MTA. All other departments prepared balanced, rolling two-year budgets.
- 2. Requires a five-year financial plan, which forecasts revenues and expenses and summarizes expected public service levels and funding requirements for that period. The most recent five-year financial plan, including a forecast of expenditures and revenues and proposed actions to balance them in light of strategic goals, was issued by the Mayor, Budget Analyst for the Board of Supervisors and Controller's Office on December 16, 2016, for fiscal year 2017-18 through fiscal year 2021-22, to be considered by the Board of Supervisors. See "Five Year Financial Plan" below. This plan was most recently updated on March 23, 2017.

- 3. Charges the Controller's Office with proposing to the Mayor and Board of Supervisors financial policies addressing reserves, use of volatile revenues, debt and financial measures in the case of disaster recovery and requires the City to adopt budgets consistent with these policies once approved. The Controller's Office may recommend additional financial policies or amendments to existing policies no later than October 1 of any subsequent fiscal year.
- 4. Standardizes the processes and deadlines for the City to submit labor agreements for all public employee unions by May 15.

On April 13, 2010, the Board of Supervisors unanimously adopted policies to 1) codify the City's current practice of maintaining an annual General Reserve for current year fiscal pressures not anticipated in the budget and roughly double the size of the General Reserve by fiscal year 2015-16, and 2) create a new Budget Stabilization Reserve funded by excess receipts from volatile revenue streams to augment the existing Rainy Day Reserve to help the City mitigate the impact of multi-year downturns. On November 8 and 22, 2011, the Board of Supervisors unanimously adopted additional financial policies limiting the future approval of Certificates of Participation and other long-term obligations to 3.25% of discretionary revenue, and specifying that selected nonrecurring revenues may only be spent on nonrecurring expenditures. On December 16, 2014, the Board of Supervisors unanimously adopted financial policies to implement voter-approved changes to the City's Rainy Day Reserve, as well as changes to the General Reserve which would increase the cap from 2% to 3% of revenues and reduce deposit requirements during a recession. These policies are described in further detail below under "Budgetary Reserves." The Controller's Office may propose additional financial policies by October 1 of any fiscal year.

Role of Controller; Budgetary Analysis and Projections

As Chief Fiscal Officer and City Services Auditor, the City Controller monitors spending for all officers, departments and employees charged with receipt, collection or disbursement of City funds. Under the Charter, no obligation to expend City funds can be incurred without a prior certification by the Controller that sufficient revenues are or will be available to meet such obligation as it becomes due in the then-current fiscal year, which ends June 30. The Controller monitors revenues throughout the fiscal year, and if actual revenues are less than estimated, the City Controller may freeze department appropriations or place departments on spending "allotments" which will constrain department expenditures until estimated revenues are realized. If revenues are in excess of what was estimated, or budget surpluses are created, the Controller can certify these surplus funds as a source for supplemental appropriations that may be adopted throughout the year upon approval of the Mayor and the Board of Supervisors. The City's annual expenditures are often different from the estimated expenditures in the Annual Appropriation Ordinance due to supplemental appropriations, continuing appropriations of prior years, and unexpended current-year funds.

In addition to the five year planning responsibilities established in Proposition A of November 2009 and discussed above, Charter Section 3.105 directs the Controller to issue periodic or special financial reports during the fiscal year. Each year, the Controller issues six-month and nine-month budget status reports to apprise the City's policymakers of the current budgetary status, including projected year-end revenues, expenditures and fund balances. The Controller issued the most recent of these reports, the fiscal year 2017-18 Six Month Report (the "Six Month Report"), on February 14, 2018. The City Charter also directs the Controller to annually report on the accuracy of economic assumptions underlying the revenue estimates in the Mayor's proposed budget. On June 9, 2017 the Controller released the Discussion of the Mayor's fiscal year 2017-18 and fiscal year 2018-19 Proposed Budget (the "Revenue

Letter" as described in "Budget Process" above). All of these reports are available from the Controller's website: www.sfcontroller.org. The information from said website is not incorporated herein by reference.

General Fund Results: Audited Financial Statements

The General Fund portions of the fiscal year 2017-18 and 2018-19 Original Budgets total \$5.15 billion and \$5.31 billion, respectively, including appropriations, reserves, and transfers out. These amounts do not include expenditures of the enterprise fund departments such as the Airport, the MTA, the Public Utilities Commission, the Port and the City-owned hospitals (San Francisco General and Laguna Honda). Table A-2 shows Final Revised Budget revenues and appropriations for the City's General Fund for fiscal years 2014-15 through 2016-17 and the Original Budgets for fiscal years 2017-18 and 2018-19. See "PROPERTY TAXATION —Tax Levy and Collection," "OTHER CITY TAX REVENUES" and "CITY GENERAL FUND PROGRAMS AND EXPENDITURES" herein.

The City's most recently completed Comprehensive Annual Financial Report (the "CAFR," which includes the City's audited financial statements) for fiscal year 2016-17 was issued on December 29, 2017. The fiscal year 2016-17 CAFR reported that as of June 30, 2017, the General Fund balance available for appropriation in subsequent years was \$545.9 million (see Table A-4), of which \$183.3 million was assumed in the fiscal year 2017-18 Original Budget and \$288.2 million was assumed in the fiscal year 2018-19 Original Budget. This represents a \$110.7 million increase in available fund balance over the \$435 million available as of June 30, 2016 and resulted primarily from greater-than-budgeted additional tax revenue, particularly property, business and transfer tax revenues, partially offset by under performance in sales, hotel and parking tax revenues in fiscal year 2016-17.

¹ Over the past five years, the City has consolidated various departments to achieve operational efficiencies. This has resulted in changes in how departments were summarized in the service area groupings above for the time periods shown.

Source: Office of the Controller, City and County of San Francisco.

 $^{^{2}\,}$ Fiscal year 2017-18 Final Revised Budget will be available upon release of the fiscal year 2017-18 CAFR.

³ Fiscal year 2018-19 Original Budget Prior-Year Budgetary Fund Balance & Reserves will be reconciled with the previous year's Final Revised Budget.

The City prepares its budget on a modified accrual basis. Accruals for incurred liabilities, such as claims and judgments, workers' compensation, accrued vacation and sick leave pay are funded only as payments are required to be made. The audited General Fund balance as of June 30, 2017 was \$1.9 billion (as shown in Table A-3 and Table A-4) using Generally Accepted Accounting Principles ("GAAP"), derived from audited revenues of \$4.5 billion. Audited General Fund balances are shown in Table A-3 on both a budget basis and a GAAP basis with comparative financial information for the fiscal years ended June 30, 2013 through June 30, 2017.

Table A-4, entitled "Audited Statement of Revenues, Expenditures and Changes in General Fund Balances," is extracted from information in the City's CAFR for the five most recent fiscal years. Audited financial statements for the fiscal year ended June 30, 2017 are included herein as Appendix B — "COMPREHENSIVE ANNUAL FINANCIAL REPORT OF THE CITY AND COUNTY OF SAN FRANCISCO FOR THE YEAR ENDED JUNE 30, 2017." Prior years' audited financial statements can be obtained from the City Controller's website. Information from the City Controller's website is not incorporated herein by reference. Excluded from this Statement of General Fund Revenues and Expenditures in Table A-4 are fiduciary funds, internal service funds, special revenue funds (which relate to proceeds of specific revenue sources which are legally restricted to expenditures for specific purposes) and all of the enterprise fund departments of the City, each of which prepares separate audited financial statements.

¹ Summary of financial information derived from City CAFRs. Fund balances include amounts reserved for rainy day (Economic Stabilization and One-time Spending accounts), encumbrances, appropriation carryforwards and other purposes (as required by the Charter or appropriate accounting practices) as well as unreserved designated and undesignated available fund balances (which amounts constitute unrestricted General Fund balances).

 $Sources: Comprehensive\ Annual\ Financial\ Report;\ Office\ of\ the\ Controller,\ City\ and\ County\ of\ San\ Francisco.$

 $^{^{2}}$ Does not include business taxes allocated to special revenue fund for the Community Challenge Grant program.

³ Total fiscal year 2012-13 amount is comprised of \$122.7 million in assigned balance subsequently appropriated for use in fiscal year 2013-14 plus \$117.8 million unassigned balance available for future appropriations.

Five-Year Financial Plan

The Five-Year Financial Plan ("Plan") is required under Proposition A. The Charter requires the City to forecast expenditures and revenues for the next five fiscal years, propose actions to balance revenues and expenditures during each year of the Plan, and discuss strategic goals and corresponding resources for City departments. Proposition A required that a Plan be adopted every two years. The City updates the Plan annually. The most recently adopted Plan, for fiscal years 2017-18 through 2021-22, was adopted by the Board of Supervisors and signed by the Mayor on May 5, 2017.

On December 21, 2017 (the "December 2017 Update"), the Mayor, Budget Analyst for the Board of Supervisors and the Controller's Office issued an update for the remaining four years of the City's Five Year Financial Plan for fiscal year 2018-19 through fiscal year 2021-22. The December Update Plan projected cumulative annual shortfalls of \$88.2 million, \$173.4 million, \$561.2 million, and \$709.3 million for fiscal years 2018-19 through 2021-22, respectively.

On March 21, 2018 (the "March 2018 Update"), the Mayor, Budget Analyst for the Board of Supervisors and the Controller's Office issued an update to the December 2017 Update. The March 2018 Update projects annual shortfalls of \$37.9 million, \$99.0 million, \$521.0 million, and \$651.9 million cumulative for fiscal years 2018-19 through 2021-22, respectively.

The updated Plan projects growth over a four-year period in General Fund revenues of 9%, primarily composed of growth in local tax sources, offset by projected expenditure increases of 22% over the same period, primarily composed of growth in employee wages and health care costs, citywide operating expenses, and Charter mandated baselines and reserves. The City currently projects growth in General Fund sources of \$488.7 million over the Plan period, and expenditure growth of \$1.14 billion. Growth in salaries and benefits accounts for 47% or \$531.2 million of the cumulative four year shortfall. Growth in citywide operating costs accounts for 25% or \$283 million of the cumulative four year shortfall. Growth in Charter mandated baselines and reserves accounts for 17% or \$190.7 million of the cumulative four year shortfall. Growth in individual department costs account for 12% or \$135.6 million of the cumulative four year shortfall. These figures incorporate the key assumptions from the March 2018 Update, including:

- Continued Increases in Employer Contribution Rates to City Retirement System: Consistent with the prior plan, the March 2018 Update anticipates increased retirement costs. The increase in employer contribution rates is due to three main factors: lower than expected actual fiscal year 2016-17 investment earnings; updated demographic assumptions, which show that retirees are living longer and collecting pensions longer than previously expected; and an appellate court ruling against the City which found that voter-adopted changes to the conditions under which retirees could receive a supplemental COLA violated retirees' vested rights.
- Continued Increases in Wages and Health Care Costs: The March 2018 Update incorporates the cost of contract extensions for most miscellaneous employees, as negotiated for fiscal years 2017-18 and 2018-19, with most labor unions. The parties agreed to a wage increase schedule of 3% on July 1, 2017 and 3% on July 1, 2018, with a provision to delay the fiscal year 2018-19 adjustment by six months if the City's deficit, as projected in the March 2018 Update to the Five-Year Financial Plan, exceeds \$200 million.

The March 2018 Update assumes no change from the December 2017 Update: employer share of health and dental insurance costs for active employees will increase by 6% in fiscal year 2018-19 and 8% in each subsequent fiscal year. This is a significant increase from the proposed Plan

projection in December 2014, which anticipated approximately 5% growth in the employer share of health and dental rates. The March 2018 Update also assumes no change for retiree health costs, which are projected to increase by 9% in each year of projection.

- Voter Adopted Revenue and Spending Requirements: The March 2018 Update continues to assume several new revenue and expenditure requirements adopted by voters in 2016: a Recreation and Parks baseline (June 2016 Proposition B), a Dignity Fund baseline (November 2016 Proposition I), and a Street Tree Maintenance Fund baseline (November 2016 Proposition E). In addition to these spending requirements, the voters adopted an increase to the Real Property Transfer Tax rate (November 2016 Proposition W) and a tax on the distribution of sugar-sweetened beverages (November 2016 Proposition).
- In-Home Supportive Services (IHSS) Cost Shift: IHSS is an entitlement program which provides homecare services to 22,000 elderly and disabled San Franciscans, allowing them to stay in their homes rather than move into more costly nursing facilities or other programs. It is funded by federal, state, and county sources. Due to changes in the fiscal year 2017-18 Enacted State budget, significant costs for this program were shifted from the state to counties. The City's fiscal year 2017-18 and 2018-19 adopted budgets, assumed cost increases of \$11.1 million in fiscal year 2017-18 and \$16.9 million in fiscal year 2018-19, as compared to prior budget projections. As more detail has been released by the State, the March 2018 Update adds an additional cost of \$11.1 million in fiscal year 2017-18, bringing the total cost growth in that year to \$22.3 million above prior projections. The cost shift continues to grow in fiscal year 2018-19 to \$37.9 million, \$60.8 million in fiscal year 2019-20, \$74.2 million in fiscal year 2020-21, and \$84.8 million in fiscal year 2021-22.

Beyond the IHSS Cost Shift, the March 2018 Update does not assume any losses of federal or state revenues, except for formula-driven reductions. Although proposals that would have significant negative impact on the City budget are pending at the state and federal level, it is unclear which will ultimately be adopted and what the specific impacts will be.

While the projected shortfalls in the March 2018 Update reflect the difference in projected revenues and expenditures over the next four years if current service levels and policies continue, San Francisco's Charter requires that each year's budget be balanced. Balancing the budgets will require some combination of expenditure reductions and/or additional revenues. These projections assume no ongoing solutions are implemented. To the extent budgets are balanced with ongoing solutions, future shortfalls will decrease.

The March 2018 Update does not assume an economic downturn due to the difficulty of predicting recessions; however, the City has historically not experienced more than six consecutive years of expansion, and the current economic expansion began over eight years ago.

Based on the revenue and expenditure projections contained in the December 2017 Update, on December 4, 2017, the Mayor's Office issued budget instructions to departments requiring expenditure reductions of 2.5% in fiscal year 2018-19 and an additional reduction of 2.5% in fiscal year 2019-20.

City Budget Adopted for Fiscal Years 2017-18 and 2018-19

On July 26, 2017, the late Mayor Lee signed the Consolidated Budget and Annual Appropriation Ordinance (the "Original Budget") for the fiscal years ending June 30, 2018 and June 30, 2019. This is the sixth two-year budget for the entire City. The adopted budget closed the \$119 million and \$283 million

General Fund shortfalls for fiscal years 2017-18 and 2018-19 identified in the City's December 2016 Plan update through a combination of increased revenues and expenditures savings.

The Original Budget for fiscal year 2017-18 and fiscal year 2018-19 totals \$10.12 billion and \$10.00 billion respectively, representing a year over year increase of \$532 million in fiscal year 2017-18 and year over year decrease of \$117 million in fiscal year 2018-19. The General Fund portion of each year's budget is \$5.15 billion in fiscal year 2017-18 and \$5.31 billion in fiscal year 2018-19 representing year over year increases of \$83 million and \$138 million. There are 30,835 funded full time positions in the fiscal year 2017-18 Original Budget and 30,938 in the fiscal year 2018-19 Original Budget representing year-over-year increases of 208 and 103 positions, respectively.

Other Budget Updates

On June 9, 2017, the Controller's Office issued the Controller's Discussion of the Mayor's fiscal year 2017-18 and fiscal year 2018-19 Proposed Budget ("Revenue Letter"). The report found that the revenue assumptions in the proposed and now-adopted budget are reasonable, voter-required baseline and set-aside requirements are met or exceeded, and that code-mandated reserves and funded and maintained at required levels.

The letter also certified that the Original Budget for fiscal years 2017-18 and 2018-19 adheres to the City's policy limiting the use of certain nonrecurring revenues to nonrecurring expenses proposed by the Controller's Office and approved unanimously by the Board of Supervisors on November 22, 2011. The policy was approved by the Mayor on December 1, 2011 and can only be suspended for a given fiscal year by a two-thirds vote of the Board. Specifically, this policy limited the Mayor and Board's ability to use for operating expenses the following nonrecurring revenues: extraordinary year-end General Fund balance (defined as General Fund prior year unassigned fund balance before deposits to the Rainy Day Reserve or Budget Stabilization Reserve in excess of the average of the previous five years), the General Fund share of revenues from prepayments provided under long-term leases, concessions, or contracts, otherwise unrestricted revenues from legal judgments and settlements, and other unrestricted revenues from the sale of land or other fixed assets. Under the policy, these nonrecurring revenues may only be used for nonrecurring expenditures that do not create liability for or expectation of substantial ongoing costs, including but not limited to: discretionary funding of reserves, acquisition of capital equipment, capital projects included in the City's capital plans, development of affordable housing, and discretionary payment of pension, debt or other long term obligations.

Impact of the State of California Budget on Local Finances

Revenues from the State represent approximately 15% of the General Fund revenues appropriated in the Original Budget for fiscal years 2017-18 and 2018-19, and thus changes in State revenues could have a significant impact on the City's finances. In a typical year, the Governor releases two primary proposed budget documents: 1) the Governor's Proposed Budget required to be submitted in January; and 2) the "May Revise" to the Governor's Proposed Budget. The Governor's Proposed Budget is then considered and typically revised by the State Legislature. Following that process, the State Legislature adopts, and the Governor signs, the State budget. City policy makers review and estimate the impact of both the Governor's Proposed and May Revise Budgets prior to the City adopting its own budget.

On June 27, 2017, the Governor signed the 2017-18 State Budget, appropriating \$183.3 billion from the General Fund and other State funds. General Fund appropriations total \$125.1 billion, \$3.7 billion or 3% more than the 2016-17 budget. The State budget agreement focuses on maintaining fiscal prudence by adding mostly one-time expenditures, paying down past budgetary borrowing and state employee

pension liabilities, and contributing to stabilization reserves. The budget increases funding to K-14 schools and community colleges by adding \$3.1 billion above fiscal year 2016-17 funding levels, including \$1.4 billion through the Local Control Funding Formula. The budget expands the State's Earned Income Tax Credit (EITC) to include a wider income range, as well as self-employed individuals. It also implements the Road Repair and Accountability Act of 2017 (SB1) providing \$54 billion of new transportation infrastructure funding over the next 10 years.

The final fiscal year 2017-18 budget re-bases the In-Home Supportive Services Maintenance-of-Effort "IHSS MOE" agreement negotiated in 2012, as proposed in the Governor's January budget, but provides \$400 million of General Fund support to partially mitigate the increase to counties' costs in fiscal year 2017-18, \$330 million in 2018-19, \$200 million in 2019-20, and \$150 million annually thereafter. The City's fiscal year 2017-18 budget assumes a cost of \$11.1 million to support the IHSS program, partially offset by health and welfare realignment subventions. As more detail has been released, the City projected cost has grown by an additional \$8.8 million in fiscal year 2017-18, bringing the total cost growth to \$19.9 million. On January 10, 2018, the Governor released the State's proposed fiscal year 2018-19 budget. The budget contains no changes to the fundamental structure of the re-based IHSS MOE. The exact impact of the new IHSS funding structure on the City is still uncertain, as the funding structure and formulas are still being developed.

In addition, the City's fiscal year 2017-18 budget assumes \$8.6 million of new street-related capital funding through the Road Repair and Accountability Act of 2017 (SB1). This amount is expected to annualize to approximately \$23 million in fiscal year 2018-19. A potential November 2018 state ballot measure to repeal the gas tax increase would result in a loss of these funds.

Impact of Federal Government on Local Finances

The City is continuing to assess the potential material adverse changes in current and anticipated federal funding under the current presidential administration and Congress. These changes include, for example, potential increased costs associated with changes to or termination or replacement of the Affordable Care Act ("ACA"), potential withholding of federal grants or other federal funds flowing to "sanctuary jurisdictions" and suspension or termination of other federal grants for capital projects. The scope and timing of such changes will not be known until the administration concretely proposes specific changes or Congress acts on such proposals, as applicable. As to potential withholding of funds for "sanctuary cities" the City has challenged in federal court the Presidential Executive Order that would cut funding from "sanctuary jurisdictions." The federal district court issued a permanent injunction in November 2017, and the case is currently on appeal at the Ninth Circuit. The fiscal year 2016-17 Original Budget includes about \$1.2 billion in federal payments, of which about \$1 billion is for entitlement programs mostly administered by the City's Human Services Agency and Department of Public Health. The City also receives about \$800 million in multi-year federal grants. The City will continue to monitor federal budget and policy changes, but cannot at this time determine the financial impacts of any proposed federal budget changes, or whether the budget will include a reserve against anticipated loss of federal funding.

The federal tax reform bill that was approved by Congress on December 20, 2017 and its effects on San Francisco are not clear at this time. However, the local economy may be affected by the tax law's provisions, including: (1) creation of a \$10,000 cap on the state and local tax deduction, which will increase many residents' total tax liabilities and affect consumer spending; (2) repeal of the individual health insurance mandate under the ACA; and (3) reduction in the mortgage interest tax deduction.

Budgetary Reserves

Under the Charter, the Treasurer, upon recommendation of the City Controller, is authorized to transfer legally available moneys to the City's operating cash reserve from any unencumbered funds then held in the City's pooled investment fund. The operating cash reserve is available to cover cash flow deficits in various City funds, including the City's General Fund. From time to time, the Treasurer has transferred unencumbered moneys in the pooled investment fund to the operating cash reserve to cover temporary cash flow deficits in the General Fund and other City funds. Any such transfers must be repaid within the same fiscal year in which the transfer was made, together with interest at the rate earned on the pooled funds at the time the funds were used. The City has not issued tax and revenue anticipation notes to finance short-term cash flow needs since fiscal year 1996-97. See "INVESTMENT OF CITY FUNDS — Investment Policy" herein.

The financial policies passed on April 13, 2010 codified the current practice of maintaining an annual General Reserve to be used for current-year fiscal pressures not anticipated during the budget process. The policy set the reserve equal to 1% of budgeted regular General Fund revenues in fiscal year 2012-13 and increasing by 0.25% each year thereafter until reaching 2% of General Fund revenues in fiscal year 2016-17. The Original Budget for fiscal years 2017-18 and 2018-19 includes starting balances of \$107.3 million and \$121.4 million for the General Reserve, respectively. On December 16, 2014, the Board of Supervisors adopted financial policies to further increase the City's General Reserve from 2% to 3% of General Fund revenues between fiscal year 2017-18 and fiscal year 2020-21 while reducing the required deposit to 1.5% of General Fund revenues during economic downturns. The intent of this policy change is to increase reserves available during a multi-year downturn.

In addition to the operating cash and general reserves, the City maintains two types of reserves to offset unanticipated expenses and which are available for appropriation to City departments by action of the Board of Supervisors. These include the Salaries and Benefit Reserve (Original Budget for fiscal years 2017-18 and 2018-19 includes \$14.5 million in fiscal year 2017-18 and \$31.0 million in fiscal year 2018-19), and the Litigation Reserve (Original Budget for fiscal years 2017-18 and 2018-19 includes \$11 million in each year). Balances in both reflect new appropriations to the reserves and do not include carry-forward of prior year balances. The Charter also requires set asides of a portion of departmental expenditure savings in the form of a citywide Budget Savings Incentive Reserve and a Recreation and Parks Budget Savings Incentive Reserve.

The City also maintains Rainy Day and Budget Stabilization reserves whose balances carry-forward annually and whose use is allowed under select circumstances described below.

Rainy Day Reserve

In November 2003, City voters approved the creation of the City's Rainy Day Reserve into which the previous Charter-mandated cash reserve was incorporated. Charter Section 9.113.5 requires that if the Controller projects total General Fund revenues for the upcoming budget year will exceed total General Fund revenues for the current year by more than five percent, then the City's budget shall allocate the anticipated General Fund revenues in excess of that five percent growth into two accounts within the Rainy Day Reserve and for other lawful governmental purposes. Effective January 1, 2015, Proposition C passed by the voters in November 2014 divided the existing Rainy Day Economic Stabilization Account into a City Rainy Day Reserve ("City Reserve") and a School Rainy Day Reserve ("School Reserve") with each reserve account receiving 50% of the existing balance. Additionally, any deposits to the reserve subsequent to January 1, 2015 will be allocated as follows:

- 37.5 percent of the excess revenues to the City Reserve;
- 12.5 percent of the excess revenues to the School Reserve;
- 25 percent of the excess revenues to the Rainy Day One-Time or Capital Expenditures account; and
- 25 percent of the excess revenues to any lawful governmental purpose.

Fiscal year 2016-17 revenue exceeded the deposit threshold by \$8.9 million generating a deposit of \$3.4 million to the City Reserve, \$1.1 million to the School Reserve, and \$2.2 million to the One-Time or Capital Expenditures account. Deposits to the Rainy Day Reserve's Economic Stabilization account are subject to a cap of 10% of actual total General Fund revenues as stated in the City's most recent independent annual audit. Amounts in excess of that cap in any year will be allocated to capital and other one-time expenditures.

Monies in the City Reserve are available to provide a budgetary cushion in years when General Fund revenues are projected to decrease from prior-year levels (or, in the case of a multi-year downturn, the highest of any previous year's total General Fund revenues). Monies in the Rainy Day Reserve's One-Time or Capital Expenditures account are available for capital and other one-time spending initiatives. The fiscal year 2016-17 combined ending balance of the One-Time and Economic Stabilization portions of the Reserve was \$125.7 million. There are no projected deposits or withdrawals assumed in the fiscal year 2017-18 and 2018-19 budgets.

Budget Stabilization Reserve

On April 13, 2010, the Board of Supervisors unanimously approved the Controller's proposed financial policies on reserves and the use of certain volatile revenues. The policies were approved by the Mayor on April 30, 2010, and can only be suspended for a given fiscal year by a two-thirds vote of the Board. With these policies the City created two additional types of reserves: the General Reserve, described above, and the Budget Stabilization Reserve.

The Budget Stabilization Reserve augments the existing Rainy Day Reserve and is funded through the dedication of 75% of certain volatile revenues, including Real Property Transfer Tax ("RPTT") receipts in excess of the five-year annual average (controlling for the effect of any rate increases approved by voters), funds from the sale of assets, and year-end unassigned General Fund balances beyond the amount assumed as a source in the subsequent year's budget.

Fiscal year 2016-17 RPTT receipts exceeded the five-year annual average by \$144.4 million and ending general fund unassigned fund balance was 57.6 million, triggering a \$57.6 million deposit. However, \$6.7 million of this deposit requirement was offset by the Rainy Day Reserve deposit, resulting in a \$144.8 million deposit to the Budget Stabilization Reserve and leaving an ending balance to \$323.3 million. The fiscal year 2017-18 and 2018-19 budgets assume no reserve deposits given projected RPTT receipts. The Controller's Office determines deposits in October of each year based on actual receipts during the prior fiscal year.

The maximum combined value of the Rainy Day Reserve and the Budget Stabilization Reserve is 10% of General Fund revenues, which would be approximately \$467 million for fiscal year 2016-17. No further deposits will be made once this cap is reached, and no deposits are required in years when the City is eligible to withdraw. The Budget Stabilization Reserve has the same withdrawal requirements as the Rainy Day Reserve, however, there is no provision for allocations to the SFUSD. Withdrawals are structured to occur over a period of three years: in the first year of a downturn, a maximum of 30% of the combined value of the Rainy Day Reserve and Budget Stabilization Reserve could be drawn; in the

second year, the maximum withdrawal is 50%; and, in the third year, the entire remaining balance may be drawn.

THE SUCCESSOR AGENCY

As described below, the Successor Agency was established by the Board of Supervisors of the City following dissolution of the former San Francisco Redevelopment Agency (the "Former Agency") pursuant to the Dissolution Act (defined below). Within City government, the Successor Agency is titled "The Office of Community Investment and Infrastructure as the Successor to the San Francisco Redevelopment Agency." Set forth below is a discussion of the history of the Former Agency and the Successor Agency, the governance and operations of the Successor Agency and its powers under the Redevelopment Law and the Dissolution Act, and the limitations thereon.

The Successor Agency maintains a website as part of the City's website. The information on such websites is not incorporated herein by reference.

Authority and Personnel

The powers of the Successor Agency are vested in its governing board (the "Successor Agency Commission"), referred to within the City as the "Commission on Community Investment and Infrastructure," which has five members who are appointed by the Mayor of the City with the approval of the Board of Supervisors. Members are appointed to staggered four-year terms (provided that two members have initial two-year terms). Once appointed, members serve until replaced or reappointed.

The Successor Agency currently employs approximately 47 full-time equivalent positions. The Executive Director, Nadia Sesay, was appointed in October 2017. The other principal full-time staff positions are the Deputy Director, Projects and Programs; the Deputy Director, Finance and Administration; and the Successor Agency General Counsel and Deputy Director. Each project area in which the Successor Agency continues to implement redevelopment plans, is managed by a Project Manager. There are separate staff support divisions with real estate and housing development specialists, architects, engineers and planners, and the Successor Agency has its own fiscal, legal, administrative and property management staffs.

Effect of the Dissolution Act

AB 26 and AB 27. The Former Agency was established under the Community Redevelopment Law in 1948. As a result of AB 1X 26 and the decision of the California Supreme Court in the California Redevelopment Association case, as of February 1, 2012, (collectively, the "Dissolution Act"), redevelopment agencies in the State were dissolved, including the Former Agency, and successor agencies were designated as successor entities to the former redevelopment agencies to expeditiously wind down the affairs of the former redevelopment agencies and also to satisfy "enforceable obligations" of the former redevelopment agency all under the supervision of a new oversight board, the State Department of Finance and the State Controller.

Pursuant to Resolution No. 11-12 (the "Establishing Resolution") adopted by the Board of Supervisors of the City on January 24, 2012 and signed by the Mayor on January 26, 2012, and Sections 34171(j) and 34173 of the Dissolution Act, the Board of Supervisors of the City confirmed the City's role as successor to the Former Agency. On June 27, 2012, the Redevelopment Law was amended by AB 1484, which clarified that successor agencies are separate political entities and that the successor agency succeeds to the organizational status of the former redevelopment agency but without any legal authority to

participate in redevelopment activities except to complete the work related to an approved enforceable obligation.

Pursuant to Ordinance No. 215-12 passed by the Board of Supervisors of the City on October 2, 2012 and signed by the Mayor on October 4, 2012, the Board of Supervisors (i) officially gave the following name to the Successor Agency: the "Successor Agency to the Redevelopment Agency of the City and County of San Francisco," (ii) created the Successor Agency Commission as the policy body of the Successor Agency, (iii) delegated to the Successor Agency Commission the authority to act in place of the Former Agency Commission to implement the surviving redevelopment projects, the replacement housing obligations and other enforceable obligations of the Former Agency and the authority to take actions that AB 26 and AB 1484 require or allow on behalf of the Successor Agency and (iv) established the composition and terms of the members of the Successor Agency Commission.

As discussed below, many actions of the Successor Agency are subject to approval by an "oversight board" and the review or approval by the California Department of Finance, including the issuance of bonds but excludes the community facilities district ("CFD") bonds that the agency may issue from time to time.

Oversight Board

The Oversight Board was formed pursuant to Establishing Resolution adopted by the City's Board of Supervisors and signed by the Mayor on January 26, 2012. The Oversight Board is governed by a seven-member governing board, with four members appointed by the Mayor, and one member appointed by each of the Bay Area Rapid Transit District ("BART"), the Chancellor of the California Community Colleges, and the County Superintendent of Education.

Department of Finance Finding of Completion

The Dissolution Act established a process for determining the liquid assets that redevelopment agencies should have shifted to their successor agencies when they were dissolved, and the amount that should be available for remittance by the successor agencies to their respective county auditor-controllers for distribution to affected taxing entities within the project areas of the former redevelopment agencies. This determination process was required to be completed through the final step (review by the State Department of Finance) by November 9, 2012 with respect to affordable housing funds and by April 1, 2013 with respect to non-housing funds. Within five business days of receiving notification from the State Department of Finance, a successor agency must remit to the county auditor-controller the amount of unobligated balances determined by the State Department of Finance, or it may request a meet and confer with the State Department of Finance to resolve any disputes.

On May 23, 2013, the Successor Agency promptly remitted to the City Controller the amounts of unobligated balances relating to affordable housing funds, determined by the State Department of Finance in the amount of \$10,577,932, plus \$1,916 in interest. On May 23, 2013, the Successor Agency promptly remitted to the City Controller the amount of unobligated balances relating to all other funds determined by the State Department of Finance in the amount of \$959,147. The Successor Agency has made all payments required under AB 1484 and has received its finding of completion from the State Department of Finance on May 29, 2013.

State Controller Asset Transfer Review

The Dissolution Act requires that any assets of a former redevelopment agency transferred to a city, county or other local agency after January 1, 2011, be sent back to the successor agency. The Dissolution Act further requires that the State Controller review any such transfer. The State Controller's Office, ('SCO") issued their Asset Transfer Review in October 2014. The review found \$746,060,330 in assets transferred to the City after January 1, 2011, including unallowable transfers to the City totaling \$666,830, or less than 1% of transferred assets. The City returned \$666,830 to Office of Community Investment and Infrastructure, ("OCII") to comply with the SCO review.

Continuing Activities

The Former Agency was organized in 1948 by the Board of Supervisors of the City pursuant to the Redevelopment Law. The Former Agency's mission was to eliminate physical and economic blight within specific geographic areas of the City designated by the Board of Supervisors. The Former Agency had redevelopment plans for nine redevelopment project areas.

Because of the existence of enforceable obligations, the Successor Agency is authorized to continue to implement, through the issuance of tax allocation bonds, four major redevelopment projects that were previously administered by the Former Agency: (i) the Mission Bay North and South Redevelopment Project Areas, (ii) the Hunters Point Shipyard Redevelopment Project Area and Zone 1 of the Bayview Redevelopment Project Area, and (iii) the Transbay Redevelopment Project Area (collectively, the "Major Approved Development Projects"). In addition, the Successor Agency continues to manage Yerba Buena Gardens and other assets within the former Yerba Buena Center Redevelopment Project Area ("YBC"). The Successor Agency exercises land use, development and design approval authority for the Major Approved Development Projects and manages the former Redevelopment Agency assets in YBC in place of the Former Agency. The Successor Agency also issues CFD bonds from time to time to facilitate development in the major approved development projects in accordance with the terms of such enforceable obligations.

PROPERTY TAXATION

Property Taxation System – General

The City receives approximately one-third of its total General Fund operating revenues from local property taxes. Property tax revenues result from the application of the appropriate tax rate to the total assessed value of taxable property in the City. The City levies property taxes for general operating purposes as well as for the payment of voter-approved bonds. As a county under State law, the City also levies property taxes on behalf of all local agencies with overlapping jurisdiction within the boundaries of the City.

Local property taxation is the responsibility of various City officers. The Assessor computes the value of locally assessed taxable property. After the assessed roll is closed on June 30th, the City Controller issues a Certificate of Assessed Valuation in August which certifies the taxable assessed value for that fiscal year. The Controller also compiles a schedule of tax rates including the 1.0% tax authorized by Article XIIIA of the State Constitution (and mandated by statute), tax surcharges needed to repay voter-approved general obligation bonds, and tax surcharges imposed by overlapping jurisdictions that have been authorized to levy taxes on property located in the City. The Board of Supervisors approves the schedule of tax rates each year by ordinance adopted no later than the last working day of September. The Treasurer and Tax Collector prepare and mail tax bills to taxpayers and collect the taxes on behalf of

the City and other overlapping taxing agencies that levy taxes on taxable property located in the City. The Treasurer holds and invests City tax funds, including taxes collected for payment of general obligation bonds, and is charged with payment of principal and interest on such bonds when due. The State Board of Equalization assesses certain special classes of property, as described below. See "Taxation of State-Assessed Utility Property" below.

Assessed Valuations, Tax Rates and Tax Delinquencies

Table A-5 provides a recent history of assessed valuations of taxable property within the City. The property tax rate is composed of two components: 1) the 1.0% countywide portion, and 2) all voter-approved overrides which fund debt service for general obligation bond indebtedness. The total tax rate shown in Table A-5 includes taxes assessed on behalf of the City as well as SFUSD, SFCCD, the Bay Area Air Quality Management District ("BAAQMD"), and BART, all of which are legal entities separate from the City. See also, Table A-26: "Statement of Direct and Overlapping Debt and Long-Term Obligations" below. In addition to *ad valorem* taxes, voter-approved special assessment taxes or direct charges may also appear on a property tax bill.

Additionally, although no additional rate is levied, a portion of property taxes collected within the City is allocated to the Successor Agency (OCII). Property tax revenues attributable to the growth in assessed value of taxable property (known as "tax increment") within the adopted redevelopment project areas may be utilized by OCII to pay for outstanding and enforceable obligations and a portion of administrative costs of the agency causing a loss of tax revenues from those parcels located within project areas to the City and other local taxing agencies, including SFUSD and SFCCD. Taxes collected for payment of debt service on general obligation bonds are not affected or diverted. The Successor Agency received \$129 million of property tax increment in fiscal year 2016-17, diverting about \$72 million that would have otherwise been apportioned to the City's discretionary general fund.

The percent collected of property tax (current year levies excluding supplemental) was 99.15% for fiscal year 2016-17. This table has been modified from the corresponding table in previous disclosures to make the levy and collection figures consistent with statistical reports provided to the State. Foreclosures, defined as the number of trustee deeds recorded by the Assessor-Recorder's Office, numbered 212 for fiscal year 2015-16 compared to 102 for fiscal year 2014-15. The trustee deeds recorded in fiscal year 2011-12, fiscal year 2012-13 and fiscal year 2013-14 were 804, 363 and 187, respectively. In fiscal year 2016-17 there were 262 Notices of Trustee's Sales deeds recorded.

 $SCO\,source\,noted\,in\,(3): http://www.sco.ca.gov/Files-ARD-Tax-Info/TaxDelinq/sanfrancisco.pdf$

At the start of fiscal year 2017-18, the total net assessed valuation of taxable property within the City was \$234.1 billion. Of this total, \$220.1 billion (94.0%) represents secured valuations and \$14.0 billion (6.0%) represents unsecured valuations. See "Tax Levy and Collection" below, for a further discussion of secured and unsecured property valuations.

Proposition 13 limits to 2% per year any increase in the assessed value of property, unless it is sold or the structure is improved. The total net assessed valuation of taxable property therefore does not generally reflect the current market value of taxable property within the City and is in the aggregate substantially less than current market value. For this same reason, the total net assessed valuation of taxable property lags behind changes in market value and may continue to increase even without an increase in aggregate market values of property.

Under Article XIIIA of the State Constitution added by Proposition 13 in 1978, property sold after March 1, 1975 must be reassessed to full cash value at the time of sale. Every year, some taxpayers appeal the Assessor's determination of their property's assessed value, and some of the appeals may be retroactive and for multiple years. The State prescribes the assessment valuation methodologies and the adjudication process that counties must employ in connection with counties' property assessments.

The City typically experiences increases in assessment appeals activity during economic downturns and decreases in appeals as the economy rebounds. Historically, during severe economic downturns, partial reductions of up to approximately 30% of the assessed valuations appealed have been granted. Assessment appeals granted typically result in revenue refunds, and the level of refund activity depends

 $^{^{\}rm 2}$ Annual tax rate for unsecured property is the same rate as the previous year's secured tax rate.

³ The Total Tax Levy and Total Tax Collected through fiscal year 2016-17 is based on year-end current year secured and unsecured levies as adjusted through roll corrections, excluding supplemental assessments, as reported to the State of California (available on the website of the California SCO). Total Tax Levy for fiscal year 2017-18 is based on NAV times the 1.1723% tax rate.

on the unique economic circumstances of each fiscal year. Other taxing agencies such as SFUSD, SFCCD, BAAQMD, and BART share proportionately in the rest of any refunds paid as a result of successful appeals. To mitigate the financial risk of potential assessment appeal refunds, the City funds appeal reserves for its share of estimated property tax revenues for each fiscal year.

In addition, appeals activity is reviewed each year and incorporated into the current and subsequent years' budget projections of property tax revenues. Refunds of prior years' property taxes from the discretionary General Fund appeals reserve fund for fiscal years 2011-12 through 2016-17 are listed in Table A-6 below.

TABLE A-6

CITY AND COUNTY OF SAN FRANCISCO Refunds of Prior Years' Property Taxes General Fund Assessment Appeals Reserve Fiscal Years 2011-12 through 2016-17 (000s)

Fiscal Year	Amount Refunded
2011-12	\$53,288
2012-13	36,744
2013-14	25,756
2014-15	16,304
2015-16	16,199
2016-17	33,397

Source: Office of the Controller, City and County of San Francisco.

As of July 1, 2017, the Assessor granted 7,090 temporary reductions in property assessed values worth a total of \$194.9 million (equating to a reduction of approximately \$2.3 million in general fund taxes), compared to 7,055 temporary reductions worth \$128.7 million (equating to a reduction of approximately \$1.52 million in general fund taxes) as of July 1, 2016 and 8,598 temporary reductions worth \$425.1 million (equating to a reduction of approximately \$5.03 million in general fund taxes) as of July 1, 2015. The July 2017 temporary reductions of \$194.9 million represent.08% of the fiscal year 2017-18 Net Assessed Valuation of \$234.1 billion shown in Table A-5. All of the temporary reductions granted are subject to review in the following year. Property owners who are not satisfied with the valuation shown on a Notice of Assessed Value may have a right to file an appeal with the Assessment Appeals Board ("AAB") within a certain period of time. For regular, annual secured property tax assessments, the time period for property owners to file an appeal typically falls between July 2nd and September 15th.

As of December 31, 2017, the total number of open appeals before the AAB was 1,605, compared to 1,754 open AAB appeals as of December 31, 2016. In the first six months of fiscal year 2017-18, there were 1,183 new appeals filed. The difference between the current assessed value and the taxpayers' opinion of values for the open AAB appeals is \$13.5 billion. Assuming the City did not contest any taxpayer appeals and the Board upheld all the taxpayers' requests, a negative potential property tax impact of about \$158.4 million would result, with an negative impact on the General Fund of about \$80.9 million. The volume of appeals is not necessarily an indication of how many appeals will be granted, nor of the magnitude of the reduction in assessed valuation that the Assessor may ultimately grant. City revenue estimates take into account projected losses from pending and future assessment appeals.

Tax Levy and Collection

As the local tax-levying agency under State law, the City levies property taxes on all taxable property within the City's boundaries for the benefit of all overlapping local agencies, including SFUSD, SFCCD, the Bay Area Air Quality Management District and BART. The total tax levy for all taxing entities in fiscal year 2017-18 is estimated to produce about \$2.7 billion, not including supplemental, escape and special assessments that may be assessed during the year. Of total property tax revenues (including supplemental and escape property taxes), the City has budgeted to receive \$1.6 billion into the General Fund and \$201.5 million into special revenue funds designated for children's programs, libraries and open space. SFUSD and SFCCD are estimated to receive about \$176.3 million and \$33.1 million, respectively, and the local ERAF is estimated to receive \$580.0 million (before adjusting for the vehicle license fees ("VLF") backfill shift). The Successor Agency will receive about \$136 million. The remaining portion is allocated to various other governmental bodies, various special funds, and general obligation bond debt service funds, and other taxing entities. Taxes levied to pay debt service for general obligation bonds issued by the City, SFUSD, SFCCD and BART may only be applied for that purpose.

General Fund property tax revenues in fiscal year 2016-17 were \$1.48 billion, representing an increase of \$66 million (4.7%) over fiscal year 2016-17 Original Budget and \$85.7 million (6.2%) over fiscal year 2015-16 actual revenue. Property tax revenue is budgeted at \$1.56 billion in fiscal year 2017-18 representing an increase of \$78.3 million (5.3%) over fiscal year 2016-17 actual receipts and \$1.62 billion in fiscal year 2018-19 representing an annual increase of \$63.0 million (4.0%) over fiscal year 2017-18 budget. Tables A-2 and A-3 set forth a history of budgeted and actual property tax revenues for fiscal years 2011-12 through 2016-17, and budgeted receipts for fiscal years 2017-18 and fiscal year 2018-19.

The City's General Fund is allocated about 48% of total property tax revenue before adjusting for the VLF backfill shift. The State's Triple Flip ended in fiscal year 2015-16, eliminating the sales tax in-lieu revenue from property taxes from succeeding fiscal years and shifting it to the local sales tax revenue line.

Generally, property taxes levied by the City on real property becomes a lien on that property by operation of law. A tax levied on personal property does not automatically become a lien against real property without an affirmative act of the City taxing authority. Real property tax liens have priority over all other liens against the same property regardless of the time of their creation by virtue of express provision of law.

Property subject to ad valorem taxes is entered as secured or unsecured on the assessment roll maintained by the Assessor-Recorder. The secured roll is that part of the assessment roll containing State-assessed property and property (real or personal) on which liens are sufficient, in the opinion of the Assessor-Recorder, to secure payment of the taxes owed. Other property is placed on the "unsecured roll."

The method of collecting delinquent taxes is substantially different for the two classifications of property. The City has four ways of collecting unsecured personal property taxes: 1) pursuing civil action against the taxpayer; 2) filing a certificate in the Office of the Clerk of the Court specifying certain facts, including the date of mailing a copy thereof to the affected taxpayer, in order to obtain a judgment against the taxpayer; 3) filing a certificate of delinquency for recording in the Assessor-Recorder's Office in order to obtain a lien on certain property of the taxpayer; and 4) seizing and selling personal property, improvements or possessory interests belonging or assessed to the taxpayer. The exclusive means of

enforcing the payment of delinquent taxes with respect to property on the secured roll is the sale of the property securing the taxes. Proceeds of the sale are used to pay the costs of sale and the amount of delinquent taxes.

A 10% penalty is added to delinquent taxes that have been levied on property on the secured roll. In addition, property on the secured roll with respect to which taxes are delinquent is declared "tax defaulted" and subject to eventual sale by the Treasurer and Tax Collector of the City. Such property may thereafter be redeemed by payment of the delinquent taxes and the delinquency penalty, plus a redemption penalty of 1.5% per month, which begins to accrue on such taxes beginning July 1 following the date on which the property becomes tax-defaulted.

In October 1993, the Board of Supervisors passed a resolution that adopted the Alternative Method of Tax Apportionment (the "Teeter Plan"). This resolution changed the method by which the City apportions property taxes among itself and other taxing agencies. Additionally, in June 2017, the Teeter Plan was extended to include the allocation and distribution of special taxes levied for City and County of San Francisco Community Facilities District No. 2014-1 (Transbay Transit Center). The Teeter Plan method authorizes the City Controller to allocate to the City's taxing agencies 100% of the secured property taxes billed but not yet collected. In return, as the delinquent property taxes and associated penalties and interest are collected, the City's General Fund retains such amounts. Prior to adoption of the Teeter Plan, the City could only allocate secured property taxes actually collected (property taxes billed minus delinquent taxes). Delinquent taxes, penalties and interest were allocated to the City and other taxing agencies only when they were collected. The City has funded payment of accrued and current delinquencies through authorized internal borrowing. The City also maintains a Tax Loss Reserve for the Teeter Plan as shown on Table A-7.

Francisco.

Assessed valuations of the aggregate ten largest assessment parcels in the City for the fiscal year beginning July 1, 2017 are shown in Table A-8. The City cannot determine from its assessment records whether individual persons, corporations or other organizations are liable for tax payments with respect to multiple properties held in various names that in aggregate may be larger than is suggested by the Office of the Assessor-Recorder.

Taxation of State-Assessed Utility Property

A portion of the City's total net assessed valuation consists of utility property subject to assessment by the State Board of Equalization. State-assessed property, or "unitary property," is property of a utility system with components located in many taxing jurisdictions assessed as part of a "going concern" rather than as individual parcels of real or personal property. Unitary and certain other State-assessed

¹ Represents the Total Assessed Valuation (TAV) as of the Basis of Levy, which excludes assessments processed during the fiscal year. TAV includes land & improvements, personal property, and fixtures.

² The Basis of Levy is total assessed value less exemptions for which the state does not reimburse counties (e.g. those that apply to nonprofit organizations).

³ Nonprofit organization that is exempt from property taxes.
Source: Office of the Assessor -Recorder, City and County of San Francisco.

property values are allocated to the counties by the State Board of Equalization, taxed at special county-wide rates, and the tax revenues distributed to taxing jurisdictions (including the City itself) according to statutory formulae generally based on the distribution of taxes in the prior year. The fiscal year 2016-17 valuation of property assessed by the State Board of Equalization is \$3.5 billion.

OTHER CITY TAX REVENUES

In addition to the property tax, the City has several other major tax revenue sources, as described below. For a discussion of State constitutional and statutory limitations on taxes that may be imposed by the City, including a discussion of Proposition 62 and Proposition 218, see "CONSTITUTIONAL AND STATUTORY LIMITATIONS ON TAXES AND EXPENDITURES" herein.

The following section contains a brief description of other major City-imposed taxes as well as taxes that are collected by the State and shared with the City.

Business Taxes

Through tax year 2014 businesses in the City were subject to payroll expense and business registration taxes. Proposition E approved by the voters in the November 6, 2012 election changed business registration tax rates and introduced a gross receipts tax which phases in over a five-year period beginning January 1, 2014, replacing the current 1.5% tax on business payrolls over the same period. Overall, the ordinance increases the number and types of businesses in the City that pay business tax and registration fees from approximately 7,500 currently to 15,000. Current payroll tax exclusions will be converted into a gross receipts tax exclusion of the same size, terms and expiration dates.

The payroll expense tax is authorized by Article 12-A of the San Francisco Business and Tax Regulation Code. The 1.5% payroll tax rate in 2013 was adjusted to 1.35% in tax year 2014, 1.16% in tax year 2015, 0.829% in tax year 2016, 0.71% in tax year 2017, and annually thereafter according to gross receipts tax collections to ensure that the phase-in of the gross receipts tax neither results in a windfall nor a loss for the City. The gross receipts tax ordinance, like the current payroll expense tax, is imposed for the privilege of "engaging in business" in San Francisco. The gross receipts tax will apply to businesses with \$1 million or more in gross receipts, adjusted by the Consumer Price Index going forward. Proposition E also imposes a 1.4% tax on administrative office business activities measured by a company's total payroll expense within San Francisco in lieu of the Gross Receipts Tax, and increases annual business registration fees to as much as \$35,000 for businesses with over \$200 million in gross receipts. Prior to Proposition E, business registration taxes varied from \$25 to \$500 per year per subject business based on the prior year computed payroll tax liability. Proposition E increased the business registration tax rates to between \$75 and \$35,000 annually.

Business tax revenue in fiscal year 2016-17 was \$702.3 million (all funds), representing an increase of \$41.4 million (6.3%) from fiscal year 2015-16. Business tax revenue is budgeted at \$752.7 million in fiscal year 2017-18 representing an increase of \$50.4 million (7.2%) over fiscal year 2016-17 budgeted revenue. Business tax revenue is budgeted at \$764.4 million in fiscal year 2018-19 representing an increase of \$11.7 million (1.6%) over fiscal year 2017-18.

CITY AND COUNTY OF SAN FRANCISCO Business Tax Revenues Fiscal Years 2013-14 through 2018-19 All Funds (000s)

Fiscal Year	Revenue	Change	
2013-14	\$563,406	\$83,276	17.3%
2014-15	611,932	48,525	8.6%
2015-16	660,926	48,994	8.0%
2016-17	702,331	41,405	6.3%
2017-18 budgeted	752,720	50,389	7.2%
2018-19 budgeted	764,400	11,680	1.6%

Includes Payroll Tax, portion of Payroll Tax allocated to special revenue funds for the Community Challenge Grant program, Business Registration Tax, and beginning in fiscal year 2013-14, Gross Receipts Tax revenues. Figures for fiscal years 2013-14 through 2016-17 are audited actuals. Figures for fiscal year 2017-18 and 2018-19 are Original Budget amounts.

Transient Occupancy Tax (Hotel Tax)

Pursuant to the San Francisco Business and Tax Regulation Code, a 14.0% transient occupancy tax is imposed on occupants of hotel rooms and is remitted by hotel operators monthly. A quarterly tax-filing requirement is also imposed. Hotel tax revenue growth is a function of changes in occupancy, average daily room rates ("ADR") and room supply. Revenue per available room (RevPAR), the combined effect of occupancy and ADR, experienced double digit growth rates between fiscal years 2013-14 and 2014-15, driving an average annual increase of 28.5% in hotel tax revenue during this period. RevPAR growth began to slow in fiscal year 2015-16 and then declined in fiscal year 2016-17, due mainly to the partialyear closure of the Moscone Convention Center. The partial-year closure was in connection with the construction of Moscone Convention Center Expansion. Hotel tax revenue experienced declines during this period. The Moscone Center re-opened in the second quarter of fiscal year 2017-18, and RevPAR is expected to see a partial recovery during this fiscal year. In fiscal year 2018-19, RevPAR is expected to fully recover, which is reflected in the expected growth in hotel tax revenue. Fiscal year 2016-17 transient occupancy tax was \$375 million, representing a \$17.4 million decrease from fiscal year 2015-16 revenue. Fiscal year 2017-18 is budgeted to be \$377 million, an increase of \$1.8 million (0.5%) from fiscal year 2016-17. Fiscal year 2018-19 is budgeted to be \$402 million, an increase of \$25.7 million (6.8%) from fiscal year 2016-17 budget.

San Francisco and a number of other jurisdictions in California and the United States are currently involved in litigation with online travel companies regarding the companies' duty to remit hotel taxes on the difference between the wholesale and retail prices paid for hotel rooms. On February 6, 2013, the Los Angeles Superior Court issued a summary judgment concluding that the online travel companies had no obligation to remit hotel tax to San Francisco. The City has received approximately \$88 million in disputed hotel taxes paid by the companies. Under State law, the City is required to accrue interest on such amounts. The portion of these remittances that will be retained or returned (including legal fees and interest) will depend on the ultimate outcome of these lawsuits. San Francisco has appealed the judgment against it. That appeal has been stayed pending the California Supreme Court's decision in a similar case between the online travel companies and the City of San Diego. That ruling was issued on

December 12, 2016 but did not resolve the matters that are the subject to the City's appeal. The City's appeal is proceeding, but the schedule for that appeal is not yet known.

TABLE A -10

CITY AND COUNTY OF SAN FRANCISCO Transient Occupancy Tax Revenues Fiscal Years 2013-14 through 2018-19 (000s)

Fiscal Year ¹	Tax Rate	Revenue	Change	<u> </u>
2013-14	14.0%	\$313,138	\$71,177	29.4%
2014-15 ²	14.0%	399,364	86,226	27.5%
2015-16	14.0%	392,686	(6,678)	-1.7%
2016-17	14.0%	375,291	(17,395)	-4.4%
2017-18 budgeted	14.0%	377,150	1,859	0.5%
2018-19 budgeted	14.0%	402,896	25,746	6.8%

- 1 Figures for fiscal year 2013-14 through fiscal year 2016-17 are audited actuals and include the portion of hotel tax revenue used to pay debt service on hotel tax revenue bonds. Figures for fiscal year 2017-18 and 2018-19 are original budget amounts.
- 2 Amounts in fiscal year 2014-15 are substantially adjusted due to multi-year audit and litigation resolution.

Real Property Transfer Tax

A tax is imposed on all real estate transfers recorded in the City. Transfer tax revenue is more susceptible to economic and real estate cycles than most other City revenue sources. Prior to November 8, 2016, the rates were \$5.00 per \$1,000 of the sale price of the property being transferred for properties valued at \$250,000 or less; \$6.80 per \$1,000 for properties valued more than \$250,000 and less than \$999,999; \$7.50 per \$1,000 for properties valued at \$1.0 million to \$5.0 million; \$20.00 per \$1,000 for properties valued more than \$5.0 million and less than \$10.0 million; and \$25 per \$1,000 for properties valued at more than \$10.0 million. After the passage of Proposition V on November 8, 2016, transfer tax rates were amended, raising the rate to \$22.50 per \$1,000 for properties valued more than \$5.0 million and less than \$10.0 million; \$27.50 per \$1,000 for properties valued at more than \$10.0 million and less than \$25.0 million; and \$30.00 per \$1,000 for properties valued at more than \$25.0 million. This change resulted in an additional \$39 million in transfer tax revenue in fiscal year 2016-17.

Real property transfer tax ("RPTT") revenue in fiscal year 2016-17 was \$410.5 million, a \$141.5 million (52.6%) increase from fiscal year 2015-16 revenue. Fiscal year 2017-18 RPTT revenue is budgeted to be \$300 million, approximately \$110.6 million (-26.9%) less than the revenue received in fiscal year 2016-17 primarily due to the assumption that fiscal year 2016-17 represented the peak in high value property transactions during the current economic cycle. This slowing is budgeted to continue into fiscal year 2018-19 with RPTT revenue budgeted at \$245 million, a reduction of \$55 million (-18.3%).

TABLE A-11

CITY AND COUNTY OF SAN FRANCISCO Real Property Transfer Tax Receipts Fiscal Years 2013-14 through 2018-19 (000s)

Fiscal Year ¹	Revenue	Change	
2013-14	\$261,925	\$29,195	12.5%
2014-15	314,603	52,678	20.1%
2015-16	269,090	(45,513)	-14.5%
2016-17	410,561	141,471	52.6%
2017-18 budgeted	300,000	(110,561)	-26.9%
2018-19 budgeted	245,000	(55,000)	-18.3%

Sales and Use Tax

The sales tax rate on retail transactions in the City is 8.50%, of which 1.00% represents the City's local share. State collects the City's local sales tax on retail transactions along with State and special district sales taxes, and then remits the local sales tax collections to the City. Between fiscal year 2004-05 and the first half of fiscal year 2015-16, the State diverted one-quarter of City's 1.00% local share of the sales tax, and replaced the lost revenue with a shift of local property taxes to the City from local school district funding. This "Triple Flip" concluded on December 31, 2015, after which point the full 1.00% local tax is recorded in the General Fund.

Local sales tax collections in fiscal year 2016-17 were \$189.5 million, a decrease of \$14.7 million (-8.7%) from fiscal year 2015-16 sales tax revenue. Moderate revenue growth is expected during fiscal year 2017-18 with \$199.9 million budgeted, an increase of \$10.5 million (5.5%) from fiscal year 2016-17. Fiscal year 2018-19 revenue is budgeted to be \$204.9 million, an increase of \$5 million (2.5%) from fiscal year 2017-18 budget.

Historically, sales tax revenues have been highly correlated to growth in tourism, business activity and population. This revenue is significantly affected by changes in the economy. In recent years, online retailers have contributed significantly to sales tax receipts, offsetting sustained declines in point of sale purchases. The budget assumes no changes from State laws affecting sales tax reporting for these online retailers. Sustained growth in sales tax revenue will depend on changes to state and federal law and order fulfillment strategies for online retailers.

Table A-12 reflects the City's actual sales and use tax receipts for fiscal years 2013-14 through 2016-17, and budgeted receipt for fiscal year 2017-18 and 2018-19, as well as the imputed impact of the property tax shift made in compensation for the one-quarter of the sales tax revenue taken by the State through the fiscal year 2016-17.

CITY AND COUNTY OF SAN FRANCISCO Sales and Use Tax Revenues Fiscal Years 2013-14 through 2018-19 (000s)

Fiscal Year*	Tax Rate	City Share	Revenue	Chang	je
2013-14	8.75%	0.75%	\$133,705	\$11,434	9.4%
2013-14 adj. ¹	8.75%	1.00%	177,299	14,474	8.9%
2014-15	8.75%	0.75%	140,146	6,441	4.8%
2014-15 adj. ¹	8.75%	1.00%	186,891	9,592	5.4%
2015-16	8.75%	0.75%	167,915	27,769	19.8%
2015-16 adj. ²	8.75%	1.00%	204,118	17,227	9.2%

^{*}Figures for fiscal year 2013-14 through fiscal year 2016-17 are audited actuals. Figures for fiscal years 2017-18 and 2018-19 are Original Budget amounts.

Source: Office of the Controller, City and County of San Francisco.

Utility Users Tax

The City imposes a 7.5% tax on non-residential users of gas, electricity, water, steam and telephone services. The Telephone Users Tax ("TUT") applies to charges for all telephone communications services in the City to the extent permitted by Federal and State law, including intrastate, interstate, and international telephone services, cellular telephone services, and voice over internet protocol ("VOIP"). Telephone communications services do not include Internet access, which is exempt from taxation under the Internet Tax Freedom Act.

Fiscal year 2016-17 Utility User Tax revenues were \$101.2 million, representing an increase of \$2.6 million (2.6%) from fiscal year 2015-16 revenue. Fiscal year 2017-18 revenue is budgeted to be \$99.7 million, representing expected decline of \$1.5 million (1.5%) from fiscal year 2016-17. Fiscal year 2018-19 Utility User Tax revenues are budgeted at \$100.8 million, a \$1.1 million (1.1%) increase from fiscal year 2017-18 budget.

¹Adjusted figures represent the value of the entire 1.00% local sales tax, which was reduced by 0.25% beginning in fiscal year 2004-05 through December 31, 2015 in order to repay the State's Economic Recovery Bonds as authorized under Proposition 57 in March 2004. This 0.25% reduction is backfilled by the State.

²The 2015-16 adjusted figure includes the State's final payment to the Counties for the lost 0.25% of sales tax, from July 1, 2015 through December 31, 2015. It also includes a true-up payment for April through June 2015.

³In November 2012 voters approved Proposition 30, which temporarily increases the state sales tax rate by 0.25% effective January 1, 2013 through December 31, 2016. The City share did not change.

Access Line Tax

The City imposes an Access Line Tax ("ALT") on every person who subscribes to telephone communications services in the City. The ALT replaced the Emergency Response Fee ("ERF") in 2009. It applies to each telephone line in the City and is collected from telephone communications service subscribers by the telephone service supplier. Access Line Tax revenue for fiscal year 2016-17 was \$46.5 million, a \$3 million (6.8%) increase over the previous fiscal year due 2015-16. In fiscal year 2017-18, Access Line Tax revenue is budgeted at \$49.6 million, a \$3 million (6.5%) increase from fiscal year 2016-17 revenue. Fiscal year 2018-19 revenue is budgeted at \$51.1 million a \$1.6 million (3.1%) increase from fiscal year 2017-18 and 2018-19 budget. Budgeted amounts in fiscal year 2017-18 assume annual inflationary increases to the access line tax rate as required under Business and Tax Regulation Code Section 784.

Sugar Sweetened Beverage Tax

On November 9, 2016 voters adopted Proposition V, a one cent per ounce tax on the distribution of sugary beverages. This measure took effect on January 1, 2018 and is expected to raise \$15 million in annual revenue.

Parking Tax

A 25% tax is imposed on the charge for off-street parking spaces. The tax is paid by occupants and remitted monthly to the City by parking facility operators. Historically, parking Tax revenue was positively correlated with business activity and employment, both of which are projected to increase over the next two years as reflected in increases in business and sales tax revenue projections. However, widespread use of ride-sharing services and redevelopment of surface lots and parking garages into office and other uses have led to declines in this source over the past two fiscal years.

Fiscal year 2016-17 Parking Tax revenue was \$84.3 million, \$1.7 million (-2.0%) below fiscal year 2015-16 revenue. Parking tax revenue is budgeted at \$82.2 million in fiscal year 2017-18, a decrease of \$2.1 million (-2.5%) below the fiscal year 2016-17 amount. In fiscal year 2018-19, Parking Tax revenue is budgeted at \$83.0 million, \$0.8 million (1%) over the fiscal year 2017-18 budgeted amount.

Parking tax revenues are deposited into the General Fund, from which an amount equivalent to 80% is transferred to the MTA for public transit as mandated by Charter Section 16.110.

INTERGOVERNMENTAL REVENUES

State - Realignment

San Francisco receives allocations of State sales tax and Vehicle License Fee (VLF) revenue for 1991 Health and Welfare Realignment and 2011 Public Safety Realignment.

1991 Health & Welfare Realignment. In fiscal year 2016-17, the General Fund share of 1991 realignment revenue was \$192.1 million. In fiscal year 2017-18, it is budgeted at \$188.6 million, or \$3.4 million (-1.8%) less than the fiscal year 2016-17 actual. This growth is attributed to a \$2.4 million (1.5%) increase in sales tax distribution and a \$5.8 million (-15.3%) decrease in the VLF distribution due to base allocation changes and projected fiscal year 2016-17 growth payments. The fiscal year 2018-19 General Fund share of revenue is budgeted at \$192.2 million, a net

increase of \$3.5 million (1.9%) in sales tax and VLF distributions based on the projected growth payments.

Increases in both years are net of State allocation reductions due to implementation of the Affordable Care Act (ACA) equal to assumed savings for counties as a result of treating fewer uninsured patients. The State's fiscal year 2017-18 Budget included assumed savings of \$689 million as a result of ACA implementation, and redirects these savings from realignment allocations to cover CalWORKs expenditures previously paid for by the State's General Fund. Reductions to the City's allocation are assumed equal to \$11.9 million. Future budget adjustments could be necessary depending on final State determinations of ACA savings amounts, which are expected in January 2019 and January 2020 for fiscal year 2016-17 and fiscal year 2017-18, respectively. The fiscal year 2017-18 and 2018-19 realignment budget assumes the redirection of sales tax and VLF growth distributions from health and mental health allocations to social service allocations, consistent with IHSS assumptions enacted in the Governor's 2017-18 budget.

Public Safety Realignment. Public Safety Realignment (AB 109), enacted in early 2011, transfers responsibility for supervising certain kinds of felony offenders and state prison parolees from state prisons and parole agents to county jails and probation officers. In fiscal year 2016-17, this revenue source totaled \$35.5 million or \$4.4 million (-11%) less than the fiscal year 2015-16 amount. Based on the State's adopted budget, this revenue is budgeted at \$41.3 million in fiscal year 2017-18, a \$5.9 million (17%) increase over the fiscal year 2016-17 actual. This increase reflects increased State funding to support implementation of AB109. The fiscal year 2018-19 budget assumes a \$1.1 million (2.5%) increase from fiscal year 2017-18 budget.

Public Safety Sales Tax

State Proposition 172, passed by California voters in November 1993, provided for the continuation of a one-half percent sales tax for public safety expenditures. This revenue is a function of the City's proportionate share of Statewide sales activity. Revenue from this source for fiscal year 2016-17 was \$100.4 million, an increase of \$3.4 million (3.5%) from fiscal year 2015-16 revenues. This revenue is budgeted at \$101.6 million in fiscal year 2017-18 and \$104.1 million in fiscal year 2018-19, representing annual growth of \$1.2 million (1.2%) and \$2.5 million (2.4%) respectively. These revenues are allocated to counties by the State separately from the local one-percent sales tax discussed above, and are used to fund police and fire services. Disbursements are made to counties based on the county ratio, which is the county's percent share of total statewide sales taxes in the most recent calendar year. The county ratio for San Francisco in fiscal year 2016-17 is almost 3% and is expected to decline slightly in fiscal years 2017-18 and 2018-19.

Other Intergovernmental Grants and Subventions

In addition to those categories listed above, the City received \$604.6 million of funds in fiscal year 2016-17 from grants and subventions from State and federal governments to fund public health, social services and other programs in the General Fund. This represents a \$16.9 million (2.9%) increase from fiscal year 2015-16. The fiscal year 2017-18 budget is \$687.6 million, an increase of \$82.9 million (13.7%) and fiscal year 2018-19 budget is 685.6 million, a decrease of \$2 million (0.3%).

Charges for Services

Revenue from charges for services in the General Fund in fiscal year 2016-17 was \$220.8 million and is projected to be largely unchanged in the fiscal year 2017-18 and 2018-19 budget.

CITY GENERAL FUND PROGRAMS AND EXPENDITURES

Unique among California cities, San Francisco as a charter city and county must provide the services of both a city and a county. Public services include police, fire and public safety; public health, mental health and other social services; courts, jails, and juvenile justice; public works, streets, and transportation, including port and airport; construction and maintenance of all public buildings and facilities; water, sewer, and power services; parks and recreation; libraries and cultural facilities and events; zoning and planning, and many others. Employment costs are relatively fixed by labor and retirement agreements, and account for approximately 50% of all City expenditures. In addition, the Charter imposes certain baselines, mandates, and property tax set-asides, which dictate expenditure or service levels for certain programs, and allocate specific revenues or specific proportions thereof to other programs, including MTA, children's services and public education, and libraries. Budgeted baseline and mandated funding is \$1.092 billion in fiscal year 2017-18 and \$1.102 billion in fiscal year 2018-19. As noted above, voters approved additional spending requirements on the November 2016 ballot, which are incorporated into five-year projections and included in the fiscal year 2017-18 budget.

General Fund Expenditures by Major Service Area

San Francisco is a consolidated city and county, and budgets General Fund expenditures for both city and county functions in seven major service areas described in table A-13:

TABLE A-13

CITY AND COUNTY OF SAN FRANCISCO Expenditures by Major Service Area Fiscal Years 2014-15 through 2018-19 (000s)

	2014-15	2015-16	2016-17	2017-18	2018-19
Major Service Areas	Final Budget	Final Budget	Final Budget	Original Budget	Original Budget

Source: Office of the Controller, City and County of San Francisco.

Public Protection primarily includes the Police Department, the Fire Department and the Sheriff's Office. These departments are budgeted to receive \$459 million, \$246 million and \$176 million of General Fund support respectively in fiscal year 2017-18 and \$467 million, \$249 million, and \$189 million, respectively in fiscal year 2018-19. Within Human Welfare & Neighborhood Development, the Department of Human Services, which includes aid assistance and aid payments and City grant programs, is budgeted to receive \$242 million of General Fund support in the fiscal year 2017-18 and \$255 million in fiscal year 2018-19.

The Public Health Department is budgeted to receive \$715 million in General Fund support for public health programs and the operation of San Francisco General Hospital and Laguna Honda Hospital in fiscal year 2017-18 and \$771 million in fiscal year 2018-19.

For budgetary purposes, enterprise funds are characterized as either self-supported funds or General Fund-supported funds. General Fund-supported funds include the Convention Facility Fund, the Cultural and Recreation Film Fund, the Gas Tax Fund, the Golf Fund, the Grants Fund, the General Hospital Fund, and the Laguna Honda Hospital Fund. The MTA is classified as a self-supported fund, although it receives an annual general fund transfer equal to 80% of general fund parking tax receipts pursuant to the Charter. This transfer is budgeted to be \$65.7 million in fiscal year 2017-18 and \$66.4 million in the fiscal year 2018-19.

Baselines

The Charter requires funding for baselines and other mandated funding requirements. The chart below identifies the required and budgeted levels of appropriation funding for key baselines and mandated funding requirements. Revenue-driven baselines are based on the projected aggregate City discretionary revenues, whereas expenditure-driven baselines are typically a function of total spending. This table reflects spending requirements at the time the fiscal year 2017-18 and fiscal year 2018-19 budget was finally adopted.

With respect to Police Department staffing, the Charter mandates a police staffing baseline of not less than 1,971 full-duty officers. The Charter-mandated baseline staffing level may be reduced in cases where civilian hires result in the return of a full-duty officer to active police work. The Charter also provides that the Mayor and Board of Supervisors may convert a position from a sworn officer to a civilian through the budget process. With respect to the Fire Department, the Charter mandates baseline 24-hour staffing of 42 firehouses, the Arson and Fire Investigation Unit, no fewer than four ambulances and four Rescue Captains (medical supervisors).

EMPLOYMENT COSTS; POST-RETIREMENT OBLIGATIONS

The cost of salaries and benefits for City employees represents nearly half of the City's expenditures, totaling \$5.0 billion in the fiscal year 2017-18 Original Budget (all-funds), and \$5.1 billion in the fiscal

year 2018-19 Original Budget. Looking only at the General Fund, the combined salary and benefits budget was \$2.3 billion in the fiscal year 2017-18 Original Budget and \$2.4 billion in the fiscal year 2018-19 Original Budget. This section discusses the organization of City workers into bargaining units, the status of employment contracts, and City expenditures on employee-related costs including salaries, wages, medical benefits, retirement benefits and the City's retirement system, and post-retirement health and medical benefits. Employees of SFUSD, SFCCD and the San Francisco Superior Court are not City employees.

Labor Relations

The City's budget for fiscal years 2017-18 and 2018-19 includes 30,835 and 30,938 budgeted City positions, respectively. City workers are represented by 37 different labor unions. The largest unions in the City are the Service Employees International Union, Local 1021 ("SEIU"); the International Federation of Professional and Technical Engineers, Local 21 ("IFPTE"); and the unions representing police, fire, deputy sheriffs and transit workers.

The wages, hours and working conditions of City employees are determined by collective bargaining pursuant to State law (the Meyers-Milias-Brown Act, California Government Code Sections 3500-3511) and the City Charter. San Francisco is unusual among California's cities and counties in that nearly all of its employees, even managers, are represented by labor organizations. Further, the City Charter provides a unique impasse resolution procedure. In most cities and counties, when labor organizations cannot reach agreement on a new contract, there is no mandatory procedure to settle the impasse. However, in San Francisco, nearly all of the City's contracts advance to interest arbitration in the event the parties cannot reach agreement. This process provides a mandatory ruling by an impartial third party arbitrator, who will set the terms of the new agreement. Except for nurses and less than one-hundred unrepresented employees, the Charter requires that bargaining impasses be resolved through final and binding interest arbitration conducted by a tripartite mediation and arbitration panel. The award of the arbitration panel is final and binding. Wages, hours and working conditions of nurses are not subject to interest arbitration, but are subject to Charter-mandated economic limits. Strikes by City employees are prohibited by the Charter. Since 1976, no City employees have participated in a union-authorized strike.

The City's employee selection procedures are established and maintained through a civil service system. In general, selection procedures and other merit system issues, with the exception of discipline, are not subject to arbitration. Disciplinary actions are generally subject to grievance arbitration, with the exception of police, fire and sheriff's employees.

In June 2013, the City negotiated a contract extension with the Police Officers' Association ("POA"), through June 30, 2018, that includes wage increases of 1% on July 1, 2015; 2% on July 1, 2016; and 2% on July 1, 2017. In addition, the union agreed to lower entry rates of pay for new hires in entry Police Officer classifications. In May 2014, the City negotiated a contract extension with the Firefighters Association through June 30, 2018, which mirrored the terms of POA agreement.

In May 2014, the City negotiated three-year agreements (for fiscal years 2014-15 through 2016-17) with most of its labor unions. In general, the parties agreed to: (1) annual wage increase schedules of 3% (October 11, 2014), 3.25% (October 10, 2015), and 3.25% (July 1, 2016); and (2) some structural reforms of the City's healthcare benefit and cost-sharing structures to rebalance required premiums between the two main health plans offered by the City. These changes to health contributions support reforms agreed to by most unions during earlier negotiations.

Pursuant to Charter Section 8A.104, the MTA is responsible for negotiating contracts for the transit operators and employees in service-critical bargaining units. These contracts are subject to approval by the MTA Board. In May 2014, the MTA and the union representing transit operators, the Transit Workers Union ("TWU"), Local 250-A agreed to a three-year contract that runs through June 30, 2017. Provisions in the contract include 14.25% in wage increases in exchange for elimination of the 7.5% employer retirement pick-up.

In February 2017, the City negotiated two-year contract extensions (for fiscal years 2017-18 and 2018-19) with most of its labor unions. The parties agreed to a wage increase schedule of 3% on July 1, 2017 and 3% on July 1, 2018, with a provision to delay the fiscal year 2018-19 adjustment by six months if the City's deficit for fiscal year 2018-2019, as projected in the March, 2018 update to the Five Year Financial Plan, exceeds \$200 million. MTA and TWU, along with unions representing MTA service critical employees, agreed to two-year contract extensions with the same wage provisions and term as those contracts covering City employees. Existing agreements with police officers, firefighters, and physicians expire in June 2018; the agreement with supervising nurses expires in June, 2019. Successor labor agreements are expected to be completed prior to the adoption of the fiscal year 2018-19 budget.

Table A-15 shows the membership of each operating employee bargaining unit and the date the current labor contract expires.

San Francisco City and County Employees' Retirement System ("SFERS" or "Retirement System")

History and Administration

SFERS is charged with administering a defined-benefit pension plan that covers substantially all City employees and certain other employees. The Retirement System was initially established by approval of City voters on November 2, 1920 and the State Legislature on January 12, 1921 and is currently codified in the City Charter. The Charter provisions governing the Retirement System may be revised only by a Charter amendment, which requires an affirmative public vote at a duly called election.

The Retirement System is administered by the Retirement Board consisting of seven members, three appointed by the Mayor, three elected from among the members of the Retirement System, at least two of whom must be actively employed, and a member of the Board of Supervisors appointed by the President of the Board of Supervisors.

The Retirement Board appoints an Executive Director and an Actuary to aid in the administration of the Retirement System. The Executive Director serves as chief executive officer, with responsibility extending to all divisions of the Retirement System. The Actuary's responsibilities include advising the Retirement Board on actuarial matters and monitoring of actuarial service providers. The Retirement Board retains an independent consulting actuarial firm to prepare the annual valuation reports and other analyses. The independent consulting actuarial firm is currently Cheiron, Inc., a nationally recognized firm selected by the Retirement Board pursuant to a competitive process.

In 2014, the Retirement System filed an application with the Internal Revenue Service ("IRS") for a Determination Letter. In July 2014, the IRS issued a favorable Determination Letter for SFERS. Issuance of a Determination Letter constitutes a finding by the IRS that operation of the defined benefit plan in accordance with the plan provisions and documents disclosed in the application qualifies the plan for federal tax exempt status. A tax qualified plan also provides tax advantages to the City and to members of the Retirement System. The favorable Determination Letter included IRS review of all SFERS provisions, including the provisions of Proposition C approved by the City voters in November 2011.

Membership

Retirement System members include eligible employees of the City and County of San Francisco, the San Francisco Unified School District, the San Francisco Community College Disctrict, and the San Francisco Trial Courts.

The Retirement System estimates that the total active membership as of July 1, 2017 is 41,867, compared to 40,051 at July 1, 2016. Active membership at July 1, 2017 includes 7,381 terminated vested members and 1,039 reciprocal members. Terminated vested members are former employees who have vested rights in future benefits from SFERS. Reciprocal members are individuals who have established membership in a reciprocal pension plan such as CalPERS and may be eligible to receive a reciprocal pension from the Retirement System in the future. Monthly retirement allowances are paid to approximately 29,127 retired members and beneficiaries. Benefit recipients include retired members, vested members receiving a vesting allowance, and qualified survivors.

Table A-16 displays total Retirement System participation (City and County of San Francisco, SFUSD, SFCCD, and San Francisco Trial Courts) as of the five most recent actuarial valuation dates, July 1, 2013 through July 1, 2017.

City and County of San Francisco Employees' Retirement System Fiscal Years 2011-12 through 2016-17

See http://mysfers.org/resources/publications/sfers-actuarial-valuations/

Notes: Member counts exclude DROP participants.

Member counts are for the entire Retirement System and include non-City employees.

Funding Practices

Employer and employee (member) contributions are mandated by the Charter. Sponsoring employers are required to contribute 100% of the actuarially determined contribution approved by the Retirement Board. The Charter specifies that employer contributions consist of the normal cost (the present value of the benefits that SFERS expects to become payable in the future attributable to a current year's employment) plus an amortization of the unfunded liability over a period not to exceed 20 years. The Retirement Board sets the funding policy subject to the Charter requirements.

The Retirement Board adopts the economic and demographic assumptions used in the annual valuations. Demographic assumptions such as retirement, termination and disability rates are based upon periodic demographic studies performed by the consulting actuarial firm approximately every five years. Economic assumptions are reviewed each year by the Retirement Board after receiving an economic experience analysis from the consulting actuarial firm.

At the November 2017 Retirement Board meeting, the Board adopted updated economic assumptions for the July 1, 2017 actuarial valuation after consideration of two options presented by the consulting actuarial firm. Key economic assumptions are the long-term investment earnings assumption of 7.50%, the long-term wage inflation assumption of 3.50%, and the long-term consumer price index assumption of 3.00%. In November 2015 the Board voted to update demographic assumptions, including mortality, after review of a new demographic assumptions study by the consulting actuarial firm.

While employee contribution rates are mandated by the Charter, sources of payment of employee contributions (i.e. City or employee) may be the subject of collective bargaining agreements with each union or bargaining unit. Since July 1, 2011, substantially all employee groups have agreed through collective bargaining for employees to contribute all employee contributions through pre-tax payroll deductions.

Prospective purchasers of the City's bonds should carefully review and assess the assumptions regarding the performance of the Retirement System. Audited financials and actuarial reports may be found on the Retirement System's website, mysfers.org, under Publications. The information on such website is not incorporated herein by reference. There is a risk that actual results will differ significantly from assumptions. In addition, prospective purchasers of the City's bonds are cautioned that the information

and assumptions speak only as of the respective dates contained in the underlying source documents, and are therefore subject to change.

Employer Contribution History and Annual Valuations

Fiscal year 2015-16 total City employer contributions were \$496.3 million which included \$215.2 million from the General Fund. Fiscal year 2016-2017 total City contributions were \$519.1 million which included \$230.1 million from the General Fund. For fiscal year 2017-18, total City employer contributions to the Retirement System are budgeted at \$568.7 million which includes \$265.8 million from the General Fund. These budgeted amounts are based upon the fiscal year 2017-18 employer contribution rate of 23.46% (estimated to be 20.1% after taking into account the 2011 Proposition C cost-sharing provisions). The fiscal year 2018-19 employer contribution rate is 23.31% (estimated to be 19.8% after cost-sharing). The slight decrease in employer contribution rate from 23.46% to 23.31% reflects investment experience better than assumed and the reduction in wage inflation from 3.75% to 3.50% offset by a new Supplemental COLA effective July 1, 2017 and the continued phase-in of the 2015 assumption changes approved by the Retirement Board. As discussed under "City Budget – Five Year Financial Plan" increases in retirement costs are projected in the City's December 2016 Five Year Financial Plan.

Table A-17 shows total Retirement System liabilities, assets and percent funded for the last five actuarial valuations as well as contributions for the fiscal years 2012-13 through 2016-17. Information is shown for all employers in the Retirement System (City, SFUSD, SFCCD and San Francisco Trial Courts). "Actuarial Liability" reflects the actuarial accrued liability of the Retirement System measured for purposes of determining the funding contribution. "Market Value of Assets" reflects the fair market value of assets held in trust for payment of pension benefits. "Actuarial Value of Assets" refers to the plan assets with investment returns different than expected smoothed over five years to provide a more stable contribution rate. The "Market Percent Funded" column is determined by dividing the market value of assets by the actuarial accrued liability. The "Actuarial Percent Funded" column is determined by dividing the actuarial value of assets by the actuarial accrued liability. "Employee and Employer Contributions" reflects the total of mandated employee contributions and employer contributions received by the Retirement System in the fiscal year ended June 30th prior to the July 1st valuation date.

¹ Employer contribution rates for fiscal years 2017-18 and 2018-19 are 23.46% and 23.31%, respectively.

Sources: SFERS' audited year-end financial statements and required supplemental information

SFERS' annual July 1 actuarial valuation reports

Note: Information above reflects entire Retirement System, not just the City and County of San Francisco.

As noted in the table above, the Market Percent Funded ratio is again higher than the Actuarial Percent Funded ratio in 2017. The Actuarial Percent Funded ratio does not yet fully reflect the net asset gains from the last five fiscal years.

The actuarial accrued liability is measured by an independent consulting actuary in accordance with Actuarial Standards of Practice. In addition, an actuarial audit is conducted every five years in accordance with Retirement Board policy.

Governmental Accounting Standards Board ("GASB") Disclosures

The Retirement System discloses accounting and financial reporting information under GASB Statement No. 67, *Financial Reporting for Pension Plans*. This statement was first implemented by the Retirement System in fiscal year 2013-14. The City discloses accounting and financial information about the Retirement System under GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. This accounting statement was first effective in fiscal year 2014-15. These accounting statements separated financial reporting from funding and required additional disclosures in the notes to the financial statements and required supplemental information. In general, the City's funding of its pension obligations are not affected by the GASB 68 changes to the reporting of the City's pension liability. Funding requirements are specified in the City Charter and are described in "Funding Practices" above.

Total Pension Liability reported under GASB Statements No. 67 and 68 differs from the Actuarial Liability calculated for funding purposes in several ways, including the following differences. First, Total Pension Liability measured at fiscal year-end is a roll-forward of liabilities calculated at the beginning of the year and is based upon a beginning of year census adjusted for significant events that occurred during the year. Second, Total Pension Liability is based upon a discount rate determined by a blend of the assumed investment return to the extent the fiduciary net position is available to make payments and at a municipal bond rate to the extent that the fiduciary net position is unavailable to make payments. Differences between the discount rate and assumed investment return have been small, ranging from

zero to six basis points at the last five fiscal year-ends. The third distinct difference is that Total Pension Liability includes a provision for Supplemental COLAS that may be granted in the future, while Actuarial Liability for funding purposes includes only Supplemental COLAS that have been already been granted.

Table A-17A below shows for the five most recent fiscal years the collective Total Pension Liability, Plan Fiduciary Net Position (market value of assets), and Net Pension Liability for all employers who sponsor the Retirement System. The City's audited financial statements disclose only its own proportionate share of the Net Pension Liability and other required GASB 68 disclosures.

TABLE A-17A

City and County of San Francisco Employees' Retirement System (000s) GASB 67/68 Disclosures

	Collective			Plan Net	Collective Net	City and County's
As of	Total Pension	Discount	Plan Fiduciary	Position as	Pension	Proportionate
6/30/2017	Liability (TPL)	Rate	Net Position	% of TPL	Liability (NPL)	Share of NPL
2012-13	\$20,785,417	7.52 %	\$17,011,545	81.8 %	\$3,773,872	\$3,552,075
2013-14	21,691,042	7.58	19,920,607	91.8	1,770,435	1,660,365
2014-15	22,724,102	7.46	20,428,069	89.9	2,296,033	2,156,049
2015-16	25,967,281	7.50	20,154,503	77.6	5,812,778	5,476,653
2016-17	27,403,715	7.50	22,410,350	81.8	4,993,365	4,697,131

Sources: SFERS fiscal year-end GASB 67/68 Reports as of June 30, 2014, 2015, 2016 and 2017.

Notes: Collective amounts include all employees (City and County, SFUSD, SFCCD, Superior Courts)

The fiscal year 2017 decline in the City's net pension liability is due to investment return during the fiscal year that exceeded the assumed 7.50%.

[Remainder of Page Intentionally Left Blank]

Asset Management

The assets of the Retirement System, (the "Fund") are invested in a broadly diversified manner across the institutional global capital markets. In addition to U.S. equities and fixed income securities, the Fund holds international equities, global sovereign and corporate debt, global public and private real estate and an array of alternative investments including private equity and venture capital limited partnerships. For a breakdown of the asset allocation as of June 30, 2017, see Appendix B: "COMPREHENSIVE ANNUAL FINANCIAL REPORT OF THE CITY AND COUNTY OF SAN FRANCISCO FOR THE FISCAL YEAR ENDED JUNE 30, 2017," page 63.

Annualized investment returns (net of fees and expenses) for the Retirement System for the five years ending June 30, 2017 were 9.98%. For the ten-year and twenty-year periods ending June 30, 2017, annualized investment returns were 5.40% and 7.46% respectively.

The investments, their allocation, transactions and proxy votes are regularly reviewed by the Retirement Board and monitored by an internal staff of investment professionals who in turn are advised by external consultants who are specialists in the areas of investments detailed above. A description of the Retirement System's investment policy, a description of asset allocation targets and current investments, and the Annual Report of the Retirement System are available upon request from the Retirement System by writing to the San Francisco Retirement System, 1145 Market Street, 5th Floor, San Francisco, California 94103, or by calling (415) 487-7020. Certain documents are available at the Retirement System website at www.mysfers.org. These documents are not incorporated herein by reference.

Recent Voter Approved Changes to the Retirement Plan

The levels of SFERS plan benefits are established under the Charter and approved directly by the voters, rather than through the collective bargaining process. Changes to retirement benefits require a voter-approved Charter amendment. As detailed below, the most recent changes to SFERS plan benefits have been intended to reduce pension costs associated with future City employees.

Voters of San Francisco approved Proposition C in November 2011 which provided the following:

- 1. New SFERS benefit plans for Miscellaneous and Safety employees commencing employment on or after January 7, 2012, which raise the minimum service retirement age for Miscellaneous members from 50 to 53; limit covered compensation to 85% of the IRC §401(a)(17) limits for Miscellaneous members and 75% of the IRC §401(a)(17) limits for Safety members; calculate final compensation using highest three-year average compensation; and decrease vesting allowances for Miscellaneous members by lowering the City's funding for a portion of the vesting allowance from 100% to 50%;
- 2. Employees commencing employment on or after January 7, 2012 otherwise eligible for membership in CalPERS may become members of SFERS;
- 3. Cost-sharing provisions which increase or decrease employee contributions to SFERS on and after July 1, 2012 for certain SFERS members based on the employer contribution rate set by the Retirement Board for that year. For example, Miscellaneous employees who earn between \$50,000 and \$100,000 per year pay a fluctuating contribution rate in the range of +4% to -4% of the Charter-mandated employee contribution rate, while Miscellaneous employees who earn \$100,000 or more per year pay a fluctuating contribution rate in the range of +5% to -5% of the

Charter-mandated employee contribution rate. Similar fluctuating employee contributions are also required from Safety employees; and

4. Effective July 1, 2012, no Supplemental COLA will be paid unless SFERS is fully funded on a market value of assets basis and, for employees hired on or after January 7, 2012, Supplemental COLA benefits will not be permanent adjustments to retirement benefits - in any year when a Supplemental COLA is not paid, all previously paid Supplemental COLAs will expire.

A retiree organization has brought a legal action against the requirement in Proposition C that SFERS be fully funded in order to pay the Supplemental COLA. In that case, *Protect our Benefits (POB) v. City of San Francisco* (1st DCA Case No. A140095), the Court of Appeals held that changes to the Supplemental COLA adopted by the voters in November 2011 under Proposition C could not be applied to current City employees and those who retired after November 1996 when the Supplemental COLA provisions were originally adopted, but could be applied to SFERS members who retired before November 1996. This decision is now final and its implementation increased the July 1, 2016 unfunded actuarial liability by \$429.3 million for Supplemental COLAs granted retroactive to July 1, 2013 and July 1, 2014.

On July 13, 2016, the SFERS Board adopted a Resolution to exempt members who retired before November 6, 1996, from the "fully funded" provision related to payment of Supplemental COLAs under Proposition C. The Resolution directed that retroactive payments for Supplemental COLAs be made to these retirees. After the Board adopted the Resolution, the Retirement System published an actuarial study on the cost to the Fund of payments to the pre-1996 retirees. The study reports that the two retroactive supplemental payments will trigger immediate payments of \$34 million, create additional liability for continuing payments of \$114 million, and cause a new unfunded liability of \$148 million. This liability does not include the Supplemental COLA payments that may be triggered in the future. Under the cost sharing formulas in Proposition C, the City and its employees will pay for these costs in the form of higher yearly contribution rates. The Controller has projected the future cost to the City and its employees to be \$260 million, with over \$200 million to be paid in the next five fiscal years. The City obtained a permanent injunction to prevent SFERS from making Supplemental COLA payments to these members who retired before November 6, 1996. The Retirement Board has appealed the Superior Court's injunction, and the schedule for that appeal is not yet known.

In August 2012, Governor Brown signed the Public Employee Pension Reform Act of 2012 ("PEPRA"). Current plan provisions of SFERS are not subject to PEPRA although future amendments may be subject to these reforms.

Recent Changes in the Economic Environment and the Impact on the Retirement System

As of June 30, 2017, the audited market value of Retirement System assets was \$22.4 billion. As of March 31, 2018, the unaudited market value of SFERS' portfolio was \$23.7 billion. These values represent, as of the date specified, the estimated value of the Retirement System's portfolio if it were liquidated on that date. The Retirement System cannot be certain of the value of certain of its portfolio assets and, accordingly, the market value of the portfolio could be more or less. Moreover, appraisals for classes of assets that are not publicly traded are based on estimates which typically lag changes in actual market value by three to six months. Representations of market valuations are audited at each fiscal year end as part of the annual audit of the Retirement System's financial statements.

The Retirement System investment portfolio is structured for long-term performance. The Retirement System continually reviews investment and asset allocation policies as part of its regular operations and continues to rely on an investment policy which is consistent with the principles of diversification and

the search for long-term value. Market fluctuations are an expected investment risk for any long-term strategy. Significant market fluctuations are expected to have significant impact on the value of the Retirement System investment portfolio.

A decline in the value of SFERS Trust assets over time, without a commensurate decline in the pension liabilities, will result in an increase in the contribution rate for the City. No assurance can be provided by the City that contribution rates will not increase in the future, and that the impact of such increases will not have a material impact on City finances.

Other Employee Retirement Benefits

As noted above, various City employees are members of CalPERS, an agent multiple-employer public employee defined benefit plan for safety members and a cost-sharing multiple-employer plan for miscellaneous members. The City makes certain payments to CalPERS in respect of such members, at rates determined by the CalPERS board. Such payment from the General Fund equaled \$19.2 million in fiscal year 2012-13 and \$20.0 million in fiscal year 2013-14. For fiscal year 2014-15, the City prepaid its annual CalPERS obligation at a level of \$25.2 million. Further discussion of the City's CalPERS plan obligations are summarized in Note 9 to the City's CAFR, as of June 30, 2017, attached to this Official Statement as Appendix B. A discussion of other post-employment benefits, including retiree medical benefits, is provided below under "Medical Benefits — Post-Employment Health Care Benefits and GASB 45."

Medical Benefits

Administration through San Francisco Health Service System; Audited System Financial Statements

Medical benefits for eligible active City employees and eligible dependents, for retired City employees and eligible dependents, and for surviving spouses and domestic partners of covered City employees (the "City Beneficiaries") are administered by the San Francisco Health Service System (the "San Francisco Health Service System" or "SFHSS") pursuant to City Charter Sections 12.200 *et seq.* and A8.420 *et seq.* Pursuant to such Charter Sections, the San Francisco Health Service System also administers medical benefits to active and retired employees of SFUSD, SFCCD and the San Francisco Superior Court (collectively the "System's Other Beneficiaries"). However, the City is not required to fund medical benefits for the System's Other Beneficiaries and therefore this section focuses on the funding by the City of medical and dental benefits for City Beneficiaries.

The San Francisco Health Service System is overseen by the City's Health Service Board (the "Health Service Board"). The seven member Health Service Board is composed of members including a seated member of the City's Board of Supervisors, appointed by the Board President; an individual who regularly consults in the health care field, appointed by the Mayor; a doctor of medicine, appointed by the Mayor; a member nominated by the Controller and approved by the Health Service Board, and three members of the San Francisco Health Service System, active or retired, elected from among their members. The plans (the "SFHSS Medical Plans") for providing medical care to the City Beneficiaries and the System's Other Beneficiaries (collectively, the "SFHSS Beneficiaries") are determined annually by the Health Service Board and approved by the Board of Supervisors pursuant to Charter Section A8.422.

The San Francisco Health Service System oversees a trust fund (the "Health Service Trust Fund") established pursuant to Charter Sections 12.203 and A8.428 through which medical benefits for the SFHSS Beneficiaries are funded. The San Francisco Health Service System issues annually a publicly available, independently audited financial report that includes financial statements for the Health

Service Trust Fund. This report may be obtained on the SFHSS website or by writing to the San Francisco Health Service System, 1145 Market Street, Third Floor, San Francisco, California 94103, or by calling (415) 554-1727. Audited annual financial statements for several years are also posted on the SFHSS website. The information available on such website is not incorporated in this Official Statement by reference.

As presently structured under the City Charter, the Health Service Trust Fund is not a fund through which assets are accumulated to finance post-employment healthcare benefits (an "Other Post Employment Benefits trust fund"). Thus, the Health Service Trust Fund is not currently affected by GASB Statement Number 45, *Financial Reporting for Postemployment Benefit Plans Other Than Pensions* ("GASB 45"), which applies to OPEB trust funds.

Determination of Employer and Employee Contributions for Medical Benefits

According to the City Charter Section A8.428, the City's contribution towards SFHSS Medical Plans for active employees and retirees is determined by the results of a survey annually of the amount of premium contributions provided by the 10 most populous counties in California (other than the City). The survey is commonly called the 10-County Average Survey and is used to determine "the average contribution made by each such County toward the providing of health care plans, exclusive of dental or optical care, for each employee of such County." Under City Charter Section A8.428, the City is required to contribute to the Health Service Trust Fund an amount equal to such "average contribution" for each City Beneficiary.

In the Memoranda of Understandings negotiated through collective bargaining in June 2014, the 10-County Average was eliminated in the calculation of premiums for active employees represented by most unions, and exchanged for a percentage based employee premium contribution. The long term impact of the premium contribution model is anticipated to be a reduction in the relative proportion of the projected increases in the City's contributions for healthcare, stabilization of the medical plan membership and maintenance of competition among plans. The contribution amounts are paid by the City into the Health Service Trust Fund. The 10-County Average is still used as a basis for calculating all retiree premiums. To the extent annual medical premiums exceed the contributions made by the City as required by the Charter and union agreements, such excess must be paid by SFHSS Beneficiaries or, if elected by the Health Service Board, from net assets also held in the Health Service Trust Fund. Medical benefits for City Beneficiaries who are retired or otherwise not employed by the City (e.g., surviving spouses and surviving domestic partners of City retirees) ("Nonemployee City Beneficiaries") are funded through contributions from such Nonemployee City Beneficiaries and the City as determined pursuant to Charter Section A8.428. The San Francisco Health Service System medical benefit eligibility requirements for Nonemployee City Beneficiaries are described below under "- Post-Employment Health Care Benefits and GASB 45."

Contributions relating to Nonemployee City Beneficiaries are also based on the negotiated methodologies found in most of the union agreements and, when applicable, the City contribution of the "10-County average contribution" corresponding to such Nonemployee City Beneficiaries as described in Charter Section A8.423 along with the following:

Monthly contributions from Nonemployee City Beneficiaries in amounts equal to the monthly contributions required from active employees excluding health coverage or subsidies for health coverage paid for active employees as a result of collective bargaining. However, such monthly contributions from Nonemployee City Beneficiaries covered under Medicare are reduced by an amount equal to the amount contributed monthly by such persons to Medicare.

In addition to the 10-County Average contribution, the City contributes additional amounts in respect of the Nonemployee City Beneficiaries sufficient to defray the difference in cost to the San Francisco Health Service System in providing the same health coverage to Nonemployee City Beneficiaries as is provided for active employee City Beneficiaries, excluding health coverage or subsidies for health coverage paid for active employees as a result of collective bargaining.

After application of the calculations described above, the City contributes 50% of monthly contributions required for the first dependent.

Health Care Reform

The election of a Republican President in November 2016 who promised to repeal "Obamacare" (or the Affordable Care Act ("ACA") combined with both Houses of Congress with Republican majorities who are equally set on repealing the ACA puts many of the fees and taxes in limbo until legislation is passed to "repeal and replace Obamacare" by the current Congress and signed by President Trump ("HealthReform 2.0"). The following discussion is based on the current status of the Patient Protection and Affordable Care Act (the "ACA"). Many attempts have been made to completely repeal the ACA however full appeal has been unsuccessful thus far. Two pieces of legislation, passed by Congress and signed by President Trump in December 2017 and January 2018, have chipped away at many of the fiscal requirements of the law.

In December 2017, Congress passed the Tax Cuts and Jobs Act (the "ACT") which was immediately signed by President Trump. The ACT eliminated the ACA's requirement which "zeroes out" the ACA individual mandate penalty effective beginning after December 31, 2018. This does not end the mandate, rather eliminates the tax penalty for violating the mandate. The ACA mandate that requires employers, with 50 or more full-time employees, to offer full-time workers ACA-compliant health coverage is still in place. Eligibility for health benefits is offered to employees who are employed, on average, at least 20 hours of service per week. In addition, the employer reporting obligations under the ACA remains unchanged. In January 2018, approximately 50,000 1095 forms were distributed to members documenting compliance to this mandate.

The potential impact with the repeal of the individual mandate may: 1) increase uncompensated care costs, which is generally passed onto plan sponsors, employers and other payers, 2) destabilize the individual market leading to more employees and dependents electing COBRA instead of buying coverage elsewhere, and 3) limit the opportunity for plan sponsors/employers to leverage the healthcare marketplace as a coverage vehicle for groups such as part-time employees or pre-54 retirees.

On January 22, 2018 Congress approved the delay of three ACA taxes that impact SFHSS rates for medical coverage. The taxes are:

• Excise Tax on High-cost Employer-sponsored Health Plans

The Excise Tax on High-cost Employer-sponsored Health Plans (Cadillac Tax) is a 40% excise tax on high-cost coverage health plans. Implementation of the tax has been delayed twice and is now effective in 2022. SFHSS continues to evaluate the future impact of the cost of medical benefits for all coverage tiers and it is expected that the plans for pre-65 retirees will trigger the tax first.

Health Insurance Tax ("HIT")

The ACA also imposed a tax on health insurance providers, which was passed on to employer sponsored fully-insured plans in the form of higher premiums. A moratorium on this tax was in

place for 2017, and the spending bill passed by Congress in January 2018 includes another moratorium for 2019.

The HIT tax is mandated for the 2018 plan year. The 2018 plan year premiums for Kaiser Permanente and City Health Plan (UHC) included the impact of the HIT tax. Late in 2016, Blue Shield and the California Department of Managed Health Care agreed that the HIT tax was not applicable to Blue Shield because SFHSS "flex funds" Blue Shield meaning that SFHSS is at risk directly for non-physician costs and thus it is not fully-insured. This resulted in a one-time refund for 2016 of \$9.93 million which is applied to the 2018 rate stabilization reserve. The estimated impact of the HIT tax on the City was \$10.98 million.

Medical Device Excise Tax

The ACA's medical device excise tax imposes a 2.3 percent tax on sales of medical devices (except certain devices sold at retail). Implementation of the tax is delayed until 2020.

The Patient Centered Outcomes Research Institute ("PCORI") fee is still in place for 2018, however it sunsets in 2019. Beginning in 2013, the PCORI Fee was accessed at the rate of \$2.00 per enrollee per year to all participants in the Self-Insured medical-only plan (approximately 8,600). PCORI was factored into the calculation of medical premium rates and premium equivalents for the 2018 plan year and the impact on the City is \$0.31 million.

Local Elections:

Proposition B (2008) Changing Qualification for Retiree Health and Pension Benefits and Establishing a Retiree Health Care Trust Fund

On June 3, 2008, the San Francisco voters approved Proposition B, a charter amendment that changed the way the City and current and future employees share in funding SFERS pension and health benefits. With regard to health benefits, elected officials and employees hired on or before January 9, 2009, contribute up to 2% of pre-tax compensation toward their retiree health care and the City contributes up to 1%. The impact of Proposition B on standard retirements occurred in 2014.

Proposition C (2011) City Pension and Health Care Benefit

On November 8, 2011, the San Francisco voters approved Proposition C, a charter amendment that made additional changes to the way the City and current and future employees share in funding SFERS pension and health benefits. The Proposition limits the 50% coverage for dependents to employees who left the workforces (without retiring) prior to 2001. The San Francisco Health Service System is in compliance with Proposition C.

Employer Contributions for San Francisco Health Service System Benefits

For fiscal year 2016-17, based on the most recent audited financial statements, the San Francisco Health Service System received approximately \$713.9 million from participating employers for San Francisco Health Service System benefit costs. Of this total, the City contributed approximately \$604.5 million; approximately \$165.4 million of this \$604.5 million amount was for health care benefits for approximately 21,410 retired City employees and their eligible dependents and approximately \$439.1 million was for benefits for approximately 31,905 active City employees and their eligible dependents.

The 2018 aggregate plan costs for the City increased by 3.28%. This is due to a number of factors including aggressive contracting by SFHSS that maintains competition among the City's vendors, implementing Accountable Care Organizations that reduced utilization and increased use of generic prescription rates and changing the City's Blue Shield plan from a fully-funded to a flex-funded product and implementing a narrow network. Flex-funding allows lower premiums to be set by the City's actuarial consultant, AON-Hewitt, without the typical margins added by Blue Shield; however, more risk is assumed by the City and reserves are required to protect against this risk. The flattening is anticipated to continue.

Post-Employment Health Care Benefits and GASB 45

Eligibility of former City employees for retiree health care benefits is governed by the Charter. In general, employees hired before January 10, 2009 and a spouse or dependent are potentially eligible for health benefits following retirement at age 50 and completion of five years of City service. Proposition B, passed by San Francisco voters on June 3, 2008, tightened post-retirement health benefit eligibility rules for employees hired on or after January 10, 2009, and generally requires payments by the City and these employees equal to 3% of salary into a new retiree health trust fund.

Proposition A, passed by San Francisco voters on November 5, 2013, restricted the City's ability to withdraw funds from the retiree health trust fund. The restrictions allow payments from the fund only when two of the three following conditions are met:

- 1. The City's account balance in any fiscal year is fully funded. The account is fully funded when it is large enough to pay then-projected retiree health care costs as they come due; and,
- 2. The City's retiree health care costs exceed 10% of the City's total payroll costs in a fiscal year. The Controller, Mayor, Trust Board and a majority of the Board of Supervisors must agree to allow payments from the Fund for that year. These payments can only cover retiree health care costs that exceed 10% of the City's total payroll cost. The payments are limited to no more than 10% of the City's account; or,
- 3. The Controller, Mayor, Trust Board and two-thirds of the Board of Supervisors approve changes to these limits.

GASB 45 Reporting Requirements

The City was required to begin reporting the liability and related information for unfunded OPEBs in the City's financial statements for the fiscal year ending June 30, 2008. This reporting requirement is defined under GASB 45. GASB 45 does not require that the affected government agencies, including the City, actually fund any portion of this post-retirement health benefit liability – rather, GASB 45 requires government agencies to determine on an actuarial basis the amount of its total OPEB liability and the annual contributions estimated to fund such liability over 30 years. Any underfunding in a year is recognized as a liability on the government agency's balance sheet.

City's Estimated Liability

The City is required by GASB 45 to prepare a new actuarial study of its post-retirement benefits obligation every two years. As of July 1, 2014, the most recent actuarial valuation date, the funded status of retiree health care benefits was 1.1%. The actuarial accrued liability for benefits was \$4.26 billion, and the actuarial value of assets was \$49.0 million, resulting in an unfunded actuarial accrued

liability ("UAAL") of \$4.21 billion. As of July 1, 2014, the estimated covered payroll (annual payroll of active employees covered by the plan) was \$2.62 billion and the ratio of the UAAL to the covered payroll was 160.8%.

The difference between the estimated ("ARC") and the amount expended on post-retirement medical benefits in any year is the amount by which the City's overall liability for such benefits increases in that year. The City's most recent CAFR estimated that the 2016-17 annual OPEB cost was \$401.4 million, of which the City funded \$175.0 million which caused, among other impacts, the City's long-term liability to increase by \$237.5 million (as shown on the City's balance sheet and below). The annual OPEB cost consists of the ARC, one year of interest on the net OPEB obligation and recognition of one year of amortization of the net OPEB obligation. While GASB 45 does not require funding of the annual OPEB cost, any differences between the amount funded in a year and the annual OPEB cost are recorded as increases or decreases in the net OPEB obligation. See Note 9(b) to the City's CAFR, as of June 30, 2017, included as Appendix B to this Official Statement. Five-year trend information is displayed in Table A-18

TABLE A-18

CITY AND COUNTY OF SAN FRANCISCO Five-year Trend Fiscal Years 2012-13 to 2016-17 (000s)

	Annual	Percentage of Annual	Net OPEB
Fiscal Year	OPEB	OPEB Cost Funded	Obligation
2012-13	\$418,539	38.3%	\$1,607,130
2013-14	353,251	47.2%	1,793,753
2014-15	363,643	46.0%	1,990,155
2015-16	326,133	51.8%	2,147,434
2016-17	401,402	43.6%	2,384,938

Actuarial projections of the City's OPEB liability will be affected by Proposition B as well as by changes in the other factors affecting that calculation. For example, the City's actuarial analysis shows that by 2031, Proposition B's three-percent of salary funding requirement will be sufficient to cover the cost of retiree health benefits for employees hired after January 10, 2009. See "Retirement System – Recent Voter Approved Changes to the Retirement Plan" above. As of June 30, 2017, the fund balance in the Retiree Health Care Trust Fund established by Proposition B was \$187.4 million, an increase of 63% versus the prior year. See "– Local Elections: Proposition C (2011)."

Total City Employee Benefits Costs

The City budgets to pay its ARC for pension and has established a Retiree Health Care Trust Fund into which both the City and employees are required to contribute funds as retiree health care benefits are earned. Currently, these Trust deposits are only required on behalf of employees hired after 2009, and are therefore limited, but is expected to grow as the workforce retires and this requirement is extended to all employees in 2016. Proposition A, passed by San Francisco voters on November 5, 2013 restricted the City's ability to make withdrawals from the Retiree Health Care Trust Fund.

The balance in the Retiree Health Care Trust Fund as of June 30, 2017 is approximately \$187.4 million. The City will continue to monitor and update its actuarial valuations of liability as required under GASB 45. Table A-19 provides a five-year history for all health benefits costs paid including pension, health,

dental and other miscellaneous benefits. For all fiscal years shown, a "pay-as-you-go" approach was used by the City for health care benefits.

Table A-19 below provides a summary of the City's employee benefit actual and budgeted costs from fiscal years 2013-14 to fiscal year 2017-18.

TABLE A-19

INVESTMENT OF CITY FUNDS

Investment Pool

The Treasurer of the City (the "Treasurer") is authorized by Charter Section 6.106 to invest funds available under California Government Code Title 5, Division 2, Part 1, Chapter 4. In addition to the funds of the City, the funds of various City departments and local agencies located within the boundaries of the City, including the school and community college districts, airport and public hospitals, are deposited into the City and County's Pooled Investment Fund (the "Pool"). The funds are commingled for investment purposes.

Investment Policy

The management of the Pool is governed by the Investment Policy administered by the Office of the Treasurer and Tax Collector in accordance with California Government Code Sections 27000, 53601, 53635, et. al. In order of priority, the objectives of this Investment Policy are safety, liquidity and return on investments. Safety of principal is the foremost objective of the investment program. The investment portfolio maintains sufficient liquidity to meet all expected expenditures for at least the next six months. The Office of the Treasurer and Tax Collector also attempts to generate a market rate of return, without undue compromise of the first two objectives.

The Investment Policy is reviewed and monitored annually by a Treasury Oversight Committee established by the Board of Supervisors. The Treasury Oversight Committee meets quarterly and is

² Does not include Health Service System administrative costs. Does include flexible benefits that may be used for health insurance.

³ "Other Benefits" includes unemployment insurance premiums, life insurance and other miscellaneous employee benefits.

comprised of members drawn from (a) the Treasurer; (b) the Controller; (c) a representative appointed by the Board of Supervisors; (d) the County Superintendent of Schools or his/her designee; (e) the Chancellor of the Community College District or his/her designee; and (f) Members of the general public. A complete copy of the Treasurer's Investment Policy, dated February 2018, is included as an Appendix to this Official Statement. The Investment Policy is also posted at the Treasurer's website. The information available on such website is not incorporated herein by reference.

Investment Portfolio

As of March 31, 2018, the City's surplus investment fund consisted of the investments classified in Table A-20, and had the investment maturity distribution presented in Table A-21.

Further Information

A report detailing the investment portfolio and investment activity, including the market value of the portfolio, is submitted to the Mayor and the Board of Supervisors monthly. The monthly reports and annual reports are available on the Treasurer's web page: www.sftreasurer.org. The monthly reports and annual reports are not incorporated by reference herein.

Additional information on the City's investments, investment policies, and risk exposure as of June 30, 2017 are described in Appendix B: "COMPREHENSIVE ANNUAL FINANCIAL REPORT OF THE CITY AND COUNTY OF SAN FRANCISCO FOR THE FISCAL YEAR ENDED JUNE 30, 2017," Notes 2(d) and 5.

CAPITAL FINANCING AND BONDS

Capital Plan

In October 2005, the Board of Supervisors adopted, and the Mayor approved, Ordinance No. 216-05, which established a new capital planning process for the City. The legislation requires that the City develop and adopt a 10 year capital expenditure plan for City-owned facilities and infrastructure. It also created the Capital Planning Committee ("CPC") and the Capital Planning Program ("CPP"). The CPC, composed of other City finance and capital project officials, makes recommendations to the Mayor and Board of Supervisors on all of the City's capital expenditures. To help inform CPC recommendations, the CPP staff, under the direction of the City Administrator, review and prioritize funding needs; project and coordinate funding sources and uses; and provide policy analysis and reports on interagency capital planning.

The City Administrator, in conjunction with the CPC, is directed to develop and submit a 10 year capital plan every other fiscal year for approval by the Board of Supervisors. The Capital Plan is a fiscally constrained long-term finance strategy that prioritizes projects based on a set of funding principles. It provides an assessment of the City's infrastructure needs over 10 years, highlights investments required to meet these needs and recommends a plan of finance to fund these investments. Although the Capital Plan provides cost estimates and proposes methods to finance such costs, the document does not reflect any commitment by the Board of Supervisors to expend such amounts or to adopt any specific financing method. The Capital Plan is required to be updated and adopted biennially, along with the City's Five Year Financial Plan and the Five-Year Information & Communication Technology Plan. The CPC is also charged with reviewing the annual capital budget submission and all long-term financing proposals, and providing recommendations to the Board of Supervisors relating to the compliance of any such proposal or submission with the adopted Capital Plan.

The Capital Plan is required to be submitted to the Mayor and the Board of Supervisors by each March 1 in odd-numbered years and adopted by the Board of Supervisors and the Mayor on or before May 1 of the same year. The fiscal year 2018-2027 Capital Plan was approved by the CPC on February 27, 2017, and was adopted by the Board of Supervisors in April 2017. The Capital Plan contains \$35.2 billion in capital investments over the coming decade for all City departments, including \$5.25 billion in projects for General Fund-supported departments. The Capital Plan proposes \$1.9 billion for General Fund pay-as-you-go capital projects over the next 10 years. The amount for General Fund pay-as-you-go capital projects is assumed to grow to over \$200 million per year by fiscal year 2023-24. Major capital projects for General Fund-supported departments included in the Capital Plan consist of upgrades to public health, police, and fire facilities; improvements to homeless service sites; street and right-of-way improvements; the removal of barriers to accessibility; park improvements; the relocation of public health staff and services to improved spaces, among other capital projects. \$2.1 billion of the capital projects of General Fund supported departments are expected to be financed with general obligation bonds and other long-term obligations. The balance is expected to be funded by federal and State funds, the General Fund and other sources.

In addition to the City General Fund-supported capital spending, the Capital Plan recommends \$18.9 billion in enterprise fund department projects to continue major transit, economic development and public utility projects such as the Central Subway project, runway and terminal upgrades at San Francisco International Airport, Pier 70 infrastructure investments and the Sewer System Improvement Program, among others. Approximately \$12.3 billion of enterprise fund department capital projects is financed with revenue bonds. The balance is expected to be funded by federal and State funds, user/operator fees, General Fund and other sources.

While significant investments are proposed in the City's adopted Capital Plan, identified resources remain below those necessary to maintain and enhance the City's physical infrastructure. As a result, over \$4.6 billion in capital needs including enhancements are deferred from the plan's horizon. Over two-thirds of these unfunded needs are for the City's transportation and waterfront infrastructure, where core maintenance investments have lagged for decades. The late Mayor Edwin Lee convened a taskforce to recommend funding mechanisms to bridge a portion of the gaps in the City's transportation needs, but it is likely that significant funding gaps will remain even assuming the identification of significant new funding sources for these needs.

Failure to make the capital improvements and repairs recommended in the Capital Plan may have the following impacts: (i) failing to meet federal, State or local legal mandates; (ii) failing to provide for the imminent life, health, safety and security of occupants and the public; (iii) failing to prevent the loss of

use of the asset; (iv) impairing the value of the City's assets; (v) increasing future repair and replacement costs; and (vi) harming the local economy.

Tax-Supported Debt Service

Under the State Constitution and the Charter, City bonds secured by *ad valorem* property taxes ("general obligation bonds") can only be authorized with a two-thirds approval of the voters. As of April 15, 2018, the City had approximately \$2.32 billion aggregate principal amount of general obligation bonds outstanding.

Table A-22 shows the annual amount of debt service payable on the City's outstanding general obligation bonds.

² Totals reflect rounding to nearest dollar.

³ Excludes payments made to date in current fiscal year

Section 9.106 of the City Charter limits issuance of general obligation bonds of the City to 3% of the assessed value of all real and personal assessment district indebtedness or any redevelopment agency indebtedness.

General Obligation Bonds

Certain general obligation bonds authorized by the City's voters as discussed below have not yet been issued. Such bonds may be issued at any time by action of the Board of Supervisors, without further approval by the voters.

In November 1992, voters approved Proposition A, which authorized the issuance of up to \$350.0 million in general obligation bonds to provide moneys to fund the City's Seismic Safety Loan Program (the "Loan Program"). The purpose of the Loan Program is to provide loans for the seismic strengthening of privately-owned unreinforced masonry buildings in San Francisco for affordable housing and market-rate residential, commercial and institutional purposes. In April 1994, the City issued \$35.0 million in taxable general obligation bonds to fund the Loan Program and in October 2002, the City redeemed all outstanding bonds remaining from such issuance. In February 2007, the Board of Supervisors approved the issuance of additional indebtedness under this authorization in an amount not to exceed \$35.0 million. Such issuance would be achieved pursuant to the terms of a Credit Agreement with Bank of America, N.A. (the "Credit Bank"), under which the Credit Bank agreed to fund one or more loans to the City from time to time as evidenced by the City's issuance to the Credit Bank of the Taxable General Obligation Bond (Seismic Safety Loan Program), Series 2007A. The funding by the Credit Bank of the loans at the City's request and the terms of repayment of such loans are governed by the terms of the Credit Agreement. Loan funds received by the City from the Credit Bank are in turn used to finance loans to Seismic Safety Loan Program borrowers. In March 2007, the City initiated an initial borrowing of \$2.0 million, and in October 2007, the City borrowed approximately \$3.8 million from the Credit Bank. In January 2008, the City borrowed approximately \$3.9 million and in November 2008, the City borrowed \$1.3 million from the Credit Bank. Further borrowings under the Credit Agreement with the Credit Bank (up to the \$35.0 million not-to-exceed amount) are expected as additional loans to Seismic Safety Loan Program borrowers are approved. In August 2015, the City issued \$24.0 million in Series 2015A taxable general obligation bonds under the Seismic Safety Loan Program authorization. On November 8, 2016, voters approved Proposition C, authorizing the use of Seismic Safety Bond Program to fund the purchase and improvement of buildings in need of safety upgrades in order to convert them into affordable housing.

In February 2008, voters approved Proposition A, which authorized the issuance of up to \$185.0 million in general obligation bonds for the construction, reconstruction, purchase, and/or improvement of park and recreation facilities located in the City and under the jurisdiction of the Recreation and Parks Commission or under the jurisdiction of the Port Commission. The City issued the first series of bonds under Proposition A in the amount of approximately \$42.5 million in August 2008. The City issued the second series in the amount of approximately \$60.4 million in March 2010 and the third series in the amount of approximately \$73.4 million in March 2012. The City issued the fourth and final series in the amount of approximately \$8.7 million in January 2016.

In June 2010, voters approved Proposition B, which authorized the issuance of up to \$412.3 million in general obligation bonds to provide funds to finance the construction, acquisition, improvement and retrofitting of neighborhood fire and police stations, the auxiliary water supply system, a public safety building, and other critical infrastructure and facilities for earthquake safety and related costs. The City issued the first series of bonds under Proposition B in the amount of \$79.5 million in December 2010 and the second series of bonds in the amount of \$183.3 million in March 2012. The City issued the third series in the amount of approximately \$38.3 million in August 2012 and the fourth series of bonds in the amount of \$31.0 million in June 2013, and the fifth series in the amount of \$54.9 million was issued in October 2014. The final series was issued in June 2016 in the amount of approximately \$25 million.

In November 2011, voters approved Proposition B, which authorized the issuance of up to \$248.0 million in general obligation bonds to provide funds to repair and repave City streets and remove potholes; strengthen and seismically upgrade street structures; redesign street corridors by adding or improving pedestrian signals, lighting, sidewalk extensions, bicycle lanes, trees and landscaping; construct and renovate curb ramps and sidewalks to increase accessibility and safety for everyone, including persons with disabilities; and add and upgrade traffic signals to improve MUNI service and traffic flow. The City issued the first series of bonds under Proposition B in the amount of approximately \$74.3 million in March 2012 and the second series of bonds in the amount of \$129.6 million in June 2013. The City issued the final series in June 2016 in the amount of approximately \$109 million.

In November 2012, voters approved Proposition B, which authorized the issuance of up to \$195.0 million in general obligation bonds to provide funds for the construction, reconstruction, renovation, demolition, environmental remediation and/or improvement of park, open space and recreation facilities located in the City and under the jurisdiction of the Recreation and Parks Commission or under the jurisdiction of the Port Commission. The City issued the first series of bonds under Proposition B in the amount of approximately \$71.9 million in June 2013. The City issued the second series of bonds in the amount of \$43 million in January 2016. The third series of bonds under the 2012 Proposition B authorization was issued in April 2018 in the amount of approximately \$76.7 million.

In June 2014, voters approved Proposition A, which authorized the issuance of up to \$400.0 million in general obligation bonds to improve fire, earthquake and emergency response by improving and/or replacing deteriorating cisterns, pipes, and tunnels, and related facilities to ensure firefighters a reliable water supply for incurring indebtedness of fires and disasters; improving and/or replacing neighborhood fire and police stations; replacing certain seismically unsafe police and medical examiner facilities with earthquake-safe buildings and to pay related costs . The City issued the first series of bonds in the amount of \$100.7 million in October 2014 and the second series of bonds in the amount of \$109.6 million in April 2016. The third and final series is expected to be issued in May 2018.

In November 2014, voters approved Proposition A, which authorized the issuance of up to \$500 million in general obligation bonds to provide funds to finance the construction, acquisition and improvement of certain transportation and transit related improvements and other related costs. The City issued the first series of bonds under Proposition A in the amount of approximately \$67 million in June 2015. The second series of bonds under the 2014 Proposition A authorization was issued in April 2018 in the amount of approximately 174.4 million.

In November 2015, voters approved Proposition A which authorized the issuance of up to \$310 million in general obligation bonds to provide funds to finance the construction, development, acquisition and preservation of housing affordable to low- and middle-income households and to assist in the acquisition, rehabilitation, and preservation of affordable rental apartment buildings to prevent the eviction of long-term residents; to repair and reconstruct dilapidated public housing; to fund a middle-income rental program; and to provide for homeownership down payment assistance opportunities for educators and middle-income households. The City issued the first series of bonds under Proposition A in the amount of approximately \$75 million in October 2016. The second series is expected to be issued in May 2018.

In June 2016, voters approved Proposition A, which authorized the issuance of up to \$350 million in general obligation bonds to provide funds to protect public health and safety, improve community medical and mental health care services, earthquake safety and emergency medical response; to seismically improve, and modernize neighborhood fire stations and vital public health and homeless service sites; to construct a seismically safe and improved San Francisco Fire Department ambulance

deployment facility; and to pay related costs. The City issued the first series of the bonds under Proposition A in the amount of approximately \$173.1 million in February 2017. The second series is expected to be issued in May 2018.

Refunding General Obligation Bonds

The Board of Supervisors adopted Resolution No. 272-04 on May 11, 2004 (the "2004 Resolution"). The Mayor approved the 2004 Resolution on May 13, 2004. The 2004 Resolution authorized the issuance of not to exceed \$800.0 million aggregate principal amount of its General Obligation Refunding Bonds from time to time in one or more series for the purpose of refunding all or a portion of the City's then outstanding General Obligation Bonds. On November 1, 2011, the Board of Supervisors adopted, and the Mayor approved, Resolution No. 448-11 (the "2011 Resolution," and together with the 2004 Resolution, the "Refunding Resolutions"). The 2011 Resolution authorized the issuance of not to exceed \$1.356 billion aggregate principal amount of the City's General Obligation Refunding Bonds from time to time in one or more series for the purpose of refunding certain outstanding General Obligation Bonds of the City. The City has issued four series of refunding bonds currently outstanding under the Refunding Resolutions, as shown on Table A-23.

TABLE A-23

CITY AND COUNTY OF SAN FRANCISCO General Obligation Refunding Bonds As of April 15, 2018

Series Name	Date Issued	Principal Amount Issued	Amount Outstanding	
2008-R1	May 2008	\$232,075,000	\$6,675,000	
2008-R2	May 2008	39,320,000	5,680,000	
2011-R1	November 2011	339,475,000	202,220,000 1	
2015-R1	February 2015	293,910,000	261,095,000 ²	

 $^{^{\}mathrm{1}}$ Series 2004-R1 Bonds were refunded by the 2011-R1 Bonds in November 2011

Table A-24 below lists for each of the City's voter-authorized general obligation bond programs the amount issued and outstanding, and the amount of remaining authorization for which bonds have not yet been issued. Series are grouped by program authorization in chronological order. The authorized and unissued column refers to total program authorization that can still be issued, and does not refer to any particular series. As of April 15, 2018, the City had authorized and unissued general obligation bond authority of approximately \$1.12 billion.

² Series 2006-R1, 2006-R2, and 2008-R3 Bonds were refunded by the 2015-R1 Bonds in February 2015.

Section 9.106 of the City Charter limits issuance of general obligation bonds of the City to 3% of the assessed value of all taxable real and personal property, located within the City and County.

Lease Payments and Other Long-Term Obligations

The Charter requires that any lease-financing agreements with a nonprofit corporation or another public agency must be approved by a majority vote of the City's electorate, except (i) leases approved prior to April 1, 1977, (ii) refunding lease financings expected to result in net savings, and (iii) certain lease financing for capital equipment. The Charter does not require voter approval of lease financing agreements with for-profit corporations or entities.

Table A-25 sets forth the aggregate annual lease payment obligations supported by the City's General Fund with respect to outstanding lease revenue bonds and certificates of participation as of April 15, 2018. The annual payment obligations reflected in Table A-25 reflect the fully accreted value of any capital appreciation obligations as of the payment dates.

TABLE A-25

CITY AND COUNTY OF SAN FRANCISCO Lease Revenue Bonds and Certificates of Participation As of April 15, 2018

Fiscal			Annual Payment
Year	Principal	Interest	Obligation
2017-18 ¹	\$8,455,000	\$10,559,835	\$19,014,835
2018-19	63,790,000	62,426,217	126,216,217
2019-20	49,630,000	59,788,198	109,418,198

² Totals reflect rounding to nearest dollar.

³ For purposes of this table, the interest rate on the Lease Revenue Bonds Series 2008-1, and 2008-2 (Moscone Center Expansion Project) is assumed to be 3.25%. These bonds are in variable rate mode.

The City electorate has approved several lease revenue bond propositions, some of which have authorized but unissued bonds. The following lease programs have remaining authorization:

In 1987, voters approved Proposition B, which authorizes the City to lease finance (without limitation as to maximum aggregate par amount) the construction of new parking facilities, including garages and surface lots, in eight of the City's neighborhoods. In July 2000, the City issued \$8.2 million in lease revenue bonds to finance the construction of the North Beach Parking Garage, which was opened in February 2002. There is no current plan to issue any more bonds under Proposition B.

In 1990, voters approved Proposition C, which amended the Charter to authorize the City to lease-purchase equipment through a nonprofit corporation without additional voter approval but with certain restrictions. The City and County of San Francisco Finance Corporation (the "Corporation") was incorporated for that purpose. Proposition C provides that the outstanding aggregate principal amount of obligations with respect to lease financings may not exceed \$20.0 million, with such amount increasing by five percent each fiscal year. As of April 15, 2018 the total authorized amount for such financings was \$75.1 million. The total principal amount outstanding as of April 15, 2018 was \$890 million.

In 1994, voters approved Proposition B, which authorized the issuance of up to \$60.0 million in lease revenue bonds for the acquisition and construction of a combined dispatch center for the City's emergency 911 communication system and for the emergency information and communications equipment for the center. In 1997 and 1998, the Corporation issued \$22.6 million and \$23.3 million of Proposition B lease revenue bonds, respectively, leaving \$14.0 million in remaining authorization. There is no current plan to issue additional series of bonds under Proposition B.

In June 1997, voters approved Proposition D, which authorized the issuance of up to \$100.0 million in lease revenue bonds for the construction of a new football stadium at Candlestick Park, the previous home of the San Francisco 49ers football team. If issued, the \$100.0 million of lease revenue bonds would be the City's contribution toward the total cost of the stadium project and the 49ers would be responsible for paying the remaining cost of the stadium construction project. There is no current plan to issue the Proposition D bonds.

On March 7, 2000, voters approved Proposition C, which extended a two and one half cent per \$100.0 in assessed valuation property tax set-aside for the benefit of the Recreation and Park Department (the "Open Space Fund"). Proposition C also authorizes the issuance of lease revenue bonds or other forms of indebtedness payable from the Open Space Fund. The City issued approximately \$27.0 million and \$42.4 million of such Open Space Fund lease revenue bonds in October 2006 and October 2007, respectively.

In November 2007, voters approved Proposition D, which amended the Charter and renewed the Library Preservation Fund. Proposition D continues the two and one half cent per \$100.0 in assessed valuation property tax set-aside and establishes a minimum level of City appropriations, moneys that are maintained in the Library Preservation Fund. Proposition D also authorizes the issuance of revenue bonds or other evidences of indebtedness. The City issued the first series of lease revenue bonds in the amount of approximately \$34.3 million in March 2009.

Commercial Paper Program

The Board authorized on March 17, 2009 and the Mayor approved on March 24, 2009 the establishment of a not-to-exceed \$150.0 million Lease Revenue Commercial Paper Certificates of Participation Program, Series 1 and 1-T and Series 2 and 2-T (the "CP Program"). Commercial Paper Notes (the "CP

Notes") are issued from time to time to pay approved project costs in connection with the acquisition, improvement, renovation and construction of real property and the acquisition of capital equipment and vehicles in anticipation of long-term or other take-out financing to be issued when market conditions are favorable. Projects are eligible to access the CP Program once the Board and the Mayor have approved the project and the long-term, permanent financing for the project. The former Series 1 and 1-T and Series 2 and 2-T letters of credit issued in 2010 by J.P. Morgan Chase Bank, N.A. and U.S. Bank National Association expired in June 2016. In May 2016, the City obtained renewal credit facilities securing the CP Notes issued by State Street Bank and Trust Company with a maximum principal amount of \$75 million and by U.S. Bank National Association with a maximum principal amount of \$75 million. The renewal credit facilities will expire in May 2021.

The Board authorized on July 16, 2013 and the Mayor approved on July 25, 2013 an additional \$100.0 million Lease Revenue Commercial Paper Certificates of Participation Program, Series 3 and 3-T and Series 4 and 4-T that increases the total authorization of the CP Program to \$250.0 million. The Series 3 and 3-T and 4 and 4-T are secured by a letter of credit issued by State Street Bank and Trust Company expiring February 2019.

As of April 15, 2018, the outstanding principal amount of CP Notes is \$25.2 million. The weighted average interest rate for outstanding CP Notes is approximately 1.67%.

Transbay Transit Center Interim Financing

The Board authorized on May 3, 2016 and the Mayor approved on May 13, 2016 the establishment of a not-to-exceed \$260.0 million Lease Revenue Commercial Paper Certificates of Participation ("short-term certificates") to meet cash flow needs during the construction of the Transbay Transit Center. The short-term certificates are expected to be repaid in part from Transbay Transit Center CFD special taxes and tax increment. Long-term debt will be issued to retire the short-term certificates, and such long-term debt is also expected to be repaid from such sources.

The short-term certificates consists of \$160 million direct placement revolving certificates with Wells Fargo, expiring January 10, 2020 and \$100 million direct placement revolving certificates with Bay Area Toll Authority expiring September 1, 2021.

As of April 15, 2018, the TJPA had drawn a total of \$103,000,000 from the Wells Fargo financing facility, at a current interest rate of 2.34%.

Board Authorized and Unissued Long-Term Obligations

The Board of Supervisors authorized October 8, 2013 and the Mayor approved October 11, 2013 the issuance of not to exceed \$13.5 million of City and County of San Francisco Certificates of Participation (Treasure Island Improvement Project) to finance the cost of additions and improvements to the utility infrastructure at Treasure island.

The Board of Supervisors authorized on November 29, 2016 and the Mayor approved on December 1, 2016 the issuance of not to exceed \$60.5 million of City and County of San Francisco Certificates of Participation (Animal Care and Control Renovation Project) to finance the costs acquisition, construction, and improvement of an animal care and control facility. The City anticipates issuing the certificates in the summer of 2019.

The Board of Supervisors authorized on June 6, 2017 and the Mayor approved on June 15, 2017 the issuance of not to exceed \$321.8 million of City and County of San Francisco Certificates of Participation (1500 Mission Project) to finance a portion of the development costs, including construction and improvement, and related FF&E (furniture, fixture, or other equipment), technology, and moving costs for the 1500 Mission Street office building. The City anticipates issuing the certificates in the Fall of 2019.

Overlapping Debt

Table A-26 shows bonded debt and long-term obligations as of April 15, 2018 sold in the public capital markets by the City and those public agencies whose boundaries overlap the boundaries of the City in whole or in part. Long-term obligations of non-City agencies generally are not payable from revenues of the City. In many cases, long-term obligations issued by a public agency are payable only from the General Fund or other revenues of such public agency. In the table, lease obligations of the City which support indebtedness incurred by others are included. As noted below, the Charter limits the City's outstanding general obligation bond debt to 3% of the total assessed valuation of all taxable real and personal property within the City.

Excludes revenue and mortgage revenue bonds and non-bonded third party financing lease obligations. Also excludes tax allocation bonds sold in August, 2009.

Section 9.106 of the City Charter limits issuance of general obligation bonds of the City to 3% of the assessed value of all taxable real and personal property, located within the City and County.
Source: Office of Public Finance, City and County of San Francisco.

On November 4, 2003, voters approved Proposition A. Proposition A of 2003 authorized the SFUSD to issue up to \$295.0 million of general obligation bonds to repair and rehabilitate school facilities, and various other improvements. The SFUSD issued \$58.0 million of such authorization in October 2004, \$130.0 million in October 2005, and \$92.0 million in October 2006, leaving \$15.0 million authorized but unissued. In March 2012, the SFUSD issued \$116.1 million in refunding general obligation bonds that refunded \$137.4 million in general obligation bonds authorized under Proposition A of 2003.

On November 2, 2004, voters approved Proposition AA. Proposition AA authorized the San Francisco BART to issue general obligation bonds in one or more series over time in an aggregate principal amount not to exceed \$980.0 million to strengthen tunnels, bridges, overhead tracks and the underwater Transbay Tube for BART facilities in Alameda and Contra Costa counties and the City. Of the \$980.0 million, the portion payable from the levy of *ad valorem* taxes on property within the City is approximately 29.0% or \$282.0 million. Of such authorization, BART issued \$100.0 million in May 2005 and \$400.0 million in July 2007, of which the allocable City portion is approximately \$29.0 million and \$116.0 million, respectively.

On November 8, 2016, voters approved Measure RR. Measure RR authorized BART to issue general obligation bonds in one or more series over time in an aggregate principal amount not to exceed \$3.5 billion to keep BART safe; prevent accidents / breakdowns / delays; relieve overcrowding; reduce traffic congestion / pollution; improve earthquake safety and access for seniors / disabled by replacing and upgrading 90 miles of severely worn tracks; tunnels damaged by water intrusion; 44-year-old train control systems; and other deteriorating infrastructure. Of the \$3.5 billion, the portion payable from the levy of *ad valorem* taxes on property within the City is approximately 29.0% or \$1.015 billion. Of such authorization, BART issued \$300.0 million in May 2017, of which the allocable City portion is approximately \$87.0 million.

On November 7, 2006, voters approved Proposition A. Proposition A of 2006 authorized the SFUSD to issue an aggregate principal amount not to exceed \$450.0 million of general obligation bonds to modernize and repair up to 64 additional school facilities and various other improvements. The SFUSD issued the first series in the aggregate principal amount of \$100 million under the Proposition A authorization in February 2007. The SFUSD issued the second series in the aggregate principal amount of \$150.0 million under the Proposition A authorization in January 2009. The SFUSD issued the third series in the aggregate principal amount of \$185.0 million under the Proposition A authorization in May 2010. On November 8, 2011, voters approved Proposition A. Proposition A of 2011 authorized the SFUSD to issue an aggregate principal amount not to exceed \$531.0 million of general obligation bonds to repair and rehabilitate school facilities to current accessibility, health, safety and instructional standards, and where applicable, replace worn-out plumbing, electrical and other major building systems, replace aging heating, ventilation and air handling systems, renovate outdated classrooms and training facilities, construct facilities to replace aging modular classrooms. The SFUSD issued the first series in the aggregate principal amount of \$115.0 million under the Proposition A of 2011 authorization in March 2012.

On November 8, 2016, voters approved Proposition A. Proposition A of 2016 authorized the SFUSD to issue an aggregate principal amount not to exceed \$744.25 million of general obligation bonds to repair and rehabilitate San Francisco Unified School District facilities to current accessibility, health, safety, seismic and instructional standards, replace worn-out plumbing, electrical, HVAC, and major building systems, renovate outdated classrooms and training facilities, construct school facilities and replace aging modular classrooms, improve information technology systems and food service preparation

systems. The SFUSD issued the first series in the aggregate principal amount of \$180.0 million under the Proposition A of 2016 authorization in March 2017.

MAJOR ECONOMIC DEVELOPMENT PROJECTS

Numerous development and construction projects are in progress throughout the City at any given time. This section describes several of the most significant privately owned and managed real estate developments currently under way in the City in which there is City participation, generally in the form of a public/private partnership. The information in this section has been prepared by the City based on City-approved plans as well as unofficial plans and representations of the developer in each case, and includes forward-looking statements. These forward-looking statements consist of expressions of opinion, estimates, predictions, projections, plans and the like; such forward-looking statements in this section are those of the developers and not of the City. The City makes no prediction, representation or assurance that the plans and projects described will actually be accomplished, or the time frame in which the developments will be completed, or as to the financial impact on City real estate taxes, developer fees, other tax and fee income, employment, retail or real estate activity, or other consequences that might be expected or projected to result from the successful completion of each development project. Completion of development in each case may depend on the local economy, the real estate market, the financial health of the developer and others involved in the project, specific features of each development and its attractiveness to buyers, tenants and others, as well as the financial health of such buyers, tenants, and others. Completion and success of each development will also likely depend on other factors unknown to the City.

Hunters Point Shipyard (Phase 1 and 2) and Candlestick Point

The Hunters Point Shipyard Phase 1 and 2 and Candlestick Point project area will deliver approximately 12,100 new homes, approximately 32 percent of which will be below market rate and will include the rebuilding of the Alice Griffith public housing development consistent with the City's HOPE SF program, up to 3 million square feet of research and development space, and more than 350 acres of new parks in the southeast portion of San Francisco (the "Project"). In total, the Project will generate over \$6 billion of new economic activity to the City, more than 15,000 permanent jobs, hundreds of new construction jobs each year, new community facilities, new transit infrastructure, and provide approximately \$90 million in community benefits. The Project's full build out will occur over 20 to 30 years. In the next five years over 1,000 units of housing and 26 acres of parks will be completed in the first phase of the Shipyard.

The first phase of development has begun at the Hunters Point Shipyard site with 375 completed units and 198 units currently under construction. An additional 478 units are expected to begin construction in 2018. On Candlestick Point, 306 housing units are now complete which includes a mix of public housing replacement and new, affordable units, with an additional 31 units in construction. In 2016, horizontal infrastructure construction commenced to support additional residential and commercial development; designs for approximately 1260 housing units, 220 hotel rooms, and a 62,000 sf film and arts center are currently underway.

Treasure Island

Former Naval Station Treasure Island is located in the San Francisco Bay and connected to the City by the San Francisco-Oakland Bay Bridge. The former base, which ceased operations in 1997, consists of approximately 405 acres on Treasure Island and 90 acres on adjoining Yerba Buena Island. Development

plans for the islands include up to 8,000 new homes, 25% of which will be offered at below-market rates; up to 500 hotel rooms; a 400 slip marina; restaurants; retail and entertainment venues; and a world-class 300-acre parks and open space system. The compact mixed-use transit-oriented development is centered around a new ferry terminal connecting the island to downtown San Francisco and is designed to prioritize walking, biking and public transit. The development plans include green building standards and best practices in low-impact development.

The first major land transfer from the Navy to the Treasure Island Development Authority ("TIDA") occurred in May 2015 and included the northern half of Yerba Buena Island and more than half of the area of Treasure Island. The developer, Treasure Island Community Development ("TICD"), received its first land transfer in February 2016, and demolition and initial infrastructure improvements under contract are currently underway. The first phase of development will include extensive horizontal infrastructure improvements (utilities, roadway improvements, site preparation, etc.) as well as the initial vertical developments. The complete build-out of the project is anticipated to occur over 15 to 20 years.

Mission Bay Blocks 29-32- Warriors Multipurpose Recreation and Entertainment Venue

The Golden State Warriors, a National Basketball Association team, is developing a multipurpose recreation and entertainment venue and associated development in Mission Bay. The site is bordered by Third Street to the West, Terry Francois Boulevard to the East, 16th Street to the South and South Street to the North. The Warriors project includes a state-of-the-art multi-purpose recreation and entertainment venue for Warriors' home games, concerts and family shows. The site will also have restaurants, retail, office space, bike valet, public plazas and a limited amount of parking. Environmental review has been completed for the site, and was upheld in a November 2016 decision. The project began construction in January 2017 and the event center is scheduled to open in time for the 2019-2020 basketball season.

Transbay Transit Center

The Transbay Project Redevelopment Project Area was adopted in 2005 with the purpose of redeveloping 10 acres of property owned by the State in order to generate funding for the new Salesforce Transit Center. In 2012 the Transit Center District Plan, the guiding document for the area surrounding the transit center, was approved by the Planning Commission and by the Board of Supervisors. The Transit Center District Plan includes additional funding sources for the Salesforce Transit Center. The Transbay Program will replace the former Transbay Terminal at First and Mission Streets with a modern transit hub and extend the Caltrain commuter rail line underground 1.3 miles into the Financial District. The Salesforce Transit Center broke ground on August 11, 2010, and is scheduled to commence operations in late Summer 2018. Demolition of existing structures on the site was completed in August 2011.

The Pelli Clarke Pelli Architects-designed transit center will serve more than 100,000 people per day through 11 transportation systems, including future California High Speed Rail, which will be designed to connect San Francisco to Los Angeles in less than 2-1/2 hours. The center is designed to embrace the goals of green architecture and sustainability. The heart of the Salesforce Transit Center, "Salesforce Park," a 5.4-acre public park atop the facility, that will serve as a living green roof for the transit facility. The center will have a LEED rating of at least Silver. The Transbay Program is funded by various public funding partners, including the federal government, the State, the Metropolitan Transportation

Commission, the San Francisco County and San Mateo County Transportation Authorities, AC Transit and the Successor Agency among others.

The 10 acres of property formerly owned by the State surrounding the Transbay Transit Center is being redeveloped with plans for 3,300 new homes, 1,300 to be affordable below-market rate homes, over 2.4 million square feet of new office space, over 9 acres of new parks and open space, and a new retail boulevard on Folsom Street. Of the parcels over which OCII has jurisdiction, three parcels are fully complete and seven parcels are in various stages of development and pre-development. Four of those parcels are currently under construction and will provide over 1,400 housing units and 760,000 of commercial space within the next 2 years. The sale of various sites has generated more than \$600 million in funding for construction of the Transbay Transit Center.

Mission Bay

The development plans for Mission Bay include a new University of California-San Francisco ("UCSF") research campus containing 3.15 million square feet of building space on 46 acres of land, of which 43 acres were donated by the Mission Bay Master Developer and the City; UCSF's 550-bed hospital; 3.4 million square feet of biotech, 'cleantech' and health care office space; 6,500 housing units, with 1,850 (29%) affordable to moderate-, low-, and very low-income households; 425,000 square feet of retail space; a 250-room hotel with up to 25,000 square feet of retail entertainment uses; 49 acres of public open space, including parks along Mission Creek and San Francisco Bay and eight acres of open space within the UCSF campus; a new 500-student public school; and a new fire and police station and police headquarters. Mission Bay is approximately 70% complete.

Over 5,646 units have been completed with an additional 262 units under construction, along with several new parks. In the past 6 months, a 119-unit affordable housing project and a 250 room have broken ground.

Seawall Lot (SWL) 337 and Pier 48 (Mission Rock)

Mission Rock is a mixed-use development at Seawall Lot 337 and Pier 48, Port-owned property comprising approximately 28 acres. The development plan for Mission Rock includes: approximately 8 acres of public parks and open spaces, including a 5-acre regional waterfront park; approximately 1,500 new rental housing units, 40 percent of which will be affordable to low- and moderate-income households; 1.0 to 1.4 million square feet of commercial space; 250,000 square feet of restaurant and retail space, approximately 3,000 parking spaces within a dedicated parking structure which will serve patrons of AT&T Park as well as Mission Rock occupants and visitors; and the rehabilitation and reuse of historic Pier 48.

On November 3, 2015, 74% of San Francisco voters approved the Mission Rock Affordable Housing, Parks, Jobs and Historic Preservation Initiative (Proposition D), which authorized increased height limits on the Project Site. Environmental review for the project was successfully completed in October 2017. The Port Commission approved the project's CEQA findings and transaction documents in January 2018 and the Mayor signed legislation approving the project and all associated transaction documents in March 2018. On In April 2018, State Lands Commission made determinations required under California statutes regarding the Mission Rock development. Site preparation and ground improvement work is planned for fall 2018 and full project buildout is anticipated to occur in four phases over 15 to 30 years.

Pier 70

Plans for Pier 70 call for substantial development, including major parks and historic building rehabilitation, on this 69-acre site to achieve a number of goals, including preservation and adaptive reuse of historic structures; retention of the ship repair operations; provision of new open space; reactivation and economic development on the site; and needed infrastructure and site remediation. The Port, which controls Pier 70, OEWD, in its capacity as lead City negotiator, and the City's development partner, Forest City, completed project approvals in February 2018 for new mixed-use neighborhood on a 28-acre portion of Pier 70 known as the Waterfront Site. Approvals included: passage of Proposition F by San Francisco voters in November 2014 – the Union Iron Works Historic District Housing, Waterfront Parks, Jobs, and Preservation Initiative – which allowed for an increase in height limits on the Waterfront Site to up to 90 feet; Mayoral signature on legislation approving the project in late 2017; and State Lands Commission action on the project in February 2018.

The Special Use District for the neighborhood includes 9 acres of parks, 1,600 to 3,000 residential units and 30% affordable housing, rehabilitation and reuse of three historic buildings in the Union Iron Works Historic District, almost 500,000 square feet of retail, arts, and light industrial space, 1.1 to 1.7 million square feet of commercial office. The project is anticipated to be developed in 3 phases over 15 to 25 years. The Forest City team has submitted its phase 1 application and anticipates breaking ground on Phase 1 in the first half of 2018.

Moscone Convention Center Expansion Project

The Moscone Center Expansion Project will add approximately 300,000 square feet and repurpose an additional 120,000 square feet to the portion of the existing Moscone Center located on Howard Street between 3rd and 4th Streets in the Yerba Buena Gardens neighborhood of San Francisco. Nearly 140,000 square feet of this additional space would be created by excavating and expanding the existing below-grade exhibition halls that connect the Moscone North and South buildings under Howard Street, with the remaining consisting of new and repurposed lobby area, new multi-purpose/meeting room area, and new and repurposed building support area.

In addition to adding new rentable square footage, the project architects propose an iconic sense of arrival that enhances Moscone's civic presence on Howard Street and reconnects it to the surrounding neighborhood through the creation of reintroduced lost mid-block passageways. As such, the project proposes a new mid-block pedestrian entrance from Third Street and a replacement pedestrian bridge connecting Yerba Buena Gardens with the cultural facilities and children's playground to the south. An additional enclosed pedestrian bridge would provide enhanced circulation for Moscone convention attendees and reduce on-street congestion.

A May 2012 analysis by Jones Lang Lasalle Hotels estimated that the City would forego up to \$2 billion in revenue over the next decade if Moscone were not expanded. The project allows the City to recover approximately \$734 million of this future revenue and create 3,480 local jobs through a phased construction schedule that keeps Moscone in continuous revenue generating operation.

The proposed project is a joint partnership between the City and the hotel industry, acting through the Tourist Improvement District Management Corporation, with the City paying approximately one-third of all expansion costs and the hotel community paying approximately two-thirds. The Board of Supervisors unanimously approved the creation of the Moscone Expansion District and the issuance of \$507 million in Certificates of Participation on February 5, 2013 and the Planning Commission

unanimously approved the project on August 15, 2014. On July 6, 2017, the City issued \$412 million in Certificates of Participation for the Moscone Convention Center Expansion Project, and there are no plans to issue any subsequent certificates for the expansion project. Project development began in December 2012, with major construction starting in November 2014. The project is expected to reach completion by the end of 2018.

CONSTITUTIONAL AND STATUTORY LIMITATIONS ON TAXES AND EXPENDITURES

Several constitutional and statutory limitations on taxes, revenues and expenditures exist under State law which limit the ability of the City to impose and increase taxes and other revenue sources and to spend such revenues, and which, under certain circumstances, would permit existing revenue sources of the City to be reduced by vote of the City electorate. These constitutional and statutory limitations, and future limitations, if enacted, could potentially have an adverse impact on the City's general finances and its ability to raise revenue, or maintain existing revenue sources, in the future. However, *ad valorem* property taxes required to be levied to pay debt service on general obligation bonds was authorized and approved in accordance with all applicable constitutional limitations. A summary of the currently effective limitations is set forth below.

Article XIIIA of the California Constitution

Article XIIIA of the California Constitution, known as "Proposition 13," was approved by the California voters in June of 1978. It limits the amount of ad valorem tax on real property to 1% of "full cash value," as determined by the county assessor. Article XIIIA defines "full cash value" to mean the county assessor's valuation of real property as shown on the 1975-76 tax bill under "full cash value," or thereafter, the appraised value of real property when "purchased, newly constructed or a change in ownership has occurred" (as such terms are used in Article XIIIA) after the 1975 assessment. Furthermore, all real property valuation may be increased or decreased to reflect the inflation rate, as shown by the CPI or comparable data, in an amount not to exceed 2% per year, or may be reduced in the event of declining property values caused by damage, destruction or other factors. Article XIIIA provides that the 1% limitation does not apply to ad valorem taxes to pay interest or redemption charges on 1) indebtedness approved by the voters prior to July 1, 1978, 2) any bonded indebtedness for the acquisition or improvement of real property approved on or after July 1, 1978, by two-thirds of the votes cast by the voters voting on the proposition, or 3) bonded indebtedness incurred by a school district or community college district for the construction, reconstruction, rehabilitation or replacement of school facilities or the acquisition or lease of real property for school facilities, approved by 55% of the voters of the district voting on the proposition, but only if certain accountability measures are included in the proposition.

The California Revenue and Taxation Code permits county assessors who have reduced the assessed valuation of a property as a result of natural disasters, economic downturns or other factors, to subsequently "recapture" such value (up to the pre-decline value of the property) at an annual rate higher or lower than 2%, depending on the assessor's measure of the restoration of value of the damaged property. The California courts have upheld the constitutionality of this procedure.

Since its adoption, Article XIIIA has been amended a number of times. These amendments have created a number of exceptions to the requirement that property be assessed when purchased, newly constructed or a change in ownership has occurred. These exceptions include certain transfers of real property between family members, certain purchases of replacement dwellings for persons over age 55 and by property owners whose original property has been destroyed in a declared disaster, and certain improvements to accommodate persons with disabilities and for seismic upgrades to property. These

amendments have resulted in marginal reductions in the property tax revenues of the City. Both the California State Supreme Court and the United States Supreme Court have upheld the validity of Article XIII .

Article XIIIB of the California Constitution

Article XIIIB was enacted by California voters as an initiative constitutional amendment in November 1979. Article XIIIB limits the annual appropriations from the proceeds of taxes of the State and any city, county, school district, authority or other political subdivision of the State to the level of appropriations for the prior fiscal year, as adjusted for changes in the cost of living, population, and services rendered by the governmental entity. However, no limit is imposed on the appropriation of local revenues and taxes to pay debt service on bonds existing or authorized by January 1, 1979, or subsequently authorized by the voters. Article XIIIB includes a requirement that if an entity's revenues in any year exceed the amount permitted to be spent, the excess would have to be returned by revising tax or fee schedules over the next two years.

Articles XIIIC and XIIID of the California Constitution

Proposition 218, an initiative constitutional amendment, approved by the voters of the State in 1996, added Articles XII C and XIIID to the State Constitution, which affect the ability of local governments, including charter cities such as the City, to levy and collect both existing and future taxes, assessments, fees and charges. Proposition 218 does not affect the levy and collection of taxes for voter-approved debt. However, Proposition 218 affects the City's finances in other ways. Article XIIIC requires that all new local taxes be submitted to the electorate for approval before such taxes become effective. Taxes for general governmental purposes of the City require a majority vote and taxes for specific purposes require a two-thirds vote. Under Proposition 218, the City can only continue to collect taxes that were imposed after January 1, 1995 if voters subsequently approved such taxes by November 6, 1998. All of the City's local taxes subject to such approval have been either reauthorized in accordance with Proposition 218 or discontinued. The voter approval requirements of Article XIII C reduce the City's flexibility to manage fiscal problems through new, extended or increased taxes. No assurance can be given that the City will be able to raise taxes in the future to meet increased expenditure requirements.

In addition, Article XIIIC addresses the initiative power in matters of local taxes, assessments, fees and charges. Pursuant to Article XIIIC, the voters of the City could, by initiative, repeal, reduce or limit any existing or future local tax, assessment, fee or charge, subject to certain limitations imposed by the courts and additional limitations with respect to taxes levied to repay bonds. The City raises a substantial portion of its revenues from various local taxes which are not levied to repay bonded indebtedness and which could be reduced by initiative under Article XIIIC. No assurance can be given that the voters of the City will disapprove initiatives that repeal, reduce or prohibit the imposition or increase of local taxes, assessments, fees or charges. See "OTHER CITY TAX REVENUES" herein, for a discussion of other City taxes that could be affected by Proposition 218.

With respect to the City's general obligation bonds (City bonds secured by *ad valorem* property taxes), the State Constitution and the laws of the State impose a duty on the Board of Supervisors to levy a property tax sufficient to pay debt service coming due in each year. The initiative power cannot be used to reduce or repeal the authority and obligation to levy such taxes which are pledged as security for payment of the City's general obligation bonds or to otherwise interfere with performance of the duty of the City with respect to such taxes which are pledged as security for payment of those bonds.

Article XIIID contains several provisions making it generally more difficult for local agencies, such as the City, to levy and maintain "assessments" (as defined in Article XIIID) for local services and programs. The City has created a number of special assessment districts both for neighborhood business improvement purposes and community benefit purposes, and has caused limited obligation bonds to be issued in 1996 to finance construction of a new public right of way. The City cannot predict the future impact of Proposition 218 on the finances of the City, and no assurance can be given that Proposition 218 will not have a material adverse impact on the City's revenues.

Statutory Limitations

On November 4, 1986, California voters adopted Proposition 62, an initiative statute that, among other things, requires (i) that any new or increased general purpose tax be approved by a two-thirds vote of the local governmental entity's legislative body and by a majority vote of the voters, and (ii) that any new or increased special purpose tax be approved by a two-thirds vote of the voters.

In Santa Clara County Local Transportation Authority v. Guardino, 11 Cal. 4th 220 (1995) (the "Santa Clara decision"), the California Supreme Court upheld a Court of Appeal decision invalidating a one-half cent countywide sales tax for transportation purposes levied by a local transportation authority. The California Supreme Court based its decision on the failure of the authority to obtain a two-thirds vote for the levy of a "special tax" as required by Proposition 62. The Santa Clara decision did not address the question of whether it should be applied retroactively. In McBrearty v. City of Brawley, 59 Cal. App. 4th 1441 (1997), the Court of Appeal, Fourth District, concluded that the Santa Clara decision is to be applied retroactively to require voter approval of taxes enacted after the adoption of Proposition 62 but before the Santa Clara decision.

The *Santa Clara* decision also did not decide, and the California Supreme Court has not otherwise decided, whether Proposition 62 applies to charter cities. The City is a charter city. Cases decided by the California Courts of Appeal have held that the voter approval requirements of Proposition 62 do not apply to certain taxes imposed by charter cities. See *Fielder v. City of Los Angeles*, 14 Cal. App. 4th 137 (1993) and *Fisher v. County of Alameda*, 20 Cal. App. 4th 120 (1993).

Proposition 62, as an initiative statute, does not have the same level of authority as a constitutional initiative, but is analogous to legislation adopted by the State Legislature, except that it may be amended only by a vote of the State's electorate. Since it is a statute, it is subordinate to the authority of charter cities to impose taxes derived from the State Constitution. Proposition 218 (discussed above), however, incorporates the voter approval requirements initially imposed by Proposition 62 into the State Constitution.

Even if a court were to conclude that Proposition 62 applies to charter cities, the City's exposure under Proposition 62 may not be significant. The effective date of Proposition 62 was November 1986. Proposition 62 contains provisions that apply to taxes imposed on or after August 1, 1985. Since August 1, 1985, the City has collected taxes on businesses, hotel occupancy, utility use, parking, property transfer, stadium admissions and vehicle rentals. See "OTHER CITY TAX REVENUES" herein. Only the hotel and stadium admissions taxes have been increased since that date. The increases in these taxes were ratified by the voters on November 3, 1998 pursuant to the requirements of Proposition 218. With the exception of the vehicle rental tax, the City continues to collect all of the taxes listed above. Since these remaining taxes were adopted prior to August 1, 1985, and have not been increased, these taxes would not be subject to Proposition 62 even if Proposition 62 applied to a charter city.

Proposition 1A

Proposition 1A, a constitutional amendment proposed by the State Legislature and approved by the voters in November 2004, provides that the State may not reduce any local sales tax rate, limit existing local government authority to levy a sales tax rate, or change the allocation of local sales tax revenues, subject to certain exceptions. As set forth under the laws in effect as of November 3, 2004, Proposition 1A generally prohibits the State from shifting any share of property tax revenues allocated to local governments for any fiscal year to schools or community colleges. Any change in the allocation of property tax revenues among local governments within a county must be approved by two-thirds of both houses of the Legislature. Proposition 1A provides, however, that beginning in fiscal year 2008-09, the State may shift to schools and community colleges up to 8% of local government property tax revenues, which amount must be repaid, with interest, within three years, if the Governor proclaims that the shift is needed due to a severe State financial hardship, the shift is approved by two-thirds of both houses and certain other conditions are met. The State may also approve voluntary exchanges of local sales tax and property tax revenues among local governments within a county.

Proposition 1A also provides that if the State reduces the annual vehicle license fee rate below 0.65% of vehicle value, the State must provide local governments with equal replacement revenues. Further, Proposition 1A requires the State to suspend State mandates affecting cities, counties and special districts, excepting mandates relating to employee rights, schools or community colleges, in any year that the State does not fully reimburse local governments for their costs to comply with such mandates.

Proposition 1A may result in increased and more stable City revenues. The magnitude of such increase and stability is unknown and would depend on future actions by the State. However, Proposition 1A could also result in decreased resources being available for State programs. This reduction, in turn, could affect actions taken by the State to resolve budget difficulties. Such actions could include increasing State taxes, decreasing aid to cities and spending on other State programs, or other actions, some of which could be adverse to the City.

Proposition 22

Proposition 22 ("Proposition 22") which was approved by California voters in November 2010, prohibits the State, even during a period of severe fiscal hardship, from delaying the distribution of tax revenues for transportation, redevelopment, or local government projects and services and prohibits fuel tax revenues from being loaned for cash-flow or budget balancing purposes to the State General Fund or any other State fund. In addition, Proposition 22 generally eliminates the State's authority to temporarily shift property taxes from cities, counties, and special districts to schools, temporarily increase a school and community college district's share of property tax revenues, prohibits the State from borrowing or redirecting redevelopment property tax revenues or requiring increased passthrough payments thereof, and prohibits the State from reallocating vehicle license fee revenues to pay for State-imposed mandates. In addition, Proposition 22 requires a two-thirds vote of each house of the State Legislature and a public hearing process to be conducted in order to change the amount of fuel excise tax revenues shared with cities and counties. Proposition 22 prohibits the State from enacting new laws that require redevelopment agencies to shift funds to schools or other agencies (but see "San Francisco Redevelopment Agency Dissolution" above). While Proposition 22 will not change overall State and local government costs or revenues by the express terms thereof, it will cause the State to adopt alternative actions to address its fiscal and policy objectives.

Due to the prohibition with respect to the State's ability to take, reallocate, and borrow money raised by local governments for local purposes, Proposition 22 supersedes certain provisions of Proposition 1A

(2004). However, borrowings and reallocations from local governments during 2009 are not subject to Proposition 22 prohibitions. In addition, Proposition 22 supersedes Proposition 1A of 2006. Accordingly, the State is prohibited from borrowing sales taxes or excise taxes on motor vehicle fuels or changing the allocations of those taxes among local governments except pursuant to specified procedures involving public notices and hearings.

Proposition 26

On November 2, 2010, the voters approved Proposition 26 ("Proposition 26"), revising certain provisions of Articles XIII and XIII of the California Constitution. Proposition 26 re-categorizes many State and local fees as taxes, requires local governments to obtain two-thirds voter approval for taxes levied by local governments, and requires the State to obtain the approval of two-thirds of both houses of the State Legislature to approve State laws that increase taxes. Furthermore, pursuant to Proposition 26, any increase in a fee beyond the amount needed to provide the specific service or benefit is deemed to be a tax and the approval thereof will require a two-thirds vote. In addition, for State-imposed charges, any tax or fee adopted after January 1, 2010 with a majority vote which would have required a two-thirds vote if Proposition 26 were effective at the time of such adoption is repealed as of November 2011 absent the re-adoption by the requisite two-thirds vote.

Proposition 26 amends Article XIII of the State Constitution to state that a "tax" means a levy, charge or exaction of any kind imposed by a local government, except (1) a charge imposed for a specific benefit conferred or privilege granted directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of conferring the benefit or granting the privilege; (2) a charge imposed for a specific government service or product provided directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of providing the service or product; (3) a charge imposed for the reasonable regulatory costs to a local government for issuing licenses and permits, performing investigations, inspections and audits, enforcing agricultural marketing orders, and the administrative enforcement and adjudication thereof; (4) a charge imposed for entrance to or use of local government property or the purchase rental or lease of local government property; (5) a fine, penalty, or other monetary charge imposed by the judicial branch of government or a local government as a result of a violation of law, including late payment fees, fees imposed under administrative citation ordinances, parking violations, etc.; (6) a charge imposed as a condition of property development; or (7) assessments and property related fees imposed in accordance with the provisions of Proposition 218. Fees, charges and payments that are made pursuant to a voluntary contract that are not "imposed by a local government" are not considered taxes and are not covered by Proposition 26.

Proposition 26 applies to any levy, charge or exaction imposed, increased, or extended by local government on or after November 3, 2010. Accordingly, fees adopted prior to that date are not subject to the measure until they are increased or extended or if it is determined that an exemption applies.

If the local government specifies how the funds from a proposed local tax are to be used, the approval will be subject to a two-thirds voter requirement. If the local government does not specify how the funds from a proposed local tax are to be used, the approval will be subject to a fifty percent voter requirement. Proposed local government fees that are not subject to Proposition 26 are subject to the approval of a majority of the governing body. In general, proposed property charges will be subject to a majority vote of approval by the governing body although certain proposed property charges will also require approval by a majority of property owners.

Future Initiatives and Changes in Law

The laws and Constitutional provisions described above were each adopted as measures that qualified for the ballot pursuant to the State's initiative process. From time to time other initiative measures could be adopted, further affecting revenues of the City or the City's ability to expend revenues. The nature and impact of these measures cannot be anticipated by the City.

On April 25, 2013, the California Supreme Court in *McWilliams v. City of Long Beach* (April 25, 2013, No. S202037), held that the claims provisions of the Government Claims Act (Government Code Section 900 *et. seq.*) govern local tax and fee refund actions (absent another State statue governing the issue), and that local ordinances were without effect. The effect of the McWilliams case is that local governments could face class actions over disputes involving taxes and fees. Such cases could expose local governments to significant refund claims in the future. The City cannot predict whether any such class claims will be filed against it in the future, the outcome of any such claim or its impact on the City.

LITIGATION AND RISK MANAGEMENT

Pending Litigation

There are a number of lawsuits and claims routinely pending against the City, including those summarized in Note 18 to the City's CAFR as of June 30, 2017, attached as Appendix B to this Official Statement. Included among these are a number of actions which if successful would be payable from the City's General Fund. In the opinion of the City Attorney, such suits and claims presently pending will not materially impair the ability of the City to pay debt service on the Certificates, its General Fund lease or other debt obligations, nor materially impair the City's ability to fund current operations.

Millennium Tower is a 58-story luxury residential building completed in 2009 and located at 301 Mission Street in downtown San Francisco. On August 17, 2016, some owners of condominiums in Millennium Tower filed a lawsuit, San Francisco Superior Court No. 16-553758 (the "Lehman Lawsuit") against the Transbay Joint Powers Authority ("TJPA") and the individual members of the TJPA, including the City. The TJPA is a joint exercise of powers authority created by the City, the Alameda-Contra Costa Transit District, the Peninsula Corridor Joint Powers Board, and Caltrans (ex officio). The TJPA is responsible under State law for developing and operating the Transbay Transit Center, which will be a new regional transit hub located near the Millennium Tower. See "MAJOR ECONOMIC DEVELOPMENT PROJECTS—Transbay".

The TJPA began excavation and construction of the Transbay Transit Center in 2010, after the Millennium Tower was completed. In brief, the Lehman Lawsuit claims that the construction of the Transbay Transit Center harmed the Millennium Tower by causing it to settle into the soil more than planned and tilt toward the west/northwest, and the owners claim unspecified monetary damages for inverse condemnation and nuisance. The TJPA has asserted that the Millennium Tower was already sinking more than planned and tilting before the TJPA began construction of the Transbay Transit Center and that the TJPA took precautionary efforts to avoid exacerbating the situation. In addition to the Lehman Lawsuit, several other lawsuits have been filed against the TJPA related to the subsidence and tilting of the Millennium Tower. In total, seven lawsuits have been filed against TJPA, and a total of three of those name the City.

In addition to the Lehman Lawsuit, the City is named as a defendant in a lawsuit filed by the owners of a single unit, the Montana Lawsuit, San Francisco Superior Court Case No. 17-558649, and in a lawsuit filed by owners of multiple units, Case No. 17-559210, the Ying Lawsuit. The Montana and Ying Lawsuits

contain the same claims as the Lehman Lawsuit. The City continues to evaluate the lawsuits, and the subject matter of the lawsuits, and is engaged in discovery, but cannot now make any prediction as to the outcome of the lawsuits, or whether the lawsuits, if determined adversely to the TJPA or the City, would have a material adverse impact on City finances.

Risk Retention Program

Citywide risk management is coordinated by the Risk Management Division which reports to the Office of the City Administrator. With certain exceptions, it is the general policy of the City not to purchase commercial liability insurance for the risks of losses to which it is exposed but rather to first evaluate self-insurance for such risks. The City's policy in this regard is based on its analysis that it is more economical to manage its risks internally and administer, adjust, settle, defend, and pay claims from budgeted resources (i.e., "self-insurance"). The City obtains commercial insurance in certain circumstances, including when required by bond or lease financing covenants and for other limited purposes. The City actuarially determines liability and workers' compensation risk exposures as permitted under State law. The City does not maintain commercial earthquake coverage, with certain minor exceptions.

The City's property risk management approach varies depending on various factors including whether the facility is currently under construction or if the property is owned by a self-supporting enterprise fund department. For new construction projects, the City has utilized traditional insurance, owner-controlled insurance programs or contractor-controlled insurance programs. Under the latter two approaches, the insurance program provides coverage for the entire construction project. When a traditional insurance program is used, the City requires each contractor to provide its own insurance, while ensuring that the full scope of work be covered with satisfactory limits to protect the City from risk exposure. The majority of the City's commercial insurance coverage is purchased for enterprise fund departments and other similar revenue-generating departments (the Airport, MTA, the SF Public Utilities Commission, the Port and Convention Facilities, etc.). The remainder of the commercial insurance coverage is for General Fund departments that are required to provide coverage for bond-financed facilities, coverage for collections at City-owned museums and to meet statutory requirements for bonding of various public officials, and other limited purposes where required by contract or other agreement.

Through coordination with the City Controller and the City Attorney's Office, the City's general liability risk exposure is actuarially determined and is addressed through appropriations in the City's budget and also reflected in the CAFR. The appropriations are sized based on actuarially determined anticipated claim payments and the projected timing of disbursement.

The City actuarially estimates future workers' compensation costs to the City according to a formula based on the following: (i) the dollar amount of claims; (ii) yearly projections of payments based on historical experience; and (iii) the size of the department's payroll. The administration of workers' compensation claims and payouts are handled by the Workers' Compensation Division of the City's Department of Human Resources. The Workers' Compensation Division determines and allocates workers' compensation costs to departments based upon actual payments and costs associated with a department's injured workers' claims. Statewide workers' compensation reforms have resulted in some City budgetary savings in recent years. The City continues to develop and implement programs to lower or mitigate workers' compensation costs. These programs focus on accident prevention, transitional return to work for injured workers, improved efficiencies in claims handling and maximum utilization of medical cost containment strategies.

The City's estimated liability and workers' compensation risk exposures are summarized in Note 16 to the City's CAFR, attached to this Official Statement as Appendix B.

CITY AND COUNTY OF SAN FRANCISCO OFFICE OF THE CONTROLLER

December 29, 2017

The Honorable Acting Mayor London N. Breed The Honorable Members of the Board of Supervisors Residents of the City and County of San Francisco San Francisco, California

Ladies and Gentlemen:

I am pleased to present the Comprehensive Annual Financial Report (CAFR) of the City and County of San Francisco, California (the City) for the year ended June 30, 2017, with the independent auditor's report. The report is submitted in compliance with City Charter sections 2.115 and 3.105, and California Government Code Sections 25250 and 25253. The Office of the Controller prepared the CAFR in conformance with the principles and standards for accounting and financial reporting set forth by the Governmental Accounting Standards Board (GASB).

The City is responsible for the accuracy of the data and for the completeness and fairness of its presentation. The existing comprehensive structure of internal accounting controls in the City provides reasonable assurance that the financial statements are free of any material misstatements. Because the cost of internal control should not exceed the anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of material misstatements. I believe that the reported data is accurate in all material respects and that its presentation fairly depicts the City's financial position and changes in its financial position as measured by the financial activity of its various funds. I am confident that the included disclosures provide the reader with an understanding of the City's financial affairs.

The City's Charter requires an annual audit of the Controller's records. The records have been audited by Macias Gini & O'Connell LLP and are presented in the Basic Financial Statements in this CAFR. The CAFR also incorporates financial statements of various City enterprise funds and component units, including the San Francisco International Airport, the San Francisco Water Enterprise, Hetch Hetchy Water and Power, the Municipal Transportation Agency, the San Francisco Wastewater Enterprise, the Port of San Francisco, the City and County of San Francisco Finance Corporation, the San Francisco County Transportation Authority, the City and County of San Francisco Health Service System, the San Francisco City and County Employees' Retirement System, and the Successor Agency to the San Francisco Redevelopment Agency.

This letter of transmittal is designed to complement the Management's Discussion and Analysis (MD&A) section of the CAFR. The MD&A provides a narrative overview and analysis of the Basic Financial Statements and is presented after the independent auditor's report.

KEY FINANCIAL REPORT SECTIONS:

The **Introductory Section** includes information about the organizational structure of the City, the City's economy, major initiatives, status of City services, and cash management.

The **Financial Section** includes the MD&A, Basic Financial Statements, notes to the Basic Financial Statements, and required supplementary information. The Basic Financial Statements include the government-wide financial and other statements that report on all City financial operations, and also include fund financial statements that present information for all City funds. The independent auditor's report on the Basic Financial Statements is also included.

The financial statements of several enterprise activities and of all component units of government are included in this CAFR. Some component units' financial statements are blended with the City's, such as the San Francisco County Transportation Authority and the San Francisco Finance Corporation. The reason for this is that the primary government is financially accountable for the operations of these agencies. In other instances, namely, for the Treasure Island Development Authority, financial reporting is shown separately. Supplemental combining statements and schedules for nonmajor governmental funds, internal service funds and fiduciary funds are also presented in the financial section.

The **Statistical Section** includes up to ten years of historical financial data and miscellaneous social and economic information that conforms to GASB standards for reporting statistical information. This section may be of special interest to citizens and prospective investors in our bonds.

SAN FRANCISCO'S ECONOMY:

Overview of Recent Trends

An educated workforce and easy access to transit and financial capital continue to drive business investment in the City. San Francisco's economy has fully recovered losses from the most recent recession, and growth continues to outpace that of the state and national economies. The City's unemployment rate in fiscal year 2016-17 remained nearly constant at a rate of 3.1%, a drop of 0.3% from the prior fiscal year's rate of 3.4%. In comparison, average unemployment rates for California and the nation for fiscal year 2016-17 stood at 5.1% and 4.7%, respectively. The low unemployment rate is due to continued strength in the labor market as opposed to people dropping out of the labor force. In fiscal year 2016-17, private nonfarm employment in the San Francisco Metropolitan Division grew 3.1% over the prior fiscal year, compared to 2.1% growth for the state overall.

The resident population also continued to grow, reaching a new historical high of 870,887 in 2016 according to the U.S. Census Bureau. This represents a 1.0% increase versus the prior year, and cumulative growth of 102.237 or 13.3% over the last decade.

Key indicators of the City's real estate market have shown marked improvement over the past fiscal year. Commercial rents and median home prices increased to new historical highs. The monthly per square foot rental rates for commercial space grew to \$73.71 in fiscal year 2016-17, a 5.1% increase versus the prior year. The average median home price in the fiscal year grew to an annual high of \$1,156,233, up 2.8% from the previous fiscal year.

San Francisco's economic recovery has stimulated the demand for new residential and commercial space. A large amount of private construction was completed or underway during the last fiscal year, with 4,745 housing units completed and 7,101 additional units under construction at the end of the fiscal year. Building permits for nearly 5.5 million square feet of construction were issued during the year. Much of this development is shaped by major area planning efforts that the City has completed in recent years, including in the Eastern Neighborhoods, Market-Octavia, and the Transit Center District. The City has also adopted or approved large-scale development projects in Candlestick Point/Hunters Point Shipyard, Treasure Island, and Park Merced.

SAN FRANCISCO GOVERNMENT:

Profile of San Francisco Government

The City and County of San Francisco was established by Charter in 1850, and is the only legal subdivision of the State of California with the governmental powers of both a city and a county. The City's legislative power is exercised through a Board of Supervisors, while its executive power is vested upon a Mayor and other appointed and elected officials. Key public services provided by the City include public safety and protection, public transportation, water and sewer, parks and recreation, public health, social services and land-use and planning regulation. The heads of most of these departments are appointed by the Mayor and advised by commissions and boards appointed by City elected officials.

Elected officials include the Mayor, Members of the Board of Supervisors, Assessor-Recorder, City Attorney, District Attorney, Public Defender, Sheriff, Superior Court Judges, and Treasurer. Since November 2000, the eleven-member Board of Supervisors has been elected through district elections. The eleven district elections are staggered for five and six seats at a time, and held in even-numbered years. Board members serve four-year terms and vacancies are filled by Mayoral appointment.

San Francisco's Budgetary Process

The budget is adopted at the character level of expenditure within each department, and the department level and fund is the legal level of budgetary control. The notes to the budgetary comparison schedule in the required supplementary information section summarizes the budgetary roles of City officials and the timetable for their various budgetary actions according to the City Charter.

The City has historically adopted annual budgets for all governmental funds and typically adopts project-length budgets for capital projects and certain debt service funds. The voters adopted amendments to the Charter in November 2009 designed to further strengthen the City's long-range financial planning. As a result of these changes, the City for the first time adopted a two-year budget for all funds for the two upcoming fiscal years in July 2012. The Charter requires that the City adopt a "rolling" two-year budget each year unless the Board of Supervisors authorizes a "fixed" two-year budget appropriation for a given fund, in which case authorization occurs every two years. As of fiscal year 2016-17 there were seven departments on a two-year fixed budget.

As further required by these amendments, the Board of Supervisors and Mayor adopt a five-year financial plan every two years. The most recent plan was adopted in March 2017. Additionally, these Charter changes provided a mechanism for the Controller to propose, and the Board to adopt, various binding financial policies, which can only be suspended by a supermajority of the Board. Financial policies have now been adopted under these provisions governing the City's budget reserve practices, the use of non-recurring revenues, and limits on the use of debt paid from the General Fund.

Internal and Budgetary Controls

In developing and evaluating the City's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition, and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The City maintains budgetary controls to ensure that legal provisions of the annual budget are in compliance and expenditures do not exceed budgeted amounts. Controls are exercised by integrating the budgetary accounts in fund ledgers for all budgeted funds. An encumbrance system is also used to account for purchase orders and other contractual commitments. Encumbered balances of appropriations at year-end are carried forward and are not reappropriated in the following year's budget.

Pension and Retiree Health Trust Fund Operations

The City has seven pension plans, with a substantial majority of full-time employees participating in the San Francisco Employees' Retirement System (SFERS), a defined benefit retirement plan. The City uses two different actuarial valuation studies — one for financial reporting purposes as required by Government Accounting Standard Board and the other for funding purposes to determine the City's actuarially determined contributions to the plan.

Funding Purposes – The most recent actuarial valuation report for the SFERS pension plan, dated July 1, 2016, estimates the unfunded actuarial accrued liability at \$3.75 billion, an increase of \$432 million from the previous actuarial valuation dated July 1, 2015. And the valuation report estimates the plan to be 84.6% funded, down from 85.6%.

Financial Reporting – As of June 30, 2017, for financial reporting purposes, the City's net pension liability for SFERS is \$5.48 billion, an increase of \$3.32 billion from the previous year. SFERS's fiduciary net position as a percentage of total pension liability, which is comparable to the funding ratio mentioned above decreased from 89.9% to 77.6%.

The City's unfunded retiree health benefit liability has been calculated at \$4.21 billion as of July 1, 2014. In 2009, the City and employees began to pre-fund prospective obligations through contributions of 3% of salary for employees hired on or after January 10, 2009. These contributions are held in an irrevocable trust, the Retiree Health Care Trust Fund. Beginning in fiscal year 2016-17, employees hired before January 10, 2009 started contributing to the Trust Fund with an employer match, starting at a combined 0.5% of salary and rising to 2.0% of salary by fiscal year 2019-20. As of June 30, 2017, the Trust Fund had a net position of \$187.4 million, an increase of 63% versus the prior year. Given increasing pay-as-you-go and prefunding contributions and reductions in the benefit level for recently-hired employees, the City expects to fund the Annual Required Contribution (ARC) by fiscal year 2019-20.

General Fund Financial Position Highlights

The City's General Fund financial position continued to post significant improvement during this most recent fiscal year, continuing trends from recent years.

Total GAAP-basis General Fund balance, which includes funds reserved for continuing appropriations and reserves, ended fiscal year 2016-17 at \$1.87 billion, up \$441.5 million from the prior year.

The General Fund's cash position also reflects a strong improvement in fiscal year 2016-17, rising to a new year-end peak of \$2.14 billion, up \$421.3 million from June 30, 2016.

The General Fund rainy day and budget stabilization reserves grew to \$448.9 million at the end of fiscal years 2016-17, an increase of \$150.4 million compared to prior year.

The majority of fund balance available for appropriation on a budgetary basis totaled \$545.9 million or \$14.4 million more than had been previously projected and appropriated by the Mayor and Board as a source in the adopted two-year budget for fiscal years 2017-18 and 2018-19.

Key Government Initiatives

San Francisco's economy depends on investments in infrastructure and services that benefit City residents, workers, visitors, and businesses. These economic foundations range from housing and commercial development, to transportation infrastructure, investments in health and human services, and the City's quality of life. The City is taking steps to strengthen this infrastructure, to support San Francisco's economic recovery and long-term prosperity. Some important initiatives are described below:

Improving the City's Public Transportation Systems

San Francisco is ideally situated to serve the Bay Area's need to rapidly bring a large numbers of workers into a transit-accessible employment center, and efficiently navigate the dense City on foot, mass transit, taxi or bicvole.

Plans for a multi-modal transit hub located in the City's core – the Transbay Transit Center – are targeted to meet a portion of this regional need. The center is designed to provide expanded bus, commuter train, and ultimately high-speed rail connections into the City from within the region and state, and to provide pedestrian connections to nearby subway, surface rail, and bus services within the City. The former terminal at the site has been demolished with completion of the new center targeted for fiscal year 2017-18. The

\$2.3 billion transit center, managed by a financially independent authority, is funded through a host of revenue sources; including federal stimulus funding, land sale proceeds, tax increment, local sales tax, and other revenues generated from planned dense, mixed-use development adjacent to the site. In order to meet cash flow needs of the project, an interim financing plan not to exceed \$260 million was approved by both the City and the authority in fiscal year 2015-16. This interim financing will be provided by the City and is secured against special tax revenues generated by future private developments in the area immediately surrounding the terminal.

The City is currently constructing the Central Subway project, the second phase of a program designed to create a light-rail line running from Chinatown, under the heart of downtown, and connecting to the most-recent extension of the light-rail system to the Southeast portion of the City. The subway will connect to Bay Area Rapid Transit (BART) and Caltrain, the region's two largest regional commuter rail services. The Central Subway project, with an estimated budget of \$1.6 billion and a targeted completion date of 2019, is estimated to provide approximately 35,000 daily boardings at four stations along the new 1.7 mile line. Once in active service in 2019, the project will reduce travel times and congestion along some of the most congested vehicular and public transit routes in California.

The City is also implementing a street repair and improvement program, funded with a \$248 million general obligation bond, as well as state and local revenue sources. Under this program, over 2,500 blocks are expected to be repaved or preserved, 1,900 curb ramps for disabled access will be constructed, and over 125,000 square feet of public sidewalk will be repaired. In commercial corridors, and along busy routes, the program is enabling the City to build complete streets that enhance pedestrian and bicycle safety and enhance the vibrancy of urban neighborhoods. The program also provides funds to rehabilitate existing traffic signal infrastructure and allow transit signal priority along key transit routes, improving transit efficiency and relieving traffic congestion. During the last two years, the City has repaved or maintained more than 1,400 blocks, built 3,400 curb ramps, made 40 structural repairs, inspected and repaired more than 525,000 square feet of sidewalk.

These improvements to the City's transportation infrastructure will be accelerated given voter approval of a \$500 million general obligation bond in November 2014, the first of four funding measures recommended by a Mayoral taskforce convened during fiscal year 2013-14 to prioritize critical transportation infrastructure projects and recommend funding strategies to meet these needs. Projects planned for the bond include investments designed to improve reliability and travel time on mass transit, improve pedestrian safety, improve accessibility, and address priority deferred maintenance needs.

The City continued to invest in improvements at San Francisco International Airport (SFO) in fiscal year 2016-17 as part of an approved \$7.4 billion capital plan. Projects in construction include the \$2.3 billion renovation of Terminal 1, a new long-term parking garage, a consolidated administrative campus, an on-Airport hotel and an extension of the AirTrain system. These projects are necessitated by the continued growth in passenger volumes at SFO, which has experienced eight consecutive years of passenger growth, and served a record number of passengers in fiscal year 2016-17. SFO accounts for 91% of international air travel and 69% of all air travel into the Bay Area.

Investing in Affordable Housing

In November 2015, San Francisco voters approved an Affordable Housing Bond, which authorized the issuance of up to \$310 million to fund the construction, development, acquisition, and preservation of affordable housing, including acquisition, rehabilitation, and preservation of affordable rental apartment buildings, the repair and reconstruction of public housing, and funding for middle-income rental and down payment assistance programs.

Completing Critical Infrastructure Upgrades for Water, Power, and Sewer Services

Service reliability and disaster preparedness are also priorities of the City's Public Utilities Commission (PUC), as evidenced in the historic levels of infrastructure investment being deployed and planned in all three enterprises the PUC operates.

2017-18 budget establishes a \$50 million management reserve to begin preliminary efforts to plan for these future potential losses.

Modernizing the City's Parks and Libraries

San Francisco voters have approved a number of bond measures to fund capital improvements to the City's parks and libraries during the past decade, including the most recent approval in November 2012 of a \$195 million general obligation bond for improvements to neighborhood parks. Once implemented, the City will have completed substantial renovations of 13 recreation centers, 52 playgrounds, and 9 swimming pools during a ten-year period.

Delivering Public and Private Waterfront Improvements

The Port of San Francisco, a department of the City, is custodian to seven and one-half miles of maritime industrial and urban waterfront property. The City utilizes public-private partnerships to marshal private sector creativity and financial resources to rehabilitate historic Port assets or develop new facilities for maximum public benefit. Public-private partnerships complement the City's public works project-delivery mechanism, which has been used to deliver many waterfront projects. Development opportunity areas are identified and guided by the Port of San Francisco Waterfront Land Use Plan, which was initially adopted in 1997 and is in a public planning update process expected to conclude with policy recommendations for key waterfront subareas in 2017-18. The Seawall Resiliency Project is a major City and Port effort to improve safety and resilience of the historic Embarcadero waterfront. The Project's objective is to plan, design, and implement the most critical improvements over the next decade, and, along with the Waterfront Land Use Plan, provide the framework for ensuring a disaster resilient waterfront by 2040, a major goal of the City's Resilient San Francisco Plan.

Improving Earthquake Safety and Preparedness and Public Health

In June 2014, San Francisco voters approved a \$400 million Earthquake Safety and Emergency Response Bond (ESER 2014) to continue vital work done in the ESER program and to pay for repairs and improvements that will allow San Francisco to quickly respond to a major earthquake or disaster. The first phase of the ESER program was approved by voters in June 2010 and since the program began, the City has completed the new Public Safety Building, made improvements to a number of neighborhood firehouses, constructed a new headquarters for the Medical Examiner's Office, and upgrades to the emergency firefighting water system.

In June 2016, the voters of San Francisco approved a \$350 million Public Health and Safety Bond to provide funds to improve critical public health infrastructure, including neighborhood fire stations as well as community and mental health care facilities. The bond funds will also be used to build a seismically upgraded ambulance deployment center and make improvements to homeless service sites.

Other Long-Term Financial Challenges Remain

Notwithstanding the City's strong economic and financial performance during the recent recovery and despite significant initiatives outlined above, several long-term financial challenges and risks remain unresolved.

While significant investments are proposed in the City's adopted ten-year capital plan, identified resources remain below those necessary to maintain and enhance the City's physical infrastructure. As a result, over \$11 billion in capital needs are deferred from the plan's horizon. Over two-thirds of these unfunded needs are for the City's transportation and waterfront infrastructure, where core maintenance investments have lagged for decades.

The City has taken significant steps to address long-term unfunded liabilities for employee pension and other postemployment benefits, including retiree health obligations, yet significant liabilities remain. The most recent actuarial analyses estimate unfunded actuarial accrued liabilities of \$7.96 billion for these benefits, comprised of \$4.21 billion for retiree health obligations and \$3.75 billion for employee pension

As of the end of fiscal year 2016-17, the City was over 94% complete with a \$4.8 billion multi-year capital program to upgrade local and regional water systems, known as the Water System Improvement Program (WSIP). The WSIP program consists of both local and regional projects spread over seven counties from the Sierra foothills to San Francisco. The WSIP delivers capital improvements that enhance the system's ability to provide reliable, affordable, high-quality drinking water in an environmentally sustainable manner to its 27 wholesale and regional retail customers in Alameda, Santa Clara, San Mateo, and San Francisco counties, collectively serving some 2.6 million people. The program is structured to cost effectively meet water quality requirements, improve seismic and delivery reliability, and meet long-term water supply objectives.

The PUC is also underway with a \$7.0 billion, three-phased 20-year program to upgrade of the City's wastewater infrastructure, the Sewer System Improvement Program (SSIP). The first phase, totaling \$2.7 billion, includes \$1.7 billion in improvements to the Southeast Treatment Plant and funding for sustainable, green infrastructure and urban watershed assessment projects to minimize stormwater impact on the sewer system. The SSIP will upgrade the City's combined sewer system, which was predominantly built out over the past century. Although significant investment occurred in the mid-1970s through the mid-1990s to comply with the Clean Water Act, today many of the existing facilities are in need of upgrade and major improvement to prepare San Francisco for the future.

Hetch Hetchy Water and Power, which includes upcountry water operations and the City's power enterprise, is in the midst of an upcountry rehabilitation program for its aging reservoirs, powerhouses, switchyards, pipelines, tunnels and in-city power assets. Upcountry water and power facilities are being assessed and rehabilitated where needed, including investments in reservoirs, powerhouses, switchyards, and substations, 170 miles of pipelines and tunnels, 160 miles of transmission lines, watershed land, and right-of-way property. Improvements in San Francisco include piloted replacement of old, outdated streetlight fixtures and poles with modern, energy-efficient ones. These new fixtures will have wireless controls, enabling the City to achieve cost-efficiency and higher performance through the ability to monitor and control them remotely. Over the next ten years, \$1.2 billion of critical infrastructure investment is planned.

Expanding Access to Healthcare

Public health and human services are important to the long-term health and well-being of City residents, and to the overall productivity of the City's workforce. The City offers a host of health and safety net services, including operation of two public hospitals, the administration of federal, state, and local entitlement programs, and a vast array of community-based health and human services.

January 2014 marked the beginning of full-scale implementation of the Affordable Care Act (ACA), including the launch of Covered California and the Medi-Cal expansion. In preparation, the City conducted extensive outreach through various agencies, and the Department of Public Health (DPH) created the San Francisco Health Network, consolidating the department's full continuum of direct health care services. The San Francisco Health Network is an integrated health care delivery system that improves the department's ability to provide and manage care for insured patients that select our network, organize the elements of the delivery system, improve system efficiency, and improve the patient experience.

Cumulatively, over 140,000 San Franciscans have enrolled in new health insurance options since the launch of the Affordable Care Act (ACA) in 2014, including more than 78,000 through the expansion of Medi-Cal and over 62,000 through Covered California. Paralleling the increased insurance enrollment is a continued reduction in enrollment in Healthy San Francisco, the City's health access program for the uninsured, which declined from nearly 58,000 participants prior to ACA implementation to nearly 13,500 as of July 2017. However, Healthy San Francisco does not account for all uninsured San Franciscans, and the City estimates that 30,000 to 35,000 residents continue to remain without insurance. The residually uninsured include those ineligible for the insurance expansions offered under the ACA and those who are eligible but who, for a variety of reasons, do not enroll. The City will continue to be a key provider of safety net services for these individuals.

While not successful to date, efforts in Congress to repeal or replace the ACA could cause a significant loss of healthcare coverage for San Franciscans and a loss of revenue for DPH. The adopted fiscal year

OFFICE OF THE CONTROLLER

benefits. In recent years, the City and voters have adopted significant changes that should mitigate these unfunded liabilities over time, including adoption of lower-cost benefit tiers, increases to employee and employer contribution requirements, and establishment of a trust fund to set-aside funding for future retiree health costs. The financial benefit from these changes will phase in over time, however, leaving ongoing financial challenges for the City in the shorter term.

Lastly, while the City has adopted a number of measures to better position the City's operating budget for future economic downturns, further progress is still needed. Economic stabilization reserves have grown significantly during the last four fiscal years, exceeding pre-recession peaks in the prior year. By the end of the fiscal year, these reserves were funded up to 9.0% of discretionary General Fund revenues, which is below the adopted target of 10%. Further progress towards the targeted level in future fiscal years will allow the City to better weather inevitable negative variances that will be driven by future economic volatility.

OTHER INFORMATION:

Independent Audit

The City's Charter requires an annual audit of the Controller's records. These records, represented in the basic financial statements included in the CAFR have been audited by the nationally recognized certified public accounting firm, Macias Gini & O'Connell LLP. The various enterprise funds, the Health Service System, the Employees' Retirement System, the Retiree Health Care Trust, the San Francisco County Transportation Authority, the San Francisco Finance Corporation, and the Successor Agency to the San Francisco Redevelopment Agency have been separately audited. The Independent Auditor's Report on our current year's financial statements is presented in the Financial Section.

Award for Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report (CAFR) for the year ended June 30, 2016. This was the 35th consecutive year, beginning with the year ended June 30, 1982, that the City has achieved this prestigious award. A Certificate of Achievement is valid for a period of one year only. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. The CAFR must satisfy both Generally Accepted Accounting Principles (GAAP) and applicable legal requirements.

<u>Acknowledgements</u>

I would like to express my appreciation to the entire staff of the Controller's Office whose professionalism, dedication, and efficiency are responsible for the preparation of this report. I would also like to thank Macias Gini & O'Connell LLP for their invaluable professional support in the preparation of the CAFR. Finally, I want to thank the Mayor and the Board of Supervisors for their interest and support in planning and conducting the City's financial operations.

Respectfully submitted,

Ben Rosenfield Controller

Government Finance Officers Association

Certificate of Achievement for Excellence in Financial Reporting

Independent Auditor's Report

Honorable Mayor and Members of the Board of Supervisors City and County of San Francisco, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information, of the City and County of San Francisco (City), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the San Francisco County Transportation Authority, San Francisco International Airport (major fund), San Francisco Water Enterprise (major fund), Hetch Hetchy Water and Power (major fund), San Francisco Municipal Transportation Agency (major fund), San Francisco Wastewater Enterprise (major fund), and the Health Service System, which collectively represent the following percentages of the assets, net position/fund balances, and revenues/additions of the following opinion units.

		Net Position/	Revenues/
Opinion Unit	Assets	Fund Balances	Additions
Governmental activities	0.8%	5.7%	2.0%
Business-type activities	91.1%	96.5%	74.7%
Aggregate discretely presented component			
unit and remaining fund information	0.7%	0.4%	10.2%

NIA Danition/

Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities, are based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information, of the City as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America

101 California Street, Suite 1825 San Francisco, CA 94111

1

Emphasis of Matter

As discussed in Note 4 to the basic financial statements, effective July 1, 2016, the City adopted the provisions of Governmental Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68 and Amendments to Certain Provisions of GASB Statements 67 and 68. Our opinion is not modified with respect to this matter.

Other Matters

Prior-Year Comparative Information

The financial statements include partial and summarized prior-year comparative information. Such information does not include all of the information required or sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the government's financial statements for the year ended June 30, 2016, from which such partial and summarized information was derived.

We have previously audited the City's 2016 financial statements, and we expressed, based on our audit and the reports of other auditors, unmodified audit opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information in our report dated November 18, 2016. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2016, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedules of the City's proportionate share of the net pension liability, the schedules of changes in the net pension liability, and related ratios, the schedules of employer contributions – pension plans, the schedules of funding progress and employer contributions – other postemployment healthcare benefits, and the budgetary comparison schedule for the General Fund, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the GASB who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining financial statements and schedules and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the combining financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited)

Year Ended June 30, 2017

This section of the City and County of San Francisco's (the City) Comprehensive Annual Financial Report (CAFR) presents a narrative overview and analysis of the financial activities of the City for the year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with additional information in our transmittal letter. Certain amounts presented as fiscal year 2015-16 summarized comparative financial information in the basic financial statements have been reclassified to conform to the presentation in the fiscal year 2016-17 basic financial statements.

FINANCIAL HIGHLIGHTS

The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the end of the fiscal year by approximately \$7.56 billion (net position). Of this balance, \$8.32 billion represents the City's net investment in capital assets, \$2.08 billion represents restricted net position, and unrestricted net position has a deficit of \$2.84 billion. The City's total net position decreased by \$448.6 million, or 5.6 percent, from the previous fiscal year. Of this amount, total net investment in capital assets and restricted net position increased by \$170.4 million or 2.1 percent and \$328.2 million or 18.7 percent, respectively, and unrestricted net position decreased by \$947.2 million or 49.9 percent.

The City's governmental funds reported total revenues of \$5.97 billion, which is a \$181.6 million or 3.1 percent increase over the prior year. Within this, revenues from property taxes, business taxes, sales and use tax, and real property transfer tax grew by approximately \$138.9 million, \$41.4 million, \$24.3 million, and \$141.5 million, respectively. At the same time, there was a decline in revenues from rents and concessions, intergovernmental sources, hotel room tax, charges for services, and other revenues of \$35.3 million, \$31.4 million, \$17.3 million, \$14.2 million, and \$76.4 million, respectively. Governmental funds expenditures totaled \$5.32 billion for this period, a \$241.2 million or 4.8 percent increase, reflecting increases in demand for governmental services of \$136.1 million, increased debt service of \$31.9 million and increased capital outlay of \$73.2 million.

At the end of the fiscal year, total fund balances for the governmental funds amounted to \$3.40 billion, an increase of \$569.3 million or 20.1 percent from prior year, primarily due to \$122.0 million in proceeds from sale of capital assets which offset the greater increase in expenditures over revenues as well as the slight increase in other financing uses.

The City's total short-term debt decreased by \$41.2 million during fiscal year 2016-17. The City, in partnership with the Metropolitan Transportation Commission, obtained a short term revolving credit facility in an amount not to exceed \$260.0 million; \$100.0 million with MTC and \$160.0 million with Wells Fargo Bank and drew \$49.0 million therefrom for the construction of the Transbay Transit Center. The balance of commercial paper notes payable decreased by \$90.2 million, a \$104.2 million increase in governmental activities offset by a \$194.4 million decrease in business-type activities. The Airport and the Water Enterprise commercial paper notes payable outstanding decreased by \$165.1 million and \$91.0 million respectively through refinancing by the issuance of long-term debt. The City's long-term debt increased by \$1.15 billion. A total of \$248.3 million in general obligation bonds were issued for affordable housing and for construction, seismic strengthening, and betterment of facilities. The Airport issued \$740.1 million revenue bonds for the redevelopment of Terminal 1 and other enhancements. The SFMTA issued \$177.8 million revenue bonds to fund transit and parking upgrades. The Water Enterprise issued \$259.4 million revenue bonds to refund commercial paper used and provide \$20.0 million new money for the City's Water System Improvement Program. The Airport and the Water Enterprise issued revenue refunding bonds for \$147.8 million and \$893.8 million, respectively, for economic gain.

The City implemented the remaining provisions of Governmental Accounting Standards Board (GASB) Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. These provisions address employers and governmental non-employer contributing entities for pensions that are not within the scope of Statement No. 68. Statement No. 73 was partially implemented in fiscal year 2015-16. Implementation resulted in a restatement due to change in accounting principle decreasing net position as of July 1, 2016 by \$55.0 million.

Management's Discussion and Analysis (Unaudited) (Continued)
Year Ended June 30, 2017

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: (1) **Government-wide** financial statements, (2) **Fund** financial statements, and (3) **Notes** to the financial statements. This report also contains other **supplementary information** in addition to the basic financial statements themselves. These various elements of the Comprehensive Annual Financial Report are related as shown in the graphic below.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2017

The following table summarizes the major features of the financial statements. The overview section below also describes the structure and contents of each of the statements in more detail.

	_	Fund	Fund Financial Statements						
	Government - wide Statements	Governmental	Proprietary	Fiduciary					
Scope	Entire entity (except fiduciary funds)	The day-to-day operating activities of the City for basic governmental services	The day-to-day operating activities of the City for business-type enterprises	Instances in which the City administers resources on behalf of others, such as employee benefits					
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus; except agency funds do not have measurement focus					
Type of balance information	All assets, deferred outflows of resources, liabilities, and deferred inflows of resources, both financial and capital, short-term and long-term	Balances of spendable resources	All assets, deferred outflows of resources, liabilities, and deferred inflows of resources, both financial and capital, short-term and long-term	All resources held in a trustee or agency capacity for others					
Type of inflow and outflow information	All inflows and outflows during year, regardless of when cash is received or paid	Near-term inflows and outflows of spendable resources	All inflows and outflows during year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid					

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The **statement of net position** presents information on all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether or not the financial position of the City is improving or deteriorating.

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2017

The **statement of activities** presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, such as revenues pertaining to uncollected taxes and expenses pertaining to earned but unused vacation and sick leave.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include public protection, public works, transportation and commerce, human welfare and neighborhood development, community health, culture and recreation, general administration and finance, and general city responsibilities. The business-type activities of the City include an airport, port, transportation system (including parking), water and power operations, an acute care hospital, a long-term care hospital, and sewer operations.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate development authority, the Treasure Island Development Authority (TIDA), for which the City is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government. Included within the governmental activities of the government-wide financial statements are the San Francisco County Transportation Authority (Transportation Authority) and San Francisco Finance Corporation. Included within the business-type activities of the government-wide financial statements is the operation of the San Francisco Parking Authority. Although legally separate from the City, these component units are blended with the primary government because of their governance or financial relationships to the City. The City also considers the Successor Agency to the Redevelopment Agency (Successor Agency) as a fiduciary component unit of the City.

Fund Financial Statements

The fund financial statements are designed to report information about groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into the following three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements – i.e. most of the City's basic services are reported in governmental funds. These statements, however, focus on (1) how cash and other financial assets can readily be converted to available resources and (2) the balances left at year-end that are available and the constraints for spending. Such information may be useful in determining what financial resources are available in the near future to finance the City's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2017

The City maintains several individual governmental funds organized according to their type (special revenue, debt service, capital projects and permanent funds). Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, which is considered to be a major fund. Data from the remaining governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary funds. Proprietary funds are generally used to account for services for which the City charges customers – either outside customers, or internal units or departments of the City. Proprietary funds provide the same type of information as shown in the government-wide financial statements, only in more detail. The City maintains the following two types of proprietary funds:

- Enterprise funds are used to report the same functions presented as business-type activities in the
 government-wide financial statements. The City uses enterprise funds to account for the operations of
 the San Francisco International Airport (SFO or Airport), San Francisco Water Enterprise (Water),
 Hetch Hetchy Water and Power (Hetch Hetchy), San Francisco Municipal Transportation Agency
 (SFMTA), San Francisco General Hospital (SFGH), San Francisco Wastewater Enterprise
 (Wastewater), Port of San Francisco (Port), and the Laguna Honda Hospital (LHH), all of which are
 considered to be major funds of the City.
- Internal Service funds are used to report activities that provide supplies and services for certain City programs and activities. The City uses internal service funds to account for its fleet of vehicles, management information and telecommunication services, printing and mail services, and for lease-purchases of equipment by the San Francisco Finance Corporation. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. The internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the City. The City employees' pension and health plans, retirees' health care, the Successor Agency, the external portion of the Treasurer's Office investment pool, and the agency funds are reported under the fiduciary funds. Since the resources of these funds are not available to support the City's own programs, they are not reflected in the government-wide financial statements. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the City's net pension liability, pension contributions and progress in funding its obligation to provide other postemployment benefits to its employees and the City's schedule of contributions for its employees' other postemployment benefits.

The City adopts a rolling two-year budget for its General Fund. A budgetary comparison schedule has been provided for the General Fund to demonstrate compliance with this budget.

Management's Discussion and Analysis (Unaudited) (Continued) Year Ended June 30, 2017

Combining Statements and Schedules

The combining statements and schedules referred to earlier in connection with nonmajor governmental funds, internal service funds, and fiduciary funds are presented immediately following the required supplementary information on pensions and other postemployment benefits.

^{*} See note 10(d) to the basic financial statements.

Analysis of Net Position

The City's total net position, which may serve as a useful indicator of the government's financial position, was \$7.56 billion at the end of fiscal year 2016-17, a 5.6 percent decrease over the prior year. The City's governmental activities account for \$1.79 billion of this total and \$5.77 billion stem from its business-type activities.

The largest portion of the City's net position is the \$8.32 billion in net investment in capital assets (e.g. land, buildings, and equipment). This reflects a \$170.4 million or 2.1 percent increase over the prior year, and is due to the growth seen in the governmental activities and an overall increase in business-type activities, highlighted by a \$284.8 million increase at SFMTA offset by a decrease of \$167.4 million at the Airport. Since the City uses capital assets to provide services, these assets are not available for future spending. Further, the resources required to pay the outstanding debt must come from other sources since the capital assets themselves cannot be liquidated to pay that liability.

Another portion of the City's net position is the \$2.08 billion that represents restricted resources that are subject to external limitations regarding their use. The remaining portion of total net position is a deficit of \$2.84 billion, which consists of a \$2.56 billion deficit in governmental activities and \$670.8 million deficit in business-type activities. The governmental activities and business-type activities deficit is largely due to recording net pension liability (see Note 9). The governmental activities deficit also included \$386.5 million in long-term bonds liabilities that fund the LHH rebuild project, certain park facilities projects at the Port, improvement projects for reliable emergency water supply for the Water Enterprise, and road paving and street safety in SFMTA (see Note 10(d)).

Analysis of Changes in Net Position

The City's change in net position decreased by \$1.84 billion in fiscal year 2016-17, due to a \$1.45 billion increase in the prior fiscal year and a \$393.5 million decrease in the current year. The decrease in the change in net position was due to a \$889.5 million decrease from governmental activities and a \$954.1 million decrease from business-type activities.

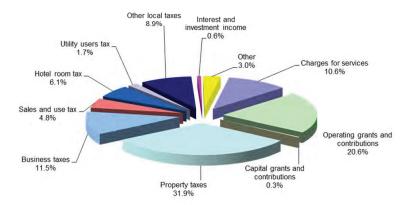

The City's governmental activities experienced a \$305.6 million or 5.3 percent growth in total revenues, offset by increased expenses of \$1.22 billion or 27.6 percent this fiscal year. Business-type activities revenues increased by \$176.1 million or 4.3 percent offset by increased expenses of \$1.11 billion, or 27.6 percent. The net transfer to business-type activities decreased by \$23.2 million. The major component of increased expense Citywide is increased pension expense of \$947.7 million and \$788.2 million for governmental activities husiness-type activities, respectively. Discussion of these and other changes is presented in the governmental activities and business-type activities sections that follow.

Expenses and Program Revenues - Governmental Activities

Revenues By Source - Governmental Activities

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2017

Governmental activities. Governmental activities decreased the City's total net position by approximately \$222.7 million. Key factors contributing to this change are discussed below.

Overall, total revenues from governmental activities were \$6.11 billion, a \$305.6 million or 5.3 percent increase over the prior year. For the same period, expenses totaled \$5.63 billion before transfers of \$647.9 million.

Property tax revenues increased by \$142.8 million or 7.9 percent. This growth was due in large part to regular annual tax and escape tax collections associated with higher assessed values of secured real property and unsecured property in San Francisco and also due to increase in supplemental property tax collections for both current year and prior year supplemental assessments. An increase in other local taxes of \$142.7 million or 35.7 percent was driven almost entirely by an increase in real property transfer tax due to an increase in transactions in excess of \$10.0 million and the full phase in of a rate increase enacted in November 2016

Revenues from business and sales and use taxes totaled approximately \$993.7 million, a growth of \$62.7 million over the prior year. Business taxes grew by \$41.4 million due to an increase in the gross receipts portion of the tax and increased business registration fee levels. Sales and use tax increased by \$21.3 million is primarily due to the "triple flip" unwinding in January 2016, in which 0.25 percent of the 1 percent Bradley Burns allocation was directed to property tax to pay for economic recovery bonds, with the remaining 0.75 percent being allocated to local sales tax. The entire 1 percent of Bradley Burns revenue has been allocated as sales tax in 2016-17 as opposed to half of the prior year.

Hotel room tax revenues declined by \$17.3 million, or 4.5 percent, due to the closure of the Moscone Convention Center for renovations and the fact that the City hosted the Super Bowl in the prior year. Hotel room tax revenue growth is a function of changes in occupancy, Average Daily Room Rate (ADR), and room supply. Average revenue per available room, which combines the effects of occupancy and ADR, fell slightly for the first time in six years.

Operating grants and contributions decreased \$26.6 million. This was largely due to decreases in other grants combined with a slight decrease in Federal grants offset by increases from State sources. The amount included an overall \$78.1 million decrease in Public Works, Transportation, and Commerce due to a decrease in local grants for the Presidio Parkway project. This was offset primarily by a \$54.8 million increase in Community Health due to additional State funding.

Total charges for services decreased \$130.8 million, or 16.8 percent. The decrease is due to several one-time events, including \$23.9 million at the Department of Public Health caused by a change in collection of administrative fees as well as higher audit reserves. There was also a decrease of \$39.9 million in housing inclusionary fees owing to a large non-recurring development project in the prior year, a decrease in SOMA Stabilization impact fees of \$17.5 million after a large increase in the prior year, a decrease in community impact fees of \$16.4 million due to fees being reallocated to SFMTA, and a \$27.3 million decrease in revenue from San Francisco Housing Authority following a large amount in the prior year. Other revenues increased by \$123.7 million due mainly to the gain on the sale of property.

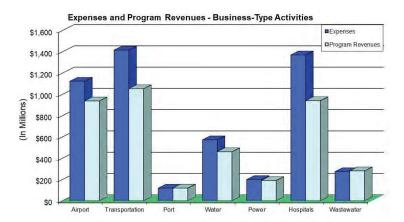

Interest and investment income revenue increased by \$11.2 million, or 46.5 percent, due to increased interest rates as well as balances in the City's investment pool, primarily due to an increase in property tax revenues, real property transfer tax revenues, business and sales tax revenues, and other revenues.

Net transfers from the governmental activities to business-type activities were \$647.9 million, a \$23.2 million decrease or 3.5 percent from the prior year. This was mainly due to a decrease in operating subsidies to SFGH of \$177.4 million offset by increased operating subsidies from the General Fund of \$33.6 million to SFMTA and \$11.0 million to LHH. In addition, the SFMTA received \$28.1 million for road improvement and street safety projects, and \$68.9 million in capital assets related to Sustainable Streets.

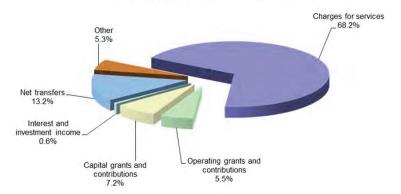

The increase of total governmental expenses of \$1.22 billion, or 27.6 percent, was primarily due an increase in pension expense of \$947.7 million, plus salary increases and increases in demand for the government's

Management's Discussion and Analysis (Unaudited) (Continued) Year Ended June 30, 2017

services in almost all functional service areas. In total, the leading increases were \$469.7 million in Public Protection, \$309.6 million in Human Welfare and Neighborhood Development, and \$228.5 million in Culture and Recreation.

Revenues By Source - Business-type Activities

12

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2017

Business-type activities decreased the City's net position by \$225.9 million and key factors contributing to this decrease are:

- The San Francisco International Airport had a decrease in net position at fiscal year-end of \$116.9 million, compared to a \$49.9 million increase in the prior year, a \$166.8 million difference. Operating revenues totaled \$926.8 million for fiscal year 2016-17, an increase of \$59.8 million or 6.9 percent over the prior year and included increases of \$49.9 million, \$2.8 million, and \$13.8 million in aviation, concession, parking and transportation, respectively, partially offset by a decrease of \$6.7 million in net sales and services revenues, reflecting traffic growth at the Airport. For the same period, the Airport's operating expenses increased by \$168.4 million, or 26.3 percent, for a net operating income of \$117.9 million for the period. Net nonoperating activities saw a deficit of \$201.0 million versus \$144.5 million deficit in the prior year, a \$56.6 million increase. The increase in both operating and nonoperating expenses is due to increases in personnel, depreciation, and other nonoperating expenses. Personnel costs increased by \$123.6 million due to a significant pension costs increase, cost of living adjustments, and additional positions.
- The City's Water Enterprise, the third largest such entity in California, reported a decrease in net position of \$121.4 million at the end of fiscal year 2016-17, compared to an increase of \$26.2 million at the end of the previous year, a \$147.6 million difference. Operating revenues totaled \$460.3 million, operating expenses totaled \$421.8 million, nonoperating items totaled \$99.9 million, and the net decrease from transfers was \$60.0 million. Compared to the prior year, operating revenues increased \$40.8 million, which included \$44.6 million in water and power services. Within operating expenses, the enterprise reported a total increase of \$107.0 million in fiscal year 2016-17. This included an \$79.0 million increase in personnel services mainly due to pensions, \$20.7 million in general and administrative, and \$12.2 million in depreciation expense, offset by \$2.3 for general and administrative expenses mainly from reductions in judgement and claims liability based on actuarial report.
- Hetch Hetchy Water and Power ended fiscal year 2016-17 with a net position increase of \$65.6 million, compared to a \$25.7 million increase the prior year, a difference of \$39.9 million. This change consisted of a decrease in operating income of \$20.4 million, offset by an increase in nonoperating revenues of \$0.9 million, and an increase of transfers from the City of \$59.4 million. This enterprise consists of three segments: Hetchy Water upcountry operations and water system, which reported a \$45.6 million increase in change in net position, Hetchy Power, which reported a \$13.2 million increase in change in net position, and CleanPowerSF, which reported a \$6.8 million increase in change in net position. CleanPowerSF was reported as a separate segment for the first time in fiscal year 2016-17. Hetchy Water operating revenues decreased by \$3.6 million while operating expenses increased by \$13.6 million. There was a \$3.6 million decrease in water assessment fee revenue from the Water Enterprise, Hetchy Power's total operating revenues decreased by \$5.0 million mostly due to increases in sale of power of \$3.7 million from CleanPowerSF in prior year and decreased sales of \$7.5 million to non-City customers, offset by increased electricity sales of \$3.9 million to other City departments. On the operating expenses side, Hetchy Power reported an increase of \$5.0 million due to increases of \$11.3 million mainly resulting from increased pension expense, \$0.7 million in increased capital projects spending, and \$0.6 million in depreciation and amortization related to increased capitalizable facilities and improvement. These increases were offset by decreases of \$3.1 million in purchased electricity due to higher generation from powerhouses. \$2.8 million in transmission and distribution power costs. \$0.7 million in legal services, \$0.6 million in contractual services, \$0.3 million in building and construction supplies, and \$0.2 million in decreased general and administrative expenses. CleanPowerSF had \$33.9 million in revenues and \$27.1 million in expenses in its first year as a separate segment.
- The City's Wastewater Enterprise's net position decreased by \$9.7 million, compared to a \$13.9 million increase the prior year, a \$23.6 million change. Operating revenues increased by \$15.6 million due to a \$18.4 million increase in charges for services as a result of an average 7.0 percent adopted rate increase. A \$1.1 million increase of interest and investment income, and \$3.8 million in other nonoperating revenues mainly related to state assistance for storm water flood management projects. The

13

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2017

increases were offset by a decrease of \$3.5 million attributed to prior year's settlement from Pacific Gas and Electric and \$2.7 million mainly related to decrease in capacity fees resulting from a 20.0 percent decline in permit sales and write-offs of capacity fees receivables. Operating expenses increased by \$22.7 million due to increases of \$55.3 million in Sewer System Improvement Program (SSIP) and repair and replacement project expenses, \$36.2 million in personnel services mainly due to cost of living adjustments, health and pension costs, \$4.6 in depreciation expense, and \$0.7 million in services provided by other departments, which were offset by decreases of \$66.5 million in other operating expenses mainly due to increased capitalization of fixed assets, \$4.9 million in general and administrative expenses, \$1.5 million in materials and supplies, and \$1.2 million in contractual services. Additional increases include \$6.2 million in interest expense, offset by \$2.9 million in amortization of premium, refunding loss and issuance cost. Transfers out totaled \$30.7 million mainly due to a transfer to City Real Estate Division for the Phase 1 of the Central Shops Relocation Project.

- The Port ended fiscal year 2016-17 with a net position increase of \$2.1 million, compared to a \$35.1 million increase in the previous year, a \$33.0 million difference. The Port is responsible for seven and one-half miles of waterfront property and its revenue is derived primarily from property rentals to commercial and industrial enterprises and a diverse mix of maritime operations. In fiscal year 2016-17, operating revenues increased by \$13.6 million, mostly due to construction and event permit fees, developer or other one-time transaction fees, and expense recoveries realized or realizable from major development projects. Operating expenses increased \$27.3 million over the prior year. This was due in part to increases of \$17.2 million in personnel services, which mostly included a \$14.9 million increase in pension expense; \$5.8 million in contractual services, and \$2.3 million in depreciation and amortization.
- The SFMTA had an increase in net position of \$274.7 million for fiscal year 2016-17, compared to an increase of \$478.3 million in the prior year, a \$203.6 million change. SFMTA's total operating revenues were \$500.0 million, while total operating expenses reached \$1.41 billion. Operating revenues increased by \$4.7 million compared to the prior year and is mainly due to increase in charges for services by \$7.0 million, permits revenue by \$2.4 million, parking fines and penalties by \$5.0 million, parking fees by \$1.2 million, and advertising revenue by \$0.1 million. These increases were offset by decreases in taxi revenues by \$1.5 million, \$9.5 million in passenger fares revenue, and slight decrease in rental income by \$0.3 million. Operating expenses increased by \$308.5 million primarily due to personnel costs, which is attributable mainly to pension costs, salary and hiring increases. Net nonoperating revenue increased by \$57.9 million mostly from federal operating grants, development fees, gain on disposal of assets, and interest and investment income, which were offset by decrease in state operating grants and amortized portion of the lease leaseback benefits. Net transfers increased by \$43.9 million mainly due to a \$33.7 million increase in transfers from the City's General Fund mainly for operating subsidies.
- LHH, the City's skilled nursing care hospital, had a decrease in net position of \$69.5 million at the end of fiscal year 2016-17, compared to an increase of \$21.6 million at the end of the previous year, a \$91.1 million difference. The LHH's loss before capital contributions and transfers for the year was \$132.6 million versus a loss of \$22.7 million for the prior year. This change of \$109.9 million was mostly due to a \$30.3 million decrease in operating revenues, a \$80.1 million increase in operating expenses, and a \$0.3 million increase in other nonoperating revenues.
- SFGH, the City's acute care hospital, ended fiscal year 2016-17 with a decrease in net position of \$250.9 million, compared to an increase of \$77.6 million the prior year, a \$328.5 million change. This was due to a \$79.7 million decrease in net transfers from the City compared to prior year's net transfers of \$108.7 million. However, SFGH incurred an operating loss of \$348.2 million, which was a \$258.6 million increase from the prior year. This was due to a \$18.8 million decrease in operating revenues, largely related to net patient services revenues, and increases in operating expenses mostly due to \$202.5 million in personal services due to pension costs, \$16.0 million in contractual services, \$11.6 million in materials and supplies, and \$10.5 million in depreciation and amortization.

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued) Year Ended June 30, 2017

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds statements is to provide information on near-term inflows, outflows, and balances of resources available for future spending. Such information is useful in assessing the City's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Types of governmental funds reported by the City include the General Fund, Special Revenue Funds, Debt Service Funds, Capital Project Funds, and the Permanent Fund.

At the end of fiscal year 2016-17, the City governmental funds reported combined fund balances of \$3.40 billion, an increase of \$569.3 million or 20.1 percent over the prior year. Of the total fund balances, \$1.17 billion is assigned and \$83.1 million is unassigned. The total of \$1.25 billion or 36.7 percent of the total fund balances constitutes the fund balances that are accessible to meet the City's needs. Within these fund balance classifications, the General Fund had an assigned fund balance of \$1.09 billion. The remainder of the governmental fund balances includes \$0.6 million nonspendable for items that are not expected to be converted to cash such as inventories and long-term loans, \$1.83 billion restricted for programs at various levels and \$327.6 million committed for other reserves.

The General Fund is the chief operating fund of the City. As a measure of liquidity, both the sum of assigned and unassigned fund balances and total fund balance can be compared to total fund expenditures. As of the end of the fiscal year, assigned and unassigned fund balances totaled \$1.42 billion while total fund balance reached \$1.87 billion. Combined assigned and unassigned fund balances represent 40.7 percent of total expenditures, while total fund balance represents 53.8 percent of total expenditures. For the year, the General Fund's total revenues exceeded expenditures by \$1.16 billion, before transfers and other items of \$715.6 million, resulting in total fund balance increasing by \$441.5 million. Overall, the significant growth in revenues, particularly in property taxes, business taxes, sales and uses tax and real property transfer tax were offset by an increased rate of expenditure growth due to growing demand for services and personnel costs across City functions and resulted in an increased fund balance this fiscal year.

Proprietary Funds

The City's proprietary fund statements provide the same type of information found in the business-type activities section of the government-wide financial statements but with some additional.

At the end of fiscal year 2016-17, the unrestricted net position for the proprietary funds was as follows: Hetch Hetchy Water and Power: \$189.4 million, Wastewater Enterprise: \$48.5 million, and the Port: \$66.4 million. In addition, the following funds had net deficits in unrestricted net position: Airport: \$70.8 million, Water Enterprise: \$43.5 million, SFMTA: \$37.1 million, San Francisco General Hospital: \$2572.9 million, and Laguna Honda Hospital: \$250.8 million.

15

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2017

The following table shows actual revenues, expenses and the results of operations for the current fiscal year in the City's proprietary funds (in thousands). This shows that the total net position for these funds decreased by approximately \$225.9 million due to the current year financial activities. Reasons for this change are discussed in the previous section on the City's business-type activities.

		perating evenues		Operating Expenses	-	perating ncome (Loss)	F	Non- Operating Sevenues Expense)	Con	Capital tributions d Others		aterfund ansfers, Net	Change In Net Position

Fiduciary Funds

The City maintains fiduciary funds for the assets of the San Francisco Employees' Retirement System, Health Service System and Retiree Health Care Trust, and manages the investment of monies held in trust to benefit public service employees. At the end of fiscal year 2016-17, the net position of the Retirement System, Health Service System and Retiree Health Care Trust combined totaled \$22.67 billion, representing a \$2.33 billion increase from the prior year, and 11.5 percent change. The increase is a result of strong investment returns which were slightly reduced by the net difference between contributions received by the Plan and increased benefit payments made from the Plan. The Private-Purpose Trust Fund accounts for the Successor Agency, which had a net deficit of \$388.8 million at year's end. This 3.1 percent, or \$11.8 million, increase in the net deficit is due to decreases in developer receipts and other additions and increases in program costs. The Investment Trust Fund's net position was \$862.6 million at year's end, and the 16.0 percent increase represents the excess of contributions over distribution to external participants.

General Fund Budgetary Highlights

The City's final budget differs from the original budget in that it contains carry-forward appropriations for various programs and projects, and supplemental appropriations approved during the fiscal year.

During the year, actual revenues and other resources were \$128.0 million higher than the final budget. The City realized \$166.6 million, \$69.1 million, \$31.1 million, \$10.2 million and \$6.9 million more revenue than budgeted in real property transfer tax, property taxes, business taxes, interest and investment income, and utility users tax, respectively. These increases were partly offset by reductions of \$48.1 million, \$33.9 million, \$23.8 million, \$19.4 million, \$17.7 million and \$8.5 million, in sales and use tax, hotel room tax, federal grants and subventions, Medi-Cal, Medicare, and health service charges and parking tax, respectively.

Differences between the final budget and the actual (budgetary basis) expenditures resulted in \$121.5 million in expenditure savings. Major factors include:

- \$52.1 million in savings from the Department of Public Health from professional services of \$41.2 million and \$10.1 million savings in salary and fringe benefit.
- \$14.7 million in savings from the Human Services Agency due largely to operating savings in salaries
 and benefits from delays in hiring, contract savings, reductions in aid assistance and aid payments and
 lower than expected caseload levels. The Department of Homelessness and Supportive Housing has
 a \$5.7 million saving partly due to the delay of purchase and upgrade of a building for headquarters but
 was not completed due to changes in the intended use of the building. The Department of Children,

16

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2017

Youth, and Their Family also has a \$1.2 million savings in work order expenditure resulting from performing departments not being able to complete all requested work within the fiscal year.

- \$14.9 million savings in contracts and salary and benefits mainly in Treasurer/Tax Collector, General Services Agency, City Planning, Assessor/Recorder, and other departments in general administration and finance.
- \$12.7 million savings in general city responsibilities mainly from lower than expected city grant programs and retiree health subsidy.
- \$9.7 million in salary and benefit savings mainly in Juvenile Probation, Adult Probation, Police, Sheriff, and other departments in public protection.
- The remaining lower than budgeted expenditures are savings from culture and recreation and public works, transportation and commerce.

The net effect of substantial revenue increases and savings in expenditures was a budgetary fund balance available for subsequent year appropriation of \$545.9 million at the end of fiscal year 2016-17. The City's fiscal year 2017-18 and 2018-19 Adopted Original Budget assumed an available balance of \$471.5 million fully appropriated in fiscal year 2017-18 and fiscal year 2018-19 and contingency reserves of \$60.0 million of unappropriated fund balance, leaving \$14.4 million available for future appropriations. (See also Note to the Required Supplementary Information for additional budgetary fund balance details).

Capital Assets and Debt Administration

Capital Assets

The City's capital assets for its governmental and business-type activities as of June 30, 2017, increased by \$1.25 billion, 6.0 percent, to \$22.07 billion (net of accumulated depreciation). Capital assets include land, buildings and improvements, machinery and equipment, park facilities, roads, streets, bridges, and intangible assets. Governmental activities contributed \$182.3 million or 14.6 percent to this total while \$1.07 billion or 85.4 percent was from business-type activities. Details are shown in the table below.

	Business-type												
	Governmental Activities				Activities				Total				
		2017		2016		2017		2016		2017		2016	
Land	\$	360,602	\$	334,261	\$	240,187	\$	217,441	\$	600,789	\$	551,702

Total	\$	5,307,676	\$:	5,125,352	\$ 1	16,761,881	\$	15,695,817	\$ 2	22,069,557	\$	20,821,169	

Major capital asset events during the current fiscal year included the following:

- Under governmental activities, net capital assets increased by \$182.3 million or 3.6 percent. About \$195.2 million worth of construction in progress work was substantially completed and capitalized as facilities and improvement and infrastructure. Of the completed projects, about \$13.2 million in the new Glen Canyon Recreation Center and approximately \$12.3 million for the San Francisco Fire Department Fire Boat. The remaining completed projects include public works, intangible assets, and traffic signal projects.
- The Water Enterprise's net capital assets increased by \$155.0 million or 3.2 percent, reflecting an increase in construction and capital improvement activities. Major additions to construction work in progress included Calaveras Dam Replacement, Regional Groundwater Storage and Recovery, San Francisco Groundwater Supply, Recycled Water Project, Environmental Impact Project Habitat Reserve Program, Irvington Tunnel Alternatives, and other upgrade and improvement programs. As of June 30, 2017, the SFPUC's Water Enterprise is 94.0 percent through construction of its multi-billion dollar, multi-year program to upgrade the Hetch Hetchy Regional and Local Water Systems. The

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2017

program consists of 35 local projects within San Francisco and 52 regional projects spread over seven different counties from the Sierra foothills to San Francisco. As of June 30, 2017, 34 local projects are completed and the target completion date is September 2017. For regional projects, 39 are completed and the expected completion date is December 2019. The Water System Improvement Program delivers capital improvements that enhance the Enterprise's ability to provide reliable, affordable, high quality drinking water to its customers.

- SFMTA's net capital assets increased by \$469.0 million or 14.9 percent mainly from construction in progress of \$239.6 million for the new Central Subway Project, transit lane, and rail replacement. Equipment costs of \$219.1 million were incurred during the fiscal year for the procurement of new motor bus, radio replacement, procurement of light rail vehicles, and historic street car rehabilitation. Land and building cost totaling \$57.0 million was incurred in fiscal year 2017 for Islais Creek facility improvement, improvement of signals and street, escalator modernization, and upgrade of garage facilities in various locations and other facility improvement.
- LHH's net capital assets decreased by \$11.0 million or 2.1 percent due primarily higher depreciation
 expense and lower new construction in progress due to the completion of the new hospital facility in
 March 2014. Laguna Honda Hospital provides 780 resident beds in three state of the art buildings on
 Laguna Honda's 62-acre campus. The 500,000-square foot facility received silver certification by the
 U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) program,
 becoming the first preen-certified hospital in California.
- SFGH's net capital assets decreased by \$13.3 million or 7.2 percent due primarily higher depreciation
 expense and lower new construction in progress due to the completion of the Zuckerberg San Francisco
 General Hospital rebuild. The rebuild General Obligation Bonds are accounted for as governmental
 activity and transactions are accounted for in the City's Governmental Capital Projects Funds.
- The Wastewater Enterprise net capital assets reported an increase of \$192.0 million or 9.3 percent mainly from new construction in progress activities. These include the Biosolids Digester Project, SEP Primary and Secondary Clarifier, Water System Improvement, Sewer System Improvement Program (SSIP), and other capital projects throughout the system. The SSIP is a \$7.00 billion program that includes three phases over 20 years to improve the existing wastewater system. As of June 30, 2017, the SSIP has 13 projects or 18.6 percent totaling \$97.0 million were completed, with 39 projects in preconstruction phase, 18 projects in construction phase, and no project in close-out phase.
- Hetch Hetchy's net capital assets increased by \$40.5 million or 10.0 percent to \$444.7 million primarily
 due to additions of facilities, improvements, machinery, and equipment for Mountain Tunnel
 Improvement, Moccasin Facilities New Construction, San Joaquin Pipeline Rehabilitation, and facilities
 related to the Transbay Transit Center. The Hetchy System Improvement Program is a long-term capital
 program from 2012 to 2025 and includes projects, varying in scope and complexity, to address
 necessary work on water transmission, hydroelectric generation and power transmission facilities in
 Tuolumne, Mariposa, Stanislaus, San Joaquin and Alameda counties, essential to continued delivery
 of both water and power.
- The Airport's net capital assets increased \$237.0 million or 5.9 percent primarily due to the capitalization of capital improvement project costs. The Airport has five- and ten-year Capital Plans to build new facilities, improve existing facilities, renovate buildings, repair or replace infrastructure, preserve assets, enhance safety and security, develop systems functionality, and perform needed maintenance. Significant projects in design or under construction in fiscal year 2016-17 include the Terminal 1 (T1) Redevelopment Program which includes the redevelopment of Boarding Area B, the expansion of the T1 Central Area, and a new baggage handling system, in addition to the Terminal 3 (T3) Redevelopment Program which creates a unified T3 checkpoint and constructs a new secure connector and office block. Other notable ongoing projects include the on-airport hotel, a new consolidated administration campus building, a second long-term parking garage, and a new industrial waste treatment plant.

18

CITY AND COUNTY OF SAN FRANCISCO

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2017

• The Port's net capital assets decreased by \$3.1 million or 0.7 percent due to capitalization and depreciation of capital improvements in 2017, including the Pier 31 Roof and Structure Repair which is a \$7.2 million project for new roofing and structural improvements to adequately support and protect the new roofing system at Piers 29½ and 31. Piers 29½ and 31 are a contributing resource within the San Francisco Embarcadero Historic District listed in the National Register of Historic Places. The security improvements through the installation and deployment of closed-circuit television and integrated access control/intrusion detection systems at key Port facilities continue in phases, largely based on priority and available funding.

At the end of the year, the City's business-type activities had approximately \$1.38 billion in commitments for various capital projects. Of this, Water Enterprise had an estimated \$279.8 million, MTA had \$579.8 million, Wastewater had \$229.7 million, Airport had \$188.8 million, Hetch Hetchy had \$72.7 million, Port had \$13.7 million, Laguna Honda Hospital had \$1.0 million and the General Hospital had \$16.6 million. In addition, there was approximately \$83.4 million reserved for encumbrances in capital project funds for the general government projects.

For government-wide financial statement presentation, all depreciable capital assets were depreciated from acquisition date to the end of the current fiscal year. Governmental fund financial statements record capital asset purchases as expenditures.

Additional information about the City's capital assets can be found in Note 7 to the Basic Financial Statements

Debt Administration

At the end of June 30, 2017, the City had total long-term and commercial paper debt outstanding of \$15.50 billion. Of this amount, \$2.28 billion is general obligation bonds secured by ad valorem property taxes without limitation as to rate or amount upon all property subject to taxation by the City and \$13.22 billion is revenue bonds, commercial papers, certificates of participation and other debts of the City secured solely by specified revenue sources. As noted previously, the City's total long-term debt including all bonds, loans, commercial paper notes and capital leases increased by \$1.10 billion or 7.7 percent during the fiscal year.

The net increase in debt obligations in the governmental activities was \$204.3 million primarily due to the issuance of \$248.3 million of general obligation bonds to finance 1) affordable housing improvements and related costs, 2) construction, seismic strengthening and betterment of critical community and mental health, emergency response and safety, and homeless shelter and service facilities. The City likewise issued \$28.3 million certificates of participation to refinance commercial paper used to finance the construction and renovation of mixed used housing development in the City's Hunters View project (Hope SF). The City issued \$1.35 billion and retired \$1.25 billion commercial paper for the expansion of the Moscone Convention Center and executed \$49.0 million revolving certificates of participation for the development of the Transbay Transit Center. The City borrowed additional \$46.0 million for the San Francisco County Transportation Authority's voter approved Proposition K Expenditure Plan and entered into a capital lease agreement with Banc of America for \$34.2 million to purchase and install a new emergency communication system and maintain the old system during the transition.

The net debt increase for the business-type activities was \$900.3 million. The Airport issued \$740.1 million revenue bonds to refinance commercial paper used to fund the redevelopment of Terminal 1, relocation of a firehouse and vehicle security checkpoint, relocation of ground transportation facilities, construction of a new administration campus, upgrades to the operating systems for the AirTrain extension, gate enhancements to accommodate larger aircrafts, and various technology upgrades to network services. The Municipal Transit Agency issued \$177.8 million revenue bonds to fund various transit and parking projects and obtained \$0.8 million bank loan for the renovation of Portsmouth Plaza Parking. The Water Enterprise issued \$259.4 million revenue bonds to refund commercial paper used and provide \$20.0 million new money for various capital projects in furtherance of the City's water system improvement program. The

Management's Discussion and Analysis (Unaudited) (Continued)

Year Ended June 30, 2017

Airport and the Water Enterprise issued revenue refunding bonds for \$147.8 million and \$893.8 million, respectively, for economic gain.

The City's Charter imposes a limit on the amount of general obligation bonds the City can have outstanding at any given time. That limit is three percent of the assessed value of taxable property in the City — estimated at \$212.30 billion in value as of the close of the fiscal year. As of June 30, 2017, the City had \$2.28 billion in authorized, outstanding general obligation bonds, which is equal to approximately 1.03 percent of gross (1.07 percent of net) taxable assessed value of property. As of June 30, 2017, there were an additional \$1.37 billion in bonds that were authorized but unissued. If all these general obligation bonds were issued and outstanding in full, the total debt burden would be approximately 1.65 percent of gross (1.72 percent of net) taxable assessed value of property.

The City's underlying ratings on general obligation bonds as of June 30, 2017 were:

Moody's Investors Service, Inc. Aa1
Standard & Poor's AA+
Fitch Ratings AA+

During the fiscal year, Moody's Investors Service (Moody's), Standard & Poor's and Fitch Ratings affirmed the City's ratings of "Aa1" and "AA+", and AA+ respectively, with Stable Outlook on all the City's outstanding general obligation bonds.

The City's enterprise activities carried underlying debt ratings for the SFMTA of "AA" with Stable Rating Outlook from Standard & Poor's and "Aa2" from Moody's, Moody's, Standard and Poor's and Fitch Ratings affirmed their underlying credit ratings of the Airport of "A1", "A+" and "A+", respectively, each with Stable Rating Outlook. The Water Enterprise carried underlying ratings of "Aa3" and "AA-" from Moody's and Standard and Poor's respectively.

Additional information in the City's long-term debt can be found in Note 8 to the Basic Financial Statements.

Economic factors and future budgets and rates

San Francisco has continued to experience improvement in the economy during the fiscal year. The following economic factors were considered in the preparation of the City's budget for fiscal years 2017-18 and 2018-19. This two-year budget was adopted by the Mayor and the Board of Supervisors. It is a rolling budget for all departments, except for the Airport, PUC enterprises, SFMTA, the Port of San Francisco and Child Support Services, which each have a fixed two-year budget.

- The City's average unemployment for fiscal year 2016-17 was 3.1 percent, a decrease of 0.3 percent from the average unemployment rate in fiscal year 2015-16.
- Housing prices continued to show growth, reaching new historical highs. The average median home price in fiscal year 2016-17 was \$1.2 million, up 2.8 percent from the previous fiscal year.
- Commercial rents have shown strong growth, also reaching new historical highs. The monthly per square foot rental rates for commercial space grew to \$73.71 in fiscal year 2016-17, a 5.1 percent increases over the prior year.
- The resident population also continued to grow, reaching a new historical high of 870,887 in 2016
 according to the U.S. Census Bureau. This represents a 1.0 percent increase versus the prior year,
 and cumulative growth of 102,237 or 13.3 percent over the last decade.

The Board of Supervisors approved a final two-year budget for fiscal years 2017-18 and 2018-19 in July 2017, which assumes use of prior year fund balance from General Fund of \$183.3 million and \$288.2 million, respectively.

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position June 30, 2017

(In Thousands)

Fund balances – total governmental funds	\$	3,404,773
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.		5,296,075
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the governmental funds.		(4,969,646)
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred inflows of resources and are recognized as revenues in the period the amounts become available in the governmental funds.		370,845
Interest on long-term debt is not accrued in the funds, but rather is recognized as an expenditure when due.		(11,016)
Deferred outflows and inflows of resources in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.		15,110
Net pension liability and pension related deferred outflows and inflows of resources are not due in the current period and therefore are not reported in the governmental funds.		(2,120,840)
Internal service funds are used by management to charge the costs of capital lease financing, fleet management, printing and mailing services, and information systems to individual funds. The assets and liabilities of internal service funds are included in governmental activities in the statement of net position.	_	(198,890)
Net position of governmental activities	\$	1,786,411

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2017

(In Thousands)

Net changes in fund balances - total governmental funds	\$569,299
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation and loss on disposal of capital assets in the current period.	181,708
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. This is the amount by which the increase in certain liabilities reported in the statement of net position of the previous year exceeded expenses reported in the statement of activities that do not require the use of current financial	
resources.	(1,632,027)
Property taxes are recognized as revenues in the period the amounts become available. This is the current period amount by which the deferred inflows of resources decreased in the governmental funds.	14,002
Other revenues that were unavailable are reported as deferred inflows of resources in the governmental funds. This is the current period amount by which deferred inflows of resources decreased in the governmental funds.	23,050
Governmental funds report revenues and expenditures primarily pertaining to long-term loan activities, which are not reported in the statement of activities. These activities are reported at the government-wide level in the statement of net position. This is the net expenditures reported in the governmental funds.	7,615
Changes to net pension liability and pension related deferred outflows and inflows of resources do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	746,638
The issuance of long-term debt and capital leases provides current financial resources to governmental funds, while the repayment of the principal of long-term debt and capital leases consume the current financial resources of governmental funds. These transactions, however, have no effect on net position. This is the amount by which bond and other debt proceeds exceeded principal retirement in the current	
period.	(73,398)
Bond premiums are reported in the governmental funds when the bonds are issued, and are capitalized and amortized in the statement of net position. This is the amount of bond premiums capitalized during the current period.	(12,432)
Interest expense in the statement of activities differs from the amount reported in the governmental funds because of additional accrued and accreted interest; amortization of bond discounts, premiums and refunding losses and gains.	19,186
The activities of internal service funds are reported with governmental activities.	(11,255)
Change in net position of governmental activities	\$ (167,614)

The notes to the financial statements are an integral part of this statement. $$28$\,$

Notes to Basic Financial Statements

June 30, 2017 (Dollars in Thousands)

(1) THE FINANCIAL REPORTING ENTITY

San Francisco is a city and county chartered by the State of California and as such can exercise the powers as both a city and a county under state law. As required by generally accepted accounting principles, the accompanying financial statements present the City and County of San Francisco (the City or primary government) and its component units. The component units discussed below are included in the City's reporting entity because of the significance of their operations or financial relationships with the City.

As a government agency, the City is exempt from both federal income taxes and California State franchise taxes

Blended Component Units

Following is a description of those legally separate component units for which the City is financially accountable that are blended with the primary government because of their individual governance or financial relationships to the City.

San Francisco County Transportation Authority (Transportation Authority) — The voters of the City created the Transportation Authority in 1989 to impose voter-approved sales and use tax of one-half of one percent, for a period not to exceed 20 years, to fund essential traffic and transportation projects. In 2003, the voters approved Proposition K, extending the city-wide one-half of one percent sales tax with a new 30-year plan. A board consisting of the eleven members of the City's Board of Supervisors serving ex officio governs the Transportation Authority. The Transportation Authority is reported in a special revenue fund in the City's basic financial statements. Financial statements for the Transportation Authority can be obtained from their finance and administrative offices at 1455 Market Street. 22° Floor. San Francisco. CA 94103.

San Francisco City and County Finance Corporation (Finance Corporation) – The Finance Corporation was created in 1990 by a vote of the electorate to allow the City to lease-purchase \$20.0 million (plus 5.0% per year growth) of equipment using tax-exempt obligations. Although legally separate from the City, the Finance Corporation is reported as if it were part of the primary government because its sole purpose is to provide lease financing to the City. The Finance Corporation is governed by a three-member board of directors approved by the Mayor and the Board of Supervisors. The Finance Corporation is reported as an internal service fund. Financial statements for the Finance Corporation can be obtained from their administrative offices at City Hall, Room 336, 1 Dr. Carlton B. Goodlett Place, San Francisco, CA 94102.

San Francisco Parking Authority (The Parking Authority) – The Parking Authority was created in October 1949 to provide services exclusively to the City. In accordance with Proposition D authorized by the City's electorate in November 1988, a City Charter amendment created the Parking and Traffic Commission (PTC). The PTC consists of five commissioners appointed by the Mayor. Upon creation of the PTC, the responsibility to oversee the City's off-street parking operations was transferred from the Parking Authority to the PTC. The staff and fiscal operations of the Parking Authority were also incorporated into the PTC. Beginning on July 1, 2002, the responsibility for overseeing the operations of the PTC became the responsibility of the Municipal Transportation Agency (SFMTA) pursuant to Proposition E, which was passed by the voters in November 1999. Separate financial statements are not prepared for the Parking Authority. Further information about the Parking Authority can be obtained from the SFMTA Chief Financial Officer at 1 South Van Ness Avenue, 8th Floor, San Francisco, CA 94103

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Discretely Presented Component Unit

Treasure Island Development Authority (The TIDA) – The TIDA is a nonprofit public benefit corporation. The TIDA was authorized in accordance with the Treasure Island Conversion Act of 1997. Seven commissioners who are appointed by the Mayor, subject to confirmation by the City's Board of Supervisors, govern the TIDA. The specific purpose of the TIDA is to promote the planning, redevelopment, reconstruction, rehabilitation, reuse, and conversion of the property known as Naval Station Treasure Island for the public interest, convenience, welfare, and common benefit of the inhabitants of the City. The TIDA has adopted as its mission the creation of affordable housing and economic development opportunities on Treasure Island.

The TIDA's governing body is not substantively the same as that of the City and does not provide services entirely or almost entirely to the City. The TIDA is reported in a separate column to emphasize that it is legally separate from the City. The City is financially accountable for the TIDA through the appointment of the TIDA's Board and the ability of the City to approve the TIDA's budget. Disclosures related to the TIDA, where significant, are separately identified throughout these notes. Separate financial statements are not prepared for TIDA. Further information about TIDA can be obtained from their administrative offices at 1 Avenue of the Palms, Suite 241, Treasure Island, San Francisco, CA 94130

Fiduciary Component Unit

Successor Agency to the Redevelopment Agency of the City and County of San Francisco (Successor Agency) – The Successor Agency was created on February 1, 2012, to serve as a custodian for the assets and to wind down the affairs of the former San Francisco Redevelopment Agency pursuant to California Redevelopment Dissolution Law. The Successor Agency is governed by the Successor Agency Commission, commonly known as the Commission on Community Investment and Infrastructure, and is a separate public entity from the City. The Commission has five members, which serve at the pleasure of the City's Mayor and are subject to confirmation by the Board of Supervisors. The City is financially accountable for the Successor Agency through the appointment of the Commission and a requirement that the Board of Supervisors approve the Successor Agency's annual budget.

The financial statements present the Successor Agency and its component units, entities for which the Successor Agency is considered to be financially accountable. The City and County of San Francisco Redevelopment Financing Authority (Financing Authority) is a joint powers authority formed between the former Agency and the City to facilitate the long-term financing of the former Agency activities. The Financing Authority is included as a blended component unit in the Successor Agency's financial statements because the Financing Authority provides services entirely to the Successor Agency.

Per the Redevelopment Dissolution Law, certain actions of the Successor Agency are also subject to the direction of an Oversight Board. The Oversight Board is comprised of seven-member representatives from local government bodies: four City representatives appointed by the Mayor of the City subject to confirmation by the Board of Supervisors of the City; the Vice Chancellor of the San Francisco Community College District, the Board member of the Bay Area Rapid Transit District, and the Executive Director of Policy and Operations of the San Francisco Unified School District.

In general, the Successor Agency's assets can only be used to pay enforceable obligations in existence at the date of dissolution (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments). In future fiscal years, the Successor Agency will only be allocated revenues in the amount that is necessary to pay the estimated annual installment payments on enforceable obligations of the former Agency until all enforceable obligations of the former Agency have been paid in full and all assets have been liquidated. Based upon the nature of the Successor Agency's custodial role, the Successor Agency is reported in a fiduciary fund (private-purpose trust fund). Complete financial statements can be obtained from the Successor Agency's finance department at 1 South Van Ness Avenue, 5th Floor, San Francisco, CA 94103.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Non-Disclosed Organizations

There are other governmental agencies that provide services within the City. These entities have independent governing boards and the City is not financially accountable for them. The City's basic financial statements, except for certain cash held by the City as an agent, do not reflect operations of the San Francisco Airport Improvement Corporation, San Francisco Health Authority, San Francisco Housing Authority, San Francisco Unified School District and San Francisco Community College District. The City is represented in two regional agencies, the Bay Area Rapid Transit District and the Bay Area Air Quality Management District, both of which are also excluded from the City's reporting entity.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely, to a significant extent, on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The basic financial statements include certain prior year summarized comparative information. This information is presented only to facilitate financial analysis, and is not at the level of detail required for a presentation in accordance with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the City's financial statements for the year ended June 30. 2016. from which the summarized information was derived.

(b) Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Agency funds, however, report only assets and liabilities and cannot be said to have a measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilitities of the current period. The

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

City considers property tax revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenues are considered to be available if they are generally collected within 60 days of the end of the current fiscal period. It is the City's policy to submit reimbursement and claim requests for federal and state grant revenues within 30 days of the end of the program cycle and payment is generally received within the first or second quarter of the following fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to vacation, sick leave, claims and judgments, are recorded only when payment is due.

Property taxes, other local taxes, grants and subventions, licenses, charges for services, rents and concessions, and interest associated with the current fiscal period are all considered susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the City receives cash.

The City reports the following major governmental fund:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the
City except those required to be accounted for in another fund.

The City reports the following major proprietary (enterprise) funds:

- The San Francisco International Airport Fund accounts for the activities of the City-owned commercial service airport in the San Francisco Bay Area.
- The San Francisco Water Enterprise Fund accounts for the activities of the San Francisco Water Enterprise (Water Enterprise). The Water Enterprise is engaged in the distribution of water to the City and certain suburban areas.
- The Hetch Hetchy Water and Power Enterprise Fund accounts for the activities of Hetch Hetchy Water and Power (Hetch Hetchy) and CleanPowerSF. Hetch Hetchy is engaged in the collection and conveyance of approximately 85.0% of the City's water supply and in the generation and transmission of electricity. CleanPowerSF aggregates the buying power of customers in San Francisco to purchase renewable energy.
- The Municipal Transportation Agency Fund accounts for the activities of the Municipal Transportation Agency (SFMTA). The SFMTA was established by Proposition E, passed by the City's voters in November 1999. The SFMTA includes the San Francisco Municipal Railway (Muni) and the operations of Sustainable Streets, which includes the Parking Authority. Muni was established in 1912 and is responsible for the operations of the City's public transportation system. Sustainable Streets is responsible for proposing and implementing street and traffic changes and oversees the City's off-street parking operations. Sustainable Streets is a separate department of the SFMTA. The parking garages fund accounts for the activities of various non-profit corporations formed by the Parking Authority to provide financial and other assistance to the City to acquire land, construct facilities, and manage various parking facilities.
- The *General Hospital Medical Center Fund* accounts for the activities of the San Francisco General Hospital (SFGH), a City-owned acute care hospital.
- The San Francisco Wastewater Enterprise Fund was created after the San Francisco voters approved a proposition in 1976, authorizing the City to issue \$240.0 million in bonds for the purpose of acquiring, construction, improving, and financing improvements to the City's municipal sewage treatment and disposal system.
- The Port of San Francisco Fund accounts for the operation, development, and maintenance of seven and one-half miles of waterfront property of the Port of San Francisco (Port). This was established in 1969 after the San Francisco voters approved a proposition to accept the transfer of the Harbor of San Francisco from the State of California.
- The Laguna Honda Hospital Fund accounts for the activities of Laguna Honda Hospital (LHH), the City-owned skilled nursing facility, which specializes in serving elderly and disabled residents.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Additionally, the City reports the following fund types:

- The Debt Service Funds account for the accumulation of property taxes and other revenues for periodic payment of interest and principal on general obligation and certain lease revenue bonds and related authorized costs.
- The Capital Projects Funds are used to account for financial resources that are restricted, committed or assigned to expenditures for the acquisition of land or acquisition and construction of major facilities other than those financed in the proprietary fund types.
- The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects
- The Permanent Fund accounts for resources that are legally restricted to the extent that only
 earnings, not principal, may be used for purposes that support specific programs.
- The Internal Service Funds account for the financing of goods or services provided by one City department to another City department on a cost-reimbursement basis. Internal Service Funds account for the activities of the equipment maintenance services, centralized printing and mailing services, centralized telecommunications and information services, and lease financing through the Finance Corporation.
- The Pension, Other Employee and Other Postemployment Benefit Trust Funds reflect the activities of the Employees' Retirement System (Retirement System), the Health Service System and the Retiree Health Care Trust Fund. The Retirement System accounts for employee contributions, City contributions, and the earnings and profits from investments. It also accounts for the disbursements made for employee retirement benefits, withdrawals, disability and death benefits as well as administrative expenses. The Health Service System accounts for contributions from active and retired employees and surviving spouses, City contributions, and the earnings and profits from investments. It also accounts for the disbursements to various health plans and health care providers for the medical expenses of beneficiaries. The Retiree Health Care Trust Fund currently accounts for other postemployment benefit contributions from the City and the San Francisco Community College District, together with the earnings and profits from investments. No disbursements, other than to defray reasonable expenses of administering the trust, will be made until sufficient funds are set aside to pay for all future retiree health care costs, except in certain limited circumstances
- The Investment Trust Fund accounts for the external portion of the Treasurer's Office investment
 pool. The funds of the San Francisco Community College District, San Francisco Unified School
 District, the Trial Courts of the State of California and the Transbay Joint Powers Authority are
 accounted for within the Investment Trust Fund.
- The Private-Purpose Trust Fund accounts for the custodial responsibilities that are assigned to the Successor Agency with the passage of the Redevelopment Dissolution Act.
- The Agency Funds account for the resources held by the City in a custodial capacity on behalf of: the State of California and other governmental agencies; employees for payroll deductions; and human welfare, community health, and transportation programs.

The City applies all applicable Governmental Accounting Standards Board (GASB) pronouncements.

In general, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are charges to other City departments from the General Fund, Water Enterprise and Hetch Hetchy. These charges have not been eliminated because elimination would distort the direct costs and program revenues reported in the statement of activities.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. The principal operating revenues of the City's enterprise and internal service funds

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

are charges for customer services including: water, sewer and power charges, public transportation fees, airline fees and charges, parking fees, hospital patient service fees, commercial and industrial rents, printing services, vehicle maintenance fees, and telecommunication and information system support charges. Operating expenses for enterprise funds and internal service funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

(c) Deposits and Investments

Investment in the Treasurer's Pool

The Treasurer invests on behalf of most funds of the City and external participants in accordance with the City's investment policy and the California State Government Code. The City Treasurer who reports on a monthly basis to the Board of Supervisors manages the Treasurer's pool. In addition, the function of the County Treasury Oversight Committee is to review and monitor the City's investment policy and to monitor compliance with the investment policy and reporting provisions of the law through an annual audit

The Treasurer's investment pool consists of two components: 1) pooled deposits and investments and 2) dedicated investment funds. The dedicated investment funds represent restricted funds and relate to bond issues of the Enterprise Funds, and the General Fund's cash reserve requirement. In addition to the Treasurer's investment pool, the City has other funds that are held by trustees. These funds are related to the issuance of bonds and certain loan programs of the City. The investments of the Retirement System and of the Retiree Health Care Trust Fund are held by trustees.

The San Francisco Unified School District (School District), San Francisco Community College District (Community College District), and the City are involuntary participants in the City's investment pool. As of June 30, 2017, involuntary participants accounted for approximately 96.4% of the pool. Voluntary participants accounted for 3.6% of the pool. Further, the School District, Community College District, the Trial Courts of the State of California, and the Transbay Joint Powers Authority are external participants of the City's pool. At June 30, 2017, \$862.6 million was held on behalf of these external participants. The total percentage share of the City's pool that relates to these four external participants is 10.0%. Internal participants accounted for 90.0% of the pool.

Investment Valuation

Investments are carried at fair value, except for certain non-negotiable investments that are reported at cost because they are not transferable and have terms that are not affected by changes in market interest rates, such as collateralized certificates of deposit and public time deposits. The fair value of investments is determined monthly and is based on current market prices. The fair value of participants' position in the pool approximates the value of the pool shares. The method used to determine the value of participants' equity is based on the book value of the participants' percentage participation. In the event that a certain fund overdraws its share of pooled cash, the overdraft is covered by the General Fund and a payable to the General Fund is established in the City's basic financial statements.

Retirement System – Investments are reported at fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates. Securities that do not have an established market are reported at estimated fair value derived from third-party pricing services. Purchases and sales of investments are recorded on a trade date basis.

The fair values of real estate investments are based on Net Asset Values (NAV) provided by the investment managers. Private equity investments represent interest in limited partnerships. The fair values of private equity investments are also based on net asset values provided by the general

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

partners. For investments that are not traded on national or international exchanges with closing market prices available data is obtained to corroborate pricing.

The Absolute Return Program invests in limited partnerships and other alternative investment vehicles. The most common investment strategies include, but are not limited to Equity, Credit, Macro, Emerging Markets, Quantitative, Multi-Strategy, Special Situations, and Commodities. These investments are valued using their respective NAV, and are audited annually. The most significant input into the NAV of such an entity is the fair value of its investment holdings. These holdings are typically valued on a monthly basis by each fund's independent administrator and for certain illiquid investments, where no market exists, the General Partner may provide pricing input. The management assumptions are based upon the nature of the investment and the underlying business. Investments have the potential to become illiquid under stressed market conditions and, in certain circumstances, investors may be subject to redemption restrictions which can impede the timely return of capital. The valuation techniques vary based upon investment type, but are predominantly derived from observed market prices.

The Charter and Retirement Board policies permit the Retirement System to use investments to enter into securities lending transactions – loans of securities to broker-dealers and other entities for collateral with a simultaneous agreement to return the collateral for the same securities in the future. The collateral may consist of cash or non-cash; non-cash collateral is generally U.S. Treasuries or other U.S. government obligations. The Retirement System's securities custodian is the agent in lending the domestic securities for collateral of 102.0% and international securities for collateral of 105.0%. Contracts with the lending agent require them to indemnify the Retirement System if the borrowers fail to return the securities (and if the collateral were inadequate to replace the securities lent) or fail to pay the Retirement System for income distributions by the securities' issuers while the securities are on loan. Non-cash collateral cannot be pledged or sold unless the borrower defaults, and therefore, is not reported in the Retirement System's financial statements.

All securities loans can be terminated on demand by either the Retirement System or the borrower, although the average term of the loans as of June 30, 2017, was 31 days. All cash collateral received was invested in a separately managed account by the lending agent using investment guidelines developed and approved by the Retirement System. As of June 30, 2017, the weighted average maturity of the reinvested cash collateral account was 1 day. The term to maturity of the loaned securities is generally not matched with the term to maturity of the investment of the said collateral. Cash collateral may also be invested separately in term loans, in which case the maturity of the loaned securities matches the term of the loan.

Cash collateral invested in the separate account managed by the lending agent is reported at fair value. Payable to borrowers of securities in the statement of fiduciary net position represents the cash collateral received from borrowers. Additionally, the income and costs of securities lending transactions, such as borrower rebates and fees, are recorded respectively as revenues and expenses in the statement of changes in fiduciary net position.

San Francisco International Airport – The Airport has entered into certain derivative instruments, which it values at fair value, in accordance with GASB Statement No. 53 – Accounting and Financial Reporting for Derivative Instruments and GASB Statement No. 72 – Fair Value Measurement and Application. The Airport applies hedge accounting for changes in the fair value of hedging derivative instruments, in accordance with GASB Statement No. 64 – Derivative Instruments: Application of Hedge Accounting Termination Provisions, an amendment of GASB Statement No. 53. Under hedge accounting, if the derivatives are determined to be effective hedges, the changes in the fair value of hedging derivative instruments are reported as either deferred inflows or deferred outflows in the statement of net position, otherwise changes in fair value are recorded within the investment revenue classification.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Other funds – Non-pooled investments are also generally carried at fair value. However, money market investments (such as short-term, highly liquid debt instruments including commercial paper and bankers' acceptances) that have a remaining maturity at the time of purchase of one year or less and participating interest-earning investment contracts (such as negotiable certificates of deposit, repurchase agreements and guaranteed or bank investment contracts) are carried at amortized cost. The fair value of non-pooled investments is determined annually and is based on current market prices. The fair value of investments in open-end mutual funds is determined based on the fund's current share price.

Investment Income

Income from pooled investments is allocated at month-end to the individual funds or external participants based on the fund or participant's average daily cash balance in relation to total pooled investments. City management has determined that the investment income related to certain funds should be allocated to the General Fund. On a budget basis, the interest income is recorded in the General Fund. On a generally accepted accounting principles (GAAP) basis, the income is reported in the fund where the related investments reside. A transfer is then recorded to transfer an amount equal to the interest earnings to the General Fund. This is the case for certain other governmental funds, Internal Service, Investment Trust and Agency Funds.

It is the City's policy to charge interest at month-end to those funds that have a negative average daily cash balance. In certain instances, City management has determined that the interest expense related to the fund should be allocated to the General Fund. On a budget basis, the interest expense is recorded in the General Fund. On a GAAP basis, the interest expense is recorded in the fund and then a transfer from the General Fund for an amount equal to the interest expense is made to the fund. This is the case for certain other funds. SFMTAL LHL, SFGH, and the Internal Service Funds.

Income from non-pooled investments is recorded based on the specific investments held by the fund. The interest income is recorded in the fund that earned the interest.

(d) Loans Receivable

The Mayor's Office of Housing (MOH) and the Mayor's Office of Community Development (MOCD) administer several housing and small business subsidy programs and issue loans to qualified applicants. In addition, the Department of Building Inspection manages other receivables from organizations. Management has determined through policy that many of these loans may be forgiven or renegotiated and extended long into the future if certain terms and conditions of the loans are met. At June 30, 2017, it was determined that \$1,263.3 million of the \$1,401.5 million loan portfolio is not expected to be ultimately collected.

For the purposes of the fund financial statements, the governmental funds expenditures relating to longterm loans arising from loan subsidy programs are charged to operations upon funding and the loans are recorded, net of an estimated allowance for potentially uncollectible loans, with an offset to a deferred inflow of resources. For purposes of the government-wide financial statements, long-term loans are not offset by deferred inflows of resources.

(e) Inventories

Inventories recorded in the proprietary funds primarily consist of construction materials and maintenance supplies, as well as pharmaceutical supplies maintained by the hospitals. Generally, proprietary funds value inventory at cost or average cost and expense supply inventory as it is consumed. This is referred to as the consumption method of inventory accounting. The governmental fund types use the purchase method to account for supply inventories, which are not material. This method records items as expenditures when they are acquired.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

(f) Property Held for Resale

Property held for resale includes both residential and commercial property and is recorded as other assets at the lower of estimated cost or estimated conveyance value. Estimated conveyance value is management's estimate of net realizable value of each property parcel based on its current intended use. Property held for sale may, during the period it is held by the City, generate rental income, which is recognized as it becomes due and is considered collectible.

(g) Capital Assets

Capital assets, which include land, facilities and improvements, machinery and equipment, infrastructure assets, and intangible assets, are reported in the applicable governmental or businesstype activities columns in the government-wide financial statements and in the proprietary and privatepurpose trust funds. Capital assets, except for intangible assets, are defined as assets with an initial individual cost of more than \$5 and have an estimated life that extends beyond a single reporting period or more than a year. Intangible assets have a capitalization threshold of \$100. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation. Capital outlay is recorded as expenditures of the General Fund and other governmental funds and as assets in the government-wide financial statements to the extent the City's capitalization threshold is met. Interest incurred during the construction phase of the capital assets of business-type activities is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds of tax-exempt debt over the same period. Amortization of assets acquired under capital leases is included in depreciation and amortization. Facilities and improvements, infrastructure, machinery and equipment, easements, and intangible assets of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Facilities and improvements	15 to 175
Infrastructure	15 to 70
Machinery and equipment	2 to 75
Intangible assets	Varies with type

Works of art, historical treasures and zoological animals held for public exhibition, education, or research in furtherance of public service, rather than financial gain, are not capitalized. These items are protected, kept unencumbered, cared for, and preserved by the City. It is the City's policy to utilize proceeds from the sale of these items for the acquisition of other items for collection and display.

(h) Accrued Vacation and Sick Leave Pay

Vacation pay, which may be accumulated up to ten weeks depending on an employee's length of service, is payable upon termination. Sick leave may be accumulated up to six months. Unused amounts accumulated prior to December 6, 1978, are vested and payable upon termination of employment by retirement or disability caused by industrial accident or death.

The City accrues for all salary-related items in the government-wide and proprietary fund financial statements for which they are liable to make a payment directly and incrementally associated with payments made for compensated absences on termination. The City includes its share of social security and Medicare payments made on behalf of the employees in the accrual for vacation and sick leave pay.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

(i) Bond Issuance Costs, Premiums, Discounts, and Interest Accretion

In the government-wide financial statements, the proprietary fund type and fiduciary fund type financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, proprietary fund or fiduciary fund statement of net position. Bond issuance costs related to prepaid insurance costs, bond premiums and discounts for San Francisco International Airport, San Francisco Water Enterprise, Hetch Hetchy Water and Power, SFMTA, and San Francisco Wastewater Enterprise are amortized over the life of the bonds using the effective interest method. The remaining bond prepaid insurance costs, bond premiums and discounts are calculated using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts as other financing sources and uses, respectively. Issuance costs including bond insurance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Interest accreted on capital appreciation bonds is reported as accrued interest payable in the government-wide, proprietary fund and fiduciary fund financial statements.

(j) Fund Equity

Governmental Fund Balance

As prescribed by Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, governmental funds report fund balance in one of five classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. The five fund balance classifications are as follows:

- Nonspendable includes amounts that cannot be spent because they are either not in spendable
 form or legally or contractually required to be maintained intact. The not in spendable form criterion
 includes items that are not expected to be converted to cash, such as prepaid amounts, as well as
 certain long-term receivables that would otherwise be classified as unassigned.
- Restricted includes amounts that can only be used for specific purposes due to constraints imposed by external resource providers, by the City's Charter, or by enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers.
- Committed includes amounts that can only be used for specific purposes pursuant to an
 ordinance passed by the Board of Supervisors and signed by the Mayor. Commitments may be
 changed or lifted only by the City taking the same formal action that imposed the constraint
 originally.
- Assigned includes amounts that are not classified as nonspendable, restricted, or committed, but
 are intended to be used by the City for specific purposes. Intent is expressed by legislation or by
 action of the Board of Supervisors or the City Controller to which legislation has delegated the
 authority to assign amounts to be used for specific purposes.
- Unassigned is the residual classification for the General Fund and includes all amounts not
 contained in the other classifications. Unassigned amounts are technically available for any
 purpose. Other governmental funds may only report a negative unassigned balance that was
 created after classification in one of the other four fund balance categories.

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is generally depleted in the order of restricted, committed, assigned, and unassigned.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Encumbrances

The City establishes encumbrances to record the amount of purchase orders, contracts, and other obligations, which have not yet been fulfilled, cancelled, or discharged. Encumbrances outstanding at year-end are recorded as part of restricted or assigned fund balance.

Net Position

The government-wide and proprietary fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted, and unrestricted.

- Net Investment In Capital Assets This category groups all capital assets, including infrastructure. into one component of net position. Accumulated depreciation and the outstanding balances of debt, including debt related deferred outflows and inflows of resources, that are attributable to the acquisition, construction, or improvement of these assets reduce the balance in this category.
- Restricted Net Position This category represents net position that has external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position This category represents net position of the City, not restricted for any project or other purpose.

(k) Interfund Transfers

Interfund transfers are generally recorded as transfers in (out) except for certain types of transactions that are described below.

- Charges for services are recorded as revenues of the performing fund and expenditures of the requesting fund. Unbilled costs are recognized as an asset of the performing fund and a liability of the requesting fund at the end of the fiscal year.
- Reimbursements for expenditures, initially made by one fund, which are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the fund that is reimbursed.

(I) Refunding of Debt

In governmental and business-type activities and proprietary and fiduciary funds, losses or gains from advance refundings are recorded as deferred outflows of resources and deferred inflows of resources. respectively, and amortized into expense.

(m) Pollution Remediation Obligations

Pollution remediation obligations are measured at their current value using a cost-accumulation approach, based on the pollution remediation outlays expected to be incurred to settle those obligations. Each obligation or obligating event is measured as the sum of probability-weighted amounts in a range of possible estimated amounts. Some estimates of ranges of possible cash flows may be limited to a few discrete scenarios or a single scenario, such as the amount specified in a contract for pollution remediation services.

(n) Cash Flows

Statements of cash flows are presented for proprietary fund types. Cash and cash equivalents include all unrestricted and restricted highly liquid investments with original purchase maturities of three months or less. Pooled cash and investments in the City's Treasury represent monies in a cash management pool and such accounts are similar in nature to demand deposits.

46

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

(o) Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the SFERS and the California Public Employees' Retirement System (CalPERS) plans and additions to/deductions from the plans' fiduciary net positions have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Plan member contributions are recognized in the period in which the contributions are due. Investments are reported at fair value.

GASB Statement No. 68, Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27 (GASB Statement No. 68) requires that the reported results pertain to liability and asset information within certain defined timeframes. Liabilities are based on the results of actuarial calculations performed as of June 30, 2015 and were rolled forward to June 30, 2016. For this report, the following timeframes are used for the City's pension plans:

Valuation Date (VD)...... June 30, 2015 updated to June 30, 2016

Measurement Date (MD)..... June 30, 2016

Measurement Period (MP).... July 1, 2015 to June 30, 2016

(p) Restricted Assets

Certain proceeds of the City's governmental activities, enterprise and internal service funds bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of net position because the use of the proceeds is limited by applicable bond covenants and resolutions. Restricted assets account for the principal and interest amounts accumulated to pay debt service, unspent bond proceeds, and amounts restricted for future capital projects.

(g) Deferred Outflows and Inflows of Resources

The City records deferred outflows or inflows of resources in its governmental, proprietary, fiduciary, and government-wide financial statements for consumption or acquisition of net position that is applicable to a future reporting period. These financial statement elements are distinct from assets and

In governmental fund statements, deferred inflows of resources consist of revenues not collected within the availability period after fiscal year-end. In government-wide financial statements, deferred outflows and inflows of resources are recorded for unamortized losses and gains on refunding of debt, deferred outflows and inflows of resources related to pensions, deferred outflows of resources on derivative instruments, and deferred inflows of resources related to the SFMTA's leaseback transaction.

(r) Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(s) Reclassifications

Certain amounts, presented as fiscal year 2015-16 Summarized Comparative Financial Information in the basic financial statements, have been reclassified for comparative purposes, to conform to the presentation in the fiscal year 2016-17 basic financial statements.

Notes to Basic Financial Statements (Continued)

June 30, 2017

(Dollars in Thousands)

(3) RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

(a) Explanation of certain differences between the governmental funds balance sheet and the government-wide statement of net position

Total fund balances of the City's governmental funds, \$3,404,773, differs from net position of governmental activities, \$1,786,411 reported in the statement of net position. The difference primarily results from the long-term economic focus in the statement of net position versus the current financial resources focus in the governmental funds balance sheets.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

(1) When capital assets (land, infrastructure, buildings, equipment, and intangible assets) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets, net of accumulated depreciation, among the assets of the City as a whole

accumulated depreciation, among the assets of the City as a whole.	
Cost of capital assets	
Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period, and accordingly, are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the statement of net position.	
Accrued vacation and sick leave pay Accrued workers' compensation Other postemployment benefits obligation. Estimated claims payable Unearned revenue and other liabilities. Bonds, loans, capital leases, and other payables	(240,023) (1,312,199) (202,489) (1,896)
Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due.	\$ (11,016)
Deferred outflows (inflows) of resources related to debt refundings in governmental activities are not financial resources, and therefore, are not reported in the governmental funds.	
Unamortized loss on refunding of debt	
Net pension liability is not due and payable in the current period, and accordingly is not reported as a fund liability. Deferred outflows (inflows) of resources related to pensions are not financial resources, and therefore, are not reported in the governmental funds.	
Net pension liability Deferred outflows of resources related to pensions Deferred inflows of resources related to pensions	1,268,829
Because the focus of governmental funds is on the availability of resources, some assets will not be available to pay for current period expenditures and thus are not included in fund balance.	

Revenue not collected within 60 days of the end of the current fiscal period\$ 370,845

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

(2) Internal service funds are used by management to charge the costs of certain activities, such as capital lease financing, equipment maintenance services, printing and mailing services, and telecommunications and information systems, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.

(b) Explanation of certain differences between the governmental funds statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The net change in fund balances for governmental funds, \$569,299, differs from the change in net position for governmental activities, \$(167,614), reported in the statement of activities. The differences arise primarily from the long-term economic focus in the statement of activities versus the current financial resources focus in the governmental funds. The effect of the differences is illustrated below.

(4) When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net position decreases by the amount of depreciation expense charged for the year and the loss on disposal of capital assets

Capital expenditures\$	486,779
Depreciation expenses	(180,738)
Gain on disposal of capital assets	97,324
Loss on disposal of capital assets	(36,427)
Transfer of assets to enterprise fund	(68,917)
Write off of construction in progress	(22,602)
Increase in construction in progress	28,289
Proceeds from sale of capital assets	(122,000)
Difference\$	181,708

- (5) Internal service funds are used by management to charge the costs of certain activities, such as capital lease financing, equipment maintenance, printing and mailing services, and telecommunications, to individual funds. The adjustments for internal service funds "close" those funds by charging additional amounts to participating governmental activities to completely cover the internal service funds' costs for the year.
- \$ (11,255)
- (6) Bond premiums are a source of funds in the governmental funds when the bonds are issued, but are capitalized in the statement of net position. This is the amount of premiums capitalized during the current period.

\$ (12,432)

Repayment of bond principal is reported as expenditures in governmental funds and, thus, have the effect of reducing fund balance because current financial resources have been used. For the City as a whole however, the principal payments reduce the liabilities in the statement of net position and do not result in expenses in the statement of activities. The City's bonded debt was reduced because principal payments were made to bond holders.

Principal payments made\$ 283,356

Bond and loan proceeds and capital leases are reported as other financing sources in governmental funds and thus contribute to the change in fund balance. In the government-wide statements, however, issuing debt increases long-term liabilities in the statement of net position and do not affect the statement of activities. Proceeds were received from:

General obligation bonds	(248, 250)
Certificates of participation	(28,320)
Capital lease for equipment	(34,184)
	(46,000)
-	(356 754)

\$ (73,398)

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Interest expense in the statement of activities differs from the amount reported in governmental funds because (1) additional accrued and accreted interest was calculated for bonds, notes payable and capital leases, and (2) amortization of bond discounts, premiums and refunding losses and gains are not expended within the fund statements.

Decrease in accrued interest\$	877
Amortization of bond premiums and discounts	20,245
Amortization of bond refunding losses and gains	(1,936)
\$	19.186

(4) EFFECTS OF NEW ACCOUNTING PRONOUNCEMENTS

During fiscal year 2017, the City implemented the following accounting standards:

In June 2015, the GASB issued Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. This statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement No. 68. It also amends certain provisions of Statement No. 67, Financial Reporting for Pension Plans, and Statement No. 68 for pension plans and pensions that are within their respective scopes. The provisions in this statement were effective for the City's year ended June 30, 2016, except those provisions that address employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement No. 68, which are effective for the City's year ended June 30, 2017. Implementation of the standard resulted in a restatement which decreased beginning net position of governmental activities for fiscal year 2016-17 by \$55.0 million.

In June 2015, the GASB issued Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans and Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. Statement No. 74 revises and establishes new accounting and financial reporting requirements for postemployment benefit plans other than pensions (OPEB). Statement No. 75 revises and establishes new accounting and financial reporting requirements for governments that provide their employees with OPEB and requires additional OPEB disclosures. Statement No. 74 is effective for periods beginning after June 15, 2016, and is effective for the City's year ended June 30, 2017. Statement No. 74 was implemented for the City's fiscal year 2017. The total OPEB liability, determined in accordance with GASB Statement No. 74, is presented in the notes and in the required supplementary information in the Retiree Health Care Trust Fund's separately issued financial report. Application of Statement No. 75 is effective for the City's year ending June 30, 2018.

In August 2015, the GASB issued Statement No. 77, *Tax Abatement Disclosures*. Statement No. 77 establishes financial reporting standards for tax abatement agreements entered into by state and local governments. The new standard is effective for periods beginning after December 15, 2015. Application of this statement did not have a significant impact on the City for the year ended June 30, 2017.

In December 2015, the GASB issued Statement No. 78, Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans. GASB Statement No. 78 establishes accounting and financial reporting standards for defined benefit pensions provided by state or local governments through a costsharing plan that meets the criteria of Statement No. 68 and is not a state or local governmental pension plan. The new standard is effective for periods beginning after December 15, 2015. Application of this statement did not have a significant impact on the City for the year ended June 30, 2017.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

In January 2016, the GASB issued Statement No. 80, Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14. This statement amends the blending requirements established in paragraph 53 of Statement No. 14, The Financial Reporting Entity, as amended. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The new standard is effective for periods beginning after June 15, 2016. Application of this statement did not have a significant impact on the City for the year ended June 30, 2017.

In addition, the City is currently analyzing its accounting practices to determine the potential impact of the following pronouncements:

In March 2016, the GASB issued Statement No. 81, Irrevocable Split-Interest Agreements. GASB Statement No. 81 establishes accounting and financial reporting standards for irrevocable split-interest agreements created through trusts in which a donor irrevocably transfers resources to an intermediary. The new standard is effective for periods beginning after December 15, 2016. Application of this statement is effective for the City's year ending June 30, 2018.

In November 2016, the GASB issued Statement No. 83, Certain Asset Retirement Obligations, GASB Statement No. 83 addresses accounting and financial reporting for asset retirement obligations. The statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs, and requires disclosures of methods and assumptions used. The new standard is effective for periods beginning after June 15, 2018. Application of this statement is effective for the City's year ending June 30, 2019.

In January 2017, the GASB issued Statement No. 84, Fiduciary Activities. GASB Statement No. 84 establishes criteria for identifying fiduciary activities of all state and local governments. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The new standard is effective for periods beginning after December 15, 2018. Application of this statement is effective for the City's year ending June 30, 2020.

In March 2017, the GASB issued Statement No. 85, *Omnibus 2017*. GASB Statement No. 85 addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits. The new standard is effective for periods beginning after June 15, 2017. Application of this statement is effective for the City's year ending June 30, 2018.

In May 2017, the GASB issued Statement No. 86, Certain Debt Extinguishment Issues. GASB Statement No. 86 clarifies accounting and financial reporting for in-substance defeasance of debt using existing resources other than proceeds of refunding debt. The new standard is effective for periods beginning after June 15, 2017. Application of this statement is effective for the City's year ending June 30, 2018.

In June 2017, the GASB issued Statement No. 87, Leases. GASB Statement No. 87 establishes a single model for lease accounting and requires reporting of certain lease assets, liabilities, and deferred inflows that currently are not reported. The new standard is effective for periods beginning after December 15, 2019. Application of this statement is effective for the City's year ending June 30, 2021.

(b) Investment Policies

Treasurer's Pool

The City's investment policy addresses the Treasurer's safekeeping and custody practices with financial institutions in which the City deposits funds, types of permitted investment instruments, and the percentage of the portfolio which may be invested in certain instruments with longer terms to maturity. The objectives of the policy, in order of priority, are safety, liquidity, and earning a market rate of return on public funds. The City has established a Treasury Oversight Committee (Oversight Committee) as defined in the City Administrative Code section 10.80-3, comprised of various City officials, representatives of agencies with large cash balances, and members of the public, to monitor and review the management of public funds maintained in the investment pool in accordance with Sections 27130 to 27137 of the California Government Code. The Treasurer prepares and submits an investment report to the Mayor, the Board of Supervisors, members of the Oversight Committee and the investment pool participants every month. The report covers the type of investments in the pool, maturity dates, par value, actual cost, and fair value.

The investment policy places maturity limits based on the type of security. Investments held by the Treasurer during the year did not include repurchase agreements or reverse repurchase agreements. The table below identifies the investment types that are authorized by the City's investment policy dated May 2016. The table also identifies certain provisions of the City's investment policy that address interest rate risk and concentration of credit risk.

The Treasurer also holds for safekeeping bequests, trust funds, and lease deposits for other City departments. The bequests and trust funds consist of stocks and debentures. Those instruments are valued at par, cost, or fair value at the time of donation.

Other Funds

Other funds consist primarily of deposits and investments with trustees related to the issuance of bonds and to certain loan programs operated by the City. These funds are invested either in accordance with bond covenants and are pledged for payment of principal, interest, and specified capital improvements or in accordance with grant agreements and may be restricted for the issuance of loans.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Employees' Retirement System

The Retirement System's investments are invested pursuant to investment policy guidelines as established by the Retirement Board. The objective of the policy is to maximize the expected return of the fund at an acceptable level of risk. The Retirement Board has established percentage guidelines for types of investments to ensure the portfolio is diversified.

Investment managers are required to diversify by issue, maturity, sector, coupon, and geography. Investment managers retained by the Retirement System follow specific investment guidelines and are evaluated against specific market benchmarks that represent their investment style. Any exemption from general guidelines requires approval from the Retirement Board. The Retirement System invests in securities with contractual cash flows, such as asset backed securities, commercial mortgage backed securities and collateralized mortgage obligations. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be affected by shifts in the market's perception of the issuers and changes in interest rates.

The investment policy permits investments in domestic and international debt and equity securities; real estate; securities lending; foreign currency contracts, derivative instruments, and private equity investments, which include investments in a variety of comminqued partnership vehicles.

The Retirement Board's asset allocation policies for the year ended June 30, 2017, are as follows:

Asset Class	Target Allocation
Global Equity	40.0%
Fixed Income	20.0%
Private Equity	18.0%
Real Assets	17.0%
Hedge Funds/Absolute Ref	turn 5.0%
	100.0%

The Retirement System is not directly involved in repurchase or reverse repurchase agreements. However, external investment managers retained by the Retirement System may employ repurchase arrangements if the securities purchased or sold comply with the manager's investment guidelines. The Retirement System monitors the investment activity of its investment managers to ensure compliance with guidelines.

Retiree Health Care Trust Fund (RHCTF)

The RHCTF's investments outside of the City Treasury are invested pursuant to investment policy guidelines as established by the RHCTF Board. The objective of the policy is to manage fund assets so as to achieve the highest, reasonably prudent real return possible. The investment policy permits the RHCTF to invest in domestic and international equity securities and investment grade bonds. It also allows investments in global equity, U.S. nominal bonds, inflation-linked bonds, global real estate, and commodities, although the RHCTF does not currently hold assets in these classes. The RHCTF Board has established percentage guidelines for types of investments to ensure the portfolio is diversified, as follows:

Asset Class	Target Allocation	Range
Domestic Equity	37.0%	32.0-42.0%
International Equity	37.0%	32.0-42.0%
Investment Grade Bonds	26.0%	21.0-31.0%
	100.0%	

^{*} Represents restriction for which the City's investment policy is more restrictive than the California Government Code.

(c) Fair Value Hierarchy

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs (the City does not value any of its investments using Level 3 inputs). The inputs or methodology used for valuing securities are not an indication of risk associated with investing in those securities.

The following is a summary of inputs used in valuing the City's investments as of June 30, 2017:

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Investments Held in City Treasury

- U.S. Treasury Notes are valued using quoted prices in active markets and classified in Level 1 of the fair value hierarchy.
- U.S. Government Agencies, State and Local agencies, Negotiable Certificates of Deposit, Corporate Notes, Commercial Paper and Supranationals are valued using a variety of techniques such as matrix pricing, market corroborated pricing inputs such as yield curve, indices, and other market related data and classified in Level 2 of the fair value hierarchy.

Money Market Funds and Public Time Deposits have maturities of one year or less from fiscal yearend and are not subject to GASB Statement No. 72.

Investments Held Outside City Treasury

U.S. Treasury Notes are valued using quoted prices in active markets and classified in Level 1 of the fair value hierarchy. U.S. Government Agencies are valued using a variety of techniques such as matrix pricing, market corroborated pricing inputs such as yield curve, indices, and other market related data and classified in Level 2. Commercial Paper, Money Market Funds, and Certificates of Deposit are not subject to fair value hierarchy.

Employees' Retirement System Investments

Investments, at Fair Value

Equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets. Debt and equity securities classified in Level 2 of the fair value hierarchy are valued using prices determined by the use of matrix pricing techniques maintained by the various pricing vendors for these securities. Debt securities including short-term instruments are priced based on evaluated prices. Such evaluated prices may be determined by factors which include, but are not limited to, market quotations, yields, maturities, call features, ratings, institutional size trading in similar groups of securities and developments related to specific securities. For equity securities not traded on an active exchange, or if the closing price is not available, corroborated indicative quotes obtained from pricing vendors are generally used. Debt and equity securities classified in Level 3 of the fair value hierarchy are securities whose stated market prices are unobservable by the market place. Many of these securities are priced using uncorroborated indicative quotes, adjusted prices based on inputs from different sources, or evaluated prices using unobservable inputs, such as extrapolated data, proprietary models, and indicative quotes from pricing vendors.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In some cases, a valuation technique may have multiple inputs used to measure fair value, and each input might fall into a different level of the fair value hierarchy. The level in the fair value hierarchy within which a fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the measurement. The prices used in determining the fair value hierarchy are obtained from various pricing sources by the Retirement System's custodian bank.

Investments, at Net Asset Value (NAV)

The equity and debt funds are commingled funds that are priced at net asset value by industry vendors and fund families. NAV is the market value of all securities owned by a fund, minus its total liabilities, divided by the number of shares issued and outstanding. The NAV of an open-end fund is its price.

60

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

The fair value of the Retirement System's investments in private credit investments, opportunistic public equity, real assets, private equity, and absolute return investments are based on net asset values provided by the investment managers and general partners (hereinafter collectively referred to as the "General Partners"). Such value generally represents the Retirement System's proportionate share of the net assets of the limited partnerships. The partnership financial statements are audited annually as of December 31 and the net asset value are adjusted by additional contributions to and distributions from the partnership, the Retirement System's share of net earnings and losses, and unrealized gains and losses resulting from changes in fair value, as determined by the General Partners.

The General Partners may use one or more valuation methodologies outlined in FASB ASC 820, Fair Value Measurement. For some investments, little market activity may exist. The General Partners' determination of fair value is then based on the best information available in the circumstances and may involve subjective assumptions and estimates, including the General Partners' assessment of the information that market participants would use in valuing the investments. The General Partners may take into consideration a combination of internal and external factors, including but not limit to, appropriate risk adjustments for nonperformance and liquidity. Such fair value estimates involve subjective judgments of unrealized gains and losses.

The values provided by the General Partners may differ significantly from the values that would have been used had a ready market existed for these investments.

Private Credit investments are held in commingled funds. These investments are mostly illiquid with distributions received over the life of the investments. They are typically not redeemed, nor do they have set redemption schedules. Two opportunistic public equity investments, valued at \$4.2 million, are currently being liquidated. These proceeds are expected to be received over the next 3-5 years. The remaining opportunistic public equity investments are subject to a 2-year lock up with liquidity provided every December 31 with 60 days' notice. The real asset holdings are illiquid. Distributions are received over the life of the investments, which could equal or exceed ten years. They are not redeemed, nor do they have set redemption schedules. Private equity investment strategies include buyout, venture capital, growth capital, and special situations. Investments in the asset class are achieved primarily through commingled fund and separate account partnerships, but may also include direct and co-investment opportunities. Private equity investments are illiquid and distributions are received over the life of the investments, which could equal or exceed ten years. These investments are not typically redeemed, nor do they have set redemption schedules.

Absolute return investment strategies include equity, credit, macro, emerging markets, quantitative, multi-strategy, special situations, and commodities. Investments are achieved through limited partnerships. The table below provides a summary of the terms and conditions upon which the Retirement System may redeem its absolute return investments. Investments have the potential to become illiquid under stressed market conditions and, in certain circumstances, investors may be subject to redemption restrictions that differ from the standard terms and conditions summarized here, which can impede the return of capital according to those terms and conditions.

Absolute Return Investment Measured at NAV as of June 30, 2017

% of NAV	Redemption Frequency	Redemption Notice Period
25%*	Quarterly	65-95 days
46%	Semi-annually	95 days
10%	Annually	95 days
19%	Greater than Annually	95 days
100%		

^{* 5%} subject to a lock-up that expires as of April 1, 2018

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Retiree Health Care Trust Fund

Investments, at Net Asset Value (NAV)

At June 30, 2017 the Retiree Health Care Trust Fund had investments in equity and debt commingled index funds, the City Treasury Pool, and money market funds. The funds are priced at net asset value (NAV) by industry vendors and fund families. NAV is the market value of all securities owned by a fund, minus its total liabilities, divided by the number of shares issued and outstanding. As of June 30, 2017, there are no redemption restrictions on the commingled index funds.

(d) Investment Risks

Custodial Credit Risk - Deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code, the City's investment policy and the Retirement System's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision. The California Government Code requires that a financial institution secure deposits made by state or local governmental units not covered by Federal Deposit Insurance Corporation insurance by pledging government securities as collateral. The market value of pledged securities must equal at least 110.0% of the type of collateral authorized in California Government Code, Section 53651 (a) through (i) of the City's deposits. The collateral must be held at the pledging bank's trust department or another bank, acting as the pledging bank's agent, in the City's name. As of June 30, 2017, \$3.6 million of the business-type activities bank balances were exposed to custodial credit risk by not being insured or collateralized.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in interest rates. Information about the sensitivity to the fair values of the City's investments to interest rate fluctuations is provided by the following tables, which shows the distribution of the City's investments by maturity. The Retirement System's interest rate risk information is discussed in section (f) of this note.

June 30, 2017 (Dollars in Thousands)

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to pay the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The Standard & Poor's rating for each of the investment types are shown in the table above.

Custodial Credit Risk for Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to transaction, the City will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments; however, it is the practice of the City Treasurer that all investments are insured, registered or held by the Treasurer's custodial agent in the City's name. The governmental and business-type activities also have investments with trustees related to the issuance of bonds that are uninsured, unregistered and held by the counterparty's trust departments but not in the City's name. These amounts are included in the investments outside City Treasury shown in the table above.

Concentration of Credit Risk

The City's investment policy contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code and/or its investment policy. U.S. Treasury and agency securities explicitly guaranteed by the U.S. government are not subject to single issuer limitation.

As of June 30, 2017, the City Treasurer has investments in U.S. Agencies that represent 5.0% or more of the total Pool in the following:

Federal Farm Credit Bank	21.9%
Federal Home Loan Mortgage Corporation	14.4%
Federal Home Loan Bank	

In addition, the following major funds hold investments with trustees that represent 5.0% or more of the funds' investments outside City Treasury as of June 30, 2017:

Airport:			
Endoral National	Mortgogo	Accordation	

rederal National Mongage Association	10.070
Federal Home Loan Bank	14.0%
Federal Home Loan Mortgage Corporation	8.9%
tch Hetchy:

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Credit Risk

Fixed income investment managers typically are limited within their portfolios to no more than 5.0% exposure in any single security, with the exception of United States Treasury and government agency securities. The Retirement System's credit risk policy is embedded in the individual investment manager agreements as prescribed and approved by the Retirement Board.

Investments are classified and rated using the lower of (1) Standard & Poor's (S&P) rating or (2) Moody's Investors Service (Moody's) rating corresponding to the equivalent S&P rating. If only a Moody's rating is available, the rating equivalent to S&P is used for the purpose of this disclosure.

The following table illustrates the Retirement System's exposure to credit risk as of June 30, 2017. Investments issued or explicitly guaranteed by the U.S. government of \$1.02 billion as of June 30, 2017, are exempt from credit rating disclosures and are excluded from the table below.

		Fair Value as a
Credit Rating	 Fair Value	Percentage of Total
AAA	\$ 166,573	4.4%
AA	46,442	1.2%
A	203,966	5.4%
BBB	708,834	18.7%
BB	239,996	6.3%
В	252,346	6.7%
CCC	53,906	1.4%
CC	2,424	0.1%
С	2,279	0.1%
D	1,766	0.0%
Not Rated	2,105,738	55.7%
Total	\$ 3,784,270	100.0%

The securities listed as "Not Rated" include short-term investment funds, government mortgage backed securities, and investments that invest primarily in rated securities, such as commingled funds and money market funds, but do not themselves have a specific credit rating. Excluding these securities. the "Not Rated" component of credit would be approximately 20.2% for 2017.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the Retirement System's investment in a single issuer. Guidelines for investment managers typically restrict a position to become no more than 5.0% (at fair value) of the investment manager's portfolio. Securities issued or guaranteed by the U.S. government or its agencies are exempt from this limit.

As of June 30, 2017, the Retirement System had no investments of a single issuer that equaled or exceeded 5.0% of total Retirement System's investments or net position.

Custodial Credit Risk

The Retirement System does not have a specific policy addressing custodial credit risk for investments, but investments are generally insured, registered, or held by the Retirement System or its agent in the Retirement System's name. As of June 30, 2017, \$759.6 million of the Retirement System's investments were exposed to custodial credit risk because they were not insured or registered in the name of the Retirement System, and were held by the counterparty's trust department or agent but not in the Retirement System's name.

For fiscal year 2017, cash received as securities lending collateral is invested in a separate account managed by the lending agent using investment quidelines approved by the Retirement System and

Notes to Basic Financial Statements (Continued)

June 30, 2017

(Dollars in Thousands)

held by the Retirement System's custodial bank. Securities in this separately managed account are not exposed to custodial credit risk.

Foreign Currency Risk

The Retirement System's exposure to foreign currency risk derives from its positions in foreign currency denominated cash, equity, fixed income, private equity investments, real assets, and swap investments. The Retirement System's investment policy allows international managers to enter into foreign exchange contracts, which are limited to hedging currency exposure existing in the portfolio. Derivatives are considered investments, rather than hedges, for accounting and financial reporting purposes.

The Retirement System's net exposures to foreign currency risk as of June 30, 2017, are as follows:

							Foreign	
			ixed		rivate	Real	Currency

Derivative Instruments

As of June 30, 2017, the derivative instruments held by the Retirement System are considered investments and not hedges for accounting purposes. The gains and losses arising from this activity are recognized as incurred in the statement of changes in fiduciary net position. All investment derivatives discussed below are included within the investment risk schedules, which precede this subsection. Investment derivative instruments are disclosed separately to provide a comprehensive and distinct view of this activity and its impact on the overall investment portfolio.

The fair value of the exchange traded derivative instruments, such as futures, options, rights and warrants are based on quoted market prices. The fair values of forward foreign currency contracts are determined using a pricing service, which uses published foreign exchange rates as the primary source. The fair values of swaps are determined by the Retirement System's investment managers based on quoted market prices of the underlying investment instruments.

The table below presents the notional amounts, the fair value amounts, and the related net appreciation (depreciation) in the fair value of derivative instruments that were outstanding at June 30, 2017:

Derivative Type / Contracts	Notional Amount	Fai	r Value	Net Appreciation (Depreciation) in Fair Value		
Forwards						
Foreign Exchange Contracts	(a)	\$	167	\$	167	
Other Contracts	(a)		(153)		(151)	
Options						
Foreign Exchange Contracts	\$ 3,900		(12)		76	
Swaps						
Credit Contracts	5,000		(45)		73	
Interest Rate Contracts	46,632		253		326	
Total Return Contracts	80		1,233		1,233	
Rights/Warrants						
Equity Contracts	12,458 shares	3	76		(2,306)	
Total		\$	1,519	\$	(582)	

(a) The Retirement System's investment managers enter into a wide variety of forward foreign exchange and other contracts, which frequently do not involve the U.S. dollar. As a result, a U.S. dollar-based notional

All investment derivatives are reported as investments at fair value in the statement of fiduciary net position. Rights and warrants are reported in equity securities. Foreign exchange contracts are reported in foreign currency contracts, which also include spot contracts that are not derivatives. All other derivative contracts are reported in other debt securities. All changes in fair value are reported as net appreciation (depreciation) in fair value of investments in the statements of changes in fiduciary net position.

Counterparty Credit Risk

The Retirement System is exposed to credit risk on non-exchange traded derivative instruments that are in asset positions. As of June 30, 2017, the fair value of forward currency contracts in net positions (including foreign exchange contract options) to purchase and sell international currencies were \$1.0 million and \$0.8 million, respectively. The Retirement System's counterparties to these contracts held credit ratings of A or better on 85.3% and credit ratings of B on 14.0% of the positions as assigned by one or more of the major credit rating organizations (S&P and/or Moody's) while 0.7% were not rated.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Custodial Credit Risk

The custodial credit risk disclosure for exchange traded derivative instruments is made in accordance with the custodial credit risk disclosure requirements of GASB Statement No. 40. At June 30, 2017, all of the Retirement System's investments in derivative instruments are held in the Retirement System's name and are not exposed to custodial credit risk.

Interest Rate Risk

The table below describes the maturity periods of the derivative instruments exposed to interest rate risk at June 30, 2017.

Contingent Features

At June 30, 2017, the Retirement System held no positions in derivatives containing contingent features.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Securities Lendina

The Retirement System lends U.S. government obligations, domestic and international bonds, and equities to various brokers with a simultaneous agreement to return collateral for the same securities plus a fee in the future. The securities lending agent manages the securities lending program and receives securities and cash as collateral. Cash and non-cash collateral is pledged at 102.0% and 105.0% of the fair value of domestic securities and international securities lent, respectively. There are no restrictions on the number of securities that can be lent at one time. However, starting in the year ended June 30, 2009, the Retirement System engaged in a systematic reduction of the value of securities on loan with a target of no more than ten percent (10.0%) of total fund assets on loan at any time. The term to maturity of the loaned securities is generally not matched with the term to maturity of the investment of the corresponding collateral. On April 12, 2017, the Retirement Board authorized Investment Staff to discontinue the Securities Lending Program in an orderly fashion.

The Retirement System does not have the ability to pledge or sell collateral securities unless a borrower defaults. The securities collateral is not reported on the statement of fiduciary net position. As of June 30, 2017, the Retirement System has no credit risk exposure to borrowers because the amounts the Retirement System owes them exceed the amounts they owe the Retirement System. As with other extensions of credit, the Retirement System may bear the risk of delay in recovery or of rights in the collateral should the borrower of securities fail financially. However, the lending agent indemnifies the Retirement System against all borrower defaults.

As of June 30, 2017, the Retirement System lent \$259 in securities and received collateral of \$106 and \$160 in cash and securities, respectively, from borrowers. The cash collateral is invested in a separately managed account by the lending agent using investment guidelines approved by the Retirement Board. Due to the increase in the fair value of assets held in the separately managed account, the Retirement System's invested cash collateral was valued at \$201. The net unrealized gain of \$95 is presented as part of the net appreciation (depreciation) in fair value of investments in the statement of changes in the fiduciary net position in the year in which the unrealized gains or losses occur. The Retirement System is exposed to investment risk including the possible loss of principal value in the separately managed securities lending account due to the fluctuation in the fair value of assets held in the account.

The Retirement System's securities lending transactions as of June 30, 2017, are summarized in the following table:

Investment Type		Fair Value of Loaned Securities		ash ateral	Fair Value of Non Cash Collateral	
Securities on Loan for Cash Collateral						
U.S. Corporate Fixed Income	\$	103	\$	106	\$	-
Securities on Loan for Non-Cash Collateral						
U.S. Corporate Fixed Income		156		-		160
Total	\$	259	\$	106	\$	160

The following table presents the segmented time distribution and credit risk for the reinvested cash collateral account, based upon the expected maturity (in years) as of June 30, 2017.

Investme	Credit Rating	Fair	Value	1 Year	
Short-term Investment Fund	S	AA	\$	201	\$ 201

Maturity Loop

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Investments in Real Assets Holdings

Real assets investments represent the Retirement System's interests in real assets limited partnerships and separate accounts. The changes in these investments during the year ended June 30, 2017, are summarized as follows:

Beginning of the year	\$ 2,341,500
Captial investments	1,434,150
Equity in net earnings	26,959
Net appreciation in fair value	232,967
Capital distributions	(1,059,602)
End of the year	\$ 2,975,974

The Retirement System has established leverage limits for each investment style based on the risk/return profile of the underlying investments. The leverage limits for core and value-added real estate investments are 40.0% and 65.0%, respectively. The leverage limits for high return real estate investments depend on each specific offering. Outstanding mortgages for the Retirement System's real estate investments were \$7.4 million as of June 30, 2017. The underlying real estate holdings are valued periodically based on appraisals performed by independent appraisers in accordance with Uniform Standards of Professional Appraisal Practice. Such fair value estimates involve subjective judgments of unrealized gains and losses, and the actual market price of the real estate can only be determined by negotiation between independent third parties in a purchase and sale transaction.

(a) Retiree Health Care Trust Fund

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates may adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The RHCTF does not have a specific policy to manage interest rate risk

As of June 30, 2017, the weighted average maturities in years for the RHCTF's fixed income investments were as follows:

Investment Type	Weighted Average Maturity in Years
US Debt Index Fund	8.03
City Investment Pool	1.29
Treasury Money Market Fund	0.11

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment may not fulfill its obligations. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The City's investment pool is not rated.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of investment in a single issuer. Securities issued or explicitly guaranteed by the U.S. government are excluded from this disclosure. As of June 30, 2017, the RHCTF held investments issued by Blackrock, Inc. and Northern Trust Company that exceeded 5% of the RHCTF's fiduciary net position.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Rate of return

For the year ended June 30, 2017, the annual money-weighted rate of return on investments, net of investment expense, was 13.1 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

(6) PROPERTY TAXES

The City is responsible for assessing, collecting, and distributing property taxes in accordance with enabling state law. Property taxes are levied on both real and personal property. Liens for secured property taxes attach on January 1st preceding the fiscal year for which taxes are levied. Secured property taxes are levied on the first business day of September and are payable in two equal installments: the first is due on November 1st and delinquent with penalties after December 10th; the second is due February 1st and delinquent with penalties after April 10th. Secured property taxes that are delinquent and unpaid as of June 30th are subject to redemption penalties, costs, and interest when paid. If not paid at the end of five years, the secured property may be sold at public auction and the proceeds used to pay delinquent amounts due. Any excess is remitted, if claimed, to the taxpayer. Unsecured personal property taxes do not represent a lien on real property. Those taxes are levied on January 1st and become delinquent with penalties after August 31st. Supplemental property tax assessments associated with changes in the assessed valuation due to transfer of ownership in property or upon completion of new construction are levied in two equal installments and have variable due dates based on the date the bill is mailed.

Since the passage of California's Proposition 13, beginning with fiscal year 1978-1979, general property taxes are based either on a flat 1% rate applied to the adjusted 1975-1976 value of the property and new construction value added after the 1975-1976 valuation or on a flat 1.0% rate of the sales price of the property for changes in ownership. Taxable values on properties (exclusive of increases related to sales and construction) can rise or be adjusted at the lesser of 2.0% per year or the inflation rate as determined by the Board of Equalization's California Consumer Price Index.

The Proposition 13 limitations on general property taxes do not limit taxes levied to pay the interest and redemption charges on any indebtedness approved by the voters prior to June 6, 1978 (the date of passage of Proposition 13). Proposition 13 was amended in 1986 to allow property taxes in excess of the 1.0% tax rate limit to fund general obligation bond debt service when such bonds are approved by two-thirds of the local voters. In 2000, California voters approved Proposition 39, which set the approval threshold at 55.0% for school facilities-related bonds. These "override" taxes for the City's debt service amounted to approximately \$273.6 million for the year ended June 30, 2017.

Taxable valuation for the year ended June 30, 2017, (net of non-reimbursable exemptions, reimbursable exemptions, and tax increment allocations to the Successor Agency) was approximately \$195.00 billion, an increase of 9.4%. The secured tax rate was \$1.1792 per \$100 of assessed valuation. After adjusting for a State mandated property tax shift to schools, the tax rate is comprised of: about \$0.65 for general government, about \$0.35 for other taxing entities including the San Francisco Unified School District, San Francisco Community College District, the Bay Area Air Quality Management District and the Bay Area Rapid Transit District, and also \$0.1792 for bond debt service. Delinquencies in the current year on secured taxes and unsecured taxes amounted to 0.52% and 5.10%, respectively, of the current year tax levy, for an average delinquency rate of 0.85% of the current year tax levy.

As established by the Teeter Plan, the Controller allocates to the City and other agencies 100.0% of the secured property taxes billed but not yet collected by the City; in return, as the delinquent property taxes and associated penalties and interest are collected, the City retains such tax amounts in the Agency Fund. To the extent the Agency Fund balances are higher than required; transfers may be made to benefit the City's General Fund on a budgetary basis. The balance of the tax loss reserve as of June 30, 2017, was \$24.9 million, which is included in the Agency Fund for reporting purposes. The City has funded payment of accrued and current delinquencies, together with the required reserve, from interfund borrowing.

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental Activities:

Public protection\$	30,486
Public works transportation and commerce	31,342
Human welfare and neighborhood development	756
Community Health	36,841
Culture and recreation	57,396
General administration and finance	23,917
Capital assets held by the City's internal service funds	
charged to the various functions on a prorated basis	3,294
Total depreciation expense - governmental activities	184,032
Business-type activities:	
Airport\$	265,841
Water	118,826
Power	17,730
Transportation	146,595
Hospitals	40,914
Wastewater	55,441
Port	24,191
Total depreciation expense - business-type activities\$	669,538

Equipment is generally estimated to have useful lives of 2 to 40 years, except for certain equipment of the Water Enterprise that has an estimated useful life of up to 75 years. Facilities and improvements are generally estimated to have useful lives from 15 to 50 years, except for utility type assets of the Water Enterprise, Hetch Hetchy, the Wastewater Enterprise, the SFMTA, and the Port that have estimated useful lives from 51 to 175 years. These long-lived assets include reservoirs, aqueducts, pumping stations of Hetch Hetchy, Cable Car Barn facilities and structures of SFMTA, and pier substructures of the Port, which totaled \$3.80 billion as of June 30, 2017. Hetch Hetchy Water had intangible assets of water rights having estimated useful lives from 51 to 100 years, which totaled \$45.6 million as of June 30, 2017. The Airport had \$6.9 million in intangible assets of permanent easements. In addition, the Water Enterprise had utility type assets with useful lives over 100 years, which totaled \$6.8 million as of June 30, 2017.

During the year ended June 30, 2017, the City's enterprise funds incurred total interest expense and interest income of approximately \$489.8 million and \$28.5 million, respectively. Of these amounts, interest expense of approximately \$80.3 million was capitalized. The Airport had write-offs and loss on disposal in the amount of \$21.6 million primarily due to disposal. The Water Enterprise, Hetch Hetchy, and the Wastewater Enterprise expensed \$2.4 million, \$1.5 million, and \$2.0 million, respectively, related to capitalized design and planning costs on certain projects that were discontinued.

During the year ended June 30, 2017, the City entered into two sale-leaseback agreements for properties at 1660-1680 Mission Street and 30 Van Ness Avenue. Under the agreements, the City sold both properties with a book value of \$24.7 million for a total of \$122.0 million in gross proceeds and recognized a gain from the sale in the amount of \$97.3 million in the government-wide financial statements. In addition, the City agreed to leaseback the office space, from the new owners, for three years with an option for two one-year extensions through 2022.

City and County of San Francisco Commercial Paper Program

The City launched its commercial paper (CP) program to pay for project costs in connection with the acquisition, improvement, renovation and construction of real property and the acquisition of capital equipment and vehicles (Resolution No. 85-09). Pursuant to Resolution No. 85-09 approved in March 2009, the Board of Supervisors established a \$150.0 million commercial paper program. Pursuant to Resolution 247-13, the authorization of the commercial paper program was increased to \$250.0 million from \$150.0 million. The City currently has letters of credit supporting the \$250.0 million program.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

The CP is an alternative form of short-term (or interim) financing for capital projects that permits the City to pay project costs as project expenditures are incurred. The CP notes are issued and short-term debt is incurred only when needed to pay project costs as they are incurred. The CP has a fixed maturity date from one to 270 days and generally matures in 270 days. The CP notes are supported by two Revolving Credit Agreements (RCA) issued by State Street Bank and Trust Company ("State Street Bank") and U.S. Bank N.A. with a fee of 0.45% and 0.45%, respectively and a Letter of Credit Agreement (LOC) issued by State Street Bank with a fee of 0.50%. The State Street Bank and US Bank N.A. RCAs are scheduled to expire in May 2021 and the State Street Bank LOC is scheduled to expire in February 2019.

In fiscal year 2017, the City retired \$1.25 billion and issued \$1.35 billion CP to provide interim financing for the acquisition and improvement of various approved capital projects: the purchase of capital equipment for the San Francisco General Hospital and Trauma Center, rebuilding of severely distressed public housing sites while increasing affordable housing and ownership opportunities and improving the quality of life for existing residents and the surrounding communities (HOPE SF) and Moscone Center expansion. As of June 30, 2017, the outstanding principal of tax exempt and taxable CP was \$205.5 million and \$1.4 million, with interest rates ranging from 0.85% to 0.90% and 1.15%, respectively.

Transbay Transit Center Project Interim Financing

In April 2001, the City, the Alameda-Contra Costa Transit District, and the Peninsula Corridor Joint Powers Board executed a Joint Powers Agreement which created and established the Transbay Joint Powers Authority (TJPA). The TJPA has primary jurisdiction with respect to all matters concerning financing, design, development, construction, and operation of the Transbay Transit Center. In order to address a temporary cash flow shortfall during the construction of the Transbay Transit Center project, the City, in partnership with the Metropolitan Transportation Commission (MTC), approved in May 2016 a short-term financing with the TJPA in an amount not to exceed \$260.0 million. The City has entered a Certificate Purchase Agreement with Wells Fargo to establish a revolving credit facility in an amount not to exceed \$160.0 million with an annualized floating rate based on the London Interbank Offered Rate (LIBOR) plus a spread of 0.56% for taxable certificates. In partnership with the MTC, the City also entered into a Certificate Purchase Agreement with the Bay Area Toll Authority (BATA) to establish a revolving credit facility in an amount not to exceed \$100.0 million with an annualized floating rate based on the LIBOR plus a spread plus 0.61%. The City would issue short term variable rate notes at times and in amounts necessary to meet construction funding needs for the project. As of June 30, 2017, the TJPA had drawn a total of \$49.0 million from the Wells Fargo financing facility, at a weighted average interest rate of 1.56%. The City has recorded a receivable, in the amount of \$49.0 million, from the TJPA along with a loan payable related to this financing activity. The shortterm notes are expected to be repaid in part from CFD special taxes and tax increment. Long-term debt will be issued to retire the notes, and such long-term debt is also expected to be repaid from such sources

San Francisco General Hospital

In July 2014, the Board of Supervisors authorized the execution and delivery of tax-exempt and/or taxable CP in an aggregate principal amount not to exceed \$41.0 million to provide financing for the costs of acquisition of furniture, fixtures, and equipment for the new hospital. As of June 30, 2017, the outstanding principal amount of CP is \$19.8 million. The weighted average interest rate for the CP was approximately 0.85%.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

San Francisco International Airport

In May 1997, the Airport adopted Resolution No. 97-0146, as amended and supplemented (the "Note Resolution"), authorizing the issuance of subordinate CP notes in an aggregate principal amount not to exceed the lesser of \$400.0 million or the stated amount of the letter(s) of credit securing the CP. In November 2016, the Airport adopted Resolution No. 16-0275 which amended the 1997 Note Resolution to increase the authorized maximum amount by \$100.0 million, from \$400.0 million to \$500.00 million.

The Airport issues CP in series that are divided into subseries according to the bank providing the applicable direct-pay LOC. In addition to the applicable LOC, the CP notes are further secured by a pledge of the Net Revenues of the Airport, subject to the prior payment of the Airports' Second Series Revenue Bonds (the Senior Bonds) outstanding from time to time under Resolution No. 91-0210, adopted by the Airport on December 3, 1991, as amended and supplemented (the 1991 Master Bond Resolution).

Net Revenues are generally defined in the Note Resolution as all revenues earned by the Airport from or with respect to its construction, possession, management, supervision, maintenance, extension, operation, use and control of the Airport (not including certain amounts specified in the Note Resolution). less Operation and Maintenance Expenses (as defined in the Note Resolution).

The CP notes are special, limited obligations of the Airport, and the payment of the principal of and interest on the CP notes is secured by a pledge of, lien on and security interest in the Net Revenues and amounts in the funds and accounts as provided in the Note Resolution, subject to the prior payment of principal of and interest on the Senior Bonds. The CP notes are secured on parity with any other bonds or other obligations from time to time outstanding under the Note Resolution.

During fiscal year 2017, the CP program was supported by two \$100.0 million principal amount direct-pay LOC issued by State Street Bank and Trust Company and Wells Fargo Bank, National Association, which, as of June 30, 2017, had expiration dates of May 2, 2019, and May 31 2019, respectively, and a third LOC issued by Royal Bank of Canada in the principal amount of \$200.0 million with expiration date of May 1, 2020; and a new LOC issued on June 22, 2017, by Sumitomo Mitsui Banking Corporation acting through its New York Branch, in the principal amount of \$100.0 million and with an expiration date of June 21, 2022. Each of the LOC supports separate subseries of CP and permits the Airport to issue CP up to a combined maximum principal amount of \$500.0 million as of June 30, 2017.

As of June 30, 2017, there were no obligations other than the CP notes outstanding under the Note Resolution.

During fiscal year 2017, the Airport issued \$67.0 million of new money CP (AMT) and \$111.0 million (Non-AMT) to fund capital improvement projects. The Airport also issued and retired \$1.0 million of new money CP (taxable) during fiscal year 2017 to fund costs related to various bond and note transactions. As of June 30, 2017, the interest rates on taxable, AMT, and Non-AMT CP were 0.90%, 0.36% to 1.01%, and 0.46% to 0.99%, respectively.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

San Francisco Water Enterprise

The San Francisco Public Utilities Commission and the Board of Supervisors have authorized the issuance of up to \$500.0 million in CP pursuant to the voter-approved 2002 Proposition E. Prior to June 2014, the \$500.0 million CP authorization was comprised of \$250.0 million pursuant to voter-approved 2002 Proposition A, and \$250.0 million pursuant to voter-approved Proposition E. As of June 30, 2017, no CP was outstanding under Proposition A. Amounts outstanding under Proposition E were \$145.0 million at June 30, 2017. CP interest rates ranged from 0.1% to 1.3%. With maturities up to 270 days, the Water Enterprise intends to maintain the program by remarketing the CP upon maturity over the near-to-medium term, at which time outstanding CP will likely be refunded with revenue bonds. This is being done to take advantage of the continued low interest rate environment. If the CP interest rates rise to a level that exceeds these benefits, the Water Enterprise will refinance the CP with long-term, fixed rate debt.

Hetch Hetchy Water and Power

Effective December 2015, under Charter Sections 9.107(6) and 9.107(8), the San Francisco Public Utilities Commission and Board of Supervisors authorized the issuance of up to \$90.0 million in CP for the reconstruction or replacement of existing generation, transmission and distribution facilities of the Hetchy Power. Interest rates for the CP ranged from 0.72% to 0.93% in fiscal year 2017. The Hetch Hetchy Water and Power had \$20.1 million CP outstanding as of June 30, 2017.

San Francisco Wastewater Enterprise

Under the voter-approved 2002 Proposition E, in fiscal year 2017, the San Francisco Public Utilities Commission and Board of Supervisors authorized an increase in the CP authorization from \$500.0 million to \$750.0 million for reconstructing, expanding and repairing the Wastewater Enterprise's facilities. The Wastewater Enterprise had \$111.4 million CP outstanding as June 30, 2017.

San Francisco Municipal Transportation Agency

In June 2013, pursuant to the City Charter Section 8A.102 (b) 13, the SFMTA Board of Directors authorized the issuance of CP in an aggregate principal amount not to exceed \$100.0 million. In July 2013, the Board of Supervisors concurred with the issuance. The CP is secured by an irrevocable LOC from the State Street Bank and Trust Company issued on September 10, 2013 for a term of five years and interest rate not to exceed 12% per annum. The LOC will cover the principal as well as the interest accrued on the 270 days prior to the maturity date. The CP program is jointly administered by the Office of Public Finance (OPF) and SFMTA. OPF will be initiating the issuance of CP with the dealers and reporting on the CP program. The CP will be issued from time to time on a revolving basis to pay for Board-approved project costs in the Capital Improvement Program and other related uses. SFMTA will be requesting drawdowns based on cash flow needs and expenditures schedules. No CP had been drawn or outstanding as of June 30, 2017.

Debt Compliance

The City believes it is in compliance with all significant limitations and restrictions contained in the various bond indentures.

Legal Debt Limit and Legal Debt Margin

As of June 30, 2017, the City's debt limit (3% of valuation subject to taxation) was \$6.37 billion. The total amount of debt applicable to the debt limit was \$2.28 billion. The resulting legal debt margin was \$4.09 billion.

<u>Arbitrage</u>

Under U.S. Treasury Department regulations, all governmental tax-exempt debt issued after August 31, 1986 is subject to arbitrage rebate requirements. The requirements stipulate, in general, that the actual earnings from the investment of tax-exempt bond proceeds, which exceed related interest earnings if such investments were invested at a rate equal to the yield of the bonds, must be remitted to the Federal government on every fifth anniversary of each bond issuance. The City has evaluated each general obligation bonds and certificates of participation issued and the Finance Corporation has evaluated each lease revenue bonds. The City and the Finance Corporation do not have a rebatable arbitrage liability as of June 30, 2017. Each enterprise fund has performed similar analysis of its debt, subject to arbitrage rebate requirements. Any material arbitrage liability related to the debt of the enterprise funds has been recorded as a liability in the respective fund.

Mortgage Revenue Bonds

The City, through the Mayor's Office of Housing and Community Development and the former San Francisco Redevelopment Agency has issued various mortgage revenue bonds and community district facility bonds for the financing of multifamily rental housing and below-market rate mortgage for first time homebuyers to facilitate affordable housing and the construction and rehabilitation in the City. These obligations were issued on behalf of various property owners and developers who retain full responsibility for the payment of the debt and are secured by the related mortgage indebtedness and special assessment taxes are not considered obligations of the City. As of June 30, 2017, the total obligation outstanding was \$1.31 billion.

June 30, 2017 (Dollars in Thousands)

Governmental Activities Long-term Liabilities

General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition or improvement of real property and construction of affordable housing. General obligation bonds have been issued for both governmental and business-type activities. The net authorized and unissued governmental activities general obligation bonds for the fiscal year ended June 30, 2017, are as follows:

Governmental Activities - General Obligation Bonds

Authorized and unissued as of June 30, 2016	\$ 1,623,225
Bonds issued:	
Series 2016F Affordable Housing	. (75,130)
Series 2017A Public Health and Safety	(173,120)
Net authorized and unissued as of June 30, 2017	\$ 1,374,975

In November 2016, the City issued Affordable Housing General Obligation Bonds Series 2016F (the "Series 2016F") in the amount of \$75.1 million with interest rates ranging from 2.0% to 3.1% and maturity from June 2017 through June 2036. The proceeds of the Series 2016F will be used to finance certain affordable housing improvements, fund a middle-income rental program, provide for homeownership down payment assistance opportunities for educators and middle-income households and pay certain costs related to the issuance of the Series 2016F.

In February 2017, the City issued Public Health and Safety General Obligation Bonds Series 2017A (the "Series 2017A") in the amount of \$173.1 million to provide funds for certain public health and safety improvements and pay certain costs related to the issuance of the Series 2017A. The Series 2017A bears interest rates ranging from 2.0% to 5.0% with principal amortizing from June 2017 to June 2036.

The debt service payments are funded through ad valorem taxes on property.

Certificates of Participation

In June 2017, the City issued Certificates of Participation (Hope SF) Series 2017A for \$28.3 million to provide funds to: 1) finance or refinance a portion of the costs of the acquisition, construction, installation or improvement to, or rehabilitation of, mixed-use housing development in the City's Hunters View project (Hope SF) and related improvements and equipment; 2) fund the 2017 Reserve Account of the Reserve Fund established under the Trust Agreement for the Series 2017A; and 3) pay costs of execution and delivery of the Series 2017A. The Series 2017A bears interest rates ranging from 3.2% to 4.0% with principal amortizing from April 2018 through April 2047.

As previously discussed, in May 2017, the City sold two City office buildings located at 30 Van Ness Avenue and 1660-1680 Mission Street for a combined amount of \$122.0 million. The sales proceeds will be used: 1) together with the residual fund balance of the reserve funds of \$22.7 million and \$1.6 million were deposited in June 2017 with the escrow agent and invested in Treasury Bills. The escrow fund will be held in trust solely for the benefit of the owners of the COP Series 2001A (30 Van Ness) and Series 2007A (City Office Buildings) and the moneys and securities held in the escrow fund will be irrevocably set aside for the payment of the COP Series 2001A and Series 2007A as provided in the escrow agreement. Accordingly, the \$24.8 million and \$2.3 million outstanding balance of COP Series 2001A and Series 2007A, respectively, are now considered retired and defeased; 2) and will be used to help fund the development costs of a new office building at 1500 Mission Street. The planned building at 1500 Mission Street will be a One-Stop Permitting Center that would improve service to planning, building, and street permit applicants by collocating the Departments of Building Inspection, City Planning, and Public Works.

Notes to Basic Financial Statements (Continued)

June 30, 2017

(Dollars in Thousands)

As of June 30, 2017, the City has a total of \$551.8 million of certificates of participation payable by pledged revenues from the base rental payments payable by the City. The total debt service requirement on the certificates of participation is \$833.0 million payable through April 1, 2047. For the year ended June 30, 2017, principal and interest paid by the City totaled \$66.1 million and \$25.4 million, respectively.

Lease Revenue Bonds

The changes in governmental activities - lease revenue bonds for the year ended June 30, 2017, were as follows:

Governmental Activities - Lease Revenue Bonds

Authorized and unissued as of June 30, 2016	\$ 175,382
Increase in authorization in this fiscal year:	
Current year annual increase in Finance Corporation's equipment program.	3,386
Current year maturities in Finance Corporation's equipment program	4,495
Net authorized and unissued as of June 30, 2017	\$ 183,263

Finance Corporation

The purpose of the Finance Corporation is to provide a means to publicly finance, through lease financings, the acquisition, construction and installation of facilities, equipment and other tangible real and personal property for the City's general governmental purposes.

The Finance Corporation uses lease revenue bonds to finance the purchase or construction of property and equipment, which are in turn leased to the City under the terms of an Indenture and Equipment Lease Agreement. These assets are then recorded in the basic financial statements of the City. Since the sole purpose of the bond proceeds is to provide lease financing to the City, any amount that is not applied towards the acquisition or construction of real and personal property such as unapplied acquisition fund, bond issue costs, fund withheld pursuant to reserve fund requirement, and amount designated for capitalized interest is recorded as unearned revenues in the internal service fund until such time it is used for its intended purpose. The unearned amounts are eliminated in the governmental activities statement of net position.

The lease revenue bonds are payable by pledged revenues from the base rental payments payable by the City, pursuant to a Master Lease Agreement between the City and the San Francisco Finance Corporation for the use of equipment and facilities acquired, constructed and improved by the Finance Corporation. The total debt service requirement remaining on the lease revenue bonds is \$221.4 million payable through June 2034. For the year ended June 30, 2017, principal and interest paid by the Corporation in the form of lease payments made by the City totaled \$14.0 million and \$4.8 million, respectively

Equipment Lease Program - In the June 5, 1990 election, the voters of the City approved Proposition C, which amended the City Charter to allow the City to lease-purchase up to \$20.0 million of equipment through a non-profit corporation using tax-exempt obligations. Beginning July 1, 1991, the Finance Corporation was authorized to issue lease revenue bonds up to \$20.0 million in aggregate principal amount outstanding plus 5% annual adjustment each July 1. As of June 30, 2017, the amount authorized and outstanding was \$71.1 million, and \$2.0 million, respectively.

Public Safety Radio Lease Purchase Financing

In December 2016, the City, as the lessee, entered into a lease purchase financing agreement in the amount of \$34.2 million with Banc of America Public Capital Corp through the Golden State Financial Marketplace, as the lessor to finance the City's public safety radio replacement project. This project is for the purchase and installation of a new citywide 800 MHz Radio public safety and service network

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

with Motorola, Inc. and the maintenance and support necessary to maintain the old system during the transition and the new system once it is accepted by the City. The principal obligation bears interest rate of 1.6991% to be amortized semi-annually from June 2017 to December 2026.

San Francisco County Transportation Authority Revolving Credit Agreement

In June 2015, the Transportation Authority substituted its \$200.0 million commercial paper notes (Limited Tax Bonds), Series A and B with a \$140.0 million tax-exempt revolving credit agreement (Revolving Credit Agreement). The commercial paper notes provided a source of financing for the Transportation Authority's voter-approved Proposition K Expenditure Plan. The Revolving Credit Agreement expires on June 8, 2018, and has a rate of interest equal to the sum of 70% of 1-month LIBOR plus 0.30%. The interest payments are due the first business day of each month and the outstanding principal payment is required to be paid at the end of the agreement June 8, 2018. The Revolving Credit Agreement is secured by a first lien gross pledge of the Transportation Authority's sales tax. The Transportation Authority paid \$21.0 million of the outstanding balance in December 2016 and borrowed an additional \$46.0 million in April 2017. As of June 30, 2017, \$139.7 million of the Revolving Credit Agreement balance was outstanding, with an interest rate of 1.036%.

Business-Type Activities Long-Term Liabilities

The following provides a brief description of the current year additions to the long-term debt of the business-type activities.

San Francisco International Airport

Second Series Revenue Bonds (Capital Plan Bonds)

Pursuant to resolutions approved in fiscal years 2008, 2012, 2014, 2016 and 2017, the Airport has authorized the issuance of up to \$7.80 billion of San Francisco International Airport Second Series Revenue Bonds (Capital Plan Bonds) to finance and refinance the construction, acquisition, equipping, and development of capital projects undertaken by the Airport, including retiring all or a portion of the Airport's outstanding subordinate commercial paper notes (CP) issued for capital projects, funding debt service reserves, and for paying costs of issuance. As of June 30, 2017, \$5.50 billion of the authorized capital plan bonds remained unissued.

On-Airport Hotel Second Series Revenue Bonds and Related Special Facility Bonds

Pursuant to resolutions adopted in fiscal years 2016 and 2017, the Airport has authorized the issuance of \$278.0 million of Capital Plan Bonds and \$260.0 million of San Francisco International Airport Hotel Special Facility Revenue Bonds to finance the development and construction of a new Airport-owned hotel and related AirTrain station. The Airport also designated the planned hotel as a "special facility" under the 1991 Master Resolution, which will allow the hotel revenues to be segregated from the Airport's other revenues and used to pay hotel operating expenses and debt service on the Hotel Special Facility Bonds. To obtain the lowest cost of financing, the Airport does not plan to sell the Hotel Special Facility Bonds to investors, but will purchase them itself with a portion of the proceeds of the Capital Plan Bonds, which will be sold to investors. The total net proceeds of the two bond issuances are expected to be approximately \$278.0 million, which will be applied to the \$255.0 million construction costs of the hotel and AirTrain station, capitalized interest on the Hotel Special Facility Bonds and other costs of issuance. In fiscal years 2016 and 2017, the City's Board of Supervisors authorized the issuance of such Hotel Special Facility Bonds and Capital Plan Bonds for the hotel and AirTrain station. Airport approval of the bond sale is required before such bonds can be issued.

June 30, 2017 (Dollars in Thousands)

Second Series Revenue Bonds, Series 2016B/C

In September 2016, the Airport issued its long-term, fixed rate Capital Plan Bonds Series 2016B and 2016C in the aggregate principal amount of \$740.1 million to finance and refinance (through the repayment of CP notes) the following projects, among others: (a) redevelopment of Terminal 1 including the construction of an interim Boarding Area B and the design and construction of a new 24-gate Boarding Area B facility, (b) relocation of a firehouse and vehicle security checkpoint to accommodate the expansion of Boarding Area B and the related realignment of Taxiways H and M, (c) relocation of ground transportation facilities to accommodate the expansion of Boarding Area B, (d) construction of new administration campus to consolidate some Airport administrative departments, (e) upgrades to operating systems-related components for the AirTrain extension, (f) gate enhancements to accommodate larger aircraft and address demand-driven gate needs, and (g) various technology improvements to upgrade network services.

Second Series Revenue Refunding Bonds

Pursuant to resolutions adopted between fiscal years 2005 through 2016, the Airport has authorized the issuance of up to \$8.40 billion of San Francisco International Airport Second Series Revenue Refunding Bonds for the purposes of refunding outstanding 1991 Master Bond Resolution Bonds and outstanding subordinate CP notes, funding debt service reserves, and paying costs of issuance, including any related bond redemption premiums.

As of June 30, 2017, \$1.00 billion of such refunding bonds remained authorized but unissued.

During the fiscal year 2017, the Airport issued the following new refunding bonds under the 1991 Master Bond Resolution:

Second Series Revenue Refunding Bonds, Series 2016D

In September 2016, the Airport issued its Second Series Revenue Refunding Bonds, Series 2016D in the principal amount of \$147.8 million to advance refund and legally defease long-term fixed rate Series 2010C, 2011D and 2011G bonds. The Series 2016D bonds bear interest at a fixed rate of 5.0% and final maturity of May 1, 2031. The net proceeds of \$188.1 million were used to pay \$0.3 million underwriter's discount and \$0.2 million in costs of issuance and deposit \$187.6 million into irrevocable escrow funds with the Senior Trustee to defease and refund \$158.0 million in revenue bonds as described below.

	Amount Refunded		Interest Rate	Redemption Price
Second Series Revenue Bond Issue	e:			
2010C (Non-AMT)	\$	42,210	4.00%-5.00%	100%
2011D (Non-AMT)		39,245	5.00%	100%
2011G (Non-AMT)		76,535	5.00%-5.25%	100%
Total	\$	157,990		

The refunded bonds were legally defeased and scheduled for redemption on May 1, 2020 (Series 2010C) and May 3, 2021 (Series 2011D and Series 2011G). Accordingly, the liability for these bonds has been removed from the accompanying statements of net position. The refunding resulted in the recognition of a deferred accounting gain of \$0.2 million for year ended June 30, 2017. The Airport reduced its aggregate debt service payments by approximately \$15.0 million over the next fourteen years and obtained an economic gain (the difference between the present values of the old debt and the new debt) of \$13.5 million.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Variable Rate Demand Bonds

As of June 30, 2017, the Airport had outstanding aggregate principal amount of \$460.8 million of Second Series Variable Rate Revenue Refunding Bonds, consisting of Issue 36A/B/C and Issue 37C. and Series 2010A (collectively, the "Variable Rate Bonds"), with final maturity dates of May 1, 2026 (Issue 36A/B/C), May 1, 2029 (Issue 37C), and May 1, 2030 (Series 2010A), The Variable Rate Bonds are long-term, tax-exempt bonds that currently bear interest at a rate that is adjusted weekly, and that are subject to tender at par at the option of the holder thereof on seven days' notice. Any tendered Variable Rate Bonds are remarketed by the applicable remarketing agent in the secondary market to other investors. The interest rate on the Variable Rate Bonds can be converted to other interest rate modes, including a term rate or fixed rates to maturity, upon appropriate notice by the Airport. The scheduled payment of the principal of and interest on, and payment of purchase price of the Variable Rate Bonds is secured by separate irrevocable LOC issued to the Senior Trustee for the benefit of the applicable bondholders by the banks identified in the table below. Amounts drawn under a LOC that are not reimbursed by the Airport constitute "Repayment Obligations" under the 1991 Master Bond Resolution and are accorded the status of other outstanding bonds to the extent provided in the Resolution. The commitment fees for the LOC range between 0.45% and 0.63% per annum. As of June 30, 2017, there were no unreimbursed draws under these facilities.

The LOC securing the Variable Rate Bonds included in long-term debt as of June 30, 2017, are as follows:

	Issue 36A	Issue 36B	Issue 36C	Issue 37C	Series 2010A
Principal Amount	\$93,130	\$37,820	\$33,655	\$86,930	\$209,240
Expiration Date Credit Provider	June 29, 2018 Wells Fargo (1)	April 25, 2018 BTMU (2)	April 25, 2018 BTMU (2)	January 28, 2019 MUFG Union Bank ⁽³⁾	June 29, 2020 Bank of America (4)

- (1) Wells Fargo Bank, National Association
- (2) The Bank of Tokyo-Mitsubishi UFJ. Ltd.
- (3) Formerly Union Bank, N.A.
- (4) Bank of America, National Association

Interest Rate Swaps

Objective and Terms – In December 2004, the Airport entered into seven forward starting interest rate swaps (the 2004 swaps) with an aggregate notional amount of \$405.0 million, in connection with the anticipated issuance of Second Series Variable Rate Revenue Refunding Bonds, Issue 32A-E in February 2005, and Second Series Variable Rate Revenue Refunding Bonds, Issue 33 in February 2006. The swap structure was intended as a means to increase the Airport's debt service savings when compared with fixed rate refunding bonds at the time of issuance. The expiration date of the 2004 swaps is May 1, 2026.

In July 2007, the Airport entered into four additional forward starting interest rate swaps in connection with the anticipated issuance of its Second Series Variable Rate Revenue Refunding Bonds, Issua 37B/C, in May 2008 (the 2007 swaps), and Second Series Variable Rate Revenue Refunding Bonds, Series 2010A, in February 2010 (the 2010 swaps). The expiration dates of the 2007 and 2010 swaps are May 1, 2029 and 2030, respectively. In the spring of 2008, the Airport refunded several issues of auction rate and variable rate bonds, including Issua 32 and Issua 33. The 2004 swaps associated with these issues then became associated with the Second Series Variable Rate Revenue Refunding Bonds, Issues 36A-D, and Issua 37A. Subsequently, in October 2008 and December 2008, the Airport refunded Issua 37A and Issua 37B, respectively. Concurrently with the refunding of Issua 37A, the three associated swaps with an aggregate notional amount of \$205.1 million were terminated. The swap associated with Issua 37B was not terminated upon the refunding of Issua 37B.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

In December 2010, the Airport terminated a swap with Depfa Bank plc associated with the Series 2010A-3 Bonds, with a notional amount of \$72.0 million. Following the termination of the Depfa swap, the Series 2010A-3 Bonds, which are variable rate, were no longer hedged with an interest rate swap. However, the swap associated with the Issue 37B Bonds is now indirectly hedging the Series 2010A-3 Bonds for accounting purposes. As a practical matter, the swap associated with the Issue 37B Bonds also serves as an indirect hedge on the unhedged portions of the Issue 36B and Issue 36C Bonds when viewed alongside the Airport's other swaps, and only to the extent that the swap's notional amount exceeds the outstanding amount of the Series 2010A-3 Bonds.

In September 2011, the Airport refunded the Issue 36D Bonds with proceeds of the San Francisco International Airport Second Series Revenue Refunding Bonds, Series 2011H and terminated the swap with JP Morgan Chase Bank, N.A. associated with Issue 36D, which had an initial notional amount of \$30.0 million. The Airport paid a termination fee of \$4.6 million to the counterparty. Under the 2004 swaps, the Airport receives a monthly variable rate payment from each counterparty equal to 63.50% of USD-LIBOR-BBA plus 0.29%. Under the 2007 and 2010 swaps, the Airport receives 61.85% of USD-LIBOR-BBA plus 0.34%. These payments are intended to approximate the variable interest rates on the bonds originally hedged by the swaps. The Airport makes a monthly fixed rate payment to the counterparties as set forth below which commenced on the date of issuance of the related bonds. The objective of the swaps is to achieve a synthetic fixed rate with respect to the hedged bonds. All of the outstanding interest rate swaps are terminable at any time upon making a market-based termination payment solely at the option of the Airport.

As of June 30, 2017, the Airport's derivative instruments comprised six interest rate swaps that the Airport entered into to hedge the interest payments on several series of its variable rate Second Series Revenue Bonds. The Airport determined the hedging relationship between the variable rate bonds and the related interest rate swaps to be effective as of June 30, 2017.

		Initial Notional		Notic	nal Amount	
No.	Current Bonds	- 1	Amount		e 30, 2017	Effective Date
1	36AB	\$	70,000	\$	65,170	2/10/2005
2	36AB		69,930		65,135	2/10/2005
3	36C		30,000		27,930	2/10/2005
4	2010A (37B)*		79,684		77,061	5/15/2008
5	37C		89,856		86,899	5/15/2008
6	2010A**		143,947		140,230	2/1/2010
	Total	\$	483,417	\$	462,425	

^{*} The Issue 37B Bonds that are hedged by this swap agreement were purchased with proceeds of the Series 2008B Notes, which the Airport subsequently refunded, and the Issue 37B Bonds are held in trust. The swap is now indirectly hedging the Series 2010A-3 Bonds for accounting purposes.

Fair Value

The fair values take into consideration the prevailing interest rate environment and the specific terms and conditions of each swap. All values were estimated using the zero-coupon discounting method. This method calculates the future payments required by the swap, assuming that the current forward rates implied by the yield curve are the market's best estimate of future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for a hypothetical zero-coupon rate bond due on the date of each future net settlement payment on the swaps to arrive at the so-called "settlement amount", i.e., the approximate amount a party would have to pay or would receive if the swap was terminated.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

In addition, pursuant to GASB 72, the settlement amounts are then adjusted for the non-performance risk of each party to the swap to arrive at the fair value. For each swap, the non-performance risk was computed as the total cost of the transactions required to hedge the default exposure, i.e., a series of European swaptions, exercisable on each of the future payment exchange dates under the swap that are structured to reverse the remaining future cash flow obligations as of such dates, adjusted by probability of default on each future date. Default probabilities were derived from recovery rate adjusted credit default swap quotes or generic ratings based borrowing curves that fall into Level 2 of the GASB 72 fair value hierarchy.

As of June 30, 2017, the fair value of the Airport's six outstanding swaps, counterparty credit ratings, and fixed rate payable by the Airport are as follows:

No.	Current bonds	Counterparty/guarantor*	Counterparty credit ratings (S&P/Moody's/Fitch)	Fixed rate payable by Airport	value to
1	36AB	J.P. Morgan Chase Bank, N.A.	A+/Aa3/AA-	3.444%	\$ (5,510)
2	36AB	J.P. Morgan Chase Bank, N.A.	A+/Aa3/AA-	3.445%	(5,513)
3	36C	J.P. Morgan Chase Bank, N.A.	A+/Aa3/AA-	3.444%	(2,363)
4	2010A (37B)**	Merrill Lynch Capital Services, Inc./ Merrill Lynch Derivative Products AG	AA/Aa3/NR*	3.773%	(12,652)
5	37C	J.P. Morgan Chase Bank, N.A.	A+/Aa3/AA-	3.898%	(14,581)
6	2010A***	Goldman Sachs Bank USA/	,,		(= ,,===,
		Goldman Sachs Group, Inc.	A+/A3/A*	3.925%	(25,346)
		Total			\$ (65,965)

^{*} Reflects ratings of the guarantor.

Fair Value Hierarchy

		value measurements using		
	F	air Value	signif	icant other observable inputs
	Ju	ne 30,2017		(Level 2)
Interest rate swaps	\$	(65,965)	\$	(65,965)

Change in Fair Value

The impact of the interest rate swaps on the financial statements for the year ended June 30, 2017 is as follows:

	Deferred outflows					
	on derivative		Derivative			
	Instruments			instruments		
Balance as of June 30, 2016	\$	83,614	\$	96,132		
Change in fair value to year-end		(28,744)		(30, 167)		
Balance as of June 30, 2017	\$	54,870	\$	65,965		

The fair value of the interest rate swap portfolio is recorded as a liability (since the Airport would owe a termination payment to the counterparty) in the statement of net position. Unless a swap was determined to be an off-market swap at the inception of its hedging relationship, the fair value of the swap is recorded as a deferred outflow of resources (if a termination payment would be due to the counterparty) or inflow of resources (if a termination payment would be due to the Airport). The off-market portions of the Airport's swaps are recorded as carrying costs with respect to various refunded bond issues. Unlike fair value and deferred inflow/outflow values, the balance of remaining off-market portions are valued on a present value, or fixed yield, to maturity basis. The difference between the deferred outflows and derivative instruments presented in the table above constitutes the unamortized off-market portions of the swaps as of June 30, 2017.

^{**} Hedges Series 2010A-1 and 2010A-2.

^{**} The issue 37B Bonds that are hedged by this swap agreement were purchased with proceeds of the Series 2008B Notes, which the Airport subsequently refunded, and the Issue 37B Bonds are held in trust. The swap is now indirectly hedging the Series 2010A-3 Bonds for accounting purposes.

^{***} Hedges Series 2010A-1 and 2010A-2.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Risks

Basis Risk – The Airport has chosen a variable rate index based on a percentage of London Interbank Offered Rate (LIBOR) plus a spread, which historically has closely approximated the variable rates payable on the related bonds. However, the Airport is subject to the risk that a change in the relationship between the LIBOR-based swap rate and the variable bond rates would cause a material mismatch between the two rates. Changes that cause the payments received from the counterparty to be insufficient to make the payments due on the associated bonds result in an increase in the synthetic interest rate on the bonds, while changes that cause the counterparty payments to exceed the payments due on the associated bonds result in a decrease in the synthetic interest rate on the bonds. During the year ended June 30, 2017, the Airport paid a total of \$0.6 million less in interest on its variable rate bonds than the floating-rate payments it received from the swap counterparties, resulting in a decrease in the effective synthetic interest rates on the associated bonds.

Credit Risk — As of June 30, 2017, the Airport is not exposed to credit risk because the swaps have a negative fair value to the Airport. Should long-term interest rates rise and the fair value of the swaps become positive, the Airport would be exposed to credit risk in the amount of the swaps' fair value. Under the terms of the swaps, counterparties are required to post collateral consisting of specified U.S. Treasury and Agency securities in an amount equal to the market value of a swap that exceeds specified thresholds linked to the counterparty's credit ratings. Any such collateral will be held by a custodial bank

Counterparty Risk - The Airport is exposed to counterparty risk, which is related to credit and termination risk. While the insolvency or bankruptcy of a counterparty, or its failure to perform would be a default under the applicable swap documents, none of the Airport's swaps would automatically terminate. Rather, the Airport would have the option to terminate the affected swap at a market-based termination value, which may result in a payment to or from the counterparty. The Airport may also be exposed to counterparty risk in a high interest rate environment in the event a counterparty is unable to perform its obligations on a swap transaction leaving the Airport exposed to the variable rates on the associated debt. To diversify the Airport's swap counterparty credit risk and to limit the Airport's credit exposure to any one counterparty, the Airport's swap policy imposes limits on the maximum net termination exposure to any one counterparty. Maximum net termination exposure is calculated as of the date of execution of each swap and is monitored regularly during the term of the swap. The exposure limits vary for collateralized and non-collateralized swaps based upon the credit rating of the counterparty. If any exposure limit is exceeded by a counterparty during the term of a swap, the Airport Director is required to consult with the Airport's swap advisor and bond counsel regarding appropriate actions to take, if any, to mitigate such increased exposure, including, without limitation, transfer or substitution of a swap. As of June 30, 2017, the fair value of the Airport's swaps was negative to the Airport (representing an amount payable by the Airport to each counterparty in the event the relevant swap was terminated).

Termination Risk – All the interest rate swaps are terminable at their termination price at any time at the option of the Airport. The Airport has limited termination risk with respect to the interest rate swaps. That risk would arise primarily from certain credit-related events or events of default on the part of the Airport, the municipal swap insurer, or the counterparty. The Airport has secured municipal swap insurance for all its regular payments and some termination payments due under all its interest rate swaps, except the swaps associated with the Series 2010A Bonds, from the following insurers:

No.	Swap	Swap Insurer	2017 (S&P/Moody's/Fitch)
1	Issue 36AB	FGIC/National Public Finance Guarantee Corporation	A/A3/NR
2	Issue 36AB	FGIC/National Public Finance Guarantee Corporation	A/A3/NR
3	Issue 36C	Assured Guaranty Municipal Corp.	AA/A2/NR
4	Series 2010A (37B)	Assured Guaranty Municipal Corp.	AA/A2/NR
5	Issue 37C	Assured Guaranty Municipal Corp.	AA/A2/NR
6	Series 2010A	None	N/A

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

If the Airport is rated between Baa1/BBB+ and Baa3/BBB- (Moody's/S&P), and the applicable bond insurer is rated below A3/A- (Moody's/S&P), the counterparties may terminate the swaps and require the Airport to pay the termination value, if any, unless the Airport chooses to provide suitable replacement credit enhancement, assign the Airport's interest in the swaps to a suitable replacement counterparty, or post collateral to secure the swap termination value. If the Airport is rated below Baa3/BBB- (Moody's/S&P) or its ratings are withdrawn or suspended, and the applicable bond insurer is rated below A3/A- (Moody's/S&P), the counterparties may terminate the swaps and require the Airport to pay the termination value, if any. With respect to the Series 2010A swaps with no swap insurance, the counterparty termination provisions and the Airport rating thresholds are the same as described above.

Additional Termination Events under the swap documents with respect to the Airport include an insurer payment default under the applicable swap insurance policy, and certain insurer rating downgrades or specified insurer nonpayment defaults combined with a termination event or event of default on the part of the Airport or a ratings downgrade of the Airport below investment grade. Additional Termination Events under the swap documents with respect to a counterparty or its guarantor include a rating downgrade below a specific rating threshold, followed by a failure of the counterparty to assign its rights and obligations under the swap documents to another entity acceptable to the applicable insurer within 15 business days.

In December 2016, S&P upgraded the credit rating of Goldman Sachs Bank USA, the swap counter party on the Series 2010A Swap, from "A" to "A+" and upgraded the credit rating of Merrill Lynch Derivative Products AG, the guarantor on Issue 37B (2010A) Swap, from "AA-" to "AA".

The downgrade of any swap counterparty is an indicative of an increased risk to the Airport that such counterparty may become bankrupt or insolvent and not perform under the applicable swap. If a counterparty does not perform under its swap, the Airport may be required to continue making its fixed rate payments to the counterparty even though it does not receive a variable rate payment in return. The Airport may elect to terminate a swap with a non-performing counterparty and may be required to pay a substantial termination payment related to the fair value of such swap, depending on market conditions at the time. As of June 30, 2017, the fair value of each swap was negative to the Airport as shown above.

Water Enterprise

Water Revenue Refunding Bonds 2016 Series AB

In October 2016, the Water Enterprise issued tax-exempt revenue bonds, 2016 Series AB in the aggregate amount of \$893.8 million. The 2016 Series A bonds were issued for the purpose of refunding a portion of the outstanding 2009 Series A bonds maturing on and after November 1, 2020, a portion of the outstanding 2009 Series B bonds maturing on and after November 1, 2021. The 2016 Series B bonds were issued to refund, on a current basis, all the outstanding 2016 Series B and Series C bonds, and a portion of the outstanding 2010 Series A bonds maturing on and after November 1, 2021. The 2016 Series C bonds, and a portion of the outstanding 2010 Series A bonds maturing on and after November 1, 2020. The bonds carried "Aa3" and "AA-" ratings from Moody's and S&P, respectively. The 2016 Series AB bonds include serial bonds with interest rates ranging from 1.50% to 5.00% and have a final maturity in 2039. The Series AB bonds have a true interest cost of 2.85%. Unamortized bond issuance costs at the date of refunding were \$145 for 2006 Series B bonds and \$54 for 2006 Series C bonds. The refunding resulted in the recognition of a deferred accounting loss of \$106.2 million, gross debt service savings of \$136.0 million, and an economic gain of \$107.2 million or 11.52% of refunded principal. As of June 30, 2017, the principal amount of 2016 Series AB bonds outstanding was \$882.4 million.

Water Revenue Bonds 2016 Series C

In December 2016, the Water Enterprise issued taxable bonds, 2016 Series C in the amount of \$259.4 million. The bonds were issued as Green Bonds. The purpose of the bonds was to refund all the

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

outstanding taxable commercial paper notes in the approximate amount of \$237.0 million, and to provide \$20.0 million of new money for WSIP capital projects. The bonds carried "Aa3" and "AA-" ratings from Moody's and S&P, respectively. The 2016 Series C bonds include serial bonds with interest rates ranging from 0.87% to 3.95% and have a final maturity in 2046, and two term bonds with 4.035% and 4.185% interest rates and final maturities of 2041 and 2046. The Series C bonds have a true interest cost of 3.97%. As of June 30, 2017, the principal amount of 2016 Series C bonds outstanding was

San Francisco Municipal Transportation Agency

In June 2017, the SFMTA issued Revenue Bonds, Series 2017 in the total amount of \$177.8 million to provide funds for the various transit and parking capital projects for the SFMTA. The Series 2017 bonds bear interest at fixed rates between 3.0% to 5.0% and have a final maturity on March 1, 2047.

(9) EMPLOYEE BENEFIT PROGRAMS

(a) Retirement Plans

General Information About the Pension Plans – The San Francisco City and County Employees' Retirement System (Retirement System) administers a cost-sharing multiple-employer defined benefit pension plan (SFERS Plan), which covers substantially all of the employees of the City and County of San Francisco, and certain classified and certificated employees of the San Francisco Community College and Unified School Districts, and San Francisco Trial Court employees other than judges. The San Francisco City and County Charter and the Administrative Code are the authority which establishes and amends the benefit provisions and employer obligations of the SFERS Plan. The Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the SFERS Plan. That report may be obtained by writing to the San Francisco City and County Employees' Retirement System, 1145 Market Street, 5th Floor, San Francisco, CA 94103 or by calling (415) 487-7000. Also see SFERS website at http://mysfers.org.

Replacement Benefits Plan – The Replacement Benefit Plan (RBP) is a qualified excess benefit plan established in October 1989. Internal Revenue Code Section 415(m) provides for excess benefit arrangements that legally permit benefit payments above the Section 415 limits, provided that the payments are not paid from the SFERS Trust. The RBP allows the City to pay SFERS retirees any portion of the Charter-mandated retirement allowance that exceeds the annual Section 415 (b) limit. The RBP plan does not meet the criteria of a qualified trust under GASB Statement No. 73 because RBP assets are subject to the claims of the employer's general creditors under federal and state law in the event of insolvency.

In addition, some City employees are eligible to participate in the Public Employees' Retirement Fund (PERF) of the California Public Employees' Retirement System (CalPERS) Safety Plan, an agent multi-employer pension plan, or the CalPERS Miscellaneous Plan, a cost-sharing multiple-employer pension plan. Some employees of the Transportation Authority, a blended component unit, and the Successor Agency, a fiduciary component unit, are eligible to participate in a CalPERS Miscellaneous Plan or a CalPERS Public Employees' Pension Reform Act (PEPRA) Miscellaneous Plan, both are cost-sharing multiple-employer pension plans. In addition, some employees of the Treasure Island Development Authority, a discretely presented component unit, are eligible to participate in the CalPERS Miscellaneous cost-sharing multiple-employer pension plan.

CalPERS acts as a common investment and administrative agent for various local and state governmental agencies within the State of California. Benefit provisions and other requirements are established by State statute, employer contract with CalPERS and by City resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website at www.calpers.ca.gov.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Benefits

<u>SFERS</u> – The SFERS Plan provides service retirement, disability, and death benefits based on specified percentages of defined final average monthly salary and provides annual cost-of-living adjustments (COLA) after retirement. The SFERS Plan also provides pension continuation benefits to qualified survivors. The Retirement System pays benefits according to the category of employment and the type of benefit coverage provided by the City. The four main categories of SFERS Plan members are:

- Miscellaneous Non-Safety Members staff, operational, supervisory, and all other eligible employees who are not in special membership categories.
- Sheriff's Department and Miscellaneous Safety Members sheriffs assuming office on and after January 7, 2012, and undersheriffs, deputized personnel of the Sheriff's Department, and miscellaneous safety employees hired on and after January 7, 2012.
- Firefighter Members firefighters and other employees whose principal duties are in fire prevention and suppression work or who occupy positions designated by law as firefighter member positions.
- Police Members police officers and other employees whose principal duties are in active law enforcement or who occupy positions designated by law as police member positions.

The membership groups and the related service retirement benefits are summarized as follows:

Miscellaneous Non-Safety Members who became members prior to July 1, 2010, qualify for a service retirement benefit if they are at least 50 years old and have at least 20 years of credited service or if they are at least 60 years old and have at least 10 years of credited service. The service retirement benefit is calculated using the member's final compensation (highest one-year average monthly compensation) multiplied by the member's years of credited service times the member's age factor up to a maximum of 75% of the member's final compensation.

Miscellaneous Non-Safety Members who became members on or after July 1, 2010, and prior to January 7, 2012, qualify for a service retirement benefit if they are at least 50 years old and have at least 50 years of credited service or if they are at least 60 years old and have at least 10 years of credited service. The service retirement benefit is calculated using the member's final compensation (highest two-year average monthly compensation) multiplied by the member's years of credited service times the member's ace factor up to a maximum of 75% of the member's final compensation.

Miscellaneous Non-Safety Members who became members on or after January 7, 2012, qualify for a service retirement benefit if they are at least 53 years old and have at least 20 years of credited service or if they are at least 60 years old and have at least 10 years of credited service. The service retirement benefit is calculated using the member's final compensation (highest three-year average monthly compensation) multiplied by the member's years of credited service times the member's age factor up to a maximum of 75% of the member's final compensation.

Sheriff's Department Members and Miscellaneous Safety Members who were hired on or after January 7, 2012, qualify for a service retirement benefit if they are at least 50 years old and have at least 5 years of credited service. The service retirement benefit is calculated using the member's final compensation (highest three-year average monthly compensation) multiplied by the member's years of credited service times the member's age factor up to a maximum of 90% of the member's final compensation.

Firefighter Members and Police Members who became members before November 2, 1976, qualify for a service retirement benefit if they are at least 50 years old and have at least 25 years of credited service. The service retirement benefit is calculated using the member's final compensation (monthly salary earnable at the rank or position the member held for at least one year immediately prior to retiring) multiplied by the member's years of credited service times the member's age factor up to a maximum of 90% of the member's final compensation.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Firefighter Members and Police Members who became members on or after November 2, 1976, and prior to July 1, 2010, qualify for a service retirement benefit if they are at least 50 years old and have at least 5 years of credited service. The service retirement benefit is calculated using the member's inal compensation (highest one-year average monthly compensation) multiplied by the member's years of credited service times the member's age factor up to a maximum of 90% of the member's final compensation.

Firefighter Members and Police Members who became members on or after July 1, 2010, and prior to January 7, 2012, qualify for a service retirement benefit if they are at least 50 years old and have at least 5 years of credited service. The service retirement benefit is calculated using the member's final compensation (highest two-year average monthly compensation) multiplied by the member's years of credited service times the member's age factor up to a maximum of 90% of the member's final compensation.

Firefighter Members and Police Members who became members on or after January 7, 2012, qualify for a service retirement benefit if they are at least 50 years old and have at least 5 years of credited service. The service retirement benefit is calculated using the member's final compensation (highest three-year average monthly compensation) multiplied by the member's years of credited service times the member's age factor up to a maximum of 90% of the member's final compensation.

All members are eligible to apply for a disability retirement benefit, regardless of age, when they have 10 or more years of credited service and they sustain an injury or illness that prevents them from performing their duties. Safety members are eligible to apply for an industrial disability retirement benefit from their first day on the job if their disability is caused by an illness or injury that they receive while performing their duties.

All retired members receive a benefit adjustment each July 1, which is the Basic COLA. The majority of adjustments are determined by changes in CPI with increases capped at 2.0%. The SFERS Plan provides for a Supplemental COLA in years when there are sufficient "excess" investment earnings in the Plan. The maximum benefit adjustment each July 1 is 3.5% including the Basic COLA. Effective July 1, 2012, voters approved changes in the criteria for payment of the Supplemental COLA benefit. so that Supplemental COLAs would only be paid when the Plan is also fully funded on a market value of assets basis. Certain provisions of this voter-approved proposition were challenged in the Courts. A decision by the California Courts modified the interpretation of the proposition. Effective July 1, 2012, members who retired before November 6, 1996, will receive a Supplemental COLA only when the Plan is also fully funded on a market value of assets basis. However, the "full funding" requirement does not apply to members who retired on or after November 6, 1996, and were hired before January 7, 2012. For all members hired before January 7, 2012, all Supplemental COLAs paid to them in retirement benefits will continue into the future even where an additional Supplemental COLA is not payable in any given year. For members hired on and after January 7, 2012, a Supplemental COLA will only be paid to retirees when the Plan is fully funded on a market value of asset basis and in addition for these members, Supplemental COLAs will not be permanent adjustments to retirement benefits. That is, in years when a Supplemental COLA is not paid, all previously paid Supplemental COLAs will expire.

<u>CalPERS</u> – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on a final compensation which is the highest average pay rate and special compensation during any consecutive one-year or three-year period. The cost of living adjustments for the CalPERS plans are applied as specified by the Public Employees' Retirement Law. The California PEPRA, which took effect in January 2013, changes the way CalPERS retirement and health benefits are applied, and places compensation limits on members. As such, members who established CalPERS membership on or after January 1, 2013, are known as "PEPRA" members.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

The CalPERS' provisions and benefits in effect at June 30, 2017, are summarized as follows:

	City Miscella	aneous Plan	City Sat	ety Plan	
	Prior to	On or after	Prior to	On or after	
Hire date	January 1, 2013	January 1, 2013*	January 1, 2013	January 1, 2013

	Miscellan	eous Plan	Miscellaneous Plan		
	Prior to	On or after	Prior to	On or after	
Hire date	January 1, 2013	January 1, 2013	January 1, 2013	January 1, 2013	
Benefit formula	2.0% @ 55	2% @ 62	2% @ 55	2% @ 62	
Benefit vesting schedule	5 years of service				
Benefit payments	Monthly for life	Monthly for life	Monthly for life	Monthly for life	
Required employee contribution rates	7.00%	6.25%	6.89%	6.50%	
Required employer contribution rates	8.88%	6.56%	26.52%	7.08%	

^{*} For the City Miscellaneous Plan there are no current active employees hired on or after January 1, 2013. For the Treasure Island Miscellaneous Plan there are no current active employees.

At June 30, 2017, the CalPERS' City Safety Plan had a total of 2,307 members who were covered by these benefits, which includes 991 inactive employees or beneficiaries currently receiving benefits, 313 inactive employees entitled to but not yet receiving benefits, and 1,003 active employees.

Contributions

For the years ended June 30, 2017 and 2016, the City's actuarial determined contributions were as follows:

	2017	2016
SFERS Plan	\$ 519,073	\$ 496,343
City CalPERS Miscellaneous Plan	35	33
City CalPERS Safety Plan	27,190	23,629
Transportation Authority CalPERS Classic & PEPRA Miscellaneous Plans	293	280
Successor Agency CalPERS Classic & PEPRA Miscellaneous Plans	970	828
Treasure Island Development Authority CalPERS Miscellaneous Plan	2	2
Replacement Benefits Plan	-	-
Total	\$ 547,563	\$ 521,115

<u>SFERS</u> – Contributions are made to the basic SFERS Plan by both the City and the participating employees. Employee contributions are mandatory as required by the Charter. Employee contribution rates for fiscal year 2017 varied from 7.5% to 12.0% as a percentage of gross covered salary. For the year ended June 30, 2017, most employee groups agreed through collective bargaining for employees to contribute the full amount of the employee contributions on a pretax basis. The City is required to contribute at an actuarially determined rate. Based on the July 1, 2015 actuarial report, the required employer contribution rates for fiscal year 2017 were 17.90% to 21.40%.

<u>CalPERS</u> – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the PERF is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by public employees during the year, with an additional amount to finance any unfunded accrued liability.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Replacement Benefits Plan - The RBP is and will remain unfunded and the rights of any participant and beneficiary are limited to those specified in the RBP. The RBP constitutes an unsecured promise by the City to make benefit payments in the future to the extent funded by the City. The City paid \$1.3 million replacement benefits in the year ended June 30, 2017.

Net Pension Liability

The table below shows how the net pension liability (NPL) as of June 30, 2017 is distributed.

Governmental activities	\$ 3,306,484
Business-type activities	2,501,732
Fiduciary funds	23,281
Component Unit - Treasure Island Development Authority	27
Total	\$ 5,831,524

As of June 30, 2017, the City's NPL is comprised of the following:

	Proportionate Share	Share of Net Pension Liability (Asset)	
SFERS Plan	94.2175%	\$	5,476,654
City CalPERS Miscellaneous Plan	-0.1469%		(12,711)
City CalPERS Safety Plan	N/A		263,908
Transportation Authority CalPERS Classic & PEPRA Miscellaneous Plans	0.0204%		1,765
Successor Agency CalPERS Classic & PEPRA Miscellaneous Plans	0.2691%		23,281
Treasure Island Development Authority CalPERS Miscellaneous Plan	0.0003%		27
Replacement Benefits Plan	N/A		78,600
Total		\$	5,831,524

The City's NPL for each of its cost-sharing plans is measured as a proportionate share of the plans' NPL. The City's NPL for each of its cost-sharing plans is measured as of June 30, 2016, and the total pension liability for each cost-sharing plan used to calculate the NPLs was determined by an actuarial valuation as of June 30, 2015, rolled forward to June 30, 2016, using standard update procedures. The City's proportion of the NPL for the SFERS Plan was based on the City's long-term share of contributions to SFERS relative to the projected contributions of all participating employers, actuarially determined. The City's proportions of the NPL for the CalPERS plans were actuarially determined as of the valuation date.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

The City's proportionate share and NPL of each of its cost-sharing plans as of June 30, 2016 and 2015 were as follows:

	June 30, 2016		June 30, 2015		
	(Measuren	nent Date)	(Measurement Date)		
		Share of Net	Share of Ne		
		Pension		Pension	
	Proportionate	Liability	Proportionate	Liability	Change

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

At June 30, 2017, the City reported \$547.6 million as deferred outflows of resources related to contributions subsequent to the measurement date, which will be recognized as a reduction to net pension liability in the year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense.

as follows:

Year Ending June 30	Deferred Outflows/ (Inflows) of Resources				
2018	\$	213,134			
2019		214,051			
2020		613,203			
2021		461,141			
Total	\$	1,501,529			

Actuarial Assumptions

A summary of the actuarial assumptions and methods used to calculate the total pension liability as of June 30, 2016, is provided below, including any assumptions that differ from those used in the July 1, 2015, actuarial valuation.

	SFERS Plan and Replacement Benefits Plan (RBP)		CalPERS Miscellaneous and Safety Plans
Valuation date Measurement date	June 30, 2015 updated to June 30, 2016 June 30, 2016		June 30, 2015 updated to June 30, 2016 June 30, 2016
Actuarial cost method Investment rate of return	Entry-age normal cost method 7.50%, net of pension plan investment expenses (SFERS) Not applicable for RBP		Entry-age normal cost method 7.50%, net of pension plan investment expense, including inflation
Municipal bond yield	3.85% as of June 30, 2015 2.85% as of June 30, 2016 Bond Buyer 20-Bond GO Index, July 2, 2015 and July 30, 2016		
Inflation	3.25%		2.75%
Projected salary increases	3.75% plus merit component based on employee classification and years of service		Varies by Entry Age and Service
Discount rate	7.50% as of June 30, 2016 (SFERS) 2.85% as of June 30, 2016 (RBP)		7.65% as of June 30, 2016
Basic COLA	Old Miscellaneous and All New Plans Old Police and Fire: Pre 7/1/75 Retirements. Chapters A8.595 and A8.596. Chapters A8.595 and A8.595.	3.30%	Miscellaneous: Contract COLA up to 2.75% until Purchasing Protection Allowance Floor on Purchasing Power applies. 2.75% thereafter. Safety standard COLA 2.0%

Mortality rates for active members and healthy annuitants were based upon adjusted Employee and Healthy Annuitant CalPERS mortality tables projected generationally from the 2009 base year using a modified version of the MP-2015 projection scale.

The actuarial assumptions used in the SFERS June 30, 2015, valuation was based upon the results of an experience study for the period July 1, 2009, through June 30, 2014.

For CalPERS, the mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. All other actuarial assumptions used in the CalPERS June 30, 2015, valuation was based on the results of an actuarial experience study for the period 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website.

For the Replacement Benefits Plan beginning of the year measurements are also based on the census data as of June 30, 2015. Because the beginning and ending values are based on the same census data, no liability gains or losses due to experience are reported this year.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Discount Rates

<u>SFERS</u> – The beginning and end of year measurements are based on different assumptions and contribution methods that result in different discount rates. The discount rate was 7.46% as of June 30, 2015, and 7.50% as of June 30, 2016.

The discount rate used to measure SFERS Plan's total pension liability as of June 30, 2016 was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will continue to be made at the rates specified in the Charter. Employer contributions were assumed to be made in accordance with the contribution policy in effect for July 1, 2014 actuarial valuation. That policy includes contributions equal to the employer portion of the Entry-Age normal costs for members as of the valuation date, a payment for the expected administrative expenses, and an amortization payment on the Unfunded Actuarial Liability.

The amortization payment is based on closed periods that vary in length depending on the source. Charter amendments prior to July 1, 2014, are amortized over 20 years. After July 1, 2014, any Charter changes to active member benefits are amortized over 15 years and changes to inactive member benefits, including Supplemental COLAs, are amortized over 5 years. The remaining Unfunded Actuarial Liability not attributable to Charter amendments as of July 1, 2013, is amortized over a 19-year period commencing July 1, 2014. Experience gains and losses and assumption or method changes on or after July 1, 2014, are amortized over 20 years. For the July 1, 2016 valuation, the increase in the Unfunded Actuarial Liability attributable to the Supplemental COLAs granted on July 1, 2013 and July 1, 2014, are amortized over 17-years and 5-years respectively. All amortization schedules are established as a level percentage of payroll so payments increase 3.75% each year. The Unfunded Actuarial Liability is based on an Actuarial Value of Assets that smooths investment gains and losses over five years and a measurement of the Actuarial Liability that excludes the value of any future Supplemental COLAs.

While the contributions and measure of the Actuarial Liability in the actuarial valuation do not anticipate any future Supplemental COLAs, the projected contributions for the determination of the discount rate include the anticipated future amortization payments on future Supplemental COLAs for current members when they are expected to be granted. For members who worked after November 6, 1996, and before Proposition C passed, a Supplemental COLA is granted if the actual investment earnings during the year exceed the expected investment earnings on the Actuarial Value of Assets. For members who did not work after November 6, 1996, and before Proposition C passed, the Market Value of Assets must also exceed the Actuarial Liability at the beginning of the year for a Supplemental COLA to be granted. When a Supplemental COLA is granted, the amount depends on the amount of excess earnings and the basic COLA amount for each membership group. The large majority of members receive a 1.50% Supplemental COLA when granted.

Because the probability of a Supplemental COLA depends on the current funded level of the Retirement System, the Retirement System developed an assumption as of June 30, 2016, of the probability and amount of Supplemental COLA for each future year. The table below shows the net assumed Supplemental COLAs for members with a 2.00% Basic COLA for sample years.

Year Ending		Before 11/6/96 or
June 30	96 - Prop C	After Prop C
2018	0.750%	0.000%
2023	0.750%	0.220%
2028	0.750%	0.322%
2033	0.750%	0.370%
2038+	0.750%	0.375%

The projection of benefit payments to current members for determining the discount rate includes the payment of anticipated future Supplemental COLAs.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

ed on these assumptions the Retirement System's fire

Based on these assumptions, the Retirement System's fiduciary net position was projected to be available to make projected future benefit payments for current members until fiscal year end 2093 when only a portion of the projected benefit payments are expected to be made from the projected fiduciary net position. Projected benefit payments are discounted at the long-term expected return on assets of 7.50% to the extent the fiduciary net position is available to make the payments and at the municipal bond rate of 2.85% to the extent they are not available. The single equivalent rate used to determine the total pension liability as of June 30, 2016, is 7.50%.

The long-term expected rate of return on pension plan investments was 7.50%. It was set by the Retirement Board after consideration of both expected future returns and historical returns experienced by the Retirement System. Expected future returns were determined by using a building-block method in which best-estimate ranges of expected future real rates of return were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Target allocation and best estimates of geometric long-term expected real rates of return (net of pension plan investment expense and inflation) for each major asset class are summarized in the following table

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	40.0%	5.1%
Fixed Income	20.0%	1.1%
Private Equity	18.0%	6.3%
Real Assets	17.0%	4.3%
Hedge Funds/Absolute Return	5.0%	3.3%

<u>CalPERS</u> - The discount rate used to measure each of the CalPERS Miscellaneous Plans and the Safety Plan total pension liability was 7.65%. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing of the plans, the tests revealed the assets would not run out. Therefore, the current 7.65% discount rate is adequate and the use of the municipal bond rate calculation is not deemed necessary. The long-term expected discount rate of 7.65% is applied to all plans in the Public Employees Retirement Fund. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the GASB Statement No. 68 section.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

The table below reflects long-term expected real rate of return by asset class adopted by the Board, effective on July 1, 2015. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

Asset Class	TargetAllocation_	Real Return Years 1 - 10 ⁽¹⁾	Real Return Years 11+ (2)
Global equity	51.00%	5.25%	5.71%
Global fixed income	20.00%	0.99%	2.43%
Inflation sensitive	6.00%	0.45%	3.36%
Private equity	10.00%	6.83%	6.95%
Real estate	10.00%	4.50%	5.13%
Infrastructure and forestland	2.00%	4.50%	5.09%
Liquidity	1.00%	-0.55%	-1.05%

- (1) An expected inflation of 2.5% used for this period.
- (2) An expected inflation of 3.0% used for this period.

Replacement Benefits Plan – The beginning and end of year measurements are based on different assumptions that result in different discount rates. The discount rate was 3.85% as of June 30, 2015, and 2.85% as of June 30, 2016. This reflects the yield for a 20-year, tax-exempt general obligation municipal bond with an average rating of AA/Aa or higher. The Municipal Bond Yields are the Bond Buyer 20-Year GO Index as of July 2, 2015 and June 30, 2016. These are the rates used to determine the total pension liability as of June 30, 2015, and June 30, 2016.

The inflation assumption of 3.25% compounded annually was used for projecting the annual IRC Section 415(b) limitations. However, the actual IRC Section 415(b) limitations published by the IRS of \$210 for 2015 and 2016 was used for both the 2015 and 2016 measurement dates.

The SFERS assumptions about Basic and Supplemental COLA previously discussed also apply to the Replacement Benefits Plan, including the impact of the State Appeals Court determination that the full funding requirement for payment of Supplemental COLA included in Proposition C was unconstitutional and the impact is accounted for as a change in benefits.

Membership in the plan include 33,447 active members and 84 retirees and beneficiaries currently receiving benefits.

Sensitivity of Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the NPL for each of the City's cost-sharing retirement plans, calculated using the discount rate, as well as what the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate.

49/ Decrees Comment Chara 49/ Increes

Cost-Sharing Pension Plans Proportionate Share of Net Pension Liability	Sh	are of NPL @ 6.50%		of NPL @ 7.50%	Sh	are of NPL @ 8.50%
SFERS	\$ 8,678,794 1% Decrease Share of NPL @ 6.65%		\$	5,476,654	\$	2,828,104
			Current Share of NPL @ 7.65%		1% Increase Share of NPL @ 8.65%	
City CalPERS Miscellaneous Plan Transportation Authority CalPERS Classic & PEPRA Miscellaneous Plans Successor Agency CalPERS Classic & PEPRA Miscellaneous Plans Treasure Island Development Authority CalPERS Miscellaneous Plan	\$	(9,903) 2,978 37,564 37	\$	(12,711) 1,765 23,281 27	\$	(15,032) 763 11,478 19

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

The following presents the City's NPL for each of the City's agent multiple-employer plans, calculated using the discount rate, in effect as of the measurement date, as well as what the net pension liability would be if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate:

Agent Pension Plan		Decrease 9 6.65%		surement e @ 7.65%	1% Increase @ 8.65%		
City CalPERS Safety Plan	\$	425,527	\$	263,908	\$	130,402	
	1% Decrease @ 1.85%						
Replacement Benefits Plan	\$	96,762	\$	78,600	\$	56,782	

Detailed information about the CalPERS Safety Plan's fiduciary net position is available in a separately issued CalPERS financial report, copies may be obtained from the CalPERS website at www.calpers.ca.gov.

Deferred Compensation Plan

The City offers its employees a deferred compensation plan in accordance with Internal Revenue Code (IRC) Section 457. The plan, available to all employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees or other beneficiaries until termination, retirement, death, or unforeseeable emergency.

The City has no administrative involvement and does not perform the investing function. The City has no fiduciary accountability for the plan and, accordingly, the plan assets and related liabilities to plan participants are not included in the basic financial statements.

(b) Postemployment Health Care Benefits

City (excluding the Transportation Authority and the Successor Agency)

<u>Plan Description</u> – The City maintains a single-employer, defined benefit other postemployment benefits plan, which provides health care benefits to employees, retired employees, and surviving spouses, through the City's Health Service System outlined above. Health care benefits are provided to members of the Health Service System through three plan choices: City Health Plan, Kaiser, and Blue Shield. The City does not issue a separate report on its other postemployment benefit plan.

The City prefunds its OPEB obligations through the Retiree Health Care Trust Fund (RHCTF), an irrevocable trust fund that allows participating employers to prefund certain postemployment benefits other than pensions for their covered employees. The RHCTF is an agent multiple-employer trust and has two participating employers: the City and the San Francisco Community College District (Community College District). From the most recent actuarial valuation reports as of July 1, 2014, there were 29,001 active members, 25,919 retirees and beneficiaries, and 2,843 vested, terminated members for the City. The Community College District had 1,369 active members and 1,041 eligible retirees

The RHCTF is administered by the City and is presented as an other postemployment benefit trust fund. It is governed by a Retiree Health Care Board of Administration consisting of five trustees: one selected by the City Controller, one by the City Treasurer, one by the Executive Director of the San Francisco Employees' Retirement System, and two elected by the active and retired members of the City's Health Service System. The RHCTF issues a publicly available financial report consisting of financial statements and required supplementary information for the RHCTF in aggregate. The report may be obtained from City Hall, Room 316, 1 Dr. Carlton B. Goodlett Place, San Francisco, CA 94102.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

<u>Funding Policy</u> – The contribution requirements of plan members and the City are based on a pay-as-you-go basis. For the year ended June 30, 2017, the City paid \$165.5 million for postemployment healthcare benefits on behalf of its retirees and contributed \$18.4 million to the Retiree Health Care Trust Fund

Annual OPEB Cost and Net OPEB Obligation – The City's annual other postemployment benefits (OPEB) expense is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost of each year and any unfunded actuarial liabilities (or funding excess) amortized over thirty years. The ARC was determined based on the July 1, 2014, actuarial valuation.

The net OPEB obligations are reflected in the statements of net position of the governmental activities, business-type activities, and fiduciary funds. The following table shows the components of the City's annual OPEB cost for the year, the amount contributed to the plan, and changes in the City's net OPEB obligation:

Annual required contribution	\$	362,700
Interest on Net OPEB obligation		98,562
Adjustment to annual required contribution		(39,860)
Annual OPEB cost		421,402
Contribution made		(183,898)
Increase in net OPEB obligation		237,504
Net OPEB obligation - beginning of year	2	2,147,434
Net OPEB obligation - end of year	\$2	2,384,938

The table below shows how the total net OPEB obligation as of June 30, 2017, is distributed

Governmental activities	\$1,338,592
Business-type activities	974,031
Fiduciary funds	72,315
Net OPEB obligation - end of year	\$2,384,938

Eligible fiduciary funds' employees are City employees and thereby eligible for postemployment health benefits. These obligations are reported as other liabilities in the City's fiduciary funds financial statements.

Doroontogo of

Three-year trend information is as follows:

Fiscal Year		Annual	Annual OPEB		Net OPEB		
Ended	OF	PEB Cost	Cost Contributed	Obligation			
6/30/2015	\$	363,643	46.0%	\$	1,990,155		
6/30/2016		326,133	51.8%		2,147,434		
6/30/2017		421,402	43.6%		2,384,938		

Funded Status and Funding Progress – The unfunded actuarial accrued liability is being amortized as a level percentage of expected payroll over an open thirty-year period. As of July 1, 2014, the most recent actuarial valuation date, the funded status of the Retiree Health Care Benefits was 1.1%. The actuarial accrued liability for benefits was \$4.26 billion, and the actuarial value of assets was \$49.0 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$4.21 billion. As of July 1, 2014, the estimated covered payroll (annual payroll of active employees covered by the plan) was \$2.62 billion and the ratio of the UAAL to the covered payroll was 160.8%.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation as of July 1, 2014, the entry age normal cost method was used. Under this method, the actuarial present value of the projected benefits of each individual included in the valuation is allocated as a level percent of expected salary for each year of employment between entry age (age at hire) and assumed exit (maximum retirement age). Unfunded liabilities are amortized using the level percentage of payroll over a rolling 30-year period. The actuarial assumptions included a 4.50% investment rate of return on investment; 3.25% inflation rate; 3.75% payroll growth; and actual medical premiums from 2015 through 2017 and an ultimate medical inflation rate of 8.00% to 4.50% from 2018 through 2032.

The San Francisco Retiree Health Care Trust Fund (RHCTF) was established in December 2010 by the Retiree Health Trust Fund Board of the City. The RHCTF was established to receive employer and employee contributions prescribed by the Charter for the purpose of pre-funding certain postretirement health benefits. Proposition B requires employees hired on or after January 10, 2009, to contribute 2.0% of pay and the employer to contribute 1.0% of pay. Between January 10, 2009, and the establishment of the RHCTF, contributions were set aside and deposited into the RHCTF when it was established. Proposition C also requires all employees hired on or before January 9, 2009, to contribute 0.25% of pay to the RHCTF commencing July 1, 2016, increasing annually by 0.25% to a maximum of 1.0% of pay. The employer is required to contribute an equal amount. The RHCTF is currently invested in short-term fixed income securities.

The Charter amendment passed by voters as Proposition A on November 5, 2013, prohibits withdrawals from the RHCTF until sufficient funds are set aside to pay for all future retiree health care costs as determined by an actuarial study. Limited withdrawals prior to accumulating sufficient funds will be permitted only if annually budgeted retiree health care costs rise above 10.0% of payroll expenses, and will be limited to no more than 10.0% of the RHCTF balance. Proposition A allows for revisions to these funding limitations and requirements only upon the recommendation of the Controller and an external actuary and if approved by the RHCTF Board, two-thirds of the Board of Supervisors, and the Mayor.

San Francisco County Transportation Authority

The Transportation Authority maintains a separate single-employer defined benefit OPEB plan and did not have a net OPEB obligation as of June 30, 2017. The Transportation Authority's most recent actuarial valuation was performed as of June 30, 2015, covering the year ended June 30, 2017. The Transportation Authority's OPEB plan is for retiree healthcare benefits and was 57.3% funded and the UAAL was \$0.9 million. As of the June 30, 2015, actuarial valuation, the estimated covered payroll was \$3.9 million and the ratio of the UAAL was 22.2%. Details of the Transportation Authority's OPEB plan may be found in its financial statements for the vear ended June 30, 2017. Financial statements for the

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Transportation Authority can be obtained from their finance and administrative offices at 1455 Market Street, 22nd Floor, San Francisco, CA 94103 or the Transportation Authority's website.

As of June 30, 2017, the Transportation Authority's annual OPEB expense of \$200.5 was greater than the ARC. Three-year trend information is as follows:

			Percentage of		
Fiscal Year	Α	nnual	Annual OPEB	Net	OPEB
Ended	OP	EB Cost	Cost Contributed	Obligat	ion (Asset)
6/30/2015	\$	138.4	100.0%	\$	-
6/30/2016		200.7	103.0%		(5.8)
6/30/2017		200.5	97.1%		-

Successor Agency

Effective February 1, 2012, upon the operation of law to dissolve the former Agency, the Successor Agency assumed the former Agency's postemployment healthcare plan. The Successor Agency sponsors a single-employer defined benefit plan providing other postemployment benefits (OPEB) to employees who retire directly from the former Agency and/or the Successor Agency. The Successor Agency participates in the California Employers' Retiree Benefit Trust (CERBT) Fund. CERBT is administered by CalPERS and is an agent multiple-employer trust. Copies of CalPERS' financial report may be obtained from CalPERS website at www.calpers.ca.gov or from CalPERS at 400 Q Street, Sacramento. California 95811.

<u>Funding Policy</u> – The contribution requirements of the plan members and the Successor Agency are established by and may be amended by the Successor Agency. The Successor Agency intends to fund plan benefits through the CERBT by contributing at least 100.0% of the annual required contribution.

The annual required contribution (ARC) is an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. During the year ended June 30, 2017, the Successor Agency contributed \$1.2 million to this plan.

Annual Other Postemployment Benefit Cost and Net Obligation — The Successor Agency's annual OPEB cost (expense) is calculated based on the ARC of the employer. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. Annual OPEB Cost (AOC) equals the plan's ARC, adjusted for historical differences between the ARC and amounts actually contributed.

The following table shows the components of the Successor Agency's annual OPEB cost for the year ended June 30, 2017, and the changes in the net OPEB obligation:

Annual required contribution Interest on Net OPEB obligation Adjustment to annual required contribution	\$	813 30 (39)
Annual OPEB cost Contribution made	(1	804 ,232)
Decrease in net OPEB obligation Net OPEB obligation - beginning of year		(428) 430
Net OPEB obligation - end of year	\$	2

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Three-year trend information is as follows:

	Percentage of					
Fiscal Year	Aı	nnual	Annual OPEB	Net	OPEB	
Ended	OPEB Cost		Cost Contributed	Obligation		
6/30/2015	\$	918	104%	\$	833	
6/30/2016		796	151%		430	
6/30/2017		804	153%		2	

<u>Funded Status and Funding Progress</u> – The funded status of the plan of the Successor Agency as of July 1, 2015, the plan's most recent actuarial valuation date, was as follows:

Actuarial accrued liability (AAL) Actuarial value of plan assets	\$ 10,998 2,833
Unfunded actuarial accrued liability (UAAL)	\$ 8,165
Funded ratio (actuarial value of plan assets/AAL)	25.8%
Covered payroll (active plan members)	\$ 4,261
UAAL as a percentage of covered payroll	191.6%

<u>Actuarial Methods and Assumptions</u> – Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefits costs between the employer and plan members to that point.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The ARC for the year ended June 30, 2017, and the funding status of the plan was determined based on the July 1, 2015, actuarial valuation using the entry age normal actuarial cost method. Actuarial assumptions include (a) investment return and discount rate of 7.0%; (b) medical costs trend increases of 4.0%; (c) inflation rate of 2.75%; (d) payroll growth of 2.75%; and (e) 2014 CalPERS active mortality table for miscellaneous employees. The Successor Agency's initial and residual UAAL is being amortized as a level dollar amount over closed 30 years and open 22 years, respectively.

Health Service System

The Health Service System was established in 1937. Health care benefits of employees, retired employees and surviving spouses are financed by beneficiaries and by the City through the Health Service System. The employers' contribution, which includes the San Francisco Community College District, San Francisco Unified School District and the San Francisco Superior Court, amounted to approximately \$713.9 million in fiscal year 2016-17. The employers' contribution is mandated and determined by Charter provision based on similar contributions made by the ten most populous counties in California and the contribution models negotiated with the unions. Included in this amount is \$201.5 million to provide postemployment health care benefits for 27,561 retired participants, of which \$165.4 million related to City employees. The City's contribution is paid out of current available resources and funded on a pay-as-you-go basis. The Health Service System issues a publicly available financial report that includes financial statements. That report may be obtained by writing to the San Francisco Health Service System, 1145 Market Street, Suite 300, San Francisco, CA 94103 or from the City's website.

(b) General Fund Stabilization and Other Reserves

Rainy Day Reserve

The City maintains a "Rainy Day" or economic stabilization reserve under Charter Section 9.113.5, with separate accounts for the benefit of the City (the "City Reserve") and the San Francisco Unified School District (the "School Reserve"). In any year when the City projects that total General Fund revenues for the upcoming budget year are going to be more than 5 percent higher than the General Fund revenues for the current year, the City automatically deposits one-half of the "excess revenues" in the Rainy Day Reserve. Seventy-five percent of the deposit is placed in the City Reserve and twenty-five percent is placed in the School Reserve. The total amount of money in the Rainy Day Reserve may not exceed ten percent of the City's actual total General Fund revenues. The City may spend money from the City Reserve for any lawful governmental purpose, but only in years when the City projects that total General Fund revenues for the upcoming year will be less than the current year's total General Fund revenues, i.e., years when the City expects to take in less money than it had taken in for the current year. In those years, the City may spend up to half the money in the City Reserve, but no more than is necessary to bring the City's total available General Fund revenues up to the level of the current year. The School District may withdraw up to half the money in the School Reserve when it expects to collect less money per student than the previous fiscal year and would have to lay off a significant number of employees. The School District's Board can override those limits and withdraw any amount in the School Reserve by a two-thirds vote. The City does not expect to routinely spend money from the Rainy Day Reserve after evaluating its recent General Fund revenues trends and its most recent update to the Five-Year Financial Plan covering fiscal years 2017-18 through 2021-22.

Budget Stabilization Reserve

The City sets aside as an additional reserve 75 percent of (1) real estate transfer taxes in excess of the average collected over the previous five years, (2) proceeds from the sale of land and capital assets, and (3) ending unassigned General Fund balances. The City will be able to spend those funds in years in which revenues decline or grow by less than two percent, after using the amount legally available from the Rainy Day Reserve. The City, by a resolution of the Board of Supervisors adopted by a two-brirds' vote, may temporarily suspend these provisions following a natural disaster that has caused the Mayor or the Governor to declare an emergency, or for any other purpose. The City does not expect to routinely spend money from the Budget Stabilization Reserve after evaluating its recent General Fund revenues trends and its most recent update to the Five-Year Financial Plan covering fiscal years 2017-18 through 2021-22.

Recreation and Parks Expenditure Savings Reserve

The City maintains a Recreation and Parks Expenditure Savings Reserve under Charter Section 16.107, which sets aside and maintains such an amount, together with any interest earned thereon, in the reserve account, and any amount unspen or uncommitted at the end of the fiscal year shall be carried forward to the next fiscal year and, subject to the budgetary and fiscal limitations of the Charter, shall be appropriated then or thereafter for capital and/or facility maintenance improvements to park and recreation facilities and other one-time expenditures of the Park and Recreation Department

(c) Encumbrances

At June 30, 2017, encumbrances recorded in the General Fund and nonmajor governmental funds were \$244.2 million and \$277.3 million, respectively.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

(d) Restricted Net Position

At June 30, 2017, the government-wide statement of net position reported restricted net position of \$1,473.2 million in governmental activities and \$690.6 million in business-type activities, of which \$16.2 million and \$90.9 million are restricted by enabling legislation in governmental activities and business-type activities, respectively.

The City issued general obligation bonds and certificates of participation for the purpose of rebuilding and improving Laguna Honda Hospital. General obligation bonds were also issued for the purpose of reconstructing and improving waterfront parks and facilities on Port property and for the retrofit and improvement work to ensure a reliable water supply (managed by the Water Enterprise) in an emergency or disaster and for certain street improvements managed by the SFMTA. These capital assets are reported in the City's business-type activities. However, the debt service will be paid with governmental revenues and as such these general obligation bonds and certificates of participation are reported with unrestricted net position in the City's governmental activities. In accordance with GASB guidance, the City reclassified \$386.5 million of unrestricted net position of governmental activities, of which \$304.2 million reduced net investment in capital assets and \$82.3 million reduced net position restricted for capital projects to reflect the total column of the primary government as a whole perspective.

(e) Deficit Fund Balances and Net Position

The Human Welfare Fund and Senior Citizens' Program Fund had deficits of \$3.5 million, and \$0.8 million, respectively, as of June 30, 2017. The deficits relate to unavailable revenue in various programs which is expected to be collected beyond 60 days of the end of fiscal year 2017.

The Moscone Convention Center Fund had a \$241.2 million deficit as of June 30, 2017. The deficit is primarily related to the issuance of commercial paper for the construction of the Moscone Center Expansion and Improvement Project and will be covered by refinancing commercial paper as long-term debt.

The Central Shops and Telecommunications and Information Internal Service Funds had deficits in total net position of \$14.8 million and \$23.1 million, respectively, as of June 30, 2017, mainly due to the other postemployment benefits liability accrued per GASB Statement No. 45 and the net pension liability and pension-related deferred inflows per GASB Statement No. 68. The operating deficits are expected to be reduced in future years through anticipated rate increases or reductions in the operating expenses. The rates are reviewed and updated annually.

Prior to February 1, 2012, the California Redevelopment Law provided tax increment financing as a source of revenue to redevelopment agencies to fund redevelopment activities. Once a redevelopment area was adopted, the former Agency could only receive tax increment to the extent that it could show on an annual basis that it has incurred indebtedness that must be repaid with tax increment. Due to the nature of the redevelopment financing, the former Agency liabilities exceeded assets. Therefore, the former Agency historically carried a deficit, which was expected to be reduced as future tax increment revenues were received and used to reduce its outstanding long-term debt. This deficit was transferred to the Successor Agency on February 1, 2012. At June 30, 2017, the Successor Agency has a deficit of \$388.8 million, which will be eliminated with future redevelopment property tax revenues distributed from the Redevelopment Property Tax Trust Fund administered by the City's Controller.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

(11) UNAVAILABLE RESOURCES IN GOVERNMENTAL FUNDS

The deferred inflows of resources balance in governmental funds as of June 30, 2017 consists of the following unavailable resources:

S .	General Fund		Other Governmental Funds		Total Governmental Funds	
Grant and subvention revenues	\$	83,757	\$	56,126	\$	139,883
Property Tax		62,512		15,843		78,355
Teeter Plan		38,469		-		38,469
SB 90		8,218		-		8,218
Advances to Successor Agency		-		13,149		13,149
PG&E franchise tax		3,346		-		3,346
Loans		9,666		79,759		89,425
Total	\$	205,968	\$	164,877	\$	370,845

California Senate Bill 90 (SB90), was adopted in 1972 and added to the State Constitution in 1979. When the Governor or Legislature mandates a new program or higher level of service upon local agencies and school districts, SB90 requires the State to reimburse local agencies and school districts for the cost of these new programs or higher levels of service. The balance in deferred inflows of resources is the value of reimbursement claims submitted to the State which are subject to audit for unallowable costs.

As described in Note 6, under the Teeter Plan the City is allocated secured property tax revenue which has been billed but not collected. Collections which have not occurred within the availability period are included in deferred inflows of resources in the General Fund.

(12) San Francisco County Transportation Authority

The Transportation Authority was created in 1989 by a vote of the San Francisco electorate. The vote approved Proposition B, which imposed a sales tax of one-half of one percent (0.5%), for a period not to exceed 20 years, to fund essential transportation projects. The types of projects to be funded with the proceeds from the sales tax were set forth in the San Francisco County Transportation Expenditure Plan (Expenditure Plan), which was approved as part of Proposition B. The Transportation Authority was organized pursuant to Sections 131000 et seq. of the Public Utilities Code. Collection of the voterapproved sales tax began on April 1, 1990. The Transportation Authority administers the following programs:

Sales Tax Program. On November 4, 2003, the San Francisco voters approved Proposition K with a 74.7% affirmative vote, amending the City Business and Tax Code to extend the county-wide one-half of one percent sales tax, and to replace the 1989 Proposition B Plan with a new 30-year Expenditure Plan. The new Expenditure Plan includes investments in four major categories: 1) Transit; 2) Streets and Traffic Safety (including street resurfacing, and bicycle and pedestrian improvements); 3) Paratransit services for seniors and disabled people; and 4) Transportation System Management/Strategic Initiatives (including funds for neighborhood parking management, transportation/land use coordination, and travel demand management efforts). Major capital projects to be funded by the Proposition K Expenditure Plan include: A) development of the Bus Rapid Transit and Muni Metro Network; B) construction of the Muni Central Subway (Third Street Light Rail Project-Phase 2); C) construction of the Caltrain Downtown Extension to a rebuilt Transbay Terminal; and D) South Approach to the Golden Gate Bridge: Doyle Drive Replacement Project (re-envisioned as the Presidio Parkway). Pursuant to the provisions of Division 12.5 of the California Public Utilities Code, the Transportation Authority Board may adopt an updated Expenditure Plan any time after 20 years from

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

the effective date of adoption of the Proposition K Expenditure Plan but no later than the last general election in which the Proposition K Expenditure Plan is in effect. The Sales Tax would continue as long as a new or modified plan is in effect. Under Proposition K legislation, the Transportation Authority directs the use of the Sales Tax and may spend up to \$485.2 million per year and may issue up to \$1.88 billion in bonds secured by the Sales Tax.

Congestion Management Agency Programs. On November 6, 1990, the Transportation Authority was designated under State law as the Congestion Management Agency (CMA) for the City. Responsibilities resulting from this designation include developing a Congestion Management Program, which provides evidence of the integration of land use, transportation programming and air quality goals; preparing a long-range countywide transportation plan to guide the City's future transportation investment decisions; monitoring and measuring traffic congestion levels in the City; measuring the performance of all modes of transportation; and developing a computerized travel demand forecasting model and supporting databases. As the CMA, the Transportation Authority is responsible for establishing the City's priorities for state and federal transportation funds and works with the Metropolitan Transportation Commission to program those funds to San Francisco projects.

Transportation Fund for Clean Air (TFCA) Program. On June 15, 2002, the Transportation Authority was designated to act as the overall program manager for the local guarantee (40%) share of transportation funds available through the TFCA program. Funds from this program, administered by the Bay Area Air Quality Management District come from a \$4 vehicle registration fee on automobiles registered in the Bay Area. Through this program, the Transportation Authority recommends projects that benefit air quality by reducing motor vehicle emissions.

Proposition AA Administrator of County Vehicle Registration Fee Program. On November 2, 2010, San Francisco voters approved Proposition AA with a 59.6% affirmative vote, authorizing the ransportation Authority to collect an additional \$10 annual vehicle registration fee on motor vehicles registered in San Francisco and to use the proceeds to fund transportation projects identified in the Expenditure Plan. Revenue collection began in May 2011. Proposition AA revenues must be used to fund projects from the following three programmatic categories. The percentage allocation of revenues designated for each category over the 30-year Expenditure Plan period is shown in parenthesis for the following category name: 1) Street Repair and Reconstruction (50%); 2) Pedestrian Safety (25%); and 3) Transit Reliability & Mobility Improvements (25%). In 2012, the Transportation Authority Board approved the first Proposition AA Strategic Plan, including the specific projects that could be funded within the first five years (i.e., Fiscal Years 2012-13 to 2016-17). In May 2017, the Transportation Board approved the 2017 Proposition AA Strategic Plan and programmed revenues for projects over the five-year period, covering fiscal years 2017/18 to 2021/22. The Proposition AA program is a pay-as-you-go

Treasure Island Mobility Management Authority (TIMMA). The Treasure Island Transportation Management Act of 2008 (AB 981) authorizes the creation or designation of a Treasure Island-sperior transportation management agency. On April 1, 2014, the City's Board of Supervisors approved a resolution designating the Transportation Authority as the TIMMA to implement the Treasure Island Transportation Implementation Plan in support of the Treasure Island/Yerba Buena Island Development Project. In September 2014, Governor Brown signed Assembly Bill 141, establishing TIMMA as a legal entity distinct from the Transportation Authority to help firewall the Transportation Authority's other functions. The eleven members of the Transportation Authority Board act as the Board of Commissioners for TIMMA. The Transportation Authority financial statements include TIMMA as a blended special revenue component unit.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

(13) DETAILED INFORMATION FOR ENTERPRISE FUNDS

(a) San Francisco International Airport

San Francisco International Airport (the Airport or SFO), which is owned and operated by the City, is the principal commercial service airport for the San Francisco Bay Area. A five-member Commission is responsible for the operation, development and management of the Airport. The Airport is located 14 miles south of downtown San Francisco in an unincorporated area of San Mateo County, between the Bayshore Freeway (U.S. Highway 101) and the San Francisco Bay. According to the 2016 North American Traffic Report from the Airports Council International (ACI), the Airport is the seventh busiest airport in the United States in terms of passengers and fifteenth in terms of cargo tonnage. The Airport is also a major origin and destination point and one of the nation's principal gateways for Pacific traffic.

Revenue Pledge – The Airport has pledged all of the Net Revenues (as defined in bond resolutions adopted by the Airport Commission) to repay the following obligations, when due, in order of priority, (1) the San Francisco International Airport Second Series Revenue Bonds (Senior Bonds) and a portion of amounts due to reimburse drawings under the letters of credit securing the Senior Bonds, (2) the Subordinate Commercial Paper Notes and any other obligations (Subordinate Bonds) and amounts due to reimburse drawings under the letters of credit securing the Commercial Paper Notes, (3) remaining amounts due to reimburse drawings under the letters of credit securing the Senior Bonds, and (4) interest rate swap termination payments.

During fiscal year 2017, the original principal amount of the Senior Bonds and Commercial Paper Notes issued, principal and interest remaining due on outstanding Senior Bonds and Commercial Paper Notes, principal and interest paid on such obligations, and applicable Net Revenues are as set forth in the table below. There were no unreimbursed drawings under any letter of credit or interest rate swap termination payments due.

Bonds issued with revenue pledge\$	887,920
Bond principal and interest remaining due at end of the fiscal year	7,985,585
Commercial paper issued with subordinate revenue pledge	179,000
Commercial paper principal and interest remaining due at end of the fiscal year	178,564
Net revenues	489,378
Bond principal and interest paid in the fiscal year	408,750
Commercial paper principal interest and fees paid in the fiscal year	4 106

Debt Service Requirement – Under the terms of the 1991 Master Bond Resolution, for a Series of Second Series Revenue Bonds to be secured by the Airport's parity common account (the Issue 1 Reserve Account), the Airport is required to deposit with the trustee an amount equal to the maximum annual debt service accruing in any year during the life of all Second Series Revenue Bonds secured by the Issue 1 Reserve Account. Alternatively, the Airport may establish a separate reserve account with a different reserve requirement to secure an individual series of bonds. While revenue bonds are outstanding, the Airport may not create liens on its property essential to operations, may not dispose of any property essential to maintaining revenues or operating the Airport, and must maintain specified levels of insurance or self-insurance.

Under the terms of the 1991 Master Bond Resolution, the Airport has covenanted that it will establish and at all times maintain rentals, rates, fees, and charges for the use of the Airport and for services rendered by the Airport so that:

(i) Net revenues in each fiscal year will be at least sufficient (i) to make all required debt service payments and deposits in such fiscal year with respect to the bonds, any subordinate bonds, and any general obligation bonds issued by the City for the benefit of the Airport and (ii) to make the annual service payment to the City, and

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

(ii) Net revenues, together with any transfer from the Contingency Account to the Revenue Account (both held by the City Treasurer), in each fiscal year will be at least equal to 125% of aggregate annual debt service with respect to the bonds for such fiscal vear.

The methods required by the 1991 Master Bond Resolution for calculating debt service coverage differs from GAAP used to determine amounts reported in the Airport's financial statements.

Passenger Facility Charges – The Airport, as authorized by the Federal Aviation Administration (FAA) pursuant to the Aviation Safety and Capacity Expansion Act of 1990 (the Act), as amended, imposes a Passenger Facility Charge (PFC) of \$4.50 or \$3.00 for each enplaned passenger at the Airport. Under the Act, air carriers are responsible for the collection of PFC and are required to remit PFC revenues to the Airport in the following month after they are recorded by the air carrier. As of June 30, 2017, the FAA has approved Airport applications (PFC #2 to PFC #7) for collection with a total cumulative collection amount of \$2.04 billion while Airport applications (PFC #2 to PFC #6) has been approved for use with a total cumulative use amount of \$1.70 billion. The final charge expiration date is estimated to be February 1, 2030. The Airport is working with the FAA to change the expiration date for PFC #3 and the charge effective date for PFC #5 from January 1, 2017, to November 1, 2013, because PFC #3 was fully collected earlier than originally anticipated due to increased passenger levels. For the year ended June 30, 2017, the Airport reported approximately \$104.0 million of PFC revenue, which is included in other nonoperating revenues in the accompanying basic financial statements.

Commitments and Contingencies – In addition to the long-term obligations discussed in Note 8, there were \$68.2 million of Special Facilities Lease Revenue Bonds outstanding as of June 30, 2017, which financed improvements to the Airport's aviation fuel storage and delivery system that is leased to SFO Fuel Company LLC (SFO Fuel), a special purpose limited liability company founded by certain airlines operating at the Airport. SFO Fuel agreed to pay facilities rent to the Airport in an amount equal to debt service payments and required bond reserve account deposits on the bonds. The principal and interest on the bonds will be paid solely from the facilities rent payable by SFO Fuel to the Airport. The Airport assigned its right to receive the facilities rent to the bond trustee to pay and secure the payment of the bonds. Neither the Airport nor the City is obligated in any manner for the repayment of these obligations, and as such, they are not reported in the accompanying financial statements. Rent from Fuel System Lease with SFO Fuel is pledged until the maturity of the SFO Fuel bonds on January 1, 2027, unless additional bonds (including refunding bonds) with a later maturity are issued.

Purchase commitments for construction, material and services as of June 30, 2017 are as follows:

Construction\$	188,826
Operating	28,896
	217 722

Transactions with Other Funds – Pursuant to the Lease and Use Agreement between the Airport and most of the airlines operating at the Airport, the Airport makes an annual service payment to the City's General Fund equal to 15% of concession revenue (net of certain adjustments), but not less than \$5.0 million per fiscal year, in order to compensate the City for all indirect services provided to the Airport. The annual service payment for the year ended June 30, 2017 was \$45.0 million and was recorded as a transfer. In addition, the Airport compensates the City's General Fund for the cost of certain direct services provided by the City to the Airport, including those provided by the Police Department, the Fire Department, the City Attorney, the City Treasurer, the City Controller, the City Purchasing Agent and other City departments. The cost of direct services paid for by the Airport for the year ended June 30, 2017, was \$147.4 million.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Business Concentrations - In addition to the Lease and Use Agreements with the airlines, the Airport

Business Concentrations - In addition to the Lease and Use Agreements with the airlines, the Airport leases facilities to other businesses to operate concessions at the Airport. For the year ended June 30, 2017, revenues realized from the following Airport tenant exceeded five percent of the Airport's total operating revenues:

(b) Port of San Francisco

A five-member Port Commission is responsible for the operation, development, and maintenance activities of the Port of San Francisco (Port). In February 1969, the Port was transferred in trust to the City under the terms and conditions of State legislation ("Burton Act") ratified by the electorate of the City. Prior to 1969, the Port was operated by the State of California. The State retains the right to amend, modify or revoke the transfer of lands in trust provided that it assumes all lawful obligations related to such lands.

Pledged Revenues – The Port's revenues, derived primarily from property rentals to commercial and industrial enterprises and from maritime operations, which include cargo, ship repair, fishing, harbor services, cruise and other maritime activities, are held in a separate enterprise fund and appropriated for expenditure pursuant to the budget and fiscal provisions of the City Charter, consistent with trust requirements. Under public trust doctrine, the Burton Act, and the transfer agreement between the City and the State. Port revenues may be spent only for uses and purposes of the public trust.

The Port pledged future net revenues to repay its revenue bonds. Annual principal and interest payments through 2044 are expected to require less than 11% of net pledged revenues as calculated in accordance with the bond indenture. The total principal and interest remaining to be paid on the bonds is \$91.4 million. The principal and interest payments made in 2017 were \$4.2 million and pledged revenues (total net revenues calculated in accordance with the bond indenture) for the year ended June 30. 2017, were \$39.0 million.

The Port has entered into a loan agreement with the California Department of Boating and Waterways for \$3.5 million to finance certain Hyde Street Harbor improvements. The loan is subordinate to all bonds payable by the Port and is secured by gross revenues as defined in the loan agreement. Total principal and interest remaining to be paid on this loan is \$2.8 million. Annual principal and interest payments were \$0.23 million in 2017 and pledged harbor revenues were \$0.12 million for the year ended June 30, 2017.

Commitments and Contingencies – The Port is presently planning various development and capital projects that involve a commitment to expend significant funds. As of June 30, 2017, the Port had purchase commitments for construction-related services, materials and supplies, and other services were \$13.7 million for capital projects and \$3.2 million for general operations.

Under an agreement with the San Francisco Bay Conservation and Development Commission (BCDC), the Port is committed to fund and expend up to \$30.0 million over a 20-year period for pier removal, parks and plazas, and other public access improvements. Through June 30, 2017, \$46.6 million expended for projects under the agreement. In addition to work directly funded by the Port, the deck and pillings that form the valley between Piers 15 and 17 and a portion on non-historic sheds were removed as part of the construction work completed by The Exploratorium project.

Transactions with Other Funds — The Port receives from, and provides services to, various City departments. In 2017, the \$19.0 million in services provided by other City departments included \$2.7 million of insurance premiums and \$0.6 million in workers' compensation expense.

In connection with the planning phase of the Seawall Resiliency Project which commenced July 2016, the Port received \$0.5 million from the San Francisco Municipal Transportation Agency (SFMTA) and \$0.5 million from the Planning Department in support of the project.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

The Port and SFMTA entered into an MOU dated January 25, 2001, which granted the SFMTA the right to use an approximately 17-acre portion of certain Port property for permitted uses, as defined therein. Pursuant to the MOU, SFMTA paid to the Port \$2.9. million in 2001 for the perpetual use and future jurisdictional transfer of this property, subject to the satisfaction of various conditions. With the jurisdiction transfer conditions satisfied and the necessary approvals in place, the Board of Supervisors in July 2017 approved the interdepartmental jurisdictional transfer of this property from the Port Commission to the SFMTA for no additional consideration. The transfer price of \$29.7 million paid in 2001 was the estimated fair market value determined by an independent appraisal at the time it was paid

South Beach Harbor Project Obligations – A portion of the Rincon Point South Beach Redevelopment Project Area is within the Port Area and the former Redevelopment Agency held leasehold interests to certain Port properties. In 2015, the Port and the Office of Community Investment and Infrastructure, Successor Agency to the Redevelopment Agency, completed discussions concerning the transition, termination of Port agreements, and the transfer of operations, assets, and certain associated obligations. The resultant memorandum of agreement has received essential approvals and is in executory status, pending the completion of several closing conditions.

Under BCDC Permit Amendment No. 17 for the South Beach Harbor Project, certain public access and other improvements must be completed by December 31, 2017. Construction estimates prepared by a Port consultant in 2014 indicate that this uncompleted work would cost approximately \$7.9 million, including certain structural repairs, soft costs and recommended contingencies. The Port is working with the water recreation community to develop an alternative public access improvement proposal for BCDC consideration. An extension of time will also be sought to complete the necessary public access improvements. Port management believes that the alternate proposal will provide significant public access improvements that are relevant to the project area and at lower cost.

Pollution Remediation Obligations – The Port's financial statements include liabilities, established and adjusted periodically, based on new information, in accordance with applicable GAAP, for the estimated costs of compliance with environmental laws and regulations and remediation of known contamination. As future development planning is undertaken, the Port evaluates its overall provisions for environmental liabilities in conjunction with the nature of future activities contemplated for each site and accrues a liability, if necessary. It is, therefore, reasonably possible that in future reporting periods current estimates of environmental liabilities could materially change.

Port lands are subject to environmental risk elements typical of sites with a mix of light industrial activities dominated by transportation, transportation-related and warehousing activities. Due to the historical placement of fill of varying quality, and widespread use of aboveground and underground tanks and pipelines containing and transporting fuel, elevated levels of petroleum hydrocarbons and lead are commonly found on Port properties. Consequently, any significant construction, excavation or other activity that disturbs soil or fill material may encounter hazardous materials and/or generate hazardous waste

A 65-acre area commonly known as "Pier 70" has been used for over 150 years for iron and steel works, ship building and repair, and other heavy industrial operations. Much of the site was owned and/or occupied by the U.S. Navy or its contractors for at least 60 years. A long history of heavy industrial use has turned this area into a "brownfield" – an underutilized property area where reuse is hindered by actual or suspected contamination. Fifteen acres remain occupied by an on-going ship repair facility. Environmental conditions exist that require investigation and remediation prior to any rehabilitation or development for adaptive reuse. The lack of adequate information about environmental conditions has hindered previous development proposals for Pier 70.

Investigation work completed in 2011 reduced the uncertainty regarding the nature and extent of contamination, potential need for remediation, and costs associated with implementation of a risk management plan. The Regional Water Quality Control Board approved the Risk Management Plan in January 2014. The Risk Management Plan provides institutional controls (e.g. use restrictions, health

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

and safety plans) and engineering controls (e.g. capping contaminated soil) to protect current and future users and prevent adverse impact to the environment. The Risk Management Plan specifies how future development, operation, and maintenance will implement the remedy, by covering existing site soil with buildings, streets, plazas, hardscape or new landscaping, thereby minimizing or eliminating exposure to contaminants in soil.

Previous investigation of the northeast shoreline of Pier 70, in an area for development as the future "Crane Cove Park", found that near-shore sediment is contaminated with metals, petroleum hydrocarbons and polychlorinated biphenyls at concentrations that pose a potential risk to human health or the environment, and will likely require removal or capping of sediment before development of the area for public access and recreation. The accrued cost for pollution remediation at Pier 70, including Crane Cove Park, is estimated at \$11.0 million at June 30, 2017.

Other environmental conditions on Port property include asbestos and lead paint removal and oil contamination. The Port may be required to perform certain clean-up work if it intends to develop or lease such property, or at such time as may be required by the City or State.

A summary of environmental liabilities, included in noncurrent liabilities, at June 30, 2017, is as follows:

		nediation	Compliance		Total	
Environmental liabilities at July 1, 2016 Current year claims and changes in estimates Vendor payments	\$	10,969 242 -	\$	60 255 (84)	\$	11,029 497 (84)
Environmental liabilities at June 30, 2017	\$	11,211	\$	231	\$	11,442

(c) San Francisco Water Enterprise

The San Francisco Water Enterprise (Water Enterprise) was established in 1930. The Water Enterprise, which consists of a system of reservoirs, storage tanks, water treatment plants, pump stations, and pipelines, is engaged in the collection, transmission and distribution of water to the City and certain suburban areas. In fiscal year 2017, the Water Enterprise sold water, approximately 63,717 million gallons annually, to a total population of approximately 2.7 million people who reside primarily in four Bay Area counties (San Francisco, San Mateo, Santa Clara and Alameda).

The San Francisco Public Utilities Commission (Commission), established in 1932, provides the operational oversight for the Water Enterprise, Hetch Hetchy Water and Power (Hetch Hetchy and CleanPowerSF), and the San Francisco Wastewater Enterprise. Under Proposition E, the City's Charter Amendment approved by the voters in June 2008, the Mayor nominates candidates subject to qualification requirements to the Commission and the Board of Supervisors votes to approve the nominees by a majority (at least six members).

Pledged Revenues – The Water Enterprise has pledged future revenues to repay various bonds. Proceeds from the revenue bonds provided financing for various capital construction projects and to refund previously issued bonds. These bonds are payable solely from revenues of the Water Enterprise and are payable through fiscal year 2051.

The original amount of revenue bonds issued, total principal and interest remaining, principal and interest paid during 2017 and applicable revenues for 2017 are as follows:

Bonds issued with revenue pledge\$	4,455,785
Bond principal and interest remaining due at end of the fiscal year	7,673,811
Net revenues	251,405
Bond principal and interest paid in the fiscal year	207,812
Funds available for revenue debt service	394,440

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

During fiscal year 2017, the wholesale revenue requirement, net of adjustments, charged to wholesale customers was \$205.9 million. Such amounts are subject to final review by wholesale customers, along with a trailing wholesale balancing account compliance audit of the wholesale revenue requirement calculation. As of June 30, 2017, the City owed the Wholesale Customers \$43.5 million under the Water Supply Agreement.

Commitments and Contingencies – As of June 30, 2017, the Water Enterprise had outstanding commitments with third parties of \$279.8 million for various capital projects and for materials and supplies

Environmental Issue – As of June 30, 2017, the total pollution remediation liability was \$2.5 million, consisting of \$1.5 million for the excavation of contaminated soil that contained polycyclic aromatic hydrocarbons from a gun club site in the Lake Merced area, \$1.0 million for the 17th and Folsom site.

Transactions with Other Funds – The Water Enterprise purchases water from Hetch Hetchy Water and electricity from Hetch Hetchy Power at market rates. These amounts, totaling approximately \$34.6 million and \$8.5 million, respectively, for the year ended June 30, 2017, are included in the operating expenses for services provided by other departments in the Water Enterprise's financial statements.

A variety of other City departments provide services such as engineering, purchasing, legal, data processing, telecommunications, and human resources to the Water Enterprise and charge amounts designed to recover those departments' costs. These charges total approximately \$16.1 million for the year ended June 30, 2017 and have been included in services provided by other departments.

(d) Hetch Hetchy Enterprise

San Francisco Hetch Hetchy Water and Power (Hetch Hetchy or the Enterprise) was established as a result of the Raker Act of 1913, which granted water and power resources rights-of-way on the Tuolumne River in Yosemite National Park and Stanislaus National Forest to the City and County of San Francisco (the City). CleanPowerSF, launched in May 2016, provides green electricity from renewable sources to residential and commercial customers in San Francisco and was reported as part of Hetchy Power in fiscal year 2016. Hetch Hetchy is a stand-alone enterprise comprised of three funds, Hetchy Power (aka the Power Enterprise), CleanPowerSF and Hetchy Water, the portion of the Water Enterprise's operations, specifically the upcountry water supply and transmission service. Hetch Hetchy accounts for the activities of Hetch Hetchy Water and Power and is engaged in the collection and conveyance of approximately 85.0% of the City's water supply and in the generation and transmission of electricity from that resource, as well as the City Power services including energy efficiency and renewables.

Approximately 80.0% of the electricity generated by Hetchy Power is used to provide electric service to the City's municipal customers (including the San Francisco Municipal Transportation Agency, Recreation and Parks Department, the Port of San Francisco, the San Francisco International Airport and its tenants, San Francisco General Hospital, streetlights, Moscone Convention Center, and the Water and Wastewater Enterprises). The majority of the remaining 20% balance of electricity is sold to other utility districts, such as the Turlock and Modesto Irrigation Districts (the Districts). As a result of the 1913 Raker Act, energy produced above the City's Municipal Load is sold first to the Districts to cover their agricultural pumping and municipal load needs and any remaining energy is either sold to other municipalities and/or government agencies (not for resale) or sold into the California Independent System Operator (CAISO). Hetch Hetchy operation is an integrated system of reservoirs, hydroelectric power plants, aqueducts, pipelines, and transmission lines.

Hetch Hetchy also purchases wholesale electric power from various energy providers that are used in conjunction with owned hydro resources to meet the power requirements of its customers. Operations and business decisions can be greatly influenced by market conditions, state and federal power matters before the California Public Utilities Commission (CPUC), the CAISO, and the Federal Energy Regulatory Commission (FERC). Therefore, Hetch Hetchy serves as the City's representative at CPUC, CAISO, and FERC forums and continues to monitor regulatory proceedings.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Segment Information – Hetch Hetchy Power issued debt to finance its improvements. The Hetch Hetchy Water fund, the Hetch Hetchy Power and CleanPowerSF fund are reported for in a single enterprise (i.e., Hetch Hetchy Enterprise). CleanPowerSF is presented as a fund of the Enterprise for the year ended 2017. However, investors in the debt rely solely on the revenue generated by the individual activities for repayment. Summary financial information for Hetch Hetchy is presented below:

Condensed Statements of Net Position	Hetch Hetchy Water	Hetch Hetchy Power	CleanPower SF	Elimination	Total
Assets:

Pledged Revenues – Hetch Hetchy Power has pledged future power revenues to repay the 2008 Clean Renewable Energy Bonds (CREBs), the 2011 Qualified Energy Conservation Bonds (QECBs), the 2012 New Clean Renewable Energy Bonds (NCREBs), and the 2015 NCREBs. Additionally, Hetch Hetchy Power has pledged future power revenues for 2015 Series AB power revenue bonds. Proceeds from the bonds provided financing for various capital construction and facility energy efficiency projects. The Series 2015 AB power revenue bonds are payable through fiscal year 2046 and are solely payable from net revenues of Hetch Hetchy Power on a senior lien basis to the 2008 CREBs, the 2011 QECBs, the 2012 NCREBs, and the 2015 NCREBs.

The original amount of revenue bonds issued, total principal and interest remaining, principal and interest paid, during 2017, and applicable revenues for 2017 are as follows:

Н	letch Hetchy Power (excluding CleanPowerSF)	
Е	Sonds issued with revenue pledge\$	64,871
Е	Bond principal and interest remaining due at end of the fiscal year	91,177
١	let revenues	31,229
Е	Bond principal and interest paid in the fiscal year	2,293
F	unds available for revenue debt service	63,428

Commitments and Contingencies – As of June 30, 2017, Hetch Hetchy had outstanding commitments with third parties of \$72.7 million for various capital projects and other purchase agreements for materials and services.

Hetch Hetchy Water

To meet certain requirements of the Don Pedro Reservoir operating license, the City entered into an agreement with the Modesto Irrigation District (MID) and Turlock Irrigation District (TiD) in which they would be responsible for an increase in water flow releases from the reservoir in exchange for annual payments from the City. Total payments were \$4.7 million in fiscal year 2017. The payments are to be made for the duration of the license, but may be terminated with one year's prior written notice after 2001. The City and the Districts have also agreed to monitor the fisheries, in the lower Tuolumne River, for the duration of the license. A maximum monitoring expense of \$1.4 million is to be shared between the City and the Districts over the term of the license. The City's share of the monitoring costs is 52.0% and the Districts are responsible for 48.0% of the costs.

Hetch Hetchy Power

In April 1988, Hetch Hetchy Power entered into two separate long-term power sales agreements (the Agreement) with the two irrigation districts, the MID and TID, which expired June 30, 2015. In April 2015, the Commission and the Board of Supervisors approved the extension of both agreements for one year to June 30, 2016. A second extension agreement has been subsequently approved to continue the current terms and conditions for MID through June 30, 2017. The second extension agreement for TID proposes to remove the district's rights to excess energy from the project and terminate those conditions with the first extension agreement on June 30, 2016. The Commission will continue to comply with the Raker Act by making Hetch Hetchy generated hydropower available at cost

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

to MID and TID for their agricultural pumping and municipal loads as energy from the Hetch Hetchy project is available after meeting the Commission's municipal load obligations. For fiscal year 2017, energy sales to the Districts totaled 152.321 Megawatt hours (MWh) or \$7.8 million.

In 1987, the City entered into an interconnection agreement with PG&E to provide transmission, distribution, and other support services for the City's use of PG&E's transmission and distribution system to deliver power to the City's customers. The renegotiated agreement in 2007 expired on July 1, 2015. In December 2014, PG&E filed several separate replacement service and facilities agreements with the FERC for its approval. By FERC order, the City is currently taking transmission service on PG&E's transmission system using the CAISO Open-Access Transmission Tariff and is taking distribution service under PG&E's Wholesale Distribution Tariff pursuant to PG&E's replacement agreements, but subject to waiver of certain terms and conditions and subject to refund by PG&E, pending the FERC's final decision. During fiscal year 2017, Hetch Hetchy Power purchased \$8.6 million of transmission, distribution services, and other support services from PG&E under the terms of the replacement agreements and the 1987 Interconnection Agreement.

Hetchy Power may purchase or sell energy and other related products (such as ancillary services, spinning reserves, resource adequacy products, and congestion revenue rights) with different market entities through the Western System Power Pool (WSPP) and the CAISO. During fiscal year 2017, Hetchy Power did not purchase power and other related products. Sales of excess power, after meeting Hetch Hetchy's obligations, were 29,050 MWh, or \$0.8 million, for 2017. Sales in fiscal year 2017 were higher due to increased water flows resulting from higher precipitation levels, and fewer planned maintenance outages.

Hetchy Power (Buyer) purchases energy, capacity, and environmental attributes from a solar photovoltaic project located at Sunset Reservoir (the facility) pursuant to the 2009 25-year PPA with SFCity1, LP, owned by Duke Energy (Seller). In November 2010, the facility commenced commercial operation and began to provide Hetchy Power energy generated by the facility.

The PPA sets the purchase price of generated energy at \$235/MWh, increased by 3.0% each year throughout the term of the agreement, and it is expected that the facility will generate 6,560 MWh per year. In fiscal year 2017, the facility generated 6,505 MWh. In the event that the facility generates more energy than expected due to better than normal meteorological conditions, the PPA requires the Buyer to purchase all the excess energy but generation in excess of 120.0% of expected is purchased at no cost. The PPA also requires the Seller to generate a minimum amount of energy from the facility annually. If energy production falls below 50.0% of expected, the Seller must provide replacement power, and if energy falls below 90% of expected, the price for energy generated is lowered. In fiscal years 2017, purchases of energy under the Agreement were \$1.8 million, or 6,505 MWh.

CleanPowerSF

CleanPowerSF launched in May 2016 and entered into contracts with Calpine Energy Services L.P. (Calpine) and Shiloh I Wind Project LLC (Shiloh) to purchase renewable and conventional energy and resource adequacy capacity to meet its retail sales obligations. Both contracts feature 10-year master agreements under which multiple transactions may be executed. CleanPowerSF has executed two multi-year transactions with Calpine (three-year term) and Shiloh (five-year term). The Calpine transaction requires a reserve balance of \$2.6 million as of June 30, 2017, which is equivalent to two months' worth of estimated payment obligations. At June 30, 2017, total electricity purchased from Calpine and Shiloh were \$17.3 million and \$1.6 million, respectively.

CleanPowerSF entered into contract with Noble Americas in November 2015 for a three-year term, not to exceed \$5.6 million to provide administrative and customer care services related to electricity data management, billing, call center and related services. During fiscal year 2017, amount paid was \$1.0 million. Prior year costs were included in Hetchy Power's start-up costs for CleanPowerSF.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

During fiscal year 2017, there was a letter of credit outstanding that guarantees certain payment obligations of CleanPowerSF. The Letter of Credit is secured by Hetchy Power revenue at the 11th priority lien level under the Hetchy Power Indenture. The letter of credit, issued by JP Morgan Chase, was in the amount of \$13.9 million as of June 30, 2017. There were no draws against the letter of credit during fiscal year 2017.

Transactions with Other Funds – The Water Enterprise purchases water from Hetch Hetchy Water and power from Hetch Hetchy Power. Included in the operating revenues are the water assessment fees totaling \$34.6 million and purchased electricity for \$8.5 million for the year ended June 30, 2017. In addition, the Wastewater Enterprise purchases power from Hetch Hetchy Power totaling \$10.7 million for the year ended June 30, 2017. Included in 2017 operating revenues are sales of power to departments within the City of \$87.7 million.

A variety of other City departments provide services such as engineering, purchasing, legal, data processing, telecommunications, and human resources to Hetch Hetchy Water and Power and charge amounts designed to recover those departments' costs. These charges total approximately \$8.7 million for the year ended June 30, 2017, and have been included in services provided by other departments.

As of June 30, 2017, operating revenues in sales of power from CleanPowerSF to Hetchy Power were \$0.01 million. Operating expenses in purchase of power from Hetchy Power to CleanPowerSF were \$1.9 million

CleanPowerSF received program support services from Hetchy Power. This amount totaled \$0.2 million for the fiscal years ended June 30, 2017.

(e) San Francisco Municipal Transportation Agency

The San Francisco Municipal Transportation Agency (SFMTA) is governed by the SFMTA Board of Directors who are appointed by the Mayor and Board of Supervisors. The SFMTA financial statements include the entire San Francisco's (the City's) surface transportation network that encompasses pedestrians, bicycling, transit (Muni), traffic and off and on street parking, regulation of the taxi industry, and three nonprofit parking garage corporations operated by separate nonprofit corporations, whose operations are interrelated. All significant inter entity transactions have been eliminated.

The SFMTA was established by voter approval of the addition of Article VIIIA to the Charter of the City (the Charter) in 1999 (Proposition E). The purpose of the Charter amendment was to consolidate all surface transportation functions within a single City department, and to provide the transportation System with the resources, independence, and focus necessary to improve transit service. The voters approved additional Charter amendments: (1) in 2007 (Proposition A), which increased the autonomy of and revenue to the SFMTA; (2) in 2010 (Proposition G), which increased management flexibility related to labor contracts; (3) in 2014 (Proposition A) which provided \$500 million in General Obligation Bonds for transportation and street infrastructure; and (4) in 2014 (Proposition B) which increases General Fund allocation to SFMTA based on the City's population increase.

Muni is one of America's oldest public transit agencies and the largest in the Bay Area. It currently has about 226 million boardings annually. Operating historic streetcars, modern light rail vehicles, diesel buses, alternative fuel vehicles, electric trolley coaches, and the world-famous cable cars, Muni's fleet is among the most diverse in the world.

The SFMTA's Sustainable Streets initiates and coordinates improvements to City's streets, transit, bicycles, pedestrians, and parking infrastructure. It manages 19 City owned garages and 20 parking lots. In March 2009, the former Taxi Commission was merged with the SFMTA, which then has assumed responsibility for taxi regulation to advance industry reforms.

Notes to Basic Financial Statements (Continued)

June 30, 2017

(Dollars in Thousands)

Three nonprofit corporations provide operational oversight to four garages, namely Japan Center, Sutter-Stockton, Union Square, and Portsmouth. Of these four garages, Portsmouth and Union Square are owned by the Recreation and Park Department but managed by the SFMTA. The activities of these nonprofit garages are accounted for in the SFMTA's parking garages account.

Pledged Revenue - In 2007, San Francisco voters approved Proposition A, which authorized the SFMTA to issue revenue bonds and other forms of indebtedness without further voter approval but with approval by the SFMTA Board of Directors and concurrence by the Board of Supervisors. The SFMTA has pledged future revenues to repay various bonds. Proceeds from the revenue bonds provided financing for various capital construction projects and to refund previously issued bonds. These bonds are payable from all SFMTA revenues except for City General Fund allocations and restricted sources and are payable through the fiscal year 2047.

Annual principal and interest payments for fiscal year 2017 were 38.9% of funds available for revenue bond debt service. The original amount of revenue bonds issued, total principal and interest remaining. principal and interest paid during 2017 and applicable revenues are as follows:

Bonds issued with revenue pledge\$	387,670
Bond principal and interest remaining due at end of the fiscal year	596,359
Net revenues	25,952
Bond principal and interest paid in the fiscal year	16,505
Funds available for revenue debt service	42.457

Operating and Capital Grants and Subsidies - The City's Annual Appropriation Ordinance provides funds to subsidize the operating deficits of SFMTA and Sustainable Streets as determined by the City's budgetary accounting procedures and subject to the appropriation process. The amount of General Fund subsidy to the SFMTA was \$415.0 million in fiscal year 2017. The General Fund subsidy includes a total revenue baseline transfer of \$312.6 million, as required by the City Charter, \$68.4 million from an allocation of the City's parking tax. Proposition B, approved by the voters in November 2014, provides additional City General Funds to address transportation needs tied to the City population growth. In fiscal year 2017, SFMTA received \$31.0 million from this source. In fiscal year 2017, SFMTA also received additional City General Fund allocation of \$3.0 million to fund various capital projects such as the planning and design on Warriors Arena transportation improvements.

The SFMTA also receives operating assistance from various federal, state, and local sources, including Transit Development Act funds, diesel fuel, and sales tax allocations. As of June 30, 2017, the SFMTA had various operating grants receivable of \$32.8 million. In fiscal year 2017, the SFMTA's operating assistance from BART's Americans with Disability Act (ADA) related support of \$1.7 million, and other federal, state, and local grants of \$59.5 million, to fund project expenses that are operating in nature.

Proposition 1B is a ten-year \$20 billion transportation infrastructure bond that was approved by state voters in November 2006. The bond measure was composed of several funding programs including the Public Transportation Modernization, Improvement and Service Enhancement Account program (PTMISEA) and the Transit Security & Safety Account that are funding solely for public transit projects. The SFMTA received cash totaling \$14.1 million in fiscal year 2017 for different projects. Proposition 1B funds do not require matching funds. The original legislation required funds to be obligated within three years of the date awarded, SB87 extended the date to June 30, 2017 for funds awarded between fiscal years 2008 and 2010. The Budget Act of 2013 extended the date to June 30, 2018. Subsequently, the Budget Act of 2014 re-appropriated the remaining balances of fiscal years 2009, 2010 and 2011 to be further extended to June 30, 2019, and the remaining balance of fiscal year 2015 to be further extended to June 30, 2020. The eligibility requirements for the PTMISEA program include rehabilitation of infrastructure, procurement of equipment and rolling stock, and investment in expansion projects. During fiscal year 2017, \$76.6 million in drawdowns were made from the funds for various eligible projects costs.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Commitments and Contingencies - The SFMTA has outstanding contract commitments of approximately \$579.8 million with third parties, for various capital projects. Grant funding is available for a majority of this amount. The SFMTA also has outstanding commitments of approximately \$74.8 million with third parties for non-capital expenditures. Various local funding sources are used to finance these expenditures.

Leveraged Lease-Leaseback of BREDA Vehicles - Tranches 1 and 2

In April 2002 and in September 2003, following the approval of the Federal Transit Administration, SFMTA Board of Directors, and the City's Board of Supervisors, Muni entered into separate leveraged lease-leaseback transactions for over 118 and 21 Breda light rail vehicles (the Tranche 1 and Tranche 2 Equipment, respectively, and collectively, the "Equipment"). Each transaction, also referred to as a "sale in lease out" or "SILO", was structured as a head lease of the Equipment to a special purpose trust and a sublease of the Equipment back from such trust. Under each sublease, Muni retained an option to purchase the Equipment on specified dates between November 2026 through January 2030 in the case of the Tranche 1 Equipment and in January 2030 in the case of the Tranche 2 Equipment. During the terms of the subleases, Muni maintains custody of the Equipment and is obligated to insure and maintain the Equipment.

Muni received an aggregate of \$388.2 million and \$72.6 million, respectively in 2002 and 2003, from the equity investors in full prepayment of the head leases. Muni deposited a portion of the prepaid head lease payments into separate escrows that were invested in U.S. agency securities with maturities that correspond to the purchase option dates for the Equipment as specified in each sublease. Muni also deposited a portion of the head lease payments with a debt payment undertaker whose repayment obligations are guaranteed by Assured Guaranty Municipal Corp. (AGM) as successor to Financial Security Assurance (FSA), a bond insurance company, that was rated "AAA" by Standard & Poor's ("S&P") and "Aaa" by Moody's Investor Services ("Moody's") at the time the Tranche 1 and Tranche 2 Equipment transactions were entered into. Although these escrows do not represent a legal defeasance of Muni's obligations under the subleases, management believes that these transactions are structured in such a way that it is not probable that Muni will need to access other monies to make sublease payments. Therefore, the assets and the sublease obligations have not been recorded on the financial statements of the SEMTA

As a result of the cash transactions above, Muni recorded \$35.5 million and \$4.4 million in fiscal year 2002 and 2003 respectively, representing the difference between (a) the amounts received of \$388.2 million and \$72.6 million, and (b) the amounts of \$352.7 million and \$67.5 million paid to the escrows, the debt payment undertaker and for certain transaction expenses. These amounts have been classified as deferred inflows of resources in fiscal year 2017 and will be amortized over the life of each sublease unless the purchase option is executed or sublease is otherwise terminated before its expiration date

As of June 30, 2017, one leveraged lease transaction with respect to 29 items of Tranche 1 Equipment having an initial transaction value of \$98.7 million remains outstanding. All other lease transactions were terminated in prior fiscal years.

The deferred inflows of resources amortized amount was \$0.3 million for the Tranche 1 Equipment in fiscal year 2017.

(f) Laguna Honda Hospital

General Fund Subsidy - The Laguna Honda Hospital (LHH) is a skilled nursing facility which specializes in serving elderly and disabled residents. The operations of LHH are subsidized by the City's General Fund. It is the City's policy to fund operating deficits of the enterprise on a budgetary basis; however, the amount of operating subsidy provided is limited to the amount budgeted by the City. Any amount not required for the purpose of meeting an enterprise fund deficit shall be transferred

Notes to Basic Financial Statements (Continued)

June 30, 2017

(Dollars in Thousands)

back to the General Fund at the end of each fiscal year, unless otherwise approved by the Board of Supervisors. For the year ended June 30, 2017, the subsidy for LHH was \$62.3 million.

Net Patient Service Revenue - Net patient services revenues are recorded at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including a provision for doubtful accounts and estimated retroactive adjustments under reimbursement agreements with federal and state government programs and other third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined. Patient accounts receivable are recorded net of estimated allowances, which include allowances for contractuals and bad debt. These allowances are based on current payment rates, including per diems, Diagnosis-Related Group (DRG) reimbursement amounts and payment received as a percentage of gross charges.

Third-Party Payor Agreements - LHH has agreements with third-party payors that provide for reimbursement to LHH at amounts different from its established rates. Contractual adjustments under third-party reimbursement programs represent the difference between the hospital's established rate for services and amounts reimbursed by third-party payors. Medicare and Medi-Cal are the major thirdparty payors with whom such agreements have been established. Laws and regulations governing the Medicare and Medi-Cal programs are complex and subject to interpretation. LHH believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medi-Cal programs.

During the year ended June 30, 2017, LHH's patient receivables and charges for services were as follows:

Patient Receviables, net												
	Medi-Cal	Medicare	Other	Total								
Gross Accounts Receivable Less:	\$ 56,281	\$ 3,480	\$ 1,822	\$ 61,583								
Provision for Contractual Allowances	(36,348)	(2,247)	(1,177)	(39,772)								
Total, net	\$ 19,933	\$ 1,233	\$ 645	\$ 21,811								
Net Patient Service Revenue												
	Medi-Cal	Medicare	Other	Total								
Gross Revenue Less:	\$ 396,316	\$ 22,337	\$ 11,697	\$ 430,350								
Provision for Contractual Allowances	(230,130)	(15,345)	(11,438)	(256,913)								
Total, net	\$ 166,186	\$ 6,992	\$ 259	\$ 173,437								

Because Medi-Cal reimbursement rates are less that LHH's established charges rates. LHH is eligible to receive supplemental federal funding. As of June 30, 2017, LHH recorded \$38.1 million of subvention receivable for matching federal funds to local funds.

Unearned Credits and Other Liabilities - As of June 30, 2017, LHH recorded \$29.6 million in other liabilities for third-party payor settlements payable.

Transactions with Other Funds - A variety of other City departments provide services such as engineering, purchasing, legal, data processing, telecommunications, human resources, and public protection to LHH and charge amounts designed to recover those departments' costs. These charges totaled \$10.9 million for the year ended June 30, 2017, and have been included in services provided by other departments.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Commitments and Contingencies - As of June 30, 2017, LHH has entered into various purchase contracts totaling \$1.0 million that are related to the old building remodel phase of the Replacement Proiect.

The California Department of Health Care Services (DHCS) is currently in discussions with the Centers for Medicare and Medicaid Services (CMS) regarding a potential disallowance of approximately \$56 million, related to payments made to LHH.

(g) San Francisco General Hospital

General Fund Subsidy - San Francisco General Hospital Medical Center (SFGH) is an acute care hospital. The operations of SFGH are subsidized by the City's General Fund. It is the City's policy to fully fund enterprise operations on a budgetary basis; however, the amount of operating subsidy provided is limited to the amount budgeted by the City. Any amount not required for the purpose of meeting an enterprise fund deficit shall be transferred back to the General Fund at the end of each fiscal year, unless otherwise approved by the Board of Supervisors. For the year ended June 30, 2017. the subsidy for SFGH was \$62.7 million.

Net Patient Service Revenue - Net patient services revenues are recorded at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including a provision for doubtful accounts and estimated retroactive adjustments under reimbursement agreements with federal and state government programs and other third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

Patient accounts receivable are recorded net of estimated allowances, which include allowances for contractuals, bad debt, and administrative write-offs. These allowances are based on current payment rates, including per diems. DRG amounts and payment received as a percentage of gross charges.

Third-Party Payor Agreements - SFGH has agreements with third-party payors that provide for reimbursement to SFGH at amounts different from its established rates. Contractual adjustments under third-party reimbursement programs represent the difference between SFGH's established rates and amounts reimbursed by third-party payors. Major third-party payors with whom such agreements have been established are Medicare, Medi-Cal, and the State of California through the Section 1115 Medicaid Waiver and Short-Dovle mental health programs. Laws and regulations governing the Medicare and Medi-Cal programs are complex and subject to interpretation. SFGH believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigation involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medi-Cal programs.

During the year ended June 30, 2017, SFGH's patient receivables and charges for services were as follows (in thousands):

Patient Receivables, Net									
-	Medi-Cal Me		Medicare	Other			Total		
Gross Accounts Receivable	\$	286,908	\$	156,878	\$	129,071	\$	572,857	
Contractual Allowances		(263,858)		(143,121)		(75,755)		(482,734)	
Provision for Bad Debt		-		-		(21,318)		(21,318)	
Total, Net Accounts Receivable	\$	23,050	\$	13,757	\$	31,998	\$	68,805

California's Section 1115 Medicaid Waiver (Waiver), titled the "Bridge to Health Care Reform" began in November 2010. The Waiver is intended to help sustain the state's Medicaid Program (known as Medi-Cal), test new innovations to help improve care and reduce costs, and to support the safety net in advance of health reform. Under the Waiver, payments for public hospitals are comprised of: 1) fee-for-service cost-based reimbursements for inpatient hospital services; 2) Disproportionale Share Hospital payments; 3) distribution from a pool of federal funding for uninsured care, known as the Safety Net Care Pool (SNCP); 4) Delivery System Reform Incentive Program (DSRIP); and 5) the Low Income Health Program (LIHP). The non-federal share of these payments will be provided by the public hospitals, primarily through certified public expenditures, whereby the hospital would expend its local funding for services to draw down the federal financial participation. Revenues recognized under the Waiver approximated \$33.6 million for the year ended June 30, 2017. The DSRIP is a pay-for-performance initiative that challenges public hospital systems to meet specific benchmarks related to improving health care access, quality and safety and outcomes.

The Bridge to Health Care Reform waiver expired October 31, 2015. On December 30, 2015, the Centers for Medicare and Medicaid Services (CMS) approved Medi-Cal 2020, a five-year renewal of California's Section 1115 Medicaid Waiver, which provides California public hospitals new federal funding through programs that are designed to shift focus away from hospital-based and inpatient care, towards outpatient, primary and preventative care. A renewal of California's Medicaid Waiver was a fundamental component of public hospital's ability to continue to successfully implement the Affordable Care Act (ACA) beyond the primary step of coverage expansion.

The Medi-Cal 2020 waiver features four new programs: (1) a pay-for-performance delivery system transformation and alignment program that is considered the successor to the 2010 Bridge to Reform waiver's DSRIP, known as PRIME (Public Hospital Redesign and Incentives in Medi-Cal); (2) Global Payment Program (GPP) for services to the uninsured in designated public hospital systems; (3) Whole Person Care Pilot Program which would be a county-based, voluntary program to target providing more integrated care for high-risk, vulnerable populations; and (4) Dental Transformation Incentive Program, an optional incentive program to increase the frequency and quality of dental care provided to children.

Payments received under Medi-Cal 2020 Waiver's GPP are utilization based and not dependent on Certified Public Expenditures (CPEs). However, GPP claims are subject to State and Federal audit and final reconciliation. SFGH has established reserves for the uncertainty of future financial impact of potential audit and reconciliation adjustments. Revenues recognized under Medi-Cal 2020 approximated \$98.6 million for the year ended June 30, 2017.

In addition, SFGH was reimbursed by the State of California, under the Short-Doyle Program, for mental health services provided to qualifying residents based on an established rate per unit of service not to exceed an annual negotiated contract amount. During the year ended June 30, 2017, reimbursement under the Short-Doyle Program amounted to approximately \$6.4 million and is included in net patient service revenue.

Unearned Credits and Other Liabilities - As of June 30, 2017, SFGH recorded approximately \$315.0 million in unearned credits and other liabilities, which was comprised of \$275.8 million in unearned

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

credits mainly related to receipts under DSH/Safety Net Care Pool, the LIHP, and AB915 programs, and \$39.2 million in Third Party Settlements payable.

Charity Care - SFGH provides care without charge or at amounts less than its established rates to patients who meet certain criteria under its charity care policy. Charges foregone based on established rates were \$227.7 million and estimated costs and expenses to provide charity care were \$61.2 million in fiscal year 2016-2017.

Other Revenues – SFGH recognized \$66.1 million of realignment funding for the year ended June 30, 2017. With California electing to implement a State-run Medicaid Expansion afforded by the Affordable Care Act, the State anticipates that counties' costs and responsibilities for the health care services for the indigent population will decrease as much of the population becomes eligible for coverage through Medi-Cal or Covered California. Starting July 1, 2013, there is a mechanism that provides for the State to redirect health realignment funds to fund social service programs. The redirected amount will be determined according to a formula that takes into account a county's cost and revenue experience and redirects 80% of the savings realized by the county. The State predetermined an amount of health realignment to be redirected \$3.9 million in fiscal year 2014-2015 and \$12 million in fiscal year 2015-2016 for the City and County of San Francisco and withheld those amounts from health realignment remittances to the City. A final reconciliation has been conducted for fiscal year 2014-15 showing \$0 realignment to be redirected.

Contracts with the University of California San Francisco – The City contracts on a year-to-year basis on behalf of SFGH with the University of California (UC). Under the contract, SFGH serves as a teaching facility for UC professional staff, medical students, residents, and interns who, in return, provide medical and surgical specialty services to SFGH's patients. The total amount for services rendered under the contract for the year ended June 30, 2017, was approximately \$166.6 million.

SFGH Rebuild – The Rebuild projects have been completed and the General Obligation Bonds are accounted for as governmental activity and transactions are accounted for in the City's Governmental Capital Projects Funds.

Gift – From fiscal year 2014-2015 through fiscal year 2015-2016, SFGH has received \$62.4 million from the San Francisco General Hospital Foundation for the acquisition of furniture, fixtures and equipment (FF&E) for the new hospital. As of June 30, 2017, SFGH has spent \$38.8 million from the gift on acquisition of FF&E as stipulated by the donor and recorded the remaining \$23.6 million as Restricted Net Position.

Commitments and Contingencies – As of June 30, 2017, SFGH had outstanding commitments with third parties for capital projects totaling \$16.6 million.

(h) San Francisco Wastewater Enterprise

The San Francisco Wastewater Enterprise (Wastewater Enterprise) was established in 1977, following the transfer of all sewage-system-related assets and liabilities of the City to the Wastewater Enterprise pursuant to bond resolution, to account for the City's municipal sewage treatment and disposal system.

The Wastewater Enterprise collects, transmits, treats, and discharges sanitary and stormwater flows, generated within the City, for the protection of public health and environmental safety. In addition, the Wastewater Enterprise serves, on a contractual basis, certain municipal customers located outside of the City limits, including the North San Mateo County Sanitation District No. 3, Bayshore Sanitary District, and the City of Brisbane. The Wastewater Enterprise recovers, cost of service, through user fees based on the volume and strength of sanitary flow. The Wastewater Enterprise serves approximately 147,591 residential accounts, which discharge about 16.1 million units of sanitary flow per year (measured in hundreds of cubic feet, or ccf) and approximately 16,141 non-residential accounts, which discharge about 7.8 million units of sanitary flow per year.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Pledged Revenues – Wastewater Enterprise's revenues, which consist mainly of sewer service charges, are pledged for the payment of principal and interest on various revenue bonds. Proceeds, from the bonds, provided financing for various capital construction projects and to refund previously issued bonds. These bonds are payable solely from net revenues of Wastewater Enterprise and are

payable through fiscal year ending 2047.

The original amount of revenue bonds issued, total principal and interest remaining, principal and interest paid during fiscal year 2017, applicable net revenues, and funds available for bond debt service are as follows:

Bonds issued with revenue pledge\$	1,072,950
Bond principal and interest remaining due at end of the fiscal year	1,666,275
Net revenues	119,989
Bond principal and interest paid in the fiscal year	60,407
Funds available for revenue debt service	251,543

Commitments and Contingencies – As of June 30, 2017, the Wastewater Enterprise had outstanding commitments, with third parties, for capital projects and for materials and services totaling \$229.7 million.

Pollution Remediation Obligations – As of June 30, 2017, the Wastewater Enterprise recorded \$2.7 million in pollution remediation liability, consisting of \$2.0 million cleanup cost estimate at the Yosemite Creek site, \$0.6 million at the Southeast and Occanside Treatment sites, and \$0.1 million for the hazardous materials at the Southeast plant. The pollution remediation obligation reported in the accompanying statements of net position is based on estimated contractual costs.

Transactions with Other Funds –The Wastewater Enterprise purchased power from Hetch Hetchy Power totaling \$10.7 million for the year ended June 30, 2017. A variety of other City departments provide services such as engineering, purchasing, legal, data processing, telecommunications, and human resources to the Wastewater Enterprise and charge amounts designed to recover those departments' costs. These charges total approximately \$12.5 million for the year ended June 30, 2017, and have been included in services provided by other departments.

(14) SUCCESSOR AGENCY TO THE REDEVELOPMENT AGENCY OF THE CITY AND COUNTY OF SAN FRANCISCO

As discussed in Note 1, the financial statements present the Successor Agency and its component unit, an entity for which the Successor Agency is considered to be financially accountable. The City and County of San Francisco Redevelopment Financing Authority (Financing Authority) is a joint powers authority formed between the former Agency and the City to facilitate the long-term financing of the former Agency's activities. The Financing Authority is included as a blended component unit in the Successor Agency's financial statements because the Financing Authority provides services entirely to the Successor Agency.

Pursuant to the Redevelopment Dissolution Law, funds that would have been distributed to the former Agency as tax increment, hereafter referred to as redevelopment property tax revenues, are deposited into the Successor Agency's Redevelopment Property Tax Trust Fund (Trust Fund) administered by the City's Controller for the benefit of holders of the former Agency's enforceable obligations and the taxing entities that receive pass-through payments. Any remaining funds in the Trust Fund, plus any unencumbered redevelopment cash and funds from asset sales are distributed by the City to the local agencies in the project area unless needed to pay enforceable obligations.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

On May 29, 2013, the California Department of Finance (DOF) granted a Finding of Completion for the Successor Agency. Pursuant to Health and Safety Code (HSC) section 34179.7, the DOF verified that the Successor Agency does not owe any amounts to the taxing entities as determined under HSC section 34179.6, subdivisions (d) or (e) and HSC section 34183.5. With a Finding of Completion, the Successor Agency may proceed with (1) placing loan agreements between the former Agency and the City on the Recognized Obligation Payments Schedule (ROPS) as enforceable obligations, provided the Oversight Board makes a finding that the loan was for legitimate redevelopment purposes per HSC, and (2) utilize proceeds derived from bonds issued prior to January 1, 2011, in a manner consistent with the original bond covenants.

In addition, the receipt of the Finding of Completion allowed the Successor Agency to submit a Long Range Property Management Plan (LRPMP) to the Oversight Board and the DOF for approval. The LRPMP pertains to the disposition and use of real properties held by the Successor Agency. Part 1 of the LRPMP, which addresses the disposition of property located at 706 Mission Street, was approved by the DOF on October 4, 2013. During fiscal year 2016, the property was transferred in accordance with the terms and closing conditions of the 706 Mission Purchase and Sale Agreement. After incorporating feedback from the DOF, the remainder of the LRPMP was approved by the Oversight Board on November 23, 2015, and by the DOF on December 7, 2015.

In September 2015, the State passed Senate Bill 107 (SB 107) which clarifies and updates existing law governing the dissolution of redevelopment agencies. SB 107 includes specific language that allows the Successor Agency to issue bonds or other indebtedness for the purposes of low and moderate income housing and infrastructure in the City by allowing the pledge of revenues available in the Trust Fund that are not otherwise pledged subject to the approval of the Oversight Board. SB 107 also declares that Mission Bay North, Mission Bay South, Hunters Point Shippard Phase 1, Candlestick Point - Hunters Point Shipyard Phase 2, and Transbay projects are finally and conclusively approved as enforceable obligations.

(a) Capital Assets Held by the Successor Agency

For the year ended June 30, 2017, the summary of changes in capital assets is as follows:

		Balance July 1, 2016		Additions		Deletions		Transfers		Balance June 30, 2017	
Capital assets not being depreciated: Land held for lease Construction in progress	s	54,769 1,820	\$	2,224	s	(10,034)	\$	(3,791)	s	44,735 253	
Total capital assets not being depreciated		56,589		2,224		(10,034)		(3,791)		44,988

Less accumulated depreciation for: Furniture and equipment Building and improvements		(8,104) (93,460)		(9) (4,940)		3				(8,113) (98,400)	
Total accumulated depreciation		(101,564)		(4,949)		-		-		(106,513)	
Total capital assets being depreciated, net		108,632		(4,949)		4/2		3,791		107,474	
Total capital assets, net	\$	165,221	\$	(2,725)	S	(10,034)	\$		\$	152,462	

During the year ended June 30, 2017, the Successor Agency transferred land with a book value of \$10.0 million to a developer for an affordable housing development project at the Transbay Project Area. The transfer of the property was recorded as a deduction in the statement of changes in fiduciary net position.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

(b) Summary of the Successor Agency's Long-Term Obligations

Entity and Type of Obligation	Final Maturity Date	Remaining Interest Rate		Amount
Hotel tax revenue bonds (a)	2025	5.00%	\$	30,995
Tax allocation revenue bonds (b)	2047	1.45% - 9.00%		970,381
California Department of Boating and				
Waterways Loan ^(c)	2037	4.50%		6,630
Total long-term bonds and loans			\$ 1	1,008,006

Debt service payments are made from the following sources:

- (a) Hotel taxes from the occupancy of guest rooms in the hotels within the City.
- (b) Redevelopment property tax revenues from the Bayview Hunters Point, Western Addition, Rincon Point South Beach, Yerba Buena Center, India Basin, South of Market, Golden Gateway, Mission Bay South, Transbay, and Mission Bay North project areas.
- (c) South Beach Harbor Project revenues (subordinated to Refunding Bonds).

Issuance of Successor Agency Bonds – On December 24, 2013, the DOF released its letter approving the issuance of bonds by the Successor Agency. On September 20, 2016, the Successor Agency issued Tax Allocation Revenue Bonds Series 2016 D (2016 Series D Bonds) for \$74.7 million. On March 29, 2017, the Successor Agency issued three revenue bonds, Tax Allocation Revenue Bonds Series 2017 A (2017 Series Bonds) for \$89.8 million, Tax Allocation Revenue Bonds Series 2017 B (2017 Series Bonds) for \$1.9 million and Tax Allocation Revenue and Refunding Bonds Series 2017 C (2017 Series C Bonds) for \$43.4 million.

Proceeds from the 2016 Series D Bonds were used to finance certain redevelopment activities of the Successor Agency within or of benefit to the Mission Bay South Redevelopment Project Area. The 2016 Series D Bonds bear fixed interest rates ranging from 3.00% to 5.00% and reach final maturity on August 1, 2043.

Proceeds from the 2017 Series A Bonds were used to finance certain affordable housing projects of the Successor Agency within or of benefit to the Bayview Hunters Point Redevelopment Project Area. The 2017 Series A Bonds bear fixed interest rated ranging from 2.19% to 4.38% and reach final maturity on August 1, 2044.

Proceeds from the 2017 Series B Bonds were used to finance certain infrastructure projects of the Successor Agency within or of benefit to the Transbay Redevelopment Project Area. The 2017 Series B Bonds bear fixed interest rates of 5.00% and reach final maturity on August 1, 2046.

Proceeds of \$22.0 million of the 2017 Series C Bonds will be used to finance certain redevelopment activities of the Successor Agency within or of benefit to the Mission Bay South Redevelopment Project Area. The remaining proceeds from the 2017 Series C Bonds were used to refund Tax Allocation Bonds Series 2006 A, Series 2009 E, and Series 2011 E in the amount of \$3.2 million, \$5.0 million, and \$9.4 million, respectively. The refunding resulted in net present value savings of \$2.2 million and an accounting loss of \$3.1 million. The 2017 Series C Bonds bear fixed interest rates ranging from 1.45% to 4.38% and reach final maturity on August 1, 2043.

Pledged Revenues for Bonds — The Tax Allocation Bonds are equally and ratably secured by the pledge and lien of the redevelopment property tax revenues (i.e., the former tax increment). These revenues have been pledged until the year 2047, the final maturity date of the bonds. The total principal and interest remaining on these bonds is approximately \$1.72 billion. The redevelopment property tax revenues recognized during the year ended June 30, 2017, were \$129.2 million against the total debt service payment of \$84.1 million.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

The Hotel Tax Revenue Bonds are secured by the pledge and lien of the hotel tax revenue received by the Successor Agency from the City. These revenues have been pledged until the year 2025, the final maturity of the bonds. The total principal and interest remaining on the Hotel Tax Revenue Bonds is approximately \$38.2 million. The hotel tax revenue recognized during the year ended June 30, 2017 was \$4.9 million which equaled the total debt service payment.

The changes in long-term obligations for the Successor Agency for the year ended June 30, 2017, are as follows:

		July 1, 2016	Ol	dditional oligations, Interest accretion and Net accreases	Re	Current laturities, etirements, and Net ecreases		June 30, 2017	
Bonds payable:

^{*} Includes payment of accreted interest

During the year ended June 30, 2010, the former Agency borrowed \$16.5 million from the Low and Moderate Income Housing Fund (LMIHF) to make payment of \$28.7 million to the Supplemental Education Revenue Augmentation Funds (SERAF) to meet the State's Proposition 98 obligations to schools. Upon dissolution of the former Agency, the City elected to become the Housing Successor Agency and retained the former Agency's housing assets and functions, rights, powers, duties, and obligations. In accordance with HSC Section 34191.4(b)(3), interest is accrued quarterly at an annual

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

a of 20/ on the principal belones due to the City. For the

rate of 3% on the principal balance due to the City. For the year ended June 30, 2017, interest in the amount of \$0.3 million was accrued, and the Successor Agency made payments in the amount of \$1.8 million to the City. The outstanding payable balance at June 30, 2017, was \$13.1 million, which was comprised of principal of \$10.0 million and accrued interest of \$3.1 million.

As of June 30, 2017, the Successor Agency also has a payable to the City in the amount of \$0.6 million for services provided.

(c) Commitments and Contingencies Related to the Successor Agency

Encumbrances - At June 30, 2017, the Successor Agency had outstanding encumbrances totaling approximately \$46.6 million.

Risk Management - The Successor Agency obtained coverage for personal injury, automobile liability, public official errors and omissions and employment practices liability with limits of \$10.0 million per occurrence (\$5.0 million for employment practices liability) and a \$0.03 million deductible per

Operating Lease - The Successor Agency has noncancelable operating leases for its office sites and a Master Lease Option Agreement with the San Francisco Port Commission; these are enforceable obligations of the Successor Agency. As of June 30, 2017, the Successor Agency has exercised several of the lease options. The leases require the following minimum annual payments.

Fiscal		Fiscal	
Years		Years	
2018	\$ 870	2023-2027	\$ 4,351
2019	870	2028-2032	4,351
2020	870	2033-2037	4,351
2021	870	2038-2042	4,351
2022	870	2043-2047	4,351
		2048-2051	 1,958
		Total	\$ 28,063

Rent payments totaling \$1.4 million are included in the Successor Agency's financial statements for the vear ended June 30, 2017.

Regarding rental income, the Successor Agency has noncancelable operating leases on various facilities within project areas. The minimum future rental income are as follows:

Fiscal Years		Fiscal Years	
2018	\$ 3,716	2028-2032	\$ 18,172
2019	3,596	2033-2037	19,198
2020	3,582	2038-2042	20,292
2021	3,590	2043-2047	18,515
2022	3,633	2048-2050	1,482
2023-2027	18,047		
		Total	\$ 113,823

For the year ended June 30, 2017, operating lease rental income for noncancelable operating leases was \$10.3 million, of which \$6.5 million represents contingent rental income received. At June 30, 2017, the leased assets had a net book value of \$34.9 million.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Notes and Mortgages Receivable – During the process of selling land to developers and issuing mortgage revenue bonds, the Successor Agency may defer receipt of land sale proceeds and mortgage revenue bond financing fees from various private developers in exchange for notes receivable, which aids the developers' financing arrangements. The Successor Agency recognizes all revenues and interest on the above-described arrangements when earned, net of any amounts deemed to be uncollectible. During the year ended June 30, 2017, the Successor Agency disbursed \$66.0 million to the developers through this arrangement and recorded an allowance against these receivables. This allowance is recorded as deductions in the financial statements. At June 30, 2017, the gross value of the notes and mortgage receivable was \$176.7 million and the allowance for uncollectible amounts was \$175.0 million.

Conduit Debt - Various community facility district bonds and mortgage revenue bonds have been issued by the former Agency on behalf of various developers and property owners who retain full responsibility for the repayment of the debt. When these obligations are issued, they are secured by the related mortgage indebtedness and special assessment taxes, and, in the opinion of management, are not considered obligations of the Successor Agency or the City and are therefore not included in the financial statements. Debt service payments will be made by developers or property owners. All of the mortgage revenue bonds issued by the former Agency were transferred to the City upon the dissolution of the former Agency. At June 30, 2017, the Successor Agency had outstanding community facility district bonds totaling \$188.6 million.

Transbay Transit Center Agreements - In July 2003, the City, the Transbay Joint Powers Authority (TJPA), and the State of California acting through its Department of Transportation (Calitrans) entered into the Transbay Transit Terminal Cooperative Agreement (Cooperative Agreement) in which Caltrans agreed to transfer approximately 10 acres of State-owned property in and around the then-existing Transbay Terminal to the City and the TJPA to help fund the development of the Transbay Transit Center (TTC). The Cooperative Agreement requires that the TJPA sell certain State-owned parcels and use the revenues from the sales and the net tax increments to finance the TTC.

In 2008, the City and the former Agency entered into a binding agreement with the TJPA that irrevocably pledges all sales proceeds and net tax increments from the State-owned parcels to the TJPA for a period of 45 years (Pledge Agreement). At the same time, the City, the TJPA and the former Agency entered into an Option Agreement which grants options to the former Agency to acquire the State-owned parcels, arrange for development of the parcels, and distribute the net tax increments to the TJPA to use for the TTC. During the year ended June 30, 2017, the Successor Agency received \$5.4 million from a developer and distributed the funds to the TJPA. The payment was recorded as a neighborhood development deduction on the statement of changes in fiduciary net position.

(15) TREASURE ISLAND DEVELOPMENT AUTHORITY

The Treasure Island Development Authority (TIDA) is a nonprofit public benefit corporation. TIDA was authorized in accordance with the Treasure Island Conversion Act of 1997. TIDA is governed by seven members of the TIDA Board of Directors who are appointed by the Mayor, subject to confirmation by the City's Board of Supervisors. The specific purpose of TIDA is to promote the planning, redevelopment, reconstruction, rehabilitation, reuse and conversion of the property known as Naval Station Treasure Island for the public interest, convenience, welfare and common benefit of the inhabitants of the City.

The services provided by TIDA include administering the acquisition of former Naval Station Treasure Island with the U.S. Navy and implementing the Treasure Island Development Project; renting existing Treasure Island facilities including commercial facilities and approximately 700 housing units to generate revenues to cover operating costs; maintaining Treasure Island utilities, facilities and other infrastructure; and overseeing the U.S. Navy's remediation activities on the former naval base.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

In early 2000, TIDA initiated a master developer selection process, culminating in the selection of Treasure Island Community Development, LLC (TICD) in March 2003. TIDA and TICD entered into an Exclusive Negotiating Agreement in 2003, and began work on the Development Plan and Term Sheet for the Redevelopment of Naval Station Treasure Island (Development Plan). The Development Plan was endorsed by the TIDA Board and the San Francisco Board of Supervisors in December 2006. In May 2010, the TIDA Board and Board of Supervisors both unanimously endorsed a package of legislation that included an Update to the Development Plan and Term Sheet, terms of an Economic Development Conveyance Memorandum of Agreement (EDC MOA Term Sheet), and a Term Sheet between TIDA and the Treasure Island Homeless Development Initiative (TIHDI).

In April 2011, the TIDA Board and the Planning Commission certified the environmental impact report for the project and approved various project entitlements, including amendments to the Planning Code, Zoning Maps and General Plan, as well as a Development Agreement, Disposition and Development Agreement and Interagency Cooperation Agreement. These entitlements include detailed plans for land uses, phasing, infrastructure, transportation, sustainability, housing – including affordable housing, jobs and equal opportunity programs, community facilities and project financing. In June 2011, the Board of Supervisors unanimously upheld the certification of the project's environmental impact report and approved the project entitlements. These project approvals established the framework and cleared the way for realization of a new environmentally sustainable community on Treasure Island and the thousands of construction and permanent jobs the construction will bring.

On May 29, 2015, the Navy made the first transfer of property to TIDA consisting of 275 acres on Yerba Buena and Treasure Islands and the offshore submerged lands. Existing structures on Yerba Buena were demolished between February and August 2016, and structures in the first area of development on Treasure Island were demolished between July 2016 and February 2017. The first infrastructure construction projects - new water reservoirs and new roadways, utilities, and related facilities on Yerba Buena Island - were awarded and the contractor has mobilized, with vertical construction beginning in late 2018, and the first new homes ready for occupancy in 2020. A second transfer from the Navy to TIDA of roughly 7 acres on Treasure Island was completed in September of 2016. The complete buildout of the project is anticipated to occur over fifteen to twenty years.

In July 2008, and amended several times over the intervening years, the Transportation Authority entered into a loan agreement with TIDA in the amount of \$11.0 million for the repayment of costs related to the Yerba Buena Island (YBI) Interchange Improvement Project. Under the terms of the agreement, TIDA was to repay the Transportation Authority for all project costs incurred by the Transportation Authority and accrued interest, less federal government reimbursements to the Transportation Authority. Under the Disposition and Development Agreement the loan repayment obligation was assumed by TICD. The repayment to the Transportation Authority was structured to be paid by TIDA in three installments with the first installment equal to 50% of the current balance being due 30 days after the first close of escrow for transfer of the Naval Station Treasure Island to TIDA from the Navy. The second installment was due on the anniversary of the first installment in an amount of 50% of the then current balance, and a final payment of the remaining balance of the loan was due on December 31, 2016. The initial loan and all accrued interest have been repaid. The Transportation Authority will invoice TIDA quarterly for any future project costs not eligible for federal reimbursement.

As of June 30, 2017, TIDA has the following payables to other City departments:

			6/30/2	017		
Payable to	Purpose	С	urrent	Non	current	Total
Transportation Authority	YBI and mobility management expenses	\$	1,389	\$	-	\$ 1,389

(16) INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

"Due to" and "due from" balances have primarily been recorded when funds overdraw their share of pooled cash or when there are transactions between entities where one or both entities do not participate in the City's pooled cash or when there are short-term loans between funds. The composition of interfund balances as of June 30, 2017 is as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Nonmajor Governmental Funds	\$ 10,108
	San Francisco Water Enterprise	7
	Municipal Transportation Agency	627
	San Francisco Wastewater Enterprise	84
	Port of San Francisco	100
		10,926
Nonmajor Governmental Funds	General Fund	178
•	Nonmajor Governmental Funds	1,806
	Internal Service Funds	1,787
	Municipal Transportation Agency	2,853
		6,624
General Hospital Medical Center	Nonmajor Governmental Funds	2
San Francisco Water Enterprise	General Fund	20
Carr ranoisco viator Emerphico	Nonmajor Governmental Funds	342
		362
Hetch Hetchy Water and Power Enterprise	Nonmajor Governmental Funds	6,618
	General Hospital Medical Center	350
	San Francisco Wastewater Enterprise	1,166
	CleanPower Enterprise	387
		8,521
Municipal Transportation Agency	General Fund	225
	Nonmajor Governmental Funds	31,517
		31,742
San Francisco Wastewater Enterprise	General Fund	137
,		
Total		\$ 58,314

In addition to routine short-term loans, Hetch Hetchy serves as the City's agency for energy efficiency projects and maintains the Sustainable Energy Account (SEA) to sponsor and financially support such projects at various City departments. In this role, Hetch Hetchy may secure low-interest financing to supplement funds available in the SEA fund. At June 30, 2017, Hetch Hetchy loaned \$6.9 million to other City funds. Hetch Hetchy is also due \$1.2 million from the Wastewater Enterprise for its share of costs relating to 525 Golden Gate Headquarters project for equipment.

The SFMTA has a receivable from nonmajor governmental funds of \$31.5 million for capital and operating grants.

The \$857.6 million General Fund transfer out includes a total of \$540.0 million in operating subsidies to SFMTA, SFGH, and Laguna Honda Hospital (note 13). The transfer of \$315.3 million from the General Fund to the nonmajor governmental funds is to provide support to various City programs such as the Public Library and Children and Families Fund, as well as to provide resources for the payment of debt service.

The transfers between the nonmajor governmental funds in the amount of \$65.5 million are to provide support for various City programs and to provide resources for the payment of debt service. In addition in fiscal year 2017, the proceeds from the sale of properties at 30 Van Ness Avenue and 1660-1680 Mission Street in the amount of \$93.9 million were transferred to nonmajor capital projects fund for the 1500 Mission Street development project and \$24.3 million were transferred to nonmajor debt service fund to pay down outstanding certificates of participation as previously discussed.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

San Francisco International Airport transferred \$45.0 million to the General Fund, representing a portion of concession revenues (note 13(a)). The General Fund received transfers in of \$3.0 million for interest earned by the SFGH but credited to the General Fund and \$7.2 million from SFGH's return of excess project funds. SFGH transferred to the General Fund \$0.1 million and Laguna Honda Hospital \$0.5 million, respectively, for equipment lease payments. The General Fund also received \$23.0 million from SFGH and \$2.0 million from Laguna Honda Hospital to fund the DPH project and \$0.2 million for interest earned by the Laguna Honda Hospital funds but credited to the General Fund. Laguna Honda Hospital funds received \$2.4 million from nonmajor governmental funds for the Laguna Honda Hospital improvement project close out.

SFMTA received \$148.6 million transfers from nonmajor governmental funds, of which \$97.1 million was for capital activities, \$23.4 million was for operating activities, and \$28.1 million to fund various street improvement projects. In turn, the SFMTA transferred \$1.0 million to nonmajor governmental funds to pay for various street improvement projects. SFMTA also received \$68.9 million transfer of capital assets from governmental functions for various capital projects and improvements, mainly related to Sustainable Street activities, which is recorded in the governmental activities in the statement of activities.

The Water Enterprise transferred \$60.0 million to Hetch Hetchy Water and Power Enterprise to fund various upcountry projects, \$100 to San Francisco Recreation and Parks Department mainly for water saving improvements at Alamo Square Park, \$16 credited to the transfer out from Laguna Honda Hospital funds for excess project funds, and \$32 to the Office of the City Administrator for the Surety Bond Program. In turn, the Water Enterprise received \$100 from the City mainly for the San Francisco War Memorial Veterans Building project and \$28 from Recreation and Parks Department for return of excess project funds.

The Wastewater Enterprise transferred \$30.1 million to the City related to the purchase of the property adjacent to the Southeast Water Pollution Control Plant ("Southeast Plant"), \$0.6 million to Art Commission for art enrichment and \$32 to the Office of the City Administrator for the Surety Bond Program. On the other hand, the Wastewater Enterprise received \$40 transfer from General Fund for community projects.

(17) COMMITMENTS AND CONTINGENT LIABILITIES

Operating Leases

The City has noncancelable operating leases for certain buildings and data processing equipment, which require the following minimum annual payments (in thousands):

The Airport and Port have certain rental agreements with concessionaires, which specify that rental payments are to be based on a percentage of tenant sales, subject to a minimum amount. Concession percentage rents in excess of minimum guarantees for the Airport and Port were approximately \$29.6 million and \$17.7 million, respectively, in fiscal year 2016-17. The Airport also exercised a five-year car rental lease agreement option effective January 1, 2014. Under this agreement the rental car companies will pay 10% of gross revenues or a minimum guaranteed rent, whichever is higher; also in accordance with the terms of their concession agreement, the minimum annual guarantee (MAG) for the rental car operators does not apply if the actual enplanements achieved during a one-month period is less than 80% of the actual enplanements of the same reference month in the reference year, and such shortfall continues for three consecutive months. The MAG attributable to the rental car companies was approximately \$42.5 million for fiscal year 2016-17.

Other Commitments

The Retirement System has unfunded commitments to contribute capital for real assets in the amount of \$2.1 billion, private equity in the amount of \$2.6 billion, private credit Investments (formerly known as opportunistic fixed income) in the amount of \$0.6 billion, and absolute return investments in the amount of \$73.8 million, which totaled \$5.31 billion at June 30, 2017.

In February 2011, the Asian Art Museum Foundation (Foundation) entered into an agreement with JP Morgan Chase Bank to refinance its obligations of \$97.0 million. To facilitate the refinancing, the City entered into an assurance agreement which, in the event of nonpayment by the Foundation, requires the City to seek an appropriation to make debt payments as they become due. Since the City has not legally guaranteed the debt, and the City believes that the likelihood of nonpayment by the Foundation is remote, no amount is recorded in the City's financial statements related to this agreement.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

(18) RISK MANAGEMENT

Risk Retention Program Description

The City is exposed to various risks of losses related to torts, theft of, damage to, and destruction of assets; business interruption; errors and omissions; automobile liability and accident claims (primarily for SFMTA); medical malpractice; natural disasters; employee health benefit claim payments for direct provider care (collectively referred to herein as estimated claims payable); and injuries to employees (workers' compensation). With certain exceptions, it is the policy of the City not to purchase commercial insurance for the risks of losses to which it is exposed. Instead, the City believes it is more economical to manage its risks internally and set aside funds as needed for estimated current claim settlements and unfavorable judgments through annual appropriations and supplemental appropriations.

The Airport carries general liability insurance coverage of \$1.00 billion with \$250.0 million in War Perils Liability, subject to a deductible of \$10 per single occurrence and commercial property insurance coverage for full replacement value on all facilities at the Airport owned by the Airport, subject to a limit of \$1.00 billion per single occurrence and a deductible of \$500 per single occurrence. The Airport carries public officials liability and employment practices liability coverage of \$5.0 million, subject to a deductible of \$100 per single occurrence for each employment practices violation. The Airport also carries insurance for public employee dishonesty, fine arts, electronic data processing equipment, and watercraft liability for Airport fire and rescue vessels and target range liability for the San Francisco Police Department's firearms range located at the Airport. The Airport does not have liability insurance coverage for losses due to land movement or seismic activity, war, terrorism and hijacking.

The Port carries the following insurance: 1) marine general liability coverage of \$100.0 million, subject to a deductible of \$100 per occurrence; 2) hull and machinery liability coverage of \$1.1 million, subject to a deductible of \$100 per occurrence; 3) commercial property insurance for losses up to the insured appraised value of Port facilities, subject to a maximum of \$1.00 billion and a deductible of \$750 per occurrence (\$150 per occurrence for the Port's cargo cranes); and 4) public officials and employee liability coverage of \$5.0 million, subject to a deductible of \$50 per occurrence. The Port also carries insurance coverage for employee dishonesty, auto liability, property damage for certain high value Port vehicles, water pollution, and data processing equipment. Tenants whose operations pose a significant environment risk are also required to post an environmental oversight deposit and an environmental performance deposit.

The SFMTA risk treatment program encompasses both self-insured and insured methods. Insurance purchase is generally coordinated through the City's Risk Management Division, and in some specific cases, directly by the agency. Self-insurance is when the City manages the risks internally and administers, adjusts, settles, defends, and pays claims from budgeted resources, i.e., pay-as-you-go. SFMTA's general policy is to first evaluate self-insurance for the risks of loss to which it is exposed. When economically more viable or when required by debt financing covenants, SFMTA purchases insurance as necessary or required.

Risks	Coverage
a. General/Transit Liability	Self-insure
b. Property	Self-insure and purchase insurance
c. Workers' Compensation	Self-insure
d. Employee (transit operators)	Purchase insurance
e. Directors and Officers	Purchase insurance

The SFMTA is self-insured for general liability. Through coordination with the Controller and City Attorney's Office, the SFMTA general liability payments are addressed through pay-as-you-go funding as part of the budgetary process as well as a reserve that is increased each year by approximately \$3.0 million. As of June 30, 2017. the reserve was \$22.4 million. Claim liabilities are actuarially determined

146

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

anticipated claims and projected timing of disbursement, considering recent claim settlement trends, inflation, and other economic social factors.

The SFMTA purchases property insurance on scheduled facilities, Breda light rail cars, and personal property. Also, insurance is purchased for scheduled City parking garages covering blanket property and business interruptions. Damages to facilities and property outside of the specified schedules are self-insured. SFMTA has purchased group life insurance and a Group Felonious Assault Coverage Insurance on transit operators per a Memorandum of Understanding with the Transport Workers' Union and has purchased insurance to cover errors and omissions of its board members and senior management.

Settled claims have not exceeded commercial insurance coverage in any of the past three fiscal years. Expenditures and liabilities for all workers' compensation claims and other estimated claims payable are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claim liabilities does not necessarily result in an exact amount. Claim liabilities are re-evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other legal and economic factors. The recorded liabilities have not been discounted

Estimated Claims Payable

Numerous lawsuits are pending or threatened against the City. The City's liability as of June 30, 2017 has been actuarially determined and includes an estimate of incurred but not reported losses and allocated loss adjustment expenses.

Changes in the reported estimated claims payable since July 1, 2015, resulted from the following activity:

			(Current						
	В	eginning	Yea	ar Claims				Ending		
	Fi	scal Year	and	and Changes		and Changes Claim		Claim	Fiscal Y

Total	. \$	94,680

Workers' Compensation

The City self-insures for workers' compensation coverage. The City's liability as of June 30, 2017 has been actuarially determined and includes an estimate of incurred but not reported losses. The total amount estimated to be payable for claims incurred as of June 30, 2017 was \$435.8 million, which is reported in the appropriate individual funds in accordance with the City's accounting policies.

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Changes in the reported accrued workers' compensation since July 1, 2015, resulted from the following activity:

(19) SUBSEQUENT EVENTS

(a) Long-term Debt Issuance

In July 2017, the City issued Certificates of Participation (Moscone Convention Center Expansion Project) Series 2017B (Certificates) in the amount of \$412.4 million, the proceeds of which will be used to: (1) retire certain commercial paper certificates of the City, the proceeds of which financed a portion of the cost of acquisition, construction, renovation, equipping of improvements to the existing site and facilities of Moscone Center; (2) finance or refinance the costs of certain capital improvements to the Moscone Center; (3) pay capitalized interest payable with respect to the Certificates through April 1, 2018; (4) fund the Reserve Account of the Reserve Fund established under the Trust Agreement for the Certificates; and (5) pay for costs of execution and delivery of the Certificates. The Certificates bear interest rates ranging from 3.0% and 5.0% and will mature from April 2019 through April 2042.

In July 2017, the City issued a total of \$19.8 million tax-exempt commercial paper (CP) with interest rates of 0.90% and 0.93% and maturing in September and October 2017. The CP was issued to refund \$19.8 million of maturing CP for capital equipment for the San Francisco General Hospital and Trauma Center.

In September 2017, the City issued \$14.3 million tax-exempt CP to refinance \$11.8 million maturing CP for the San Francisco General Hospital capital equipment project and finance \$2.0 million for the Animal Care and Control project. The CP bears an interest rate of 0.85% and will mature on December 2017.

In September 2017, the San Francisco Public Utilities Commission (SFPUC) entered into an Installment Sale Agreement with the State Water Resources Control Board for a Clean Water State Revolving Fund (CWSRF) Loan and Grant to fund the Water Enterprise's SF Westside Recycled Water Project. The CWSRF loan is in the amount of \$171.2 million and will bear interest rate of 1.0% for a 30-year term, with repayments beginning one year after substantial completion of project construction. The CWSRF loan is secured on a parity lien basis with the Water Enterprise's outstanding revenue bonds. The grant is in the amount of \$15.0 million.

CITY AND COUNTY OF SAN FRANCISCO

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

In September 2017, the SFPUC entered into Installment Sale Agreements with the State Water Resources Control Board for three CWSRF Loans to fund certain projects of the Wastewater Enterprise's Sewer System Improvement Program. The aggregate amount of the CWSRF loans is \$94.7 million, each of which will bear an interest rate equal to one-half of the State of California's most recent 30-year General Obligation Bond true interest cost. The CWRSF loans will each have a 30-year term, with repayment beginning one year after substantial completion of each project's construction. The CWSRF loans are secured on a parity lien basis with the Wastewater Enterprise's outstanding revenue bonds.

In October 2017, the City issued \$8.0 million tax-exempt CP with interest rate of 0.94% and maturity of December 2017. The CP will refinance \$8.0 million maturing CP for the San Francisco General Hospital capital equipment project, the 1500 Mission project, and the Animal Care and Control project.

In November 2017, the Transportation Authority issued Senior Sales Tax Revenue Bonds Series 2017 (Series 2017) in the amount of \$248.3 million. The Series 2017 was issued to (1) finance a portion of the costs of construction, acquisition and improvement of certain transit, street and traffic facilities and other transportation projects, including engineering, inspection, legal, fiscal agents, financial consultant and other fees and working capital; (2) repay a portion of the outstanding obligation of a revolving loan and a promissory note of the Transportation Authority; (3) pay a portion of the capitalized interest of the Series 2017; and (4) pay costs of issuance of the Series 2017. The Series 2017 matures from February 2020 through February 2034 with interest rates ranging from 3.0% to 4.0% and will be repaid through sales tax collection in the subsequent years.

In November 2017, the City, on behalf of the Community Facilities District No. 2014-1 (Transbay Transit Center) issued Special Tax Bonds Series 2017A and 2017B (2017 Bonds) in the amount of \$36.1 million and \$171.4 million, respectively. The 2017 Bonds were issued to fund: 1) various capital improvements; including streets and sidewalk improvement in the vicinity of the transit building (the "Salesforce Transit Center," formerly known as the Transbay Transit Center) and the development and improvement of the adjacent open space; 2) the planning, design, engineering and construction of the core and shell of the two below-grade levels of the Salesforce Transit Center; 3) a portion of the design, engineering and construction of the transit center rooftop park; 4) a debt service reserve fund; 5) capitalized interest for a portion of the interest on the 2017 Bonds; and 6) cost of issuance of the 2017 Bonds. The 2017 Bonds mature from September 2018 through September 2048 with interest rate ranging from 1.5% to 4.0%. The 2017 Bonds are limited obligations of the City, secured and payable solely from the Special Tax Revenues pledged under the Fiscal Agent Agreement and are not payable from any other source of funds. The General Fund of the City is not liable for the payment of the principal of or interest on the 2017 Bonds, and neither the credit nor the taxing power of the City or the State of California or any its political subdivision is pledged to the payment of the 2017 Bonds.

In December 2017, the City issued \$21.0 million tax-exempt CP with an interest rate of 1.04% and maturity of February 2018. The CP will refinance \$20.7 million maturing CP for the San Francisco General Hospital capital equipment project, 1500 Mission Street project, and Animal Care and Control project

Issuance of Capital Plan Bonds and Refunding Bonds and Swaps Termination

In October 2017, the Airport issued \$571.6 million in Second Series Revenue Bonds, Series 2017A and 2017B, a portion of which will be used to finance and refinance (through the repayment of \$300.5 million of commercial paper notes) a portion of the costs of capital improvements to the Airport; \$45.1 million in Second Series Revenue Refunding Bonds, Series 2017C, to fund a deposit to the Contingency Account, to finance a \$12.6 million termination payment on a portion of the interest rate swaps associated with the Second Series Revenue Refunding Bonds, Issue 36A, 36B, and 36C, and to pay costs of issuance of its Second Series Revenue Refunding Bonds, Series 2017D; and \$144.8 million in Second Series Revenue Refunding Bonds, Series 2017D to refund the remaining \$164.6 million principal amount of the Second Series Revenue Refunding Bonds, Series 2017D and \$6. The Airport also expects to issue in February 2018, \$115.4 million in Second Series Revenue

Notes to Basic Financial Statements (Continued)

June 30, 2017 (Dollars in Thousands)

Refunding Bonds, Series 2018A, under a forward purchase agreement executed on October 11, 2017, for the purpose of refunding \$140.1 million in outstanding Second Series Revenue Refunding Bonds, Issue 34E. Moody's, S&P, and Fitch assigned credit ratings of "A1", "A+", and "A+" to these bonds.

The Airport issued an additional \$152.4 million in subordinate CP notes in July 2017, for a total of \$330.4 million subordinate commercial paper notes outstanding.

Interest Rate Swaps - LIBOR

In July 2017, the United Kingdom (UK) Financial Conduct Authority, the UK markets regulator, indicated that the London Interbank Overnight Rate (LIBOR) would be phased out by the end of 2021. The Airport's interest rate swap agreements calculate the variable rate payment owed from each counterparty to the Airport each month using LIBOR plus a certain spread. At least a portion of the Airport's swaps are not scheduled to terminate until May 1, 2030. The Airport expects its interest rate swap agreements to be modified to reflect the permanent discontinuation of LIBOR and its substitution with a new variable rate benchmark or variable rate-setting mechanism.

Credit Ratings Changes

In October 2017, Fitch downgraded the long-term credit rating of Wells Fargo Bank, N.A. ("Wells Fargo"), which provides a \$100.0 million principal amount irrevocable letter of credit in support of the Airport's Second Series Variable Rate Revenue Refunding Bonds, Issue 36A. As a result, on October 4, 2017, Fitch lowered its long-term jointly supported rating on the Issue 36A Bonds from "AAA" to "AA+." Fitch's short-term rating on the Issue 36A Bonds ("F1+") remained unchanged. Fitch's underlying long-term rating on the Issue 36A Bonds ("A+") also remained unchanged.

Property Purchase

In July 2017, the City purchased property at 1500 Mission Street in San Francisco for \$56.2 million, which will be developed into a mixed-use complex for housing, retail, and City office space. The purchase was partially funded by the sales of City property at 1660-1680 Mission Street and 30 Van Ness Avenue.

In September 2017, the Water Enterprise purchased property at 1657-1663 Rollins Road in Burlingame, CA that has served as the primary work location for various staff of the Water Enterprise. The \$9.1 million purchase was funded by proceeds from Water Enterprise Revenue Bonds.

Insurance Settlement for Pacific Rod & Gun Club

In October 2017, the Board of Supervisors approved the settlement of a lawsuit between the Water Enterprise and the Pacific Rod & Gun Club. The Ordinance was signed by the Mayor on November 3, 2017. The Water Enterprise will receive an insurance settlement for \$8.3 million relating to the excavation of contaminated soil that contained polycyclic aromatic hydrocarbons from the Pacific Rod & Gun Club site in the Lake Merced area.

Notes to Schedule:

SFERS Plan

Benefit Changes – The impact of benefit changes for the year ended June 30, 2017, which was \$1.22 billion, was recognized immediately as pension expense.

Changes of Assumptions – For the year ended June 30, 2017, the discount rate was increased from 7.46% to 7.50%. For the year ended June 30, 2016, the discount rate was reduced from 7.58% to 7.46%

CalPERS Miscellaneous Plans

Benefit Changes – The figures above do not include any liability impact that may have resulted from plan changes which occurred after the June 30, 2015 valuation date. This applies for voluntary benefit changes as well as any offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes).

Changes of Assumptions – There were no changes of assumptions during the measurement period ended June 30, 2016. The discount rate was changed from 7.50% (net of administrative expense) in 2015 to 7.65% in 2016

* Fiscal year 2014-15 was the first year of implementation of GASB No. 68, therefore only three years of information is shown.

Fiscal year 2014-15 was the first year of implementation of GASB No. 68, therefore only three years of information is shown.

^{**} In fiscal year 2014-15, the actuarially determined contributions were based on an estimate. The City made a \$0.1 million adjustment to align the estimated employer contribution amount with the actual employer contribution per the 2015 agent-multiple employer CalPERS report for the CalPERS Safety Plan. Due to the early implementation of GASB Statement No. 82, the City decreased the actuarially determined contributions for the City SFERS plan to deduct the employer pickup in the amount of \$8.6 million.

Required Supplementary Information (Unaudited) – Schedules of Funding Progress and Employer Contributions Other Postemployment Healthcare Benefits

June 30, 2017 (Dollars in Thousands)

The schedules of funding progress presented below provide consolidated snapshots of the entity's ability to meet current and future liabilities with plan assets. Of particular interest to most is the funded status ratio. This ratio conveys a plan's level of assets to liabilities, an important indicator to determine the financial health of the OPEB plans. The closer the plan is to a 100% funded status, the better position it will be in to meet all of its future liabilities.

Schedule of Funding Progress – City and County of San Francisco – Other Postemployment Health Care Benefits

Actuarial Valuation Date	Actuarial Asset Value	Actuarial Accrued Liability (AAL) Entry Age		(Under) funded AAL (UAAL)	Funded Ratio	Covered Payroll	UAAL as a % of Covered Payroll

CITY AND COUNTY OF SAN FRANCISCO

Required Supplementary Information (Unaudited) – Budgetary Comparison Schedule - General Fund (continued) Year Ended June 30, 2017 (In Thousands)

Notes to Budgetary Schedule:

(a) Budgetary Data

The City adopts two-year rolling budgets annually for all governmental funds on a substantially modified accrual basis of accounting except for capital project funds and certificates of participation and other debt service funds, which substantially adopt project lendth budgets.

The budget of the City is a detailed operating plan, which identifies estimated costs and results in relation to estimated revenues. The budget includes (1) the programs, projects, services, and activities to be provided during the fiscal year, (2) the estimated resources (inflows) available for appropriation, and (3) the estimated charges to appropriations. The budget represents a process through which policy decisions are deliberated, implemented, and controlled. The City Charter prohibits expending funds for which there is no legal appropriation.

The Administrative Code Chapter 3 outlines the City's general budgetary procedures, with Section 3.3 detailing the budget timeline. A summary of the key budgetary steps is summarized as follows:

Original Budget

- (1) Departments and Commissions conduct hearings to obtain public comment on their proposed annual budgets beginning in December and submit their budget proposals to the Controller's Office no later than February 21.
- (2) The Controller's Office consolidates the budget estimates and transmits them to the Mayor's Office no later than the first working day of March. Staff of the Mayor's Office analyze, review and refine the budget estimates before transmitting the Mayor's Proposed Budget to the Board of Supervisors.
- (3) By the first working day of May, the Mayor submits the Proposed Budget for selected departments to the Board of Supervisors. The selected departments are determined by the Controller in consultation with the Board President and the Mayor's Budget Director. Criteria for selecting the departments include (1) that they are not supported by the City's General Fund or (2) that they do not rely on the State's budget submission in May for their revenue sources.
- (4) By the first working day of June, the Mayor submits the complete Proposed Budget to the Board of Supervisors along with a draft of the Annual Appropriation Ordinance prepared by the Controller's Office
- (5) Within five working days of the Mayor's proposed budget transmission to the Board of Supervisors, the Controller reviews the estimated revenues and assumptions in the Mayor's Proposed Budget and provides an opinion as to their accuracy and reasonableness. The Controller also may make a recommendation regarding prudent reserves given the Mayor's proposed resources and expenditures.
- (6) The designated Committee (usually the Budget Committee) of the Board of Supervisors conducts hearings, hears public comment, and reviews the Mayor's Proposed Budget. The Committee recommends an interim budget reflecting the Mayor's budget transmittal and, by June 30, the Board of Supervisors passes an interim appropriation and salary ordinances.
- (7) Not later than the last working day of July, the Board of Supervisors adopts the budget through passage of the Annual Appropriation Ordinance, the legal authority for enactment of the budget.

Required Supplementary Information (Unaudited) – Budgetary Comparison Schedule - General Fund (continued) Year Ended June 30, 2017 (In Thousands)

Final Budget

The final budgetary data presented in the basic financial statements reflects the following changes to the original budget:

- (1) Certain annual appropriations are budgeted on a project or program basis. If such projects or programs are not completed at the end of the fiscal year, unexpended appropriations, including encumbered funds, are carried forward to the following year. In certain circumstances, other programs and regular annual appropriations may be carried forward after appropriate approval. Annually appropriated funds, not authorized to be carried forward, lapse at the end of the fiscal year. Appropriations carried forward from the prior year are included in the final budgetary data.
- (2) Appropriations may be adjusted during the year with the approval of the Mayor and the Board of Supervisors, e.g. supplemental appropriations. Additionally, the Controller is authorized to make certain transfers of surplus appropriations within a department. Such adjustments are reflected in the final budgetary data.

The Annual Appropriation Ordinance adopts the budget at the character level of expenditure within departments. As described above, the Controller is authorized to make certain transfers of appropriations within departments. Accordingly, the legal level of budgetary control by the Board of Supervisors is the department level.

Budgetary data, as revised, is presented in the basic financial statements for the General Fund. Final budgetary data excludes the amount reserved for encumbrances for appropriate comparison to actual expenditures.

(b) Budgetary Results Reconciled to Results in Accordance with Generally Accepted Accounting Principles

The budgetary process is based upon accounting for certain transactions on a basis other than GAAP. The results of operations are presented in the budget-to-actual comparison statement in accordance with the budgetary process (Budget basis) to provide a meaningful comparison with the budget.

The major differences between the Budget basis "actual" and GAAP basis are timing differences. Timing differences represent transactions that are accounted for in different periods for Budget basis and GAAP basis reporting. Certain revenues accrued on a Budget basis have been deferred for GAAP reporting. These primarily relate to the accounting for property tax revenues under the Teeter Plan (Note 6), revenues not meeting the 60-day availability period and other assets not available for budgetary appropriation.

CITY AND COUNTY OF SAN FRANCISCO NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

- Building Inspection Fund Accounts for the revenues and expenditures of the Bureau of Building Inspection which provides enforcement and implementation of laws regulating the use, occupancy, location and maintenance of buildings. This fund shall be used by the Department of Building Inspection to defray the costs of the Bureau of Building Inspection in processing and reviewing permits applications and plans, filed inspections, code enforcement and reproduction of documents.
- Children and Families Fund Accounts for property tax revenues, tobacco tax funding from Proposition 10 and interest earnings designated by Charter provision. Monies in this fund are used as specified in the Charter and Proposition 10 to provide services to children less than eighteen years old, and to promote, support and improve the early development of children from the prenatal stage to five years of age.
- Community/Neighborhood Development Fund Accounts for various grants primarily from the Department of Housing and Urban Development including federal grants administered by the former Redevelopment Agency to provide for community development of rundown areas; to promote new housing, child care centers and public recreation areas; to provide a variety of social programs for the underprivileged and provide loans for various community development activities. This fund also includes proceeds from a bond issuance to benefit the Seismic Safety Loan Program which provides loans for seismic strengthening of privately-owned unreinforced masonry buildings in the City.
- Community Health Services Fund Accounts for state and federal grants used to promote public health and mental health programs.
- Convention Facilities Fund Accounts for operating revenues of the convention facilities: Moscone Center, Brooks Hall and Civic Auditorium. In addition to transfers for lease payments of the Moscone Center, this fund provides for operating costs of the various convention facilities and the San Francisco Convention and Visitors Bureau.
- Court's Fund Accounts for a portion of revenues from court filing fees that are specifically dedicated for Courthouse costs.
- Culture and Recreation Fund Accounts for revenues received from a variety of cultural and recreational funds such as Public Arts, Youth Arts and Yacht Harbor with revenues used for certain specified operating costs.
- Environmental Protection Fund Accounts for revenues received from state, federal and other sources for the preservation of the environment, recycling, and reduction of toxic waste from the City's waste stream.
- Gasoline Tax Fund Accounts for the subventions received from state gas taxes under the provision of the Streets and Highways Code and for operating transfers from other funds which are used for the same purposes. State subventions are restricted to uses related to local streets and highways, acquisitions of real property, construction and improvements, and maintenance and repairs.
- General Services Fund Accounts for the activities of several non-grant activities, generally established by administrative action
- Gift and Other Expendable Trusts Fund Accounts for certain cash gifts which have been accepted by the Board of Supervisors on behalf of the City and the operations of two smaller funds that cannot properly be grouped into the Gift Fund because of their specific terms. Disbursements are made by departments, boards and commissions in accordance with the purposes, if any, specified by the donor. Activities are controlled by project accounting procedures maintained by the Controller.
- Golf Fund Accounts for the revenue and expenditures related to the City's six golf courses.
- Human Welfare Fund Accounts for state and federal grants used to promote education and discourage domestic violence.

CITY AND COUNTY OF SAN FRANCISCO NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS (Continued)

- Low and Moderate Income Housing Asset Fund Accounts for the former Redevelopment Agency's affordable housing assets upon its dissolution on January 31, 2012.
- Open Space and Park Fund Accounts for property tax revenues designated by Charter provision, interest earnings and miscellaneous service charges and gifts. Monies in this fund are used as specified in the Charter for acquisition and development of parks and open space parcels, for renovation of existing parks and recreation facilities, for maintenance of properties acquired and for after-school recreation programs.
- Public Library Fund Accounts for property tax revenues and interest earnings designated by Charter provision. Monies in this fund are to be expended or used exclusively by the library department to provide library services and materials and to operate library facilities.
- Public Protection Fund Accounts for grants received and revenues and expenditures of 21 special revenue funds including fingerprinting, vehicle theft crimes, peace officer training and other activities related to public protection.
- Public Works, Transportation and Commerce Fund Accounts for the revenues and expenditures of 13 special revenue funds including construction inspection, engineering inspection and other activities related to public works projects. In addition, the fund accounts for various grants from federal and state agencies expended for specific purposes, activities or facilities related to transportation and commerce.
- Real Property Fund Accounts for the lease revenue from real property purchased with the proceeds from certificates of participation. The lease revenue is used for operations and to pay for debt service of the certificates of participation. Sales and disposals of real property are also accounted for in this fund.
- San Francisco County Transportation Authority Fund Accounts for the proceeds of a one-half of one percent increase in local sales tax authorized by the voters for mass transit and other traffic and transportation purposes.
- Senior Citizens' Program Fund Accounts for grant revenues from the federal and state government to be used to promote the well-being of San Francisco senior citizens.
- War Memorial Fund Accounts for the costs of maintaining, operating and caring for the War Memorial buildings and grounds.

DEBT SERVICE FUNDS

- The Debt Service Funds account for the accumulation of property taxes and other revenues for periodic payment of interest and principal on general obligation and certain lease revenue bonds and related authorized costs.
- General Obligation Bond Fund Accounts for property taxes and other revenues, (including the tobacco settlement revenues in excess of the \$100 million required to fund the Laguna Honda Hospital construction project) for periodic payment of interest and principal of general obligation bonds and related costs. Provisions are made in the general property tax levy for monies sufficient to meet these requirements in accordance with Article XIII of the State Constitution (Proposition 13).
- Certificates of Participation (COP) Funds Accounts for Base Rental payments from the various Special Revenue Funds and General Fund which provide for periodic payments of interest and principal. The COPs are being sold to provide funds to finance the acquisition of existing office buildings and certain improvements thereto, or the construction of City buildings such as the Courthouse, to be leased to the City for use of certain City departments as office space.
- Other Bond Funds Accounts for funds and debt service for the revolving fund loans operated and managed by the Mayor's Office of Community Development to assist with economic development efforts in low income neighborhoods (Facade Improvement Program) and for loans under the U.S. Department of Housing and Urban Development section 108 of the Housing and Community Development Act of 1974 (Fillmore Renaissance Center and Boys and Girls Club Hunters' Point Clubhouse).

CITY AND COUNTY OF SAN FRANCISCO NONMAJOR GOVERNMENTAL FUNDS

CAPITAL PROJECTS FUNDS

- Capital Projects Funds are used to account for financial resources that are restricted, committed or assigned to expenditures for the acquisition of land or acquisition and construction of major facilities other than those financed in the proprietary fund types.
- City Facilities Improvement Fund Accounts for bond proceeds, capital lease financing, federal and local funds and transfers from other funds which are designated for various buildings and general improvements. Expenditures for acquisition and construction of public buildings and improvements are made in accordance with bond requirements and appropriation ordinances.
- Earthquake Safety Improvement Fund Accounts for bond proceeds, Federal/State grants and private gifts which are designated for earthquake facilities improvements to various City buildings and facilities. Expenditures for construction are made in accordance with bond requirements and grant regulations.
- Fire Protection Systems Improvement Fund Accounts for bond proceeds which are designated for improvements in fire protection facilities. Expenditures for construction are made in accordance with bond requirements.
- Moscone Convention Center Fund Accounts for proceeds from Moscone Convention Center Lease Revenue Bonds and transfers from the General Fund and Convention Facilities Special Revenue Fund. Expenditures are for construction of the George R. Moscone Convention Center and for related administrative costs.
- Public Library Improvement Fund Accounts for bond proceeds and private gifts which are designated for construction of public library facilities. Expenditures for construction are made in accordance with bond requirements and private funds agreements.
- Recreation and Park Projects Fund Accounts for bond proceeds, Federal and state grants, gifts and transfers from other funds which are designated for various recreation and park additions and development. Expenditures for acquisition and construction of recreation and park facilities are made in accordance with bond requirements and appropriation ordinances.
- Street Improvement Fund Accounts for gas tax subventions, bond fund proceeds and other revenues which are designated for general street improvements. Expenditures for land acquisition and construction of designated improvements are made in accordance with applicable state codes, City charter provisions and bond requirements.

PERMANENT FUND

- Permanent funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs.
- Bequest Fund Accounts for income and disbursements of bequests accepted by the City. Disbursements are made in accordance with terms of the bequests.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods and services provided by one department or agency to other departments or agencies on a cost reimbursement basis.

- Central Shops Fund Accounts for Central Shops equipment (primarily vehicle) maintenance service charges and the related billings to various departments.
- Finance Corporation Accounts for the lease financing services provided by the Finance Corporation to City departments. On July 1, 2001 the City established the Finance Corporation Internal Service fund because its sole purpose is to provide lease financing to the City. Previously, the activities of the Finance Corporation were reported within governmental funds.
- Reproduction Fund Accounts for printing, design and mail services required by various City departments and agencies.
- Telecommunications and Information Fund Accounts for centralized telecommunications activities in the City's Wide Area Network, radio communication and telephone systems. In addition, it accounts for application support provided to many department-specific and citywide systems, management of the City's Web site, operations of the City's mainframe computers and technology training provided to city the related billings to various departments for specific services performed and operating support from the General Fund

CITY AND COUNTY OF SAN FRANCISCO FIDUCIARY FUNDS

Fiduciary Funds include all Trust and Agency Funds which account for assets held by the City as a trustee or as an agent for individuals or other governmental units

Trust Funds

- Employees' Retirement System Accounts for the contributions from employees, City contributions and the earnings and profits from investments of monies. Disbursements are made for retirements, withdrawal, disability, and death benefits of the employees as well as administrative expenses.
- Health Service System Accounts for the contributions from active and retired employees, and surviving spouses, City contributions and the earnings and profits from investment of monies. Disbursements are made for medical expenses and to various health plans of the beneficiaries.
- Retiree Health Care Trust Accounts for the contributions from employees, City contributions and the earnings and profits from investment of monies. Disbursements are to be made for benefits, expenses and other charges properly allocable to the trust fund.

Agency Funds

Agency Funds are custodial in nature and do not involve measurement of results of operations. Such funds have no equity accounts since all assets are due to individuals or entities at some future time.

- Assistance Program Fund Accounts for collections and advances received as an agent under various human welfare and community health programs. Monies are disbursed in accordance with legal requirements and program regulations.
- Deposits Fund Accounts for all deposits under the control of the City departments. Dispositions of the deposits are governed by the terms of the statutes and ordinances establishing the deposit requirement.
- Payroll Deduction Fund Accounts for monies held for payroll charges including federal, state and other payroll related deductions.
- State Revenue Collection Fund Accounts for various fees, fines and penalties collected by City departments for the State of California which are passed through to the State.
- Tax Collection Fund Accounts for monies received for current and delinquent taxes which must be held pending authority for distribution. Included are prepaid taxes, disputed taxes, duplicate payment of taxes, etc. This fund also accounts for monies deposited by third parties pending settlement of litigation and claims. Upon final settlement, monies are disbursed as directed by the courts or by parties to the dispute.
- Transit Fund Accounts for the quarter of one percent sales tax collected by the State Board of Equalization and deposited with the County of origin for local transportation support. The Metropolitan Transportation Commission, the regional agency responsible for administration of these monies, directs their use and distribution.

Other Agency Funds – Accounts for monies held as agent for a variety of purposes.

CITY AND COUNTY OF SAN FRANCISCO

Statistical Section

This section of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the City's most significant local revenue sources, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information

These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.

Sources:

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Notes: (1) (2)

- Effective with the implementation of GASB Statement No. 63, in fiscal year 2013, Net Assets was renamed Net Position.

 In fiscal year 2015, the City adopted the provisions of GASB Statement Nos.68 and 71. As restatement of all prior periods is not practical, the cumulative effect of applying these statements is reported as a restatement of beginning net position as of July 1, 2014.

 Certain net position reclassifications were made to reflect the primary government as a whole perspective since fiscal year 2009. See Note 10(d) in the Notes to Basic Financial Statements for details. (3)

- Notes:

 (1) The City adopted GASB Statement No. 65 in fiscal year 2014 and began reporting the cost of issuance as an expense. Prior fiscal years have not been restated.

 (2) In fiscal year 2015, the City adopted the provisions of GASB Statement Nos.65 and 71. As restatement of all prior periods is not practical, the cumulative effect of applying these statements is reported as a restatement of beginning net position as of July 1, 2014.

Controller, City and County of San Francisco

Notes:

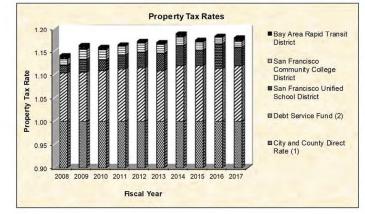

- (1) Assessed value of taxable property represents all property within the City. The maximum tax rate is 1% of the full cash value or \$1/\$100 of the assessed value, excluding the tax rate for debt service.
- (2) Exemptions are summarized as follows:
 - (a) Non-reimbursable exemptions are revenues lost to the City because of provisions of California Constitution, Article XIII(3).
 - (b) Reimbursable exemptions arise from Article XII(25) which reimburses local governments for revenues lost through the homeowners' exemption in Article XIII(3) (k).
 - (c) Tax increments were allocations made to the former San Francisco Redevelopment Agency under authority of California Constitution, Article XVI and Section 33675 of the California Health & Safety Code. Actual allocations are limited under an indebtedness agreement between the City and Redevelopment Agency.
- Based on certified assessed values.
- (4) Based on year end actual assessed values.

- Proposition 13 allows each county to levy a maximum tax of \$1 per \$100 of full cash value. Full cash value is equivalent to assessed value pursuant to Statutes of 1978, Senate Bill 1656.
- (2) On June 6, 1978, California voters approved a constitutional amendment to Article XIIIA of the California Constitution, commonly known as Proposition 13, that limits the taxing power of California public agencies. Legislation enacted to implement Article XIIIA (Statutes of 1978, Chapter 292, as amended) provides that notwithstanding any other law, local agencies may not levy property taxes except to pay debt service on indebtedness approved by voters prior to July 1, 1978 or any bonded indebtedness for the acquisition or improvement of real property approved on or after July 1, 1978 by two-thirds of the voting public.

Note: Overlapping districts are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping districts that is bome by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account.

⁽¹⁾ Source: Assessor, City and County of San Francisco

⁽²⁾ City's Administrative Code Section 2.60 Limitations on Bonded Indebtedness.

[&]quot;There shall be a limit on outstanding general obligation bond indebtedness of three percent of the assessed value of all taxable real and personal property, located within the City and County."

 $[\]stackrel{\cdot}{\text{The percentage of overlapping debt applicable is estimated using taxable assessed property value.}} \ \, \text{Applicable percentages}$ were estimated by determining the portion of the City's taxable assessed value that is within the districts bounderies and dividing it by the City's total taxable assessed value.

(9) Prior to FY2013 revenue bonds were issued by the Parking Authority. The Parking Authority leased North Beach, Moscone, and San Francisco Hospital garages to the City. In return, the City pledged to pay off the debt service with a base (lease) rental payment. The gross revenue reflects base rental payments plus revenue from all meters in San Francisco except the meters on Port property. All the related revenue bonds were defeased/paid off in FY2013.
In July 2012, the SFMTA issued its first revenue bonds, Series 2012A and B. Series 2012A refunded the bonds described above

plus bonds issued by the City's nonprofit garage corporations. The gross pledged revenues consist of transit fares, parking fines and fees, rental income, investment income plus operating grants from Transportation Development Act (codified as Sections 99200 et seq. of the California Public Utilities Code) (the "TDA"), AB 1107 (codified at Section 29140 et seq. of the Public Utilities Code (the "AB 1107"), and State Transit Assistance.

Prior to FY2013, the operating expense includes only the costs related to parking meter program excluding debt service payments.

Effective FY2013, related to the new bonds, the operating expense excludes expenses funded by the City's General Fund support paratransit restricted grants. In accordance with GASB Statement No. 44, operating expenses related to the pledged revenues exclude interest, depreciation and non-cash expense.

APPENDIX C

CITY AND COUNTY OF SAN FRANCISCO OFFICE OF THE TREASURER INVESTMENT POLICY

CITY AND COUNTY OF SAN FRANCISCO OFFICE OF THE TREASURER & TAX COLLECTOR

INVESTMENT POLICY

Effective February 2018

1.0 Policy

It is the policy of the Office of the Treasurer & Tax Collector of the City and County of San Francisco (Treasurer's Office) to invest public funds in a manner which will preserve capital, meet the daily cash flow demands of the City, and provide a market rate of return while conforming to all state and local statutes governing the investment of public funds.

2.0 Scope

This investment policy applies to all funds over which the Treasurer's Office has been granted fiduciary responsibility and direct control for their management.

3.0 Prudence

The standard of prudence to be used by the Treasurer's Office shall be the Prudent Investor Standard as set forth by California Government Code, Section 53600.3 and 27000.3. The Section reads as follows: The Prudent Investor Standard states that when investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the Treasurer's Office, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the Treasurer's Office.

This standard of prudence shall be applied in the context of managing those investments that fall under the Treasurer's direct control. Investment officers acting in accordance with written procedures and this investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.

4.0 Objective

The primary objectives, in priority order, of the Treasurer's Office's investment activities shall be:

- 4.1 Safety: Safety of principal is the foremost objective of the investment program. Investments of the Treasurer's Office shall be undertaken in a manner that seeks to ensure the preservation of capital. To attain this objective, the Treasurer's Office will diversify its investments.
- 4.2 Liquidity: The Treasurer's Office investment portfolio will remain sufficiently liquid to enable the Treasurer's Office to meet cash flow needs which might be reasonably anticipated.

4.3 Return on Investments: The portfolio shall be designed with the objective of generating a market rate of return without undue compromise of the first two objectives.

5.0 Delegation of Authority

The Treasurer of the City and County of San Francisco (Treasurer) is authorized by Charter Section 6.106 to invest funds available under California Government Code Title 5, Division 2, Part 1, Chapter 4, Article 1. The Treasurer shall submit any modification to this Investment Policy to the Treasury Oversight Committee members within five (5) working days of the adoption of the change.

6.0 Authorized Broker/Dealer Firms

The City seeks to employ a fair and unbiased broker-dealer selection process, which culminates in an array of medium to large-sized firms that provide the best investment opportunities and service to the City.

The Treasurer's Office will evaluate and classify broker-dealers based on the qualifications of the firm and firm's assigned individual. Approved broker-dealers will be evaluated and may be classified into one of the following categories:

FULL ACCESS – Broker-dealers will have significant opportunity to present investment ideas to the investment team.

LIMITED ACCESS – Broker-dealers will have limited opportunity to present investment ideas to the investment team.

All others may apply for Provisional status appointment. Provisional appointments will be made for:

- (1) Applicants who have changed firms:
- (2) Applicants (firm and individual) who were not approved by the Treasurer's Office in the past year; and
- (3) Broker-dealers who have been classified as Limited Access, but are seeking Full Access status.

Broker-dealers, who are granted Provisional status, will be treated as Full Access firms for a limited time period of up to six months. During the Provisional status period, the investment team will evaluate the applicant and provide a determination of status (Full Access, Limited Access or Not Approved). Broker-dealers may reapply for Provisional status every two years. A limited number of broker-dealers will be granted Provisional status concurrently.

All broker-dealers are encouraged to apply for consideration. All applicants will be evaluated and classified based on the qualifications of the firm and the firm's assigned individual. A score will be assigned to each applicant and will serve as the sole determinant for Full Access, Limited Access, or Not-Approved status.

All approved broker-dealers will be re-assessed annually. During the reassessment period, broker-dealers will be sent the City's most recent Investment Policy and are expected to respond with a policy acknowledgement letter, updated profile information and a completed questionnaire.

All securities shall be purchased and sold in a competitive environment.

The Treasurer's Office will not do business with a firm which has, within any consecutive 48-month period following January 1, 1996, made a political contribution in an amount exceeding the limitations contained

in Rule G-37 of the Municipal Securities Rulemaking Board, to the Treasurer, any member of the Board of Supervisors, or any candidate for those offices.

7.0 Authorized & Suitable Investments

Investments will be made pursuant to the California Government Code (including Section 53601 et seq.) and this investment policy to ensure sufficient liquidity to meet all anticipated disbursements.

Unless otherwise noted, the maximum maturity from the trade settlement date can be no longer than five years.

Types of investment vehicles not authorized by this investment policy are prohibited.

In an effort to limit credit exposure, the Treasurer's Office will maintain Eligible Issuer, Eligible Counterparty and Eligible Money Market lists for security types where appropriate. These lists are intended to guide investment decisions. Investments, at time of purchase, are limited solely to issuers, counterparties and money market funds listed; however, investment staff may choose to implement further restrictions at any time.

The Treasurer's Office shall establish a Credit Committee comprised of the Treasurer, Chief Assistant Treasurer, Chief Investment Officer and additional investment personnel at the Treasurer's discretion. The Committee shall review and approve all eligible issuers and counterparties prior to inclusion on the aforementioned Eligible Issuer and Eligible Counterparty lists. The Committee shall also be charged with determining the collateral securing the City's repurchase agreements.

In the event of a downgrade of the issuer's credit rating below the stated requirements herein, the Credit Committee shall convene and determine the appropriate action.

In addition, the Treasurer's Office shall conduct an independent credit review, or shall cause an independent credit review to be conducted, of the collateralized CD issuers to determine the creditworthiness of the financial institution. The credit review shall include an evaluation of the issuer's financial strength, experience, and capitalization, including, but not limited to leverage and capital ratios relative to benchmark and regulatory standards (See Section 7.4). The following policy shall govern unless a variance is specifically authorized by the Treasurer and reviewed by the Treasury Oversight Committee pursuant to Section 5.0.

7.1 U.S. Treasuries

United States Treasury notes, bonds, bills or certificates of indebtedness, or those for which the faith and credit of the United States are pledged for the payment of principal and interest.

Allocation	Issuer Limit	Issue Limit Maximum	Maturity/Term
Maximum	Maximum		Maximum
100% of the	100%	100%	5 years
portfolio value			

7.2 Federal Agencies

Federal agency or United States government-sponsored enterprise obligations, participations, or other

instruments, including those issued by or fully guaranteed as to principal and interest by federal agencies or United States government-sponsored enterprises.

Allocation	Issuer Limit	Issue Limit Maximum	Maturity/Term
Maximum	Maximum		Maximum
100% of the portfolio value	100%	100%	5 years

7.3 State and Local Government Agency Obligations

The Treasurer's Office may purchase bonds, notes, warrants, or other evidences of indebtedness of any local or State agency within the 50 United States, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the local agency or State, or by a department, board, agency, or authority of the local agency or State.

Allocation	Issuer Limit	Issue Limit Maximum L	Maturity/Term
Maximum	Maximum	Issue Liiiit Maxiiiuiii	Maximum
20% of the	5%	No Limit	5 years
portfolio value			

Issuer Minimum Credit Rating: Issuers must possess either a short-term rating of the highest ranking or long-term credit rating (dependent upon maturity length) of the second highest ranking or better (irrespective of +/-) from at least one NRSRO (Nationally Recognized Statistical Rating Organization). This limitation applies to all local and State agencies within the 50 United States with the exception of the State of California.

7.4 Public Time Deposits (Term Certificates of Deposit)

The Treasurer's Office may invest in either:

- 1. Non-negotiable time deposits (Certificates of Deposit or CDs) that have FDIC or similar deposit insurance; or
- 2. Fully collateralized CDs in approved financial institutions.

The Treasurer's Office will invest in CDs and Time Deposits only with those firms having at least one branch office within the boundaries of the City and County of San Francisco. As required by Government Code Section 53649, the Treasurer's Office shall have a signed agreement with any depository accepting City funds.

For Public Time Deposits not employing deposit insurance (such as FDIC), the Treasurer's Office is authorized to accept two forms of collateral:

A. Deposit Collateral. Collateralized CDs are required to be fully collateralized with 110% of the type of collateral authorized in California Government Code, Section 53651 (a) through (i). The Treasurer's Office, at its discretion, may waive the collateralization requirements for any portion that is covered by deposit insurance.

- B. Letters of Credit Issued by the Federal Home Loan Bank of San Francisco. As authorized by Section 53651 (p) of the California Government Code, the Treasurer's Office may be accepted as collateral and shall conform to the requirements of Section 53651.6 of the California Government Coded include the following terms:
 - (1) The Administrator, as defined by Section 53630 (g) of the California Government Code, shall be the beneficiary of the letter of credit; and
 - (2) The letter of credit shall be clean and irrevocable, and shall provide that the Administrator may draw upon it up to the total amount in the event of the failure of the depository savings association or federal association or if the depository savings association or federal association refuses to permit the withdrawal of funds by a treasurer.

Allocation	Issuer Limit	Issue Limit	Maturity/Term
Maximum	Maximum	Maximum	Maximum
No Limit	None	N/A	13 months

Issuer Minimum Credit Rating (applies to collateralized CDs only): Maintenance of the minimum standards for "well-capitalized" status as established by the Federal Reserve Board. The current standards are as follows:

- Tier 1 risk-based capital ratio of 8% or greater
- Combined Tier 1 and Tier 2 capital ratio of 10% or greater
- Leverage ratio of 5% or greater

Failure to maintain minimum standards may result in early termination, subject to the discretion of the Treasurer's Office.

7.5 Negotiable Certificates of Deposit / Yankee Certificates Of Deposit

Negotiable certificates of deposit issued by a nationally or state-chartered bank, a savings association or a federal association (as defined by Section 5102 of the Financial Code), a state or federal credit union, or by a state-licensed branch of a foreign bank. Yankee certificates of deposit are negotiable instruments that are issued by a branch of a foreign bank.

Allocation	Issuer Limit	Issue Limit Maximum	Maturity/Term
Maximum	Maximum		Maximum
30% of the portfolio value	No Limit	N/A	5 years

Issuer Minimum Credit Rating: Issuers must possess either a short-term rating of the highest ranking or long-term credit rating (dependent upon maturity length) of the second highest ranking or better (irrespective of +/-) from at least one NRSRO.

7.6 Bankers Acceptances

Bills of exchange or time drafts drawn on and accepted by a commercial bank, otherwise known as bankers'

acceptances.

Allocation	Issuer Limit	Issue Limit Maximum	Maturity/Term
Maximum	Maximum		Maximum
40% of the	30%	No Limit	180 days
portfolio value			

Issuer Minimum Credit Rating: None

7.7 Commercial Paper

Obligations issued by a corporation or bank to finance short-term credit needs, such as accounts receivable and inventory, which may be unsecured or secured by pledged assets.

Allocation	Issuer Limit	Issue Limit Maximum	Maturity/Term
Maximum	Maximum	Issue Liiiit waxiiiuiii	Maximum
25% of the	10%	None	270 days
portfolio value			

Issuer Minimum Credit Rating: Issuers must possess a short-term credit rating of the highest ranking (irrespective of +/-) from at least one NRSRO.

7.8 Medium Term Notes

Medium-term notes, defined as all corporate and depository institution debt securities with a maximum remaining maturity of five years or less, issued by corporations organized and operating within the United States or by depository institutions licensed by the U.S. or any state, and operating within the U.S.

Allocation Maximum	Issuer Limit	Issue Limit	Maturity/Term
	Maximum	Maximum	Maximum
25% of the portfolio value	10%	5%	24 months

Issuer Minimum Credit Rating: Issuers must possess either a short-term rating of the highest ranking or long-term credit rating (dependent upon maturity length) of the second highest ranking or better (irrespective of +/-) from at least one NRSRO.

7.9 Repurchase Agreements

To the extent that the Treasurer's Office utilizes this investment vehicle, said collateral shall be delivered to a third-party custodian, so that recognition of ownership of the City and County of San Francisco is perfected.

Type of collateral	Allocation Maximum	Issuer Limit Maximum	Maturity/Term Maximum
Government securities	No Limit	N/A	1 year
Securities permitted by CA Government Code, Sections 53601 and 53635	10%	N/A	1 year

7.10 Reverse Repurchase and Securities Lending Agreements

This procedure shall be limited to occasions when the cost effectiveness dictates execution, specifically to satisfy cash flow needs or when the collateral will secure a special rate. A reverse repurchase agreement shall not exceed 45 days; the amount of the agreement shall not exceed \$75MM; and the offsetting purchase shall have a maturity not to exceed the term of the repo.

7.11 Money Market Funds

Shares of beneficial interest issued by diversified management companies that are money market funds registered with the Securities and Exchange Commission under the Investment Company Act of 1940 (15 U.S.C. Sec. 80a-1, et seq.).

Fund Type	Allocation Maximum	Issuer Limit Maximum	Percentage of Fund's Net Assets Maximum	Maturity/Term Maximum
Institutional Government	20% of total Pool assets	N/A	5%	N/A

Issuer Minimum Credit Rating: Fund must be rated in the highest rating category from not less than two NRSROs .

7.12 Local Agency Investment Fund (LAIF)

Investments in LAIF, a California state investment fund available to California municipalities, are authorized.

7.13 Supranationals*

United States dollar denominated senior unsecured unsubordinated obligations issued or unconditionally guaranteed by:

- International Bank for Reconstruction and Development,
- International Finance Corporation, or
- Inter-American Development Bank,

Allocation	Issuer Limit	Issue Limit	Maturity/Term
Maximum	Maximum	Maximum	Maximum
30%	None	None	5 years

Issuer Minimum Credit Rating: Issuers must possess either a short-term credit rating of the highest ranking or long-term credit rating (dependent upon maturity length) of the second highest ranking or better (irrespective of +/-) from at least one NRSRO.

8.0 Interest and Expense Allocations

The costs of managing the investment portfolio, including but not limited to: investment management; accounting for the investment activity; custody of the assets, managing and accounting for the banking; receiving and remitting deposits; oversight controls; and indirect and overhead expenses are charged to the investment earnings based upon actual labor hours worked in respective areas. Costs of these respective areas are accumulated and charged to the Pooled Investment Fund on a quarterly basis, with the exception of San Francisco International Airport costs which are charged directly through a work order.

The San Francisco Controller allocates the net interest earnings of the Pooled Investment Fund. The earnings are allocated monthly based on average balances.

9.0 Safekeeping and Custody

All security transactions, including collateral for repurchase agreements, entered into by the Treasurer's Office shall be conducted on a delivery-versus-payment (DVP) basis pursuant to approved custodial safekeeping agreements. Securities will be held by a third party custodian designated by the Treasurer and evidenced by safekeeping receipts.

10.0 Deposit and Withdrawal of Funds

California Government Code Section 53684 et seq. provides criteria for outside local agencies, where the Treasurer does not serve as the agency's treasurer, to invest in the County's Pooled Investment Fund, subject to the consent of the Treasurer. Currently, no government agency outside the geographical boundaries of the City and County of San Francisco shall have money invested in City pooled funds.

^{*} Effective as of January 1, 2015, as consistent with State Law.

The Treasurer will honor all requests to withdraw funds for normal cash flow purposes that are approved by the San Francisco Controller. Any requests to withdraw funds for purposes other than cash flow, such as for external investing, shall be subject to the consent of the Treasurer. In accordance with California Government Code Sections 27136 et seq. and 27133(h) et seq., such requests for withdrawals must first be made in writing to the Treasurer. These requests are subject to the Treasurer's consideration for the stability and predictability of the Pooled Investment Fund, or the adverse effect on the interests of the other depositors in the Pooled Investment Fund. Any withdrawal for such purposes shall be at the value shown on the Controller's books as of the date of withdrawal.

11.0 Limits on Receipt of Honoraria, Gifts and Gratuities

In accordance with California Government Code Section 27133(d) et seq., this Investment Policy hereby establishes limits for the Treasurer, individuals responsible for management of the portfolios, and members of the Treasury Oversight Committee on the receipt of honoraria, gifts and gratuities from advisors, brokers, dealers, bankers or others persons with whom the Treasurer conducts business. Any individual who receives an aggregate total of gifts, honoraria and gratuities in excess of those limits must report the gifts, dates and firms to the Treasurer and complete the appropriate State disclosure.

These limits may be in addition to the limits set by a committee member's own agency, by state law, or by the California Fair Political Practices Commission. Members of the Treasury Oversight Committee also must abide by the following sections of the Treasurer's Office Statement of Incompatible Activities: Section III(A)(l)(a), (b) and (c) entitled "Activities that Conflict with Official Duties," and Section III(C) entitled "Advance Written Determination".

12.0 Reporting

In accordance with the provisions of California Government Code Section 53646, which states that the Treasurer may render a quarterly report or a monthly report on the status of the investment portfolio to the Board of Supervisors, Controller and Mayor; the Treasurer regularly submits a monthly report. The report includes the investment types, issuer, maturity date, par value, and dollar amount invested; market value as of the date of the report and the source of the valuation; a statement of compliance with the investment policy or an explanation for non-compliance; and a statement of the ability or inability to meet expenditure requirements for six months, as well as an explanation of why moneys will not be available if that is the case.

13.0 Social Responsibility

In addition to and subordinate to the objectives set forth in Section 4.0 herein, investment of funds should be guided by the following socially responsible investment goals when investing in corporate securities and depository institutions. Investments shall be made in compliance with the forgoing socially responsible investment goals to the extent that such investments achieve substantially equivalent safety, liquidity and yield compared to investments permitted by state law.

13.1 Social and Environmental Concerns

Investments are encouraged in entities that support community well-being through safe and environmentally sound practices and fair labor practices. Investments are encouraged in entities that support equality of rights regardless of sex, race, age, disability or sexual orientation. Investments are discouraged

in entities that manufacture tobacco products, firearms, or nuclear weapons. In addition, investments are encouraged in entities that offer banking products to serve all members of the local community, and investments are discouraged in entities that finance high-cost check-cashing, deferred deposit (paydaylending) businesses and organizations involved in financing, either directly or indirectly, the Dakota Access Pipeline or, as determined by the Treasurer, similar pipeline projects. Prior to making investments, the Treasurer's Office will verify an entity's support of the socially responsible goals listed above through direct contact or through the use of a third party such as the Investors Responsibility Research Center, or a similar ratings service. The entity will be evaluated at the time of purchase of the securities.

13.2 Community Investments

Investments are encouraged in entities that promote community economic development. Investments are encouraged in entities that have a demonstrated involvement in the development or rehabilitation of low income affordable housing, and have a demonstrated commitment to reducing predatory mortgage lending and increasing the responsible servicing of mortgage loans. Securities investments are encouraged in financial institutions that have a Community Reinvestment Act (CRA) rating of either Satisfactory or Outstanding, as well as financial institutions that are designated as a Community Development Financial Institution (CDFI) by the United States Treasury Department, or otherwise demonstrate commitment to community economic development.

13.3 City Ordinances

All depository institutions are to be advised of applicable City contracting ordinances, and shall certify their compliance therewith, if required.

14.0 Treasury Oversight Committee

A Treasury Oversight Committee was established by the San Francisco Board of Supervisors in Ordinance No. 316-00. The duties of the Committee shall be the following:

- (a) Review and monitor the investment policy described in California Government Code Section 27133 and prepared annually by the Treasurer.
- (b) Cause an annual audit to be conducted to determine the Treasurer's compliance with California Government Code Article 6 including Sections 27130 through 27137 and City Administrative Code Section 10.80-1. The audit may examine the structure of the investment portfolio and risk. This audit may be a part of the County Controller's usual audit of the Treasurer's Office by internal audit staff or the outside audit firm reviewing the Controller's Annual Report.
- (c) Nothing herein shall be construed to allow the Committee to direct individual decisions, select individual investment advisors, brokers, or dealers, or impinge on the day-to-day operations of the Treasurer. (See California Government Code, Section 27137.)

APPENDIX

Glossary

AGENCIES: Federal agency securities and/or Government-sponsored enterprises.

ASK/OFFER: The price at which securities are offered.

BANKERS' ACCEPTANCE (BA): A draft or bill or exchange accepted by a bank or trust company. The accepting institution guarantees payment of the bill, as well as the issuer.

BENCHMARK: A comparative base for measuring the performance or risk tolerance of the investment portfolio. A benchmark should represent a close correlation to the level of risk and the average duration of the portfolio's investments.

BID: The price offered by a buyer of securities. (When you are selling securities, you ask for a bid.) See Offer.

BROKER: A broker brings buyers and sellers together for a commission.

CERTIFICATE OF DEPOSIT (CD): A time deposit with a specific maturity evidenced by a Certificate. Large-denomination CD's are typically negotiable.

COLLATERAL: Securities, evidence of deposit or other property, which a borrower pledges to secure repayment of a loan. Also refers to securities pledged by a bank to secure deposits of public monies.

COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR): The CAFR is the City's official annual financial report. It consists of three major sections: introductory, financial, and statistical. The introductory section furnishes general information on the City's structure, services, and environment. The financial section contains all basic financial statements and required supplementary information, as well as information on all individual funds and discretely presented component units not reported separately in the basic financial statements. The financial section may also include supplementary information not required by GAAP. The statistical section provides trend data and nonfinancial data useful in interpreting the basic financial statements and is especially important for evaluating economic condition.

COUPON: (a) The annual rate of interest that a bond's issuer promises to pay the bondholder on the bond's face value. (b) A certificate attached to a bond evidencing interest due on a payment date.

DEALER: A dealer, as opposed to a broker, acts as a principal in all transactions, buying and selling for his own account.

DEBENTURE: A bond secured only by the general credit of the issuer.

DELIVERY VERSUS PAYMENT: There are two methods of delivery of securities: delivery versus payment and delivery versus receipt. Delivery versus payment is delivery of securities with an exchange of money for the securities. Delivery versus receipt is delivery of securities with an exchange of a signed receipt for the securities.

DEPOSITORY INSTITUTIONS: These institutions hold City and County moneys in the forms of certificates of deposit (negotiable or term), public time deposits and public demand accounts.

DERIVATIVES: (1) Financial instruments whose return profile is linked to, or derived from, the movement of one or more underlying index or security, and may include a leveraging factor, or (2) financial contracts based upon notional amounts whose value is derived from an underlying index or security (interest rates, foreign exchange rates, equities or commodities).

DISCOUNT: The difference between the cost price of a security and its maturity when quoted at lower than face value. A security selling below original offering price shortly after sale also is considered to be at a discount.

DISCOUNT SECURITIES: Non-interest bearing money market instruments that are issued a discount and redeemed at maturity for full face value, e.g., U.S. Treasury Bills.

DIVERSIFICATION: Dividing investment funds among a variety of securities offering independent returns.

FDIC DEPOSIT INSURANCE COVERAGE: The FDIC is an independent agency of the United States government that protects against the loss of insured deposits if an FDIC-insured bank or savings association fails. Deposit insurance is backed by the full faith and credit of the United States government. Since the FDIC was established, no depositor has ever lost a single penny of FDIC-insured funds. FDIC insurance covers funds in deposit accounts, including checking and savings accounts, money market deposit accounts and certificates of deposit (CDs). FDIC insurance does not, however, cover other financial products and services that insured banks may offer, such as stocks, bonds, mutual fund shares, life insurance policies, annuities or municipal securities. There is no need for depositors to apply for FDIC insurance or even to request it. Coverage is automatic. To ensure funds are fully protected, depositors should understand their deposit insurance coverage limits. The FDIC provides separate insurance coverage for deposits held in different ownership categories such as single accounts, joint accounts, Individual Retirement Accounts (IRAs) and trust accounts.

Basic FDIC Deposit Insurance Coverage Limits*

Single Accounts (owned by one person) \$250,000 per owner

Joint Accounts (two or more persons) \$250,000 per co-owner

IRAs and certain other retirement accounts \$250,000 per owner

Trust Accounts \$250,000 per owner per beneficiary subject to specific limitations and requirements**

*The financial reform bill, officially named the Dodd-Frank Wall Street Reform and Consumer Protection Act, signed into law on July 21, 2010, made the \$250,000 FDIC coverage limit permanent.

FEDERAL CREDIT AGENCIES: Agencies of the Federal government set up to supply credit to various classes of institutions and individuals, e.g., S&L's, small business firms, students, farmers, farm cooperatives, and exporters.

FEDERAL FUNDS RATE: The rate of interest that depository institutions lend monies overnight to other depository institutions. Also referred to as the overnight lending rate. This rate is currently pegged by the Federal Reserve through open-market operations.

FEDERAL HOME LOAN BANKS (FHLB): Government sponsored wholesale banks (currently 12 regional banks), which lend funds and provide correspondent banking services to member commercial banks, thrift institutions, credit unions and insurance companies. The mission of the FHLBs is to liquefy the housing related assets of its members who must purchase stock in their district Bank.

FEDERAL NATIONAL MORTGAGE ASSOCIATION (FNMA): FNMA, like GNMA was chartered under the Federal National Mortgage Association Act in 1938. FNMA is a federal corporation working under the auspices of the Department of Housing and Urban Development (HUD). It is the largest single

provider of residential mortgage funds in the United States. Fannie Mae, as the corporation is called, is a private stockholder-owned corporation. The corporation's purchases include a variety of adjustable mortgages and second loans, in addition to fixed-rate mortgages. FNMA's securities are also highly liquid and are widely accepted. FNMA assumes and guarantees that all security holders will receive timely payment of principal and interest.

FEDERAL HOME LOAN MORTGAGE CORPORATION (FHLMC): Freddie Mac's mission is to provide liquidity, stability and affordability to the housing market. Congress defined this mission in (their) 1970 charter. Freddie Mac buys mortgage loans from banks, thrifts and other financial intermediaries, and re-sells these loans to investors, or keeps them for their own portfolio, profiting from the difference between their funding costs and the yield generated by the mortgages.

FEDERAL OPEN MARKET COMMITTEE (FOMC): Consists of seven members of the Federal Reserve Board and five of the twelve Federal Reserve Bank Presidents. The President of the New York Federal Reserve Bank is a permanent member, while the other Presidents serve on a rotating basis. The Committee periodically meets to set Federal Reserve guidelines regarding purchases and sales of Government Securities in the open market as a means of influencing the volume of bank credit and money.

FEDERAL RESERVE SYSTEM: The central bank of the United States created by Congress and consisting of a seven member Board of Governors in Washington, D.C., 12 regional banks and about 5,700 commercial banks that are members of the system.

GOVERNMENT NATIONAL MORTGAGE ASSOCIATION (GNMA or Ginnie Mae): Securities influencing the volume of bank credit guaranteed by GNMA and issued by mortgage bankers, commercial banks, savings and loan associations, and other institutions. Security holder is protected by full faith and credit of the U.S. Government. Ginnie Mae securities are backed by the FHA, VA or FmHA mortgages. The term "pass-throughs" is often used to describe Ginnie Maes.

GOVERNMENT SECURITIES: Obligations of the U.S. Government and its agencies and instrumentalities.

LIQUIDITY: A liquid asset is one that can be converted easily and rapidly into cash without a substantial loss of value. In the money market, a security is said to be liquid if the spread between bid and asked prices is narrow and reasonable size can be done at those quotes.

LOCAL GOVERNMENT INVESTMENT POOL (LGIP): The aggregate of all funds from political subdivisions that are placed in the custody of the State Treasurer for investment and reinvestment.

MARKET VALUE: The price at which a security is trading and could presumably be purchased or sold.

MASTER REPURCHASE AGREEMENT: A written contract covering all future transactions between the parties to repurchase—reverse repurchase agreements that establishes each party's rights in the transactions. A master agreement will often specify, among other things, the right of the buyer-lender to liquidate the underlying securities in the event of default by the seller borrower.

MATURITY: The date upon which the principal or stated value of an investment becomes due and payable.

MONEY MARKET: The market in which short-term debt instruments (bills, commercial paper, bankers' acceptances, etc.) are issued and traded.

NRSRO: Nationally Recognized Statistical Rating Organization; Credit rating agencies that are registered with the SEC. Such agencies provide an opinion on the creditworthiness of an entity and the financial obligations issued by an entity.

OFFER: The price asked by a seller of securities. (When you are buying securities, you ask for an offer.) See Asked and Bid.

OPEN MARKET OPERATIONS: Purchases and sales of government and certain other securities in the open market by the New York Federal Reserve Bank as directed by the FOMC in order to influence the volume of money and credit in the economy. Purchases inject reserves into the bank system and stimulate growth of money and credit; sales have the opposite effect. Open market operations are the Federal Reserve's most important and most flexible monetary policy tool.

PAR VALUE: The principal amount of a bond returned by the maturity date.

PORTFOLIO: Collection of securities held by an investor.

PRIMARY DEALER: A group of government securities dealers who submit daily reports of market activity and positions and monthly financial statements to the Federal Reserve Bank of New York and are subject to its informal oversight. Primary dealers include Securities and Exchange Commission (SEC)-registered securities broker-dealers, banks, and a few unregulated firms.

PRUDENT PERSON RULE: An investment standard. In some states the law requires that a fiduciary, such as a trustee, may invest money only in a list of securities selected by the custody state—the so-called legal list. In other states the trustee may invest in a security if it is one which would be bought by a prudent person of discretion and intelligence who is seeking a reasonable income and preservation of capital.

PUBLIC TIME DEPOSITS (Term Certificates Of Deposit): Time deposits are issued by depository institutions against funds deposited for a specified length of time. Time deposits include instruments such as deposit notes. They are distinct from certificates of deposit (CDs) in that interest payments on time deposits are calculated in a manner similar to that of corporate bonds whereas interest payments on CDs are calculated similar to that of money market instruments.

QUALIFIED PUBLIC DEPOSITORIES: A financial institution which does not claim exemption from the payment of any sales or compensating use or ad valorem taxes under the laws of this state, which has segregated for the benefit of the commission eligible collateral having a value of not less than its maximum liability and which has been approved by the Public Deposit Protection Commission to hold public deposits.

RATE OF RETURN: The yield obtainable on a security based on its purchase price or its current market price. This may be the amortized yield to maturity on a bond the current income return.

REPURCHASE AGREEMENT (RP OR REPO): A holder of securities sells these securities to an investor with an agreement to repurchase them at a fixed price on a fixed date. The security "buyer" in effect lends the "seller" money for the period of the agreement, and the terms of the agreement are structured to compensate him for this. Dealers use RP extensively to finance their positions. Exception: When the Fed is said to be doing RP, it is lending money that is, increasing bank reserves.

SAFEKEEPING: A service to customers rendered by banks for a fee whereby securities and valuables of all types and descriptions are held in the bank's vaults for protection.

SECONDARY MARKET: A market made for the purchase and sale of outstanding issues following the initial distribution.

SECURITIES & EXCHANGE COMMISSION: Agency created by Congress to protect investors in securities transactions by administering securities legislation.

SEC RULE 15(C))3-1: See Uniform Net Capital Rule.

STRUCTURED NOTES: Notes issued by Government Sponsored Enterprises (FHLB, FNMA, SLMA, etc.) and Corporations, which have imbedded options (e.g., call features, step-up coupons, floating rate coupons, derivative-based returns) into their debt structure. Their market performance is impacted by the fluctuation of interest rates, the volatility of the imbedded options and shifts in the shape of the yield curve.

TREASURY BILLS: A non-interest bearing discount security issued by the U.S. Treasury to finance the national debt. Most bills are issued to mature in three months, six months, or one year.

TREASURY BONDS: Long-term coupon-bearing U.S. Treasury securities issued as direct obligations of the U.S. Government and having initial maturities of more than 10 years.

TREASURY NOTES: Medium-term coupon-bearing U.S. Treasury securities issued as direct obligations of the U.S. Government and having initial maturities from two to 10 years.

UNIFORM NET CAPITAL RULE: Securities and Exchange Commission requirement that member firms as well as nonmember broker-dealers in securities maintain a maximum ratio of indebtedness to liquid capital of 15 to 1; also called net capital rule and net capital ratio. Indebtedness covers all money owed to a firm, including margin loans and commitments to purchase securities, one reason new public issues are spread among members of underwriting syndicates. Liquid capital includes cash and assets easily converted into cash.

YIELD: The rate of annual income return on an investment, expressed as a percentage. (a) INCOME YIELD is obtained by dividing the current dollar income by the current market price for the security. (b) NET YIELD or YIELD TO MATURITY is the current income yield minus any premium above par or plus any discount from par in purchase price, with the adjustment spread over the period from the date of purchase to the date of maturity of the bond.

APPENDIX D

FORM OF CONTINUING DISCLOSURE CERTIFICATE

\$189,735,000 CITY AND COUNTY OF SAN FRANCISCO TAX-EXEMPT GENERAL OBLIGATION BONDS (EARTHQUAKE SAFETY AND EMERGENCY RESPONSE BONDS, 2014), SERIES 2018C \$142,145,000 CITY AND COUNTY OF SAN FRANCISCO TAXABLE GENERAL OBLIGATION BONDS (AFFORDABLE HOUSING, 2015), SERIES 2018D

\$49,955,000 CITY AND COUNTY OF SAN FRANCISCO TAX-EXEMPT GENERAL OBLIGATION BONDS (PUBLIC HEALTH AND SAFETY, 2016), SERIES 2018E

This Continuing Disclosure Certificate (the "Disclosure Certificate") is executed and delivered by the City and County of San Francisco (the "City") in connection with the issuance of the bonds captioned above (the "Bonds"). The Bonds will be issued under the Government Code of the State and the Charter. The City authorized the issuance of the 2018C Bonds by Resolution No. 313-14 and Resolution No. 111-18, adopted by the Board of Supervisors of the City on July 29, 2014 and April 24, 2018, respectively, and duly approved by the Mayor of the City August 7, 2014 and April 27, 2018, respectively (together, the "2018C Resolution"). The City authorized the issuance of the 2018D Bonds by Resolution No. 407-16 and Resolution No. 112-18, adopted by the Board of Supervisors of the City on September 20, 2016 and April 24, 2018, respectively, and duly approved by the Mayor of the City on September 29, 2016 and April 27, 2018, respectively (together, the "2018D Resolution"). The City authorized the issuance of the 2018E Bonds by Resolution No. 514-16 and Resolution No. 113-18, adopted by the Board of Supervisors of the City on December 6, 2016 and April 24, 2018, respectively, and duly approved by the Mayor of the City on December 16, 2016 and April 27, 2018, respectively (together, the "2018E Resolution," and with the 2018C Resolution and the 2018D Resolution, the "Resolutions"). The City covenants and agrees as follows:

SECTION 1. Purpose of the Disclosure Certificate. This Disclosure Certificate is being executed and delivered by the City for the benefit of the Holders and Beneficial Owners of the Bonds and in order to assist the Participating Underwriters in complying with Securities and Exchange Commission Rule 15c2-12(b)(5).

SECTION 2. Definitions. The following capitalized terms shall have the following meanings:

"Annual Report" shall mean any Annual Report provided by the City pursuant to, and as described in, Sections 3 and 4 of this Disclosure Certificate.

"Beneficial Owner" shall mean any person which: (a) has or shares the power, directly or indirectly, to make investment decisions concerning ownership of any Bonds (including persons holding Bonds through nominees, depositories or other intermediaries) including, but not limited to, the power to vote or consent with respect to any Bonds or to dispose of ownership of any Bonds; or (b) is treated as the owner of any Bonds for federal income tax purposes.

"Dissemination Agent" shall mean the City, acting in its capacity as Dissemination Agent under this Disclosure Certificate, or any successor Dissemination Agent designated in writing by the City and which has filed with the City a written acceptance of such designation.

"Holder" shall mean either the registered owners of the Bonds, or, if the Bonds are registered in the name of The Depository Trust Company or another recognized depository, any applicable participant in such depository system.

"Listed Events" shall mean any of the events listed in Section 5(a) and 5(b) of this Disclosure Certificate.

"MSRB" shall mean the Municipal Securities Rulemaking Board or any other entity designated or authorized by the Securities and Exchange Commission to receive reports pursuant to the Rule. Until otherwise designated by the MSRB or the Securities and Exchange Commission, filings with the MSRB are to be made through the Electronic Municipal Market Access (EMMA) website of the MSRB currently located at http://emma.msrb.org.

"Participating Underwriter" shall mean any of the original underwriters or purchasers of the Bonds required to comply with the Rule in connection with offering of the Bonds.

"Rule" shall mean Rule 15c2-12(b)(5) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time.

SECTION 3. Provision of Annual Reports.

- (a) The City shall, or shall cause the Dissemination Agent to, not later than 270 days after the end of the City's fiscal year (which is June 30), commencing with the report for the 2017-18 Fiscal Year (which is due not later than March 27, 2019), provide to the MSRB an Annual Report which is consistent with the requirements of Section 4 of this Disclosure Certificate. If the Dissemination Agent is not the City, the City shall provide the Annual Report to the Dissemination Agent not later than 15 days prior to said date. The Annual Report must be submitted in electronic format and accompanied by such identifying information as is prescribed by the MSRB, and may cross-reference other information as provided in Section 4 of this Disclosure Certificate; *provided*, that if the audited financial statements of the City are not available by the date required above for the filing of the Annual Report, the City shall submit unaudited financial statements and submit the audited financial statements as soon as they are available. If the City's Fiscal Year changes, it shall give notice of such change in the same manner as for a Listed Event under Section 5(e).
- (b) If the City is unable to provide to the MSRB an Annual Report by the date required in subsection (a), the City shall send a notice to the MSRB in substantially the form attached as Exhibit A.
- (c) The Dissemination Agent shall (if the Dissemination Agent is other than the City), file a report with the City certifying the date that the Annual Report was provided to the MSRB pursuant to this Disclosure Certificate.

SECTION 4. Content of Annual Reports. The City's Annual Report shall contain or incorporate by reference the following information, as required by the Rule:

- (a) the audited general purpose financial statements of the City prepared in accordance with generally accepted accounting principles applicable to governmental entities;
 - (b) a summary of budgeted general fund revenues and appropriations;
 - (c) a summary of the assessed valuation of taxable property in the City;
 - (d) a summary of the *ad valorem* property tax levy and delinquency rate;

- (e) a schedule of aggregate annual debt service on tax-supported indebtedness of the City; and
- (f) summary of outstanding and authorized but unissued tax-supported indebtedness of the City.

Any or all of the items listed above may be set forth in a document or set of documents, or may be included by specific reference to other documents, including official statements of debt issues of the City or related public entities, which are available to the public on the MSRB website. If the document included by reference is a final official statement, it must be available from the MSRB. The City shall clearly identify each such other document so included by reference.

SECTION 5. Reporting of Significant Events.

- (a) The City shall give, or cause to be given, notice of the occurrence of any of the following events numbered 1-9 with respect to the Bonds not later than ten business days after the occurrence of the event:
 - 1. Principal and interest payment delinquencies;
 - 2. Unscheduled draws on debt service reserves reflecting financial difficulties;
 - 3. Unscheduled draws on credit enhancements reflecting financial difficulties;
 - 4. Substitution of credit or liquidity providers, or their failure to perform;
 - 5. Issuance by the Internal Revenue Service of proposed or final determination of taxability or of a Notice of Proposed Issue (IRS Form 5701 TEB) or adverse tax opinions;
 - 6. Tender offers;
 - 7. Defeasances;
 - 8. Rating changes; or
 - 9. Bankruptcy, insolvency, receivership or similar event of the obligated person.

Note: for the purposes of the event identified in subparagraph (9), the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for an obligated person in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under State or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the obligated person, or if such jurisdiction has been assumed by leaving the existing governmental body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the obligated person.

- (b) The City shall give, or cause to be given, notice of the occurrence of any of the following events numbered 10-16 with respect to the Bonds not later than ten business days after the occurrence of the event, if material:
 - 10. Unless described in paragraph 5(a)(5), other material notices or determinations by the Internal Revenue Service with respect to the tax status of the Bonds or other material events affecting the tax status of the Bonds;
 - 11. Modifications to rights of Bond holders;
 - 12. Unscheduled or contingent Bond calls;
 - 13. Release, substitution, or sale of property securing repayment of the Bonds;
 - 14. Non-payment related defaults;

- 15. The consummation of a merger, consolidation, or acquisition involving an obligated person or the sale of all or substantially all of the assets of the obligated person, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms; or
- 16. Appointment of a successor or additional trustee or the change of name of a trustee.
- (c) The City shall give, or cause to be given, in a timely manner, notice of a failure to provide the annual financial information on or before the date specified in Section 3, as provided in Section 3(b).
- (d) Whenever the City obtains knowledge of the occurrence of a Listed Event described in Section 5(b), the City shall determine if such event would be material under applicable federal securities laws.
- (e) If the City learns of the occurrence of a Listed Event described in Section 5(a), or determines that knowledge of a Listed Event described in Section 5(b) would be material under applicable federal securities laws, the City shall within ten business days of occurrence file a notice of such occurrence with the MSRB in electronic format, accompanied by such identifying information as is prescribed by the MSRB. Notwithstanding the foregoing, notice of the Listed Event described in subsection 5(b)(12) need not be given under this subsection any earlier than the notice (if any) of the underlying event is given to Holders of affected Bonds pursuant to the Resolutions.
- **SECTION 6.** Termination of Reporting Obligation. The City's obligations under this Disclosure Certificate shall terminate upon the legal defeasance, prior redemption or payment in full of all of the Bonds. If such termination occurs prior to the final maturity of the Bonds, the City shall give notice of such termination in the same manner as for a Listed Event under Section 5(e).
- **SECTION 7. Dissemination Agent**. The City may, from time to time, appoint or engage a Dissemination Agent to assist it in carrying out its obligations under this Disclosure Certificate, and may discharge any such Agent, with or without appointing a successor Dissemination Agent. The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Certificate.
- **SECTION 8. Amendment; Waiver**. Notwithstanding any other provision of this Disclosure Certificate, the City may amend or waive this Disclosure Certificate or any provision of this Disclosure Certificate, provided that the following conditions are satisfied:
 - (a) If the amendment or waiver relates to the provisions of Sections 3(a), 3(b), 4, 5(a) or 5(b), it may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature or status of an obligated person with respect to the Bonds or the type of business conducted;
 - (b) The undertaking, as amended or taking into account such waiver, would, in the opinion of the City Attorney or nationally recognized bond counsel, have complied with the requirements of the Rule at the time of the original issuance of the Bonds, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and
 - (c) The amendment or waiver either (i) is approved by the owners of a majority in aggregate principal amount of the Bonds or (ii) does not, in the opinion of the City Attorney or nationally recognized bond counsel, materially impair the interests of the Holders.

In the event of any amendment or waiver of a provision of this Disclosure Certificate, the City shall describe such amendment in the next Annual Report, and shall include, as applicable, a narrative explanation

of the reason for the amendment or waiver and its impact on the type (or in the case of a change of accounting principles, on the presentation) of financial information or operating data being presented by the City. In addition, if the amendment relates to the accounting principles to be followed in preparing financial statements: (i) notice of such change shall be given in the same manner as for a Listed Event under Section 5; and (ii) the Annual Report for the year in which the change is made should present a comparison (in narrative form and also, if feasible, in quantitative form) between the financial statements as prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles.

SECTION 9. Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent the City from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any Annual Report or notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Certificate. If the City chooses to include any information in any Annual Report or notice of occurrence of a Listed Event in addition to that which is specifically required by this Disclosure Certificate, the City shall have no obligation under this Disclosure Certificate to update such information or include it in any future Annual Report or notice of occurrence of a Listed Event.

SECTION 10. Remedies. In the event of a failure of the City to comply with any provision of this Disclosure Certificate, any Participating Underwriter, Holder or Beneficial Owner of the Bonds may take such actions as may be necessary and appropriate to cause the City to comply with its obligations under this Disclosure Certificate; provided that any such action may be instituted only in a federal or state court located in the City and County of San Francisco, State of California, and that the sole remedy under this Disclosure Certificate in the event of any failure of the City to comply with this Disclosure Certificate shall be an action to compel performance.

SECTION 11. Beneficiaries. This Disclosure Certificate shall inure solely to the benefit of the City, the Dissemination Agent, the Participating Underwriters and Holders and Beneficial Owners from time to time of the Bonds, and shall create no rights in any other person or entity.

APPENDIX E

DTC AND THE BOOK ENTRY ONLY SYSTEM

The information in numbered paragraphs 1-10 of this Appendix E, concerning The Depository Trust Company ("DTC") and DTC's book-entry system, has been furnished by DTC for use in official statements and the City takes no responsibility for the completeness or accuracy thereof. The City cannot and does not give any assurances that DTC, DTC Participants or Indirect Participants will distribute to the Beneficial Owners (a) payments of interest or principal with respect to the Bonds, (b) certificates representing ownership interest in or other confirmation or ownership interest in the Bonds, or (c) redemption or other notices sent to DTC or Cede & Co., its nominee, as the registered owner of the Bonds, or that they will so do on a timely basis, or that DTC, DTC Participants or DTC Indirect Participants will act in the manner described in this Appendix. The current "Rules" applicable to DTC are on file with the Securities and Exchange Commission and the current "Procedures" of DTC to be followed in dealing with DTC Participants are on file with DTC. As used in this appendix, "Securities" means the Bonds, "Issuer" means the City, and "Agent" means the Paying Agent.

Information Furnished by DTC Regarding its Book-Entry Only System

- 1. The Depository Trust Company ("DTC") will act as securities depository for the securities (the "Securities"). The Securities will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Security certificate will be issued for the Securities, in the aggregate principal amount of such issue, and will be deposited with DTC.
- 2. DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the posttrade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a S&P Global Ratings rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com. The information set forth on such website is not incorporated herein by reference.
- 3. Purchases of Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the Securities on DTC's records. The ownership interest of each actual purchaser of each Security ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Securities are to be

accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Securities, except in the event that use of the book-entry system for the Securities is discontinued.

- 4. To facilitate subsequent transfers, all Securities deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Securities with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Securities; DTC's records reflect only the identity of the Direct Participants to whose accounts such Securities are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.
- 5. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.
- 6. Redemption notices shall be sent to DTC. If less than all of the Bonds of a maturity are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.
- 7. Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Securities unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).
- 8. Redemption proceeds, distributions, and dividend payments on the Securities will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from Issuer or Agent, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, Agent, or Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of Issuer or Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.
- 9. DTC may discontinue providing its services as depository with respect to the Securities at any time by giving reasonable notice to Issuer or Agent. Under such circumstances, in the event that a successor depository is not obtained, Security certificates are required to be printed and delivered.
- 10. Issuer may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Security certificates will be printed and delivered to DTC.

Discontinuation of Book-Entry Only System; Payment to Beneficial Owners

In the event that the book-entry system described above is no longer used with respect to the Bonds, the following provisions will govern the registration, transfer and exchange of the Bonds.

Payment of the interest on any Bond shall be made by check mailed on the interest payment date to the owner at the owner's address at it appears on the registration books described below as of the Record Date (as defined herein).

The City Treasurer will keep or cause to be kept, at the office of the City Treasurer, or at the designated office of any registrar appointed by the City Treasurer, sufficient books for the registration and transfer of the Bonds, which shall at all times be open to inspection, and, upon presentation for such purpose, the City Treasurer shall, under such reasonable regulations as he or she may prescribe, register or transfer or cause to be registered or transferred, on said books, Bonds as hereinbefore provided.

Any Bond may, in accordance with its terms, be transferred, upon the registration books described above, by the person in whose name it is registered, in person or by the duly authorized attorney of such person, upon surrender of such Bond for cancellation, accompanied by delivery of a duly executed written instrument of transfer in a form approved by the City Treasurer.

Any Bonds may be exchanged at the office of the City Treasurer for a like aggregate principal amount of other authorized denominations of the same interest rate and maturity.

Whenever any Bond or Bonds shall be surrendered for transfer or exchange, the designated City officials shall execute and the City Treasurer shall authenticate and deliver a new Bond or Bonds of the same series, interest rate and maturity, for a like aggregate principal amount. The City Treasurer shall require the payment by any Bond owner requesting any such transfer of any tax or other governmental charge required to be paid with respect to such transfer or exchange.

No transfer or exchange of Bonds shall be required to be made by the City Treasurer during the period from the Record Date (as defined in this Official Statement) next preceding each interest payment date to such interest payment date or after a notice of redemption shall have been mailed with respect to such Bond.

APPENDIX F

PROPOSED FORMS OF OPINIONS OF CO-BOND COUNSEL

[Closing Date]

Board of Supervisors City and County of San Francisco San Francisco, California

\$189,735,000 City and County of San Francisco Tax-Exempt General Obligation Bonds

(Earthquake Safety and Emergency Response Bonds, 2014), Series 2018C

Ladies and Gentlemen:

Re:

We have acted as Co-Bond Counsel to the City and County of San Francisco (the "City") in connection with the issuance by the City of its Tax-Exempt General Obligation Bonds (Earthquake Safety and Emergency Response Bonds, 2014), Series 2018C in the aggregate principal amount of \$189,735,000 (the "Bonds"). The Bonds are being issued pursuant to the Charter of the City, the Government Code of the State of California and all laws of the State of California supplemental thereto (collectively, the "Law"), Resolution No. 313-14, adopted by the Board of Supervisors of the City (the "Board of Supervisors") on July 29, 2014 and approved by the Mayor of the City on August 7, 2014 ("Resolution No. 313-14"), and Resolution No. 111-18, adopted by the Board of Supervisors on April 24, 2018 and approved by the Mayor of the City on April 27, 2018 ("Resolution No. 111-18," and together with Resolution No. 313-14, the "Resolutions").

In connection with the issuance of the Bonds, we have examined: (a) the Law; (b) certified copies of the Resolutions; (c) an executed copy of the Certificate Awarding the Bonds and Fixing Definitive Interest Rates for the Bonds, dated May 8, 2018, by the Controller of the City; (d) an executed copy of the Certificate as to Tax Exemption, dated the date hereof, by the City, relating to the Bonds and other matters; (e) certifications of the City, Hilltop Securities Inc. and Ross Financial, co-financial advisors to the City, the original purchaser of the Bonds and others; and (f) such other documents, opinions and matters as we deemed relevant and necessary in rendering the opinions set forth herein. We have assumed the genuineness of all documents and signatures presented to us (whether as originals or as copies) and the due and legal execution and delivery thereof by, and the validity against, any parties, other than the City, thereto. We have assumed, without undertaking to verify, the accuracy of the factual matters represented, warranted or certified in the documents referred to in this paragraph.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions and cover certain matters not directly addressed by such authorities. Such opinions may be affected by actions taken or omitted or events occurring after the date hereof. We have not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur or whether any other matters come to our attention after the date hereof. We call attention to the fact that the obligations of the City and the security provided therefor, as set forth in the Bonds and the Resolutions, may be subject to general principles of equity which permit the exercise of judicial discretion, and are subject to the provisions of applicable bankruptcy, insolvency, reorganization, arrangement, fraudulent conveyance, moratorium or similar laws relating to or affecting the enforcement of creditors' rights generally, now or hereafter in effect, and to the limitations on legal remedies against charter cities and counties in the State of California. We have not undertaken any responsibility for the accuracy, completeness or fairness of the Official Statement dated May 8, 2018 or any other offering material relating to the Bonds and express no opinion relating thereto.

Based on and subject to the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions:

- 1. The Bonds constitute the valid and binding obligations of the City.
- 2. The Board of Supervisors has the power and is obligated to levy property taxes without limitation as to rate or amount upon all property within the City's boundaries subject to taxation by the City (except for certain personal property which is taxable at limited rates) for payment of the Bonds and the interest thereon.
- 3. Under existing laws, regulations, rulings and judicial decisions, interest on the Bonds (including any original issue discount properly allocable to the owner of a Bond) is excludable from gross income for federal income tax purposes and is not a specific preference item for purposes of the federal alternative minimum tax. However, for the purpose of computing the alternative minimum tax imposed on certain corporations for taxable years beginning before January 1, 2018, interest on the Bonds will be included in the "adjusted current earnings" of such corporations, and such corporations are required to include in the calculation of alternative minimum taxable income 75 percent of the excess of such corporations' adjusted current earnings over their alternative minimum taxable income (determined without regard to this adjustment and prior to reduction for certain net operating losses). The opinions set forth in the sentences above are subject to the condition that the City comply with all requirements of the Code that must be satisfied subsequent to the issuance of the Bonds in order that interest thereon be, or continue to be, excludable from gross income for federal income tax purposes. The City has covenanted to comply with such requirements. Failure to comply with certain of such requirements may cause the interest on the Bonds to be included in gross income for federal income tax purposes retroactive to the date of issuance of the Bonds.
- 4. Under existing laws, regulations, rulings and judicial decisions, interest on the Bonds is exempt from present State of California personal income tax.

Although we are of the opinion that interest on the Bonds is excluded from gross income for federal tax purposes, the accrual or receipt of interest on the Bonds may otherwise affect the federal income tax liability of the recipient. The extent of these other tax consequences will depend upon the recipient's particular tax status or other items of income or deduction. We express no opinion regarding any such consequences.

Our engagement with respect to the Bonds has concluded with their issuance, and we disclaim any obligation to update, revise or supplement this opinion letter.

Very truly yours,

[Closing Date]

Board of Supervisors City and County of San Francisco San Francisco, California

Re: \$142,145,000 City and County of San Francisco Taxable General Obligation Bonds (Affordable Housing, 2015), Series 2018D

Ladies and Gentlemen:

We have acted as Co-Bond Counsel to the City and County of San Francisco (the "City") in connection with the issuance by the City of its Taxable General Obligation Bonds (Affordable Housing, 2015), Series 2018D in the aggregate principal amount of \$142,145,000 (the "Bonds"). The Bonds are being issued pursuant to the Charter of the City, the Government Code of the State of California and all laws of the State of California supplemental thereto (collectively, the "Law"), Resolution No. 407-16, adopted by the Board of Supervisors of the City (the "Board of Supervisors") on September 20, 2016 and approved by the Mayor of the City on September 29, 2016 ("Resolution No. 407-16"), and Resolution No. 112-18, adopted by the Board of Supervisors on April 24, 2018, and approved by the Mayor of the City on April 27, 2018 ("Resolution No. 112-18," and together with Resolution No. 407-16, the "Resolutions").

In connection with the issuance of the Bonds, we have examined: (a) the Law; (b) certified copies of the Resolutions; (c) an executed copy of the Certificate Awarding the Bonds and Fixing Definitive Interest Rates for the Bonds, dated May 8, 2018, by the Controller of the City; (d) certifications of the City, Hilltop Securities Inc. and Ross Financial, co-financial advisors to the City, the original purchaser of the Bonds and others; and (f) such other documents, opinions and matters as we deemed relevant and necessary in rendering the opinions set forth herein. We have assumed the genuineness of all documents and signatures presented to us (whether as originals or as copies) and the due and legal execution and delivery thereof by, and the validity against, any parties, other than the City, thereto. We have assumed, without undertaking to verify, the accuracy of the factual matters represented, warranted or certified in the documents referred to in this paragraph.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions and cover certain matters not directly addressed by such authorities. Such opinions may be affected by actions taken or omitted or events occurring after the date hereof. We have not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur or whether any other matters come to our attention after the date hereof. We call attention to the fact that the obligations of the City and the security provided therefor, as set forth in the Bonds and the Resolutions, may be subject to general principles of equity which permit the exercise of judicial discretion, and are subject to the provisions of applicable bankruptcy, insolvency, reorganization, arrangement, fraudulent conveyance, moratorium or similar laws relating to or affecting the enforcement of creditors' rights generally, now or hereafter in effect, and to the limitations on legal remedies against charter cities and counties in the State of California. We have not undertaken any responsibility for the accuracy, completeness or fairness of the Official Statement dated May 8, 2018 or any other offering material relating to the Bonds and express no opinion relating thereto.

Based on and subject to the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions:

1. The Bonds constitute the valid and binding obligations of the City.

- 2. The Board of Supervisors has the power and is obligated to levy property taxes without limitation as to rate or amount upon all property within the City's boundaries subject to taxation by the City (except for certain personal property which is taxable at limited rates) for payment of the Bonds and the interest thereon.
 - 3. The interest on the Bonds is included in gross income for federal income tax purposes.
- 4. Under existing laws, regulations, rulings and judicial decisions, interest on the Bonds is exempt from present State of California personal income tax.

Our engagement with respect to the Bonds has concluded with their issuance, and we disclaim any obligation to update, revise or supplement this opinion letter.

Very truly yours,

[Closing Date]

Board of Supervisors City and County of San Francisco San Francisco, California

Re: \$49,955,000 City and County of San Francisco Tax-Exempt General Obligation Bonds (Public Health and Safety, 2016), Series 2018E

Ladies and Gentlemen:

We have acted as Co-Bond Counsel to the City and County of San Francisco (the "City") in connection with the issuance by the City of its Tax-Exempt General Obligation Bonds (Public Health and Safety, 2016), Series 2018E in the aggregate principal amount of \$49,955,000 (the "Bonds"). The Bonds are being issued pursuant to the Charter of the City, the Government Code of the State of California and all laws of the State of California supplemental thereto (collectively, the "Law"), Resolution No. 514-16, adopted by the Board of Supervisors of the City (the "Board of Supervisors") on December 6, 2016 and approved by the Mayor of the City on December 16, 2016 ("Resolution No. 514-16"), and Resolution No. 113-18, adopted by the Board of Supervisors on April 24, 2018 and approved by the Mayor of the City on April 27, 2018 ("Resolution No. 113-18," and together with Resolution No. 514-16, the "Resolutions").

In connection with the issuance of the Bonds, we have examined: (a) the Law; (b) certified copies of the Resolutions; (c) an executed copy of the Certificate Awarding the Bonds and Fixing Definitive Interest Rates for the Bonds, dated May 8, 2018, by the Controller of the City; (d) an executed copy of the Certificate as to Tax Exemption, dated the date hereof, by the City, relating to the Bonds and other matters; (e) certifications of the City, Hilltop Securities Inc. and Ross Financial, co-financial advisors to the City, the original purchaser of the Bonds and others; and (f) such other documents, opinions and matters as we deemed relevant and necessary in rendering the opinions set forth herein. We have assumed the genuineness of all documents and signatures presented to us (whether as originals or as copies) and the due and legal execution and delivery thereof by, and the validity against, any parties, other than the City, thereto. We have assumed, without undertaking to verify, the accuracy of the factual matters represented, warranted or certified in the documents referred to in this paragraph.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions and cover certain matters not directly addressed by such authorities. Such opinions may be affected by actions taken or omitted or events occurring after the date hereof. We have not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur or whether any other matters come to our attention after the date hereof. We call attention to the fact that the obligations of the City and the security provided therefor, as set forth in the Bonds and the Resolutions, may be subject to general principles of equity which permit the exercise of judicial discretion, and are subject to the provisions of applicable bankruptcy, insolvency, reorganization, arrangement, fraudulent conveyance, moratorium or similar laws relating to or affecting the enforcement of creditors' rights generally, now or hereafter in effect, and to the limitations on legal remedies against charter cities and counties in the State of California. We have not undertaken any responsibility for the accuracy, completeness or fairness of the Official Statement dated May 8, 2018 or any other offering material relating to the Bonds and express no opinion relating thereto.

Based on and subject to the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions:

1. The Bonds constitute the valid and binding obligations of the City.

- 2. The Board of Supervisors has the power and is obligated to levy property taxes without limitation as to rate or amount upon all property within the City's boundaries subject to taxation by the City (except for certain personal property which is taxable at limited rates) for payment of the Bonds and the interest thereon.
- 3. Under existing laws, regulations, rulings and judicial decisions, interest on the Bonds (including any original issue discount properly allocable to the owner of a Bond) is excludable from gross income for federal income tax purposes and is not a specific preference item for purposes of the federal alternative minimum tax. However, for the purpose of computing the alternative minimum tax imposed on certain corporations for taxable years beginning before January 1, 2018, interest on the Bonds will be included in the "adjusted current earnings" of such corporations, and such corporations are required to include in the calculation of alternative minimum taxable income 75 percent of the excess of such corporations' adjusted current earnings over their alternative minimum taxable income (determined without regard to this adjustment and prior to reduction for certain net operating losses). The opinions set forth in the sentences above are subject to the condition that the City comply with all requirements of the Code that must be satisfied subsequent to the issuance of the Bonds in order that interest thereon be, or continue to be, excludable from gross income for federal income tax purposes. The City has covenanted to comply with such requirements. Failure to comply with certain of such requirements may cause the interest on the Bonds to be included in gross income for federal income tax purposes retroactive to the date of issuance of the Bonds.
- 4. Under existing laws, regulations, rulings and judicial decisions, interest on the Bonds is exempt from present State of California personal income tax.

Although we are of the opinion that interest on the Bonds is excluded from gross income for federal tax purposes, the accrual or receipt of interest on the Bonds may otherwise affect the federal income tax liability of the recipient. The extent of these other tax consequences will depend upon the recipient's particular tax status or other items of income or deduction. We express no opinion regarding any such consequences.

Our engagement with respect to the Bonds has concluded with their issuance, and we disclaim any obligation to update, revise or supplement this opinion letter.

Very truly yours,
