

City and County of San Francisco

Office of the Controller – City Services Auditor

CITY SERVICES PERFORMANCE MEASURE REPORT

Fiscal Year 2012-13

December 11, 2013

City Services Performance Measure Report

Appendix F, Section 101 of the City and County of San Francisco Charter requires that the City Services Auditor (CSA) monitor the level and effectiveness of services provided by the City and County of San Francisco. These efforts are used to ensure the financial integrity and improve the overall performance and efficiency of city government. The Office of the Controller's Citywide Performance Measurement Team collects performance data from City departments in order to increase transparency, create dialogue, and build the public's confidence regarding the City's management of public business.

Performance Measurement Highlights

The Citywide performance Measurement Program tracks, analyzes, and reports on performance information from the City's 48 departments. From the 48 departments data is collected for over 1,000 performance measures that report on a variety of the programs, goals, efficiencies, and outcomes from each department. Below is a selection of key performance measures and measures that saw significant changes over Fiscal Year 2013. The complete list of performance measures collected can be found in Appendix B.

Health and Human Services

The average daily population at San Francisco General Hospital continued to decline in FY2013 ending the year with an average daily population of 360 patients. The average daily population peaked March 2008 and has been slowly declining since. Many factors contribute to the declining patient population including average length of stay, San Francisco's improving economy, changing patient demographics, and others. A declining length of stay is often the result of improved patient care and can lead to cost savings for the hospital.

Non-Assistance Food Stamps, CalWorks, and the County Adult Assistance Program are three major public assistance programs managed by San Francisco’s Human Services Agency (HSA). During FY2013, caseloads in all three declined. Potential reasons for the declining caseloads include movement out of the city due to the housing factors, efforts to assist individuals in obtaining employment, and stabilization after the economic downturn.

Other Health and Human Services Highlights

- The number of primary care visits provided to supportive housing clients at Housing & Urban Health Clinics increased to 10,871 in FY2013 exceeding the target of 9,300. (Department of Public Health)
- The number of bed slots in housing programs increased to 2,629 in FY2013 from 2,403 in FY2012. The number of bed slots increased with the opening of three new sites. (Department of Public Health)
- The number of four-year olds enrolled in the Preschool for All (PFA) program increased for the third consecutive year to 3,225, but failed to meet the target of 3,300. (Children and Families Commission)

Infrastructure and Transportation

The Department of Public Works sets service level goals for responding to cleaning and repair requests. Three of the key service areas with goals are street cleaning, graffiti, and pothole repairs. The percentage of graffiti and pothole service requests completed within service levels, 48 and 72 hours respectively, increased in FY2013. The percentage of Street cleaning requests responded to within 48 hours declined in FY 2013 to 88.6 percent.

Public Works Street Repaving

In F2013 the Department of Public Works (DPW) repaved 521 city blocks (above), in addition to 333 city blocks preserved, for a total of 854 blocks treated. Streets are preserved through treatments that prolong the life of streets not damaged enough to require street repaving. The streets were treated through a combination of funds from the 2011 Road Repaving and Street Safety Bond and annual general funds.

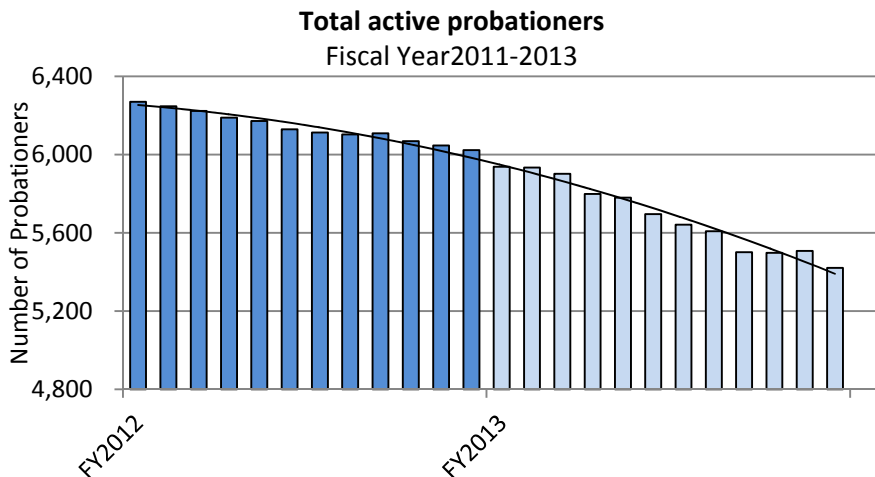

Other Infrastructure and Transportation Highlights

- Muni on-time performance remained consistent over FY2013 with buses achieving on-time performance approximately 59 percent of the time.
- The San Francisco Public Utility's FY2013 cost per gallon of water was \$0.0076 and cost per gallon of wastewater was \$0.0104.
- The San Francisco Airport's percent change in domestic and international air passenger volumes for FY2013 increased by 4.2 and 3.2 percent respectively.
- The airline cost per enplaned passenger increased to \$15.10 in FY2013 from \$14.41 in FY2012.
- Percentage of curbside refuse diverted from landfill was 59.2% in FY2013. (SF Department of the Environment)
- The SF Port revenue per square foot of rentable space was \$4.46 in FY2013.

Public Safety

Property and violent crime rates trended upward during FY2013. The total number of serious property crimes reported in October 2012 was the highest rate reported since prior to January 2008 at a rate of 490 per 100,000 population. Similarly, the total number of serious violent crimes reported in June 2013 was the highest rate reported since prior to January 2008 at a rate of 84.9 per 100,000 population.

The County's probation caseload has declined by over 20 percent since 2010. According to the Adult Probation Department the downward trend in the probation caseload relates to the Department's shift to a model of research-based probation supervision.

Other Public Safety Highlights

- San Francisco City Survey 2013: Consistent with perceptions reported in 2011, more than four in five residents report feeling safe walking alone in their neighborhood during the day. In contrast, only two in five residents feel safe walking alone in their neighborhood at night, a seven percent decline since 2011.
- The average daily jail population remained relatively flat with a population average of 1,535 in FY2012 and 1,522 in FY2013.
- The cost per jail day in FY2013 was \$135, equivalent to the cost in FY2012.

- The San Francisco Fire Department responded to 73,213 Code 3 (emergency) incidents, a 9 percent decrease since FY2012. All Critical Response Interval times (response times) were faster than their target times for FY2013.
- In FY2013 firearm seizures were up 34 percent from FY2012, and above the FY2013 Target by 29 percent.
- The cost per youth day at Juvenile Hall was \$383 in FY2013.

Recreation, Arts, and Culture

Over a four-year span, the annual number of persons entering branch libraries increased by roughly 14%, from a little over 4.6 million visitors/year to a bit over 5.3 million visits/year. Note, service hours were low in Fiscal Year 2010 and 2011 due to the closure of several branch libraries for renovations and other improvements. In Fiscal Year 2014 service hours will continue to increase with the expectation that visits will also increase.

Under the City's Park Maintenance and Evaluation Program, the citywide average for park scores increased from 90.0 percent to 91.1 percent in FY 2012-13. This increase takes into account the historical re-weighting of scores according to a new weighting methodology which gives equal weight to Controller's Office and Recreation and Parks Evaluations.

Other Recreation, Arts, and Culture Highlights

- The average number of visitors to fine art museums (Asian Art Museum, Legion of Honor, and de Young) was over 157,000 in FY2013 with a city cost per visitor of \$7.50.
- The Asian Art Museum FY2013 annual attendance was the third best since the museum moved to Civic Center in 2003. Record attendance was achieved by the China's Terracotta Warriors exhibition.
- The expenditures per number of library visits, main and branch libraries, was \$12.82 in FY2013.
- The operating cost per acre maintained by the San Francisco Recreation and Parks Department was \$16,265 in FY2013.

General Government

- The Department of Building Inspections in FY2013 averaged 11 inspections per inspector per day for building and plumbing inspections. Electrical inspectors averaged 13 inspections per day.
- The SF Planning Department completed 80 percent of general plan referrals within 45 days in FY2013.
- The average daily number of 311 contacts, across all contact channels was 5,543 in FY2013.
- The number of small business and micro-enterprise startups assisted through Community Development Block Grant funding increased by over 36 percent from 415 in FY2012 to 565 in FY2013. (Mayor's Office of Housing and Community Development)
- The number of rent-controlled housing units declined for the third consecutive year to 171,305 in FY2013 from 172,322 in FY2011. (Rent Board)
- The number of registered voters in San Francisco increased to 502,841 in FY2013, higher than both the targeted and FY2012 levels of 473,244 and 467,524 respectively.

Citywide Performance Measurement Program

Program Overview

The Controller's Office's Citywide Performance Measurement (PM) Program strives to increase the use of performance measurement in order to improve the efficiency and effectiveness of City government.

Through a citywide database called the Performance Measurement System (PM System), all 48 City departments track, analyze, and report performance data. The Controller's Office began collecting performance data in 2000, and, as mandated by voters in Proposition C (2003), uses this information to assess the efficiency and effectiveness of City services.

Program Highlights (FY 2012-13)

In FY 2012-13, the Performance Measurement Program:

Updated the format of the Government Barometer

- Improved readability and presentation of data.
- Created an online version of the Government Barometer, <http://sfgovbar.weebly.com/>, an interactive website that allows users to view trends, adjust timelines, and build their own charts.

Increased efforts to improve content quality

- Completed a follow-up to the prior years' validation efforts; reviewing performance measures from the 34 departments with data that was found to be invalid in prior validation efforts.

- Developed an action plan to resolve data accuracy issues, identifying program-wide challenges and corresponding action items for both department staff and PM program staff to take in order to improve data quality.

Continued reporting of performance measurement data

- Collected performance measure data from all departments for inclusion in the Mayor’s Budget Book and the Comprehensive Annual Financial Report.
- Continued to develop new uses and visualizations of performance measure data for the Mayor’s Office. Data can be used to support more informed policy and management decisions.
- Participated in the Controller’s Office Benchmarking Reports assisting in the completion of reports on Jail Populations and Library Services.

Recognized for superior performance management efforts with a Certificate of Excellence from the ICMA Center for Performance Measurement.

Program Goals (FY 2013-14)

In FY2013-14, the Performance Measurement Program seeks to improve public reporting, data quality, and customer service to PM System department users.

Specific initiatives include:

- A follow-up to the reviews of performance measures validated from FY2011 to FY2013. The follow-up will be focused on the relevancy and usefulness of performance measures. The Performance Measurement team will work with departments to achieve the two following objectives:
 - Assess current measures to develop more complete and meaningful measure sets.
 - Remove measures that are no longer needed for decision making or public transparency purposes.
- System updates to improve the process for and way that departments report performance data to the Controller’s Office.
- Work with departments to create customized reports using performance data for use by Mayor’s Office to improve policy and management decision making.
- Providing support to departments that plan to revise their measures or to undertake new performance measurement initiatives.

Citywide Performance Measurement Program Team:

Peg Stevenson, Director
Kyle Burns, Project Lead
Sherman Luk, System Lead
Jennifer Tsuda, Senior Performance Analyst
Wylie Timmerman, Senior Performance Analyst
Celeste Berg, City Hall Fellow
Faran Sikandar, City Hall Fellow
Jeff Pera, System Manager
Howard Murayama, System Analyst
Connie Chu, System Analyst
Mildred Zaragoza, System Analyst Department
Performance Measurement Staff

Contact Information:

To learn about the PM Program, please visit the Controller’s Office website at www.sfgov.org/controller/performance. Features of the website include:

- Information about performance measurement;
- Various reports and datasets that include performance measurement information;
- Related performance measurement activities in San Francisco;
- Links to other jurisdiction performance measurement programs, resource organizations, and publications; and
- Contact information for the performance measurement team.

For employees of the City and County of San Francisco, resource materials are available for creating and improving performance measures within a department.

For general information, please contact a member of the PM Program at performance.con@sfgov.org.

Appendix A: Performance Measurement Background

Performance Measurement Overview

The PM System contains performance measures from all 48 City departments. Many different types of performance measures are recorded in the PM System, including input, output, efficiency, and outcome measures. Departments are encouraged to report on a range of measures, with an emphasis on outcome and efficiency measures.

Exhibit 1 defines the types of performance measures. Reporting on a mix of these types of measures inform operational decisions within departments and increase the public’s understanding of the department’s activities, mission, and priorities.

Exhibit 2		Types of Performance Measures
Measure Type	Definition	
Input	Resources expended to produce/deliver services and products	
Output	The products and services delivered, the amount of work completed within the organization or by its contractors	
Efficiency	Unit-cost ratio (output per unit of input)	
Outcome	The results, benefits, or impacts of a program or activity on the customers or public they serve	
Benchmark	Standard against which performance can be compared (historical, industry standard, similar jurisdictions, best practices, etc)	
Customer Service	Measures that report on customer’s experience working with departments	

System and Process

The PM Program collects data through a web-based Cognos business intelligence platform (PM System) that is integrated with the budget preparation system to form the Budget and Performance Measurement System (BPMS). BPMS is a first step toward integrating budget planning and performance measurement data.

The PM System contains over 1,000 performance measures for the City's departments. For each department, the PM System includes detailed information on programs, goals, measures, measure definitions, data sources, data collection methodologies, and other explanatory detail. Many of the measures tracked in the PM System include more than five years of historical data.

Departments enter data into the PM System twice a year; in March to report updated current year data and targets for the next two budget years, and in September to report final year-end data for the previous fiscal year. One hundred and eighty three users currently have access to the PM System.

Performance data are used for various purposes at both the department and citywide level, including department management, reporting for the annual budget process (including publication of select measures in the Mayor's Proposed Budget), Government Barometer, Comprehensive Annual Financial Report (CAFR), and hearings for the Board of Supervisors.

The Controller's Office provides training to PM System users before each semi-annual data collection cycle. The training program focuses on what data is required, how to use the PM System, and evolving thinking on how to develop good performance measures, such as having an appropriate mix of efficiency and outcome measures, reliability, alignment with organizational mission and objectives, and usefulness to managers and policymakers.

Appendix B: Department Performance Measures

Performance Measure Summary Data

This report lists all current performance measures for all City departments in Appendix B, including actual values for FY 2011-12 through FY 2012-13 and target values for FY 2013-14 and FY 2014-15, sorted by department, program, and goal.

To prepare this report, the Citywide Performance Measurement Program used performance data supplied by City departments. Although the PM Program has reviewed the data for overall reasonableness and consistency, the departments are responsible for ensuring that performance data is valid and complete.

Note that data is not available (“n/a”) for some measures where:

- Data comes from an external source and was not available in time for the report;
- Data is collected less often than annually;
- Measures are new and data has not yet been collected;
- Measures are old and are awaiting deletion; or
- The department simply did not complete their data entry in time for this report.
