A Guide to San Francisco's Budget Process

Prepared by
City and County of San Francisco
Controller's Office

Introduction

Each year the City and County of San Francisco spends billions of dollars to maintain and improve our libraries and parks, to pave roads, and to operate hospitals, the Airport and City Hall. The City runs MUNI, provides police, fire and emergency medical services and also collects taxes. During the budget process, critical decisions are made about all public services. Choices are made about spending on health care, children's programs, jails, and hundreds of other public services and facilities.

City services significantly impact your daily life. Stay informed - attend a public meeting, call or send an e-mail or a letter to your elected representatives and talk with your neighbors.

Your tax dollars go into the budget, and public input on how the money is spent is vital. This brochure will help you navigate the City & County’s budget process and provides key timeline and meeting information to help you stay informed.

Balancing the Budget

The Constitution of the State of California requires all cities to adopt a balanced budget. This means that:

\[
\text{Sources or Revenues} = \text{Uses or Costs}
\]

One of the challenges each year is that the City must estimate its revenues and costs as far as 18 months in advance. Another challenge is that the City Charter and State law in many cases restrict how revenue may be generated and oftentimes specify how the City must spend available funds. In some years, yet another challenge is that projected cost increases are expected to outpace revenue growth. For Fiscal Year (FY) 2010-11, a shortfall of $483 million (equal to 13% of the City’s General Fund supported budget) is projected due to decreases in projected year-end fund balance, declining revenues due to the weak economy, State budget cuts, increased voter-approved baseline funding requirements and increasing City operating costs.

While the Bay Area economy is strong in many areas, challenges still exist. The moderate growth in new jobs has resulted in some increase in employment - related local revenues, and property-related revenues reflect stability in real estate values, although revenues realized over the past few years from the transfer of commercial properties has sharply declined. Economic downturn in other parts of California have negatively impacted the State’s budget and Citywide costs have continued to climb, in large part due to escalating employee salary and benefit costs related to labor agreement provisions, new mandates and capital funding. As a result, the City will have to either reduce projected cost increases or increase revenues.
What is in the Budget?

The City is organized by departments - nearly 60 in total - ranging in size of budgets less than $1 million (Unified School District) to over $1.4 billion (Public Health) and from staffs of one (Unified School District) to thousands (Public Health, MUNI).

Each department breaks down its budget and staff into programs - smaller units with specific jobs to do.

For example, the Fire Department’s programs include Fire Prevention, Fire Suppression & Investigation. A program is often the best way to understand and critique the budget - at this level you can see the trends, the decisions that your City is making, and the specific services being funded.

The Mayor’s Budget Book (Proposed Budget) and the Annual Appropriation Ordinance (Adopted Budget) each show the City budget by program.

Every department is required by law to measure and report on its performance. These measures can show the effectiveness of different City services and the money spent on them.

For example, the Human Services Agency measures the number of people receiving job training who successfully earn income and stop receiving public assistance.

The Mayor’s Budget Book and the Controller’s Citizen Survey each show performance measures, comparisons, and ratings of the quality of City Services from year to year. The City Survey is completed every other year. The last survey was completed in April 2009.

The City & County’s FY 2009-10 Annual Budget is $6.6 billion and includes funding for 26,721 positions as shown below by Major Service Area.

- Public Works, Transportation & Commerce: 31.6%
- Public Health: 21.8%
- Public Protection: 23.6%
- General Administration & Finance: 8.8%
- Human Welfare & Neighborhood Development: 7.3%
- Culture & Recreation: 6.8%

The Mayor’s Budget Book and the Annual Appropriation Ordinance both show department budgets this way - by type of revenue and expense.

Every department pays salaries to its staff, buys materials and supplies, and contracts with private businesses or with non-profit organizations to build things or to provide services.

Many departments collect fees, receive grant funding, or generate other kinds of revenue. By reviewing the sources side of a department’s budget, you will be able to tell how much of their costs are being covered through both tax and non-tax revenues (that is, fees and service charges).

The Mayor’s Budget Book and the Controller’s Citizen Survey each show performance measures, comparisons, and ratings of the quality of City Services from year to year. The City Survey is completed every other year. The last survey was completed in April 2009.

Who Participates in the Budget Process?

**Mayor's Office**

The Mayor is the City's chief executive and is responsible for proposing and carrying out City policy through the budget. The Mayor's Budget Office must present a balanced budget for consideration by the Board of Supervisors each spring.

Visit the Mayor's Office website at www.sfmayor.org. Contact the Mayor's Budget Office and his Budget Director Greg Wagner at 554-6486 to share your opinion with the Mayor.

**Board of Supervisors**

The Board is the City's legislative body and is responsible for reviewing, amending and approving the Mayor's Proposed Budget, setting policy direction for the City, and making sure that citizen views are part of the budget process. During the spring and early summer, the Budget Committee holds hearings focusing on specific departments and services. The Supervisors hear public comment during each of these meetings.

The Board's **Budget Analyst** (Harvey Rose) analyzes the budget and does research and analysis at the direction of the Board. Come to a public hearing, visit www.sfbos.org/, call the Clerk of the Board 554-5184, or contact your district's Supervisor.

**Controller**

The Controller (Ben Rosenfield) is the City's chief financial officer and is responsible for projecting how much revenue the City has available to fund the budget, preparing reports, managing all technical aspects of the budget and ensuring that the City meets financial obligations legally and efficiently.

Visit the Controller's website at www.sfgov.org/site/controller_index.asp or call 554-7500 for further information.

**City Departments**

City department heads and their staff are responsible for delivering public services, carrying out policy, and managing budgets. Throughout the budget process, they prepare program and financial information and answer questions from policymakers and the public. Input from the public at the department level is very important for those with concerns about specific programs or spending plans.

**Commissions**

Many City departments, including Public Health, MUNI, and Recreation & Park, have a commission that holds public hearings, approves the department's budget proposal to the Mayor and advises the Mayor and the Board on policy matters.

For commission meetings and other information, visit the City's website at www.sfgov.org, and click on the department that interests you.

**You**

Anyone can speak at public hearings. Meetings may also be held in districts so those who cannot attend a meeting in City Hall have an opportunity to participate. Look on the Board’s website (see above) for upcoming meetings or contact your district’s Supervisor.

Throughout the budget process, you can call or write your elected officials. Speak out early so that your representatives know what you think and have time to consider and act on your opinion.
