FAMIS v5 Flash #142: Faster FAMISWeb now available!

A faster FAMISWeb was installed over the week-end.

The speed will still be slow for whomever in the City first logs on in the morning. That cannot be speeded up.

There is no change in your login process. Your link to FAMISWeb, your ID, and your password all function as they did before this upgrade.

Continue to use whatever link to FAMISWeb your department has been using.

As a reminder, here is the link to instructions for navigating in FAMISWeb:

http://sfcontroller.org/Modules/ShowDocument.aspx?documentid=2270

If you cannot gain normal access to the FAMISWeb login screen, please email Annette Reardon at annette.reardon@sfgov.org and include screen shots of the results of your login attempts showing the error messages.
